**FIRST-CLASS** job work executed at this office on satisfactory terms. a26 1/2

The Virginia tobacco crop is reported as very fine.

"The President has a cold." Prophetic of a sure freezing out.

There are no sulkers in the Democratic party.—Cincinnati Enquirer.

At a sale of horses in New York, last Monday, thirteen head were sold for \$4,185.

Last Monday was "Labor Day" in New York. The celebration was as imposing one.

Take care of your farming implements. Many expensive implements are allowed to stand out in the weather and be ruined because of sheer neglect.

Western Mexico is becoming a competitor in the European wheat market. The crop is very large and shipments are being made to Liverpool via New Orleans.

It is said that the United States accumulates wealth at the rate of \$2,500,000 daily. This is equal to one-third of the accumulations of all the rest of mankind.

The Radical Protection sheets do not like the enthusiasm and rapture in leading Democratic papers over the Ohio platform. There is a loud chorus of praise all along the Democratic line.—Wilmington Messenger.

There is unquestionably a reaction of sentiment taking place among thousands of those who voted for Mr. Harrison last Fall and for the protective policy of which he was the chosen representative.—Wilmington Star.

If the government owned the Western Union Telegraph Company, it would doubtless prove to be an elephant; but that would be preferable to the United States going into partnership with Jay Gould in the telegraphic business.—Charlotte Chronicle.

The charges against Tanner pressed by Congressman Flood and others will not relate merely to personal demeanor. They will be based upon the allegation that his official conduct has been without due regard for law or the economical administration of the Government.—New York Star.

HENRY CLAY never thought of a higher tariff rate than 20 per cent, and if he were alive today he would shrink with horror from the present tariff averaging some 47 per cent. The mills bill proposed the ungrateful reduction of 5 to 7 per cent, but the monopolist fought this with the desperation born of avarice.—Wilmington Star.

A GENTLEMAN just returned from the mining region of Illinois reports the situation as "unpleasantly distressing. Hunger and dis-

ease are abroad, and death is desolating the homes of the hopeless victims of this unnatural struggle." These starving people are among those to whom Mr. Harrison personally promised prosperity and high wages if they would vote for him.—Norfolk Virginian.

PERBY, who boasts that he carried 7,000 North Carolina negroes to Indiana to carry that State for Garfield, has not yet received his reward. We are curious to know what Harrison proposes to do about it. He and Dudley are a precious pair. It looks like they will have to "walk the streets" as Carson says, until Quay comes in, unless, indeed, Clarkson should propose to pay them.—News and Observer.

THE Boston Journal is exercised in mind because a candidate who was lately a high-tariff man is running on a tariff-reform platform in Ohio. The Journal may as well become used to such sights. Conversions to tariff reform are to occur everywhere. Nothing but politics has kept New England from being a tariff-reform region for the last half dozen years. Politics will not hold her so a half dozen years in the future.—Boston Herald.

## LOCAL NEWS.

NEW ADVERTISEMENTS.  
CAPT. R. L. HEPLIN—Mansion house.

Considerable home-made hay coming in now.

The fish market house is receiving a coat of paint.

The sheriff has received the tax list and is ready to receive the money. Who will be the first to pay?

Mr. John C. Green requests us to state that it was not John Green of gas house fame who was reported in Mayor's court yesterday.

There will be a game of baseball at the Fair grounds this evening at five o'clock preparatory to the match game between two home clubs Saturday.

The attention of the Raleigh Call is directed to the resolutions of Carteret County Alliance. It is now in order for the Call to receive information that some mad man who hasn't a free pass over the A. & N. C. R. instigated that thing. These mad men without free passes must have a wonderful influence over the people.

The News and Observer in a recent issue said that no one would doubt that Mr. Bryan is a Democrat. That is not the question for Governor Fowle to decide in making his selection for President of the A. & N. C. R. Everybody expects him to appoint a Democrat, but there are some Democrats who do their party more harm in office than out. It is for Governor Fowle to decide whether or not Mr. Bryan is one of that class. He surely has not forgotten the difficulties the Democrats along the line of the road had last fall in bringing out the party strength.

