SILAS FULCHER, City Clerk.

The Revenue Cutter.

At the request of Collector Hancock Mr.T.A. Henry visited Washington City for the purpose of having the order for taking away the Stevens rescinded. The assistant secretary who made the order being sick, so that Mr. Henry could not see him the order was not rescinded, but those of the department whom he did see were most favorably impressed with his statement, and it is safe to say that a cutter will be ordered to New Berne in a short while. In connection with this matter, and as Ligut. Hand had remained here about as long as the regulations permit, we give space to the following suggestions by one of our prominent citizens:

The many friends of Capt. Simmons. who for several years was stationed in New Berne, will be glad to know that he has been given the command of the fine Revenue steamer Forward. This vessel is now undergoing extensive refitting of her machinery in Baltimore. Capt. Simmons is superintending the work.

We have understood that the govcrnment has nearly completed the plans and specifications for a new vessel for the port of New Berne. Capt. Simmons is so familiar with the situation, necessities and business of this port, that the department would be wise to appoint good attention and quick dispatch. him, to superintend its construction And our community could not be better

Sanitary Affairs.

The report of Mayor Williams to the board of council on Tuesday night in doubtless surprise many. He tells us that the colored people are keeping their premises cleaner and taking more interest in sanitary affairs than the tainly humiliating if the whites are retrograding on the same line. The Mayor is making a special point to look after the sanitary condition of the city,

and in this he deserves the thanks of all. We hope his report to the board population to a sense of their duty in keeping their premises clean and observing the ordinances in regard to sanitary matters.

Yesterday's Great Game.

After a fine contest, the second game between the Goldsboro's and the New Berne's resulted in a well deserved victory for the home nine. The players were the same as in yesterdays game except that Powell was substituted for J. MoSorley by the home club.

The victory was quite a surprise eveay one after Tuesday's defeat but the boys outplayed the visitors in almost every respect.

The game opened with Goldsboro at the bat and they had two runs to their redit before they yielded the stick to the New Berne's who only succeeded in The mining parabos, the rionest obless of weath in the United tates; if not in the world, is to be and on the Hudson river between abb's Forry and Thrrytown, where thy three millionaires reside withsetting a goose egg in their first half. In the second Goldsbore failed to score while Jack Neal made himself and everyone also happy by crossing the plate with flying colors. In the third the visitors piled up three more runs while our boys drew another blank. This looked discouraging and it looked if the game was to be a repetition of sday's but the boys kept their wits shout them, and for the next three in-

nication at all, you must have shown it people do not keep their lots in as good pleased than to have the courteous and to him, for I did not."

one stood up and yelled some more and

Particular credit is due Mr. Charles

Mr. Williams then remarked:

ing. and we answered:

than I do."

thon went home happy.

She's all right!

We hardly halted during the conversation, but passed on down the street. In the afternoon, while on the Clyde wharf, to our astonishment we were informed that it had been reported by a gentleman on the street that we had admitted that Mr. Simmons wrote the reply to Mr. Williams' communication. We immediately sought Mr. Williams and informed him that he was mistaken if he understood us to mean that Sim-

myns wrote the reply to his communication, and that our last remark, viz., that "if Simmons saw that communication you must have shown it to him, for I did not." ought to have relieved his mind of any such impression.

Mr. Williams declared his intention to use the remark in a reply to our comments, and if he can do so conscientiously after this explanation, and the assurance we gave, him, he is at liberty to do so, and we will leave the public to judge of the right.

We will further say that Mr. Simmons has not written a line of editorial for the JOURNAL on the railroad matter, nor a communication that we remember at this writing. And we will state further that the JOURNAL is not run in the interest of Mr. Simmons any more than other patrons. We supported him when he was candidate for office as we

did other Democratic candidates. He has no interest in the JOURNAL other than to pay for his subscription and advertising card. He does not write for it, nor has he any more control over it than others who desire to entrol it, but cannot. We prefer him for President

of the A. & N. C. R. to Mr. Bryan because we believe he will give more satisfaction to the people and run the road as successfully as Mr. Bryan. We told the latter gentleman several months ago that we preferred Mr. Simmons to him, but our columns have never been olosed to Mr. Bryan or his friends, to advocate his cause or that of any other gentleman for this position.

THE LADIES DELIGHTED.

The pleasant effect and the perfect afely with which ladies may use the safely with which ladies may use the liquid fruit laxative, Syrup of Figs, un-der all conditions make is their favor-ite remedy.
