INFORMATION from Berlin represent that a wide divergence of views exists and little progress has made.

The President shook hands by proxy on Thursday, General Robert O. Sobenck acting for him. The old veterans didn't know Sobenck from Hareison.

A CONVENTION of deaf mutes is to be held in Washington soon. It is expected to be the most quiet convention ever assembled at the national capital.

HEAVY storms prevailed last Saturday in Virginia, Pennsylvania and Ohio. The storm at Pittsburg, Pa., was especially severe, and much damage was done.

It is an old adage that the hit bird flutters, and the amount of fluttering caused by Bishop Potter's sermon indicated that it was loaded to the muzzle. —Philadelphia Times.

THE City of Paris on three separate days ran beat the best day's run of any ship afloat. On May 5 she ran 504 miles, May 6 505 miles, and on May 7 511 miles.

A KENTUCKY codfish has been caught with a corkeraw in its stomach. This is the trade mark of that region and even the fishes are argued with it. —Atlanta Constitution.

SOME TIME ago the President appointed his brother a United States Marshal in Tennessee. He has now appointed the father-in-law of Russell Harrison a member of the Utah Commission at a salary of \$5,000 a year. "Hush! Its all in the family you know."

In attempting to belittle the war record of Admiral Porter General Detter shows a vindictive spirit which will make him even more unpopular than he was in 1884. A man who has neither the respect of the North nor the South should retire to a secluded place and keep quiet. —New York World.

On Thursday in Raleigh the State Board of Agriculture re-elected all the old officers including Commissioner of Agriculture John Robinson, Secretary T. K. Boone and Treasurer J. H. Boone.

was elected State Commissioner of Immigration to succeed Mr. Patrick. —Raleigh News and Observer.

OLD CUMP SHERMAN seems to be as ignorant of American history as he was destitute of humanity when bumping in the South. The other day he mistook Gen. Lee, the English adventurer who quarrelled with the great Washington, for the famous "Light Horse Harry"—Gen. Henry Lee of the War of Independence, and father of the peerless General Robert E. Lee. —Wilmington Star.

Suppose Benjamin F. Butler is able to convince the American public that David D. Porter showed cowardice in the assault on New Orleans in 1862. Will that enable Butler to figure more advantageously in the history of the country? If Porter did run away at New Orleans, it is to be said in his behalf that he was not accused of plundering the city or hanging foolish boys. He was not on hand when the spoons were divided.

LOCAL NEWS.

NEW ADVERTISEMENTS.

H. H. PENNY—Alliance meeting. ROBERTS & BRO.—The place to buy goods low.

Picnics and excursions are now in order.

A double daily mail and passenger train is one of the great needs of New Bern.

The regular meeting of the Brotherhood of St. Andrew this evening at 8 o'clock.

There is a general desire among the truckers and farmers for rain. It came along yesterday evening.

The M. E. Church Working Society will hold a special meeting at the parsonage this evening at 8:30 o'clock.

The city council was in special session last night to receive bonds of officers and appoint standing committees, etc., etc. Proceedings will appear tomorrow.

The British steamship Aberlady Bay, which foundered on Diamond Shoal, off Cape Lookout, last week, has gone to pieces and will prove a total wreck. The crew have been all safely landed at Beaufort.

There will be a business meeting of the Y. M. C. A. tonight at half-past eight o'clock. There is some business that must be attended to, and it is earnestly requested that as many of the members be present as can attend.

St. Paul's (Roman Catholic) Church Sanatory Society will hold a festival in the school room and the yard of the church Thursday, May 16th, from 9 till 10 o'clock in the evening. Refreshments, ice, etc., and a fish pond.

There were four cases before the Mayor yesterday morning for disorderly conduct. Three of them were fined \$5.00 each and cost. Mayor Williams holds that if a person is too poor to pay a fine he ought to be too poor to violate the laws. In other words he is of the opinion that the dancer must pay the fiddler.

The Ladies' Auxiliary to the Y. M. C. A. held a meeting at the rooms of the Association yesterday afternoon, and among other good work for the Association agreed to subscribe for the following periodicals: The Century, Harper's Weekly and Scribner's Monthly. These are all first-class publications and will add to the interest of the reading-room. Our young men can not better show their appreciation of the efforts of the ladies than punctual attendance upon the regular meetings and keeping the Association alive and active.

Funeral Notices.
The funeral of J. Hugh Beaton will take place this afternoon at five o'clock from the M. E. Church. Friends and acquaintances are invited to attend.

Pleasure Ahead.

The Gypsy Cantata will be presented to the public at Stanly Hall tonight, under the management of Miss Holland. Having attended a rehearsal we can promise an occasion of rare enjoyment to those who may be so fortunate as to be present. While most of the participants in the Cantata are juveniles, all are good performers, and some of them are among the best artists of this city.

After the Cantata will come the festival, at which good things will be served by charming ladies. The proceeds will be applied to a worthy object that commends itself to the savings of the public. Admission

It Will Pay.

