DEMOCRATIC SOCIETIES.

A correspondent of the News and Observer "passed a few pleasant hours" on the 30th of May "at the home of Governor Chauncey F. Black, the President of the National Association of Democratic Clubs," and we call the attention of North Carolina Democrats, and especially the attention of the Hon. J. S. Carr, president of the North Carolina Association of Democratic Clubs, to the suggestions of the distinguished Pennsylvanian.

In response to a question Governor Black said:

"Yes; the men of conviction in the Democratic party look to the Democratic societies as the best engineery for carrying forward the work of industrial emancipation. They could not do otherwise, for there is no other Democratic agency in sight. The campaign committees have struck their tents and disappeared from the field, to reappear only when another furious and wasteful campaign is on, when men's minds are closed to argument, and the clangors and clamors of mere partisanship fill all ears to the exclusion of common sense, neighborly counsels, or sober reason of any sort. Until then the Democratic societies, as represented in the National Association of Democratic Clubs, are the only Democratic organization for the work of instructing and arousing the people. * * * *

"Our forefathers, at a time when the agricultural interest was the controlling one, made the Democratic society the great engine of resistance to aggressions of Federalism, similar in kind, though inferior in magnitude, to those which confront us today. Why not now? The Democratic society comes down to us with our free institutions. It saved those institutions in the first rude encounter of the people with Hamiltonian Federalism, and there is no reason why it should not be employed again. The 'very nurseries of sound Republican principles' as Mr. Jefferson declared, their simplicity and dignity, their grave purpose, their settled principles, not less than their historic associations, commends them to our farmers as assemblies in which they may decently engage for the defense of their rights and interests."

We concur in the opinions of Governor Black. The right time for the propagation of Democratic truth is the period of calm reflection. No general postpones the drill and equipment of his forces until the battle has been joined. If we are to redeem this land, if the farmer is to be made prosperous through the influence of political reform, he must himself be a potential factor in the revolution. The science of government is the most difficult of all sciences, and must be learned by dilligent study and close observation. Every man has a right to vote, and the utter ignorance of the many appeals to political leaders for more light.

All classes need to be informed in the science of government. Learned lawyers, who have not made political phylosophy a subject of study, blunder over it as badly as the unlettered rustic. It is nothing unusual to hear men of intelligence say "there is no material difference in the principles of the two great parties in this country."

What says Mr. Carr? Will he bring the Association of which he is the worthy president into line, and have the different clubs, that form his Association, drilled for the impending combat? It is useless to bring new militia into the field against regular troops. Camps of instruction must be organized, and our soldiers perfectly drilled if we are to gain the victory.

STORM AND SNOW.

Hail and Frost Devastating the Northwest.

CHICAGO May 31.—Yesterday and last night a fierce gale raged over lakes Ontario and Erie and portions of lakes Huron and Michigan. All around the lakes vessels are reported wind bound and driven ashore. At Chicago the wind reached a velocity of forty miles an hour and a number of vessels were forced to anchor outside. At Port Huron, white caps were driven before a gale of forty-eight miles and across the river at Sarnia, a fleet of tug boats were bound up afraid to move. The storm is moving eastward and lake Michigan will probably be free from unusual wind today.

At 7 o'clock last night a north wind was blowing at the following ports, with the velocities given: Chicago, forty miles; Milwaukee, forty-two miles; Green Bay, forty-eight; Port Huron, forty-eight; Detroit, forty-five; Toledo, thirty-five, Sandusky, thirty-three.

MARTINSBURG, W. Va., May 31. A tornado struck a section of country five miles east of here yesterday afternoon, and after demolishing a vast amount of property it passed down the Potomac river, uprooting trees, overturning small vessels, and playing havoc generally with the small buildings near the banks of the stream. The storm travelled over an area of ten miles and then passed out to sea. Very few trees were left standing along the water front, and those that escaped were twisted out of shape.

The house of Martin Borien, which stood directly in the tornadoe's path, was lifted from the ground. Two women, who were in a little frame kitchen, were hurled twenty feet and severely injured.

WABASH, Ind., May 31.—The heaviest rainfall in years has been prevailing throughout this region for two days. At Benton Harbor, Mich., snow fell to a depth of six inches. Snow is also reported at other places.

MICHIGAN CITY, Ind., May 31.—A northeaster, the fiercest storm known here for years now prevails. Snow fell here yesterday to a depth of about an inch.

WINOMAC, Ind., May 31.—Rain has fallen without ceasing for forty-eight hours, and it changed to a snow storm yesterday afternoon. There has been nearly twenty-two inches of rainfall and much damage will be done by floods.

