Union was wrought by twelve girls, and the "secret" was their solemn oath to marry before the year was out. Six are married, four having eloped. The others are reported engaged.—Wash. Post.

There are about twenty applicants for the office of reporter for Texas supreme court. Among them are gentlemen of great legal and political ability, and the court will have no difficulty in selecting a competent man for the place. It does not pay any great salary, but then every great lawyer and every aspiring politician does not necessarily possess a large practice and receive large fees. It looks in these times as though the only soft snap a lawyer can get is either an attorneyship for a railroad or an office.—Galveston News.

LOCAL NEWS.

NEW ADVERTISEMENTS.
OPEL TO THE QUARRIES.
P. H. PELLETIER—\$5,000 to loan.
Join the farmer's excursion for a pleasant trip to Morehead City today.
Mr. T. A. Green had beans from his garden for dinner yesterday. He is ahead of all the bean growers.
Farmers' excursion to Morehead City today. Train leaves New Berne at 9 o'clock this morning. Only \$1.00 for the round trip.
John G. Smith died at his residence near Tuscarora in this county on Saturday, May 11th, 1889. Smith was highly respected, and a consistent member of the Methodist church.
We are requested to announce that the T. U. and Y. M. S. C., a literary organization of our colored citizens, will give a grand literary entertainment at the theatre tonight. Admission twenty-five cents.
The "Union Points," Capt. L. B. Cox, and the "Swift Foots," Capt. C. Smith, base ball clubs, played a match game on the Green yesterday. The score was 17 to 14 in favor of the "Union Points."
The first Irish potatoes from this section this season were shipped by Mr. W. H. Mallison of Croatan. He shipped three barrels last Saturday, the 19th, and expects to make a large shipment by the last of this week.
Capt. Guard Dickson, of the steamer Kinston, sends in the finest beans of the season. He expects to make a shipment early next week. [P. S. Since the above was written the firm of Perkins & Lewis sends in a sample that beats Capt. Dickson's. A few more samples and we will have a mess.]
It gives us pleasure to note that the sanitary committee and the committee on streets and pumps are rigidly enforcing the ordinances in regard to emptying trash and dirt on the streets and obstructing sidewalks. By the way, a citizen suggested to us that perhaps some backyards needed sweeping, as well as the streets.

Mayor's Court.

At 10 o'clock Mayor Williams called the court to order and read out a bill of indictment against John Pool, who was standing off in the corner of the room calmly slapping flies. The charges, which were, in the prosaic language of the plaintiff, "stavin' his wife out doors, like a dog, an' she been workin' for him ever since 'de wah," had no visible effect upon the prisoner. The poor, persecuted wife, whose name is Painesce, gave in detail the history of the case, embellishing her testimony with pathetic flights and dramatic gestures. John was then asked what he had to say. At first he didn't propose to condescend to say anything in such a trifling and disgusting affair, as this, but on second thought, he concluded to compromise his dignity enough to say, a few words. He took the stand and in a very brief manner, by a *faint lipius Nigui*, corroborated the statement of the plaintiff. The judgment of the court was a fine of \$5 and cost, or 15 days on the streets, or 30 days in jail. John was escorted to his cell, as he shot a few parting words at his better half.

Improvement on the Atlantic Road.

Everybody is very busy on the Atlantic Road. The section men are tearing up the track from one end of the line to the other, and accurately spacing the cross ties twenty-four inches from centre to centre. Look out for a fast run as soon as this work is finished. About fifty miles are already completed. The entire passenger equipment is being taken into the shops, being repainted and thoroughly repaired. The old east iron frogs are being removed and new steel frogs put in their place. Contractor Pavie is pushing the new depot at this place, which will be a model of convenience, and we learn that Mr. Hugh Murdoch has the contract for the new depot at Newport. The ditching force is at work just below New Berne, doing some heavy draining which will soon be finished to this place, and night before last President Bryan was down in Carteret county in the mud hunting the fellow who put a cross tie on the track. He had a cigar in his mouth which he never lights, and said he would have the track obstructed sooner or later, or run him out of the country. Well, at any rate, they don't seem to mind work on the Mullet Road.