A double daily passenger and mail train on the A. & N. C. R. will pay if run long enough to give it a fair trial. We know it is presumptuous in a small newspaper, without railroad experience, to make such an assertion, but we know it, the opinion of railroad experts to the contrary notwithstanding. And whether it pays the railroad company in dollars and cents or not, it will pay the people who built the road. They have a right to demand facilities equal to those enjoyed by any other community in the State. The Atlantic Coast Line runs a double daily mail to Clinton and Tarboro, places of far less commercial importance than New Bern, yet our people are so accustomed to submitting to whatever treatment the authorities wish to impose that we are further from the great thoroughfare of business than many of the most obscure cross roads town and country villages.

People avoid New Bern because of the difficulty in getting here and getting away; Morehead City, the finest watering-place on the Atlantic coast, is avoided by many on the same account. The commercial interest of New Bern has suffered on account of the one train system, and that run to the greatest disadvantage possible. One illustration will do to prove the point we are making: Not long since a merchant from up the road was in the city for the purpose of buying a bill of goods, which he did, but on account of the present one train system was compelled to stay over two nights. Our merchants are offering advantages to the trade that cannot be excelled by Baltimore or any other Northern city, but one can go to Baltimore and return almost as quick as he can to New Bern.

Let there be a move all along the line for a double-daily mail from Goldsboro to Morehead City.

Father Boyle.

The arrest of Father Boyle in Raleigh created quite a sensation in that city, and considerable astonishment in this city.

Mr. Boyle was here on Friday night, and we are informed, refused a room tendered him at the Catholic parsonage and took a room at Hotel Albert. From here he visited a saloon near by and sent out for champagne. He left on Saturday morning for Raleigh. He seems to have been "on a fare."

From the News and Observer last night we learn that at the preliminary trial Father Boyle waived examination and was re-committed to prison. Counsel for the State has made application to the Governor and the county commissioners for a special term of the criminal court to try the case. The Governor has signified his willingness to order the court if the commissioners ask it, and a special meeting will be held on the 16th to consider it.

Father Boyle is charged with the terrible crime of rape and the case has created intense excitement in Raleigh.

A Good Move.

We publish in this issue a notice from the Trade Committee of the County Alliance of Craven county inviting the Alliance of the adjoining counties to meet with them on the first Friday in June for the purpose of considering the question of establishing a pine straw bagging factory at Riverdale, or some point in this section.

As we noted sometime since the machinery for manipulating pine straw and reducing it to fibre, out of which an excellent quality of bagging can be woven, is already there and a factory can be started with less expense perhaps than at any other point. Col. Peter Mallett of New York, who owns the machinery, was in the city yesterday and will doubtless give favorable terms on the purchase of the machinery. The farmers ought to consider this question now and not wait until their cotton is ready for the bagging.

Personal.

Dr. F. P. Gates of Bayboro was in the city yesterday. He reports the farming outlook for Pamlico as very good at present.

Mr. Henry J. Lovick, the county surveyor, left on Tuesday morning to do some surveying in No. 1 township for the purpose of settling a dispute about a canal. Mr. Lovick, though in his 80th year, is as active as a young man, and is thoroughly posted in his profession, having been county surveyor for about forty years.

Alliance Meeting.

There will be a meeting of the Craven County Alliance the first Friday in June, 1889.

By order of the President, H. H. PENNY, Sec. of Trade Com.

ADVICE TO BUSINESS.

Mrs. Wilson's SOOTHING SYRUP should always be used for children's ailments. It soothes the child's system, and cures all ailments, such as colic, worms, etc., and is the best remedy for all ailments.

Shipping News.

The steamer Annie of the E. C. Dr. Line sailed yesterday with full cargo of truck, etc. The Eagle of this line will sail this afternoon at 4 o'clock. The Vesper will arrive this evening.

The steamer Tabona will sail tomorrow morning at 8 o'clock. Freight intended for her should be shipped today. The steamer Minto, all ready for truck in any quantities, will sail from her wharf for Norfolk direct at 2 p. m. today. Truck received up to sailing hour. Passengers will find first-class accommodations.

NORTH CAROLINA NEWS.

From the State Papers.

Henderson Gold Leaf: It has lately come to be known that tobacco chewers seldom have typhoid fever, but whether this is in the interest of medical science or some large tobacco firm, deponent sayeth not.

Newton Enterprise: The negro who stole so many sets of harness in Newton last week was caught in Hickory and is now in jail. —There was practically no opposition to the issue of the \$7,000 for public improvements and re-bonding the old debt.

Stanly Observer: There was frost several mornings last week. Saturday morning we had a biting frost. Beans that were uncovered, Irish potatoes, and corn in places, withered before the chilling blast. However, should there be no recurrence, the damage will not prove serious.

Franklin Times: The fact that only seven small tracts of land were sold for taxes at the court house door on Monday last, speaks in high terms of the people of Franklin, and at the same time goes to prove that we have a sheriff that attends to the business for which the people have so often selected him.