GALENA, Ills., May 31.—A heavy white frost visited this section yesterday morning. Corn on low ground was blasted to the sprout and all kinds of tender fruit killed. The damage is very serious.

HAGERSTOWN, Md., May 31.—A terrific storm passed over the Potomac river district of Washington county yesterday afternoon. It seemed to follow the course of the river, leaving destruction in its tracks, and blowing down buildings, trees and fences, and ruining the growing crops. Telegraph and telephone wires are down and it is impossible to obtain particulars.

STAUNTON, Va., May 31.—The storm of Tuesday in the Northwest reached here Thursday and continued till this morning. For fifteen consecutive hours rain fairly poured down accompanied by a strong wind, and much wheat has been blown down and damaged.

HARRISBURG, Va., May 31.—There was a great storm in this section last night. The wind blew a perfect hurricane. Wheat was blown down, trees uprooted, houses unroofed, and fences laid low. The damage is great.

WINCHESTER, Va., May 31.—There has been an incessant downpour of rain for the last thirty hours. At times the winds were very nigh. Many magnificent fields of wheat are laid flat and wheat is materially injured. All the water courses are beyond crossing.

PITTSBURG, May 31.—A special from Greensburg, Pa., says Johnstown is completely submerged and the loss of life is beyond estimate. Houses are going down the Conemaugh river by the dozen, and people can be seen clinging to the roofs.

At Coketown, a village of several hundred inhabitants, the houses are almost entirely covered and a great many dwellings at Blairsville are submerged. Scarcely a dwelling in the vicinity of Sang-Hollow can be seen.

The bridges at Bollvar and Minerva, it is reported have given way and that at Saltsburg it is feared will be carried away.

The people here who have friends in flooded districts are eagerly waiting for news at the telegraph office, and great uneasiness pre-vails. The river at Livermore is rising and great destruction will follow.

General Lee and Stimulants.

From an essential and personal article on "General Lee After the War" by Mrs. Margaret J. Preston in the June Century we quote the following: "He had the gentlest way possible of giving counsel and administering rebuke. I remember hearing him say, in a presence where such testimony was worth more than a dozen temperance lectures: 'Men need no stimulant; it is something, I am persuaded, that they can do without. When I went into the field, at the beginning of the war, a good lady friend of mine gave me two sealed bottles of very superb French brandy. I carried them with me through the entire campaign; and when I met my friend again, after all was over, I gave her back her both bottles of brandy, with the seals unbroken. It may have been some comfort to me to know that I had them in case of sudden emergency, but the moment never came when I needed to use them.'"

A SAFE INVESTMENT.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised Druggist a bottle of Dr. King's New Discovery for Consumption. A True Tonic.

When you don't feel well and hardly know what ails you, give B. B. B. (Botanic Blood Balm) a trial. It is a fine tonic.

T. O. Callahan, Charlotte, N. C., writes: "B. B. B. is a fine tonic, and has done me great good."

L. W. Thompson, Damascus, Ga., writes: "I believe B. B. B. is the best blood purifier made. It has greatly improved my general health."

An old gentleman writes: "B. B. B. gives me new life and new strength. If there is anything that will make an old man young, it is B. B. B."

P. A. Shepherd, Norfolk, Va., August 10th, 1888, writes: "I depend on B. B. B. for the preservation of my health. I have had it in my family now nearly two years, and in all that time have not had to have a doctor."

Thos. Paulk, Alapaha, Ga., writes: "I suffered terribly from dyspepsia. The use of B. B. B. has made me feel like a new man. I would not take a thousand dollars for the good it has done me."

W. M. Cheshire, Atlanta, Ga. writes: "I had a long spell of typhoid fever, which at last seemed to settle in my right leg, which swelled up enormously. An ulcer also appeared which discharged a cup full of matter a day. I then gave B. B. B. a trial and it cured me."

CIGARS! CIGARS!
Cigars! CIGARS!
Till you can't rest. I have Cigars to sell, and Cigars that I want to sell. Why? Because that is my business; by it I make a poor living, but I hope an honest one. I wish I was a large manufacturer of some kind, when I could employ all the poor fellows who don't want to work if they could. I would find something for them to do, to keep them out of mischief. But as it is I must sell Cigars and Tobacco; and by the way, if you want GRAVELY'S fine Chewing Tobacco, I have it, and other good kinds. Pipes, and Smokers' Articles generally.
Also, Soda Water, Ginger Ale, Deep Rock Water, and we say, Come and see me.