Personal.

Rev. H. W. Battle left yesterday morning on the train, destination unknown, but we think he has an engagement in Sampson county.
Jas. M. Brinson, Esq., left for Goldsboro yesterday morning, on his way to Nehanta Academy, near Goldsboro, where he delivers the commencement address. Mr. Brinson is a young man of ability and his audience may expect a literary treat.
Miss Pitkin, who has been spending the winter in New Berne, the guest of Judge C. H. Thomas, left for her home in Cleveland, Ohio, yesterday.
Rev. V. W. Shields, Maj. John Hughes, Messrs. Geo. H. Roberts, John Dunn and E. K. Bishop, left for Wilmington yesterday morning, where they go as delegates to the Episcopal convention to convene in that city today.
Gen. W. G. Lewis was in the city yesterday. He is surveying the State lands near Core Creek and says he finds not only good lands but a plenty of marl and some phosphate rock. Governor Fowle has done the right thing in establishing this farm.
Miss Alice Wentworth, of Boston, arrived on the train last night and is the guest of Miss Hattie Harrison. We are pleased to learn that Miss Wentworth, who we are informed is a most charming vocalist, will take one of the leading roles in the Cantata "Queen Esther," which is looked for at the theatre next Tuesday night.
Capt. B. E. Page came down on last night's train.
Miss Mamie Meadows returned last night from a visit to Henderson.
C. O. Green, Esq., of Trenton is in the city.

Shipping News.

The steamer *Yesper* of the E. O. D. line sailed yesterday with a cargo of lumber and truck. The *Annie* of this line will sail this afternoon at four o'clock. The *Eagle* will arrive this afternoon.
The steamer *Tahoma* sails at six o'clock tomorrow morning. Freight should be shipped today.
The steamer *Newberne* of the O. D. line sailed yesterday with a cargo of various merchandise. The *Manteo* of the same line arrived last night and will sail Friday at 8 o'clock.

For the Quarries.

The Y. M. C. A. has made arrangements for a pleasant evening excursion to the quarries up Trent river next Friday evening. Blasting of the rock will be in operation that day, which will be novel and interesting to those who have never seen such. The beds are those from which rock is being taken for the construction of the mammoth road leading to the Federal cemetery. We would be glad to see a good many of our citizens take advantage of this opportunity which is

NORTH CAROLINA NEWS.

From the State Papers.

Sandford Express: The fruit crop was never more abundant. There are many excellent orchards throughout this section and if no disaster occurs the harvest will be abundant, and in view of which is seen the necessity of canning factories to save all the fruit.
Twin City Daily: Major P. F. Duffy, who has for the last month or so been engaged on the editorial staff of The Daily, left on this morning's train for Wilmington, where he goes to accept of a position upon the Star. Major Duffy is an excellent writer, a man of mature judgment, and will no doubt contribute valuable aid to the Star.
Elizabeth City News: Potato bugs are giving the farmers trouble again.—The negroes are not talking so much about emigrating now as they were a few weeks back. Not one has left yet.—Reports from the hail storm last Monday continue to come in. All say that the stones were as big as eggs, but nobody has said any damage was done by the storm.
Tobacco Plant: Dave Parker, colored, who was bound over to court recently to answer the charge of forging a school order, is now wanted to answer the charge of obtaining money under false pretences, but can't be found. Jerry Parker, colored, who got off at the last trial, is also wanted to explain financial crookedness and is also not set. James Glenn, colored, has been caught and bound over to court to answer similar charges. It seems these fellows have been having a regular picnic out of the school fund.

Wilmington Star:

The surveyors running a line from Burgaw for this road were expected to reach Swansboro yesterday. From the latter place they will run a line back by way of Tar Landing. As soon as the road is located the work of construction will at once begin. Mr. H. McBea has charge of the corps of surveyors.—A journeyman house painter named M. C. Sugg attempted suicide yesterday by taking laudanum, but through the prompt and timely action of police Sergeant Skipper, the man's life was saved, probably.