Edenton Fisherman and Farmer: Our farmers are replanting their melon crop. —St. Ann's Roman Catholic Church was crowded to its full capacity Monday night last when Rt. Rev. Bishop Haid addressed the people advancing some ideas with reference to his church, its age, power, usefulness and teachings.

Lenoir Topic: Mr. Ed. Greer, of the Yadkin, dug up a wild sweet potato the other day that weighed 15 pounds. —Senator Vance sent down from Gombon, some time ago, to one of our Lenoir firms for some provisions. He wound up his order by telling the merchants to put down the goods to him at as low a price as they could afford and to wait patiently for their pay.

Morganton Star: Uncle Clem Fair was in town yesterday, his one hundredth birthday, and was as lively and got around with as much ease as some men many years younger. He had walked to town, 6 miles, with the aid of only a stick, and intended to walk home in the evening. But he says that's nothing, as he can walk much farther than that in a day and not feel it. —Ten wagons left our depot Thursday morning loaded with furniture and general family supplies for the Palmer place on Linville river in Mitchell county. Mr. F. R. Watkins, Paymaster in the Navy Department at Washington City, recently bought this magnificent farm. These goods were for Mr. Watkins's agent who will locate on the property.

Concord Times: Our farmer friends all say that the cotton is badly injured by the frost and that cotton seed for replanting are scarce. —The fruit crop of Cabarrus bids fair to be the largest we have had in years. What Concord now needs in the way of another improvement is a canning factory. —Mr. E. J. Cook, of No. 5, tells us of a hog that went mad in South Rowan last Sunday. The pig was the property of Miss Ann Ketter, and was purchased of Mr. Levi Deal. About twenty-nine days before it went mad it was bitten by a rabid dog. Mr. Deal's son was also bitten at the same time. Last Sunday the pig showed symptoms of hydrophobia. It would bite savagely at everything within reach. It bit another pig in the pen with it in a terrible manner. This continued until Monday morning when the pig died in convulsions. As soon as the pig died Mr. Deal went to Charlotte with his son to try Mr. Butler's mad stone. The stone adhered for about an hour to the spot where the boy was bitten. So if there is any virtue in the mad stone, he will not have hydrophobia.

To Our Alliance, New Bern, May 14, 1889.

Brethren, and All Concerned:

There is a situation near New Bern which we think is available for starting a pine straw bagging factory.

It was once used to manufacture the straw fibre.

If the adjoining counties will join us and take stock in the enterprise, it will encourage home industry, and make us independent of the jute bagging.

Our county Alliance will meet at New Bern the first Friday in June, to take action in the matter, and we most cordially invite the county Alliances of all the counties near us to send a delegation to confer with us at that time.

We expect Col. Polk, Secretary of the State Alliance, to be with us.

We cordially invite the co-operation of all.

DANIEL LANE, W. B. LANE, H. H. PENNY, Trade Com. Craven Co. Alliance.

Matched to the Need.

All are entitled to the best that their money will buy, so every family should have at once a bottle of the best family remedy, Brand of Pills to cleanse the system when angry or bilious. For sale in 50c and \$1.00 bottles by all leading druggists.

"Brick" Pomeroy, at 234 Broadway, New York City, is now editing and publishing the liveliest and most interesting \$1 a year publication ever printed in that city. His famous Saturday Night chapters; his Pan Pictures of London; his descriptions of the "plague spots of New York City, and his vivid chapters of Life Experience in La Crosse, during the war, are each worth more than the price of his paper, which bears the significant title of Advance Thought. Pomeroy is a 55 year old volume of National history, and now he is letting it out red hot.

The Von Graef Medical Company, No. 3 Park Row, New York City, in 1888 made seventy-eight per cent. of cures of various diseases of men, chronic and otherwise, within the time allotted for treatment. The record of cures of diseases of women was nearly as large. This is the highest record ever achieved in this country by hospitals or private practice. In the treatment and cure of diseases, science, skill and discovery keep pace with inventions in other directions. The new book lately issued by the Von Graef Company, full of valuable hints and information to young or old, free to all who call for it or order it by mail.

DIED.

At his residence in Craven county, N. C., April the 33d, 1889, in the 43d year of his age, T. J. May, after a long and painful illness. Brother May was a man of business quality and industrious habits as well as a devoted christian, and died in the triumphs of the faith he had confessed in Christ more than twenty years ago. He left a wife and three children, together with many relatives and friends to mourn their loss, but doubtless their loss is his eternal gain. A. J. HOLTON.

At the residence of his mother in this city at 8:30 o'clock May 14th, of pulmonary consumption, J. Hugh Beaton, in the 20th year of his age.

The decease was an exemplary young man. A member of the M. E. Church and Secretary of the Young Men's Christian Association up to the time that failing health compelled him to resign.

His latest words bore evidence of his christian faith and cheerful hopes of the future state. The Y. M. C. A. rooms are draped in mourning and will be closed during the hours of the funeral service.

He was for sometime on the force of the JOURNAL, and highly esteemed by his fellow craftsmen.