Jones County Items.

Strawberries are plentiful with us and are selling cheap.
Bud worms have played considerable havoc with the young corn during the past week.
We have two steam saw mills near Trenton in full blast, cutting pine and cypress lumber.
The fence around the jail at Trenton has been repaired. We learn that our jail is one time more without an inmate.
The farmers are getting up the old empty barrels, getting ready for the potato crop, which will soon be ready for digging.
The health of our section is very good, but few cases of sickness. Money is very scarce, but our people appear to move along, money or no money.
The wet rainy weather is causing a great deal of anxiety among the cotton farmers, as many of them report that the grass is coming up with the cotton.
We learn that there is an old colored woman at our county poor house named Judy Loftin whom the colored people claim that she is over a hundred years old.
We have been visited by very heavy rains during the past two days which have completely suspended all farm work, and we are expecting a heavy freshet in the Trent.
Capt. E. E. Page's mill at Trenton is a real help to the corn buyers near Trenton, and we must say that we consider it the best paying piece of property in or near Trenton to the amount of capital invested.
"Talk and write about our exodus," remarked a colored man, "Do youner expect us to stay in Jones county, or in North Carolina when we poor niggers are not lowed to pick a few huckleberries unless we get liberty from the land owners?" I put a very cheerful look on his face by telling him that that law only applied to Duplin and Sampson counties.

A Cashier Arrested for Embezzlement.

BOSTON, May 20.—Wm. B. Derby, cashier of the Mutual District Messenger Company of this city, is under arrest on the charge of embezzling \$10,000 from the Western Union Telegraph Co. The District Company does a large messenger service for the Western Union. Derby has been in the employ of the Mutual District Messenger Company for about a dozen years, and has always had the confidence of his employers.
Fire in Jacksonville.
JACKSONVILLE, May 19.—A fire early this morning destroyed seven buildings in East Jacksonville—five dwellings, the Ladies' Guild Hall of St. Andrew's Episcopal church, and the chapel. The loss is \$10,000. The fire was of incendiary origin.
Dr. Porter, State Health Officer, has examined the reported case of yellow fever at Palmetto, Manatee county, and pronounces it typhoid malarial fever.

Blair Says It's All Right.

Mr. S. O. Blair, Chicago, says: "We could not keep home without your Clark's Extract of Flax Seed Oil and Cough Cure. We have used both for numerous troubles, especially for our child. We recommend the Cough Cure to every family having children. We used it for Whooping Cough with remarkably quick and satisfactory results, and we can say for any and every cough the family may have." Only one size, large bottle, Price \$1.00. If you want the best, get Clark's Flax Seed Oil. S. Duffy drug store, New Berne, N. C.

Missing Schooner.

BRADFORD, May 20.—Fears are entertained for the safety of the schooner *Eunice R. Dyer*, captain Weeks, which left this port eighteen days ago for New York. The vessel was repaired before she left here, and was considered seaworthy. Something undoubtedly has happened to her, and it is feared that she has become water-logged. The captain's family live here, and have received no tidings from him.

Agency is Courted.

By persons who, attacked by a mild form of rheumatism, neglect to seek prompt relief. Subsequent torture is prevented by an immediate resort to Hostetter's Stomach Bitters. Slight exposure, an occasional draught, will get this painful malady, when there is a predisposition to it in the blood. It is not difficult to arrest the trouble at the outset, but well nigh impossible to eradicate it when matured. No evidence in relation to this superb blood purifier is more positive than that which establishes its efficacy as a preventive and remedy for rheumatism. Not only is it thorough, but safe, which the vegetable and mineral poisons, often taken as curatives of the disease, are not. Besides expelling the rheumatic virus from the system, it overcomes fever and ague, biliousness, constipation and dyspepsia.

\$8,000 TO LOAN

In amounts to suit borrowers.
Apply to
P. H. PELLETIER,
may 22 dtf Craven street