Shipping News.  
The steamer Annie of the E. C. D. line arrived yesterday with general cargo and will sail this afternoon at 4 o'clock.

The Road to Greenville.  
A correspondent inquires where the railroad comes from that taps Greenville, Pitt county. It is an extension, as we are informed, of the Scotland Neck road which branches off from the W. & W. at Halifax. It is to be extended to Kinston and it has been reported a branch of it will come to New Berne.

Onslow Affairs.  
We surrender our editorial page today to a card from "Creditor," in reply to a card recently published by Mr. Gilman, concerning the financial affairs of Onslow county.

If this discussion is to continue, those engaged in it must hereafter bring their communications within one column of the DAILY JOURNAL. About one thousand words make a column of the DAILY JOURNAL. Count the words in a line and count the lines and the estimate can be easily made. We trust correspondents will understand that we mean this, and hope they will remember it when they write.

TO DISPEL COLDS.  
Headaches and Fevers, to cleanse the system effectually, yet gently, when coughs or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

## Dr. Frank Duffy.

Without any consultation with Dr. Frank Duffy as to whether he would accept the position of Superintendent of the Insane Asylum, we trust when the directors meet on the 11th inst. they will consider his eminent qualifications for the position. While there would be much regret in the community if Dr. Duffy should leave us, yet we recognize the importance of the position to be filled, and there should be no mistake in making the selection.

We write this upon the presumption that Dr. Duffy is eligible. It has been stated that the Superintendent must be a married man. We have not sought legal advice on this question.

## Our Trees.

Nothing adds more to the beauty and comfort of a town than well shaped and thriving trees. In this respect, New Berne is wonderfully blessed. We notice, however, that some of them are casting their leaves much earlier this fall than is usual. This is an indication of decay. A number of trees are now dead. This is but the natural order, and we should prepare to supply the places of falling trees. Decayed limbs should not be permitted on living trees, as they mar the beauty and hasten their death. A large number of vigorous young trees should be set out during the approaching winter.

## Personal.

Dr. Chas. Duffy and family have returned from Morehead City.  
Mr. and Mrs. F. Ulrich left for Baltimore and New York yesterday morning. As city treasurer Mr. Ulrich cashed up the vouchers issued for the present month before leaving.  
Mr. John Dunn is off North.

Mr. A. C. Townsend, who has been in New Berne for several months, assistant engineer on the macadamized road, leaves this morning for his home in Washington, D. C. Mr. Townsend is a young man of high character, and has endeared himself to many of the young people here. We regret to part with him. Many pleasant recollections of him will linger in the hearts of New Berne friends.  
Mrs. A. H. Holton has returned from a visit to the country.

Tax Valuation of Craven County Property.

We get the following from the tax list for 1889: Land listed, 312,405 1/2 acres; valuation, \$647,150 50. Number of town lots, 1,703 1/2; valuation, \$927,986. Number of horses, 1,105; mules, 6,223; cattle, 6,034; hogs, 10,621; sheep, 2,037; money on hand or on deposit, \$55,291; solvent credits, \$153,823; stock in incorporated companies, \$25,902; other personal property, \$316,076; bank stock, \$17,000; railroad property, \$249,140. Total valuation of listed property, \$3,766,125. Number of white polls, 1,313; colored polls, 1,571.

In the real and personal property listed \$2,148,014.25 is by whites, \$952,471 by negroes, showing an increase of \$60,662.25, white, and a decrease of \$3,369, colored. There is a total increase in real and personal property of \$57,293.25. Increase in railroad property, \$11,913. Total increase on all taxable property \$69,805.

There is a slight increase in the number of horses, mules and cattle and a small decrease of sheep.  
Number white polls increased 87; colored 252.

## Thinks it Will Pay.

We take pleasure in publishing the letter below. The correspondent thinks that manufacturing rectified pine tar for roofing pitch would pay. There is a great deal of tar made in this section of country, and we have no doubt it could be utilized in this way to better advantage of dealers than shipping it in its crude state. We hope some one will investigate the matter:  
St. Louis, August 27, 1889.  
Messrs. Nunn & Harper:

Gentlemen—You can confer a benefit on your section of the country by giving publicity to the fact that it will pay anybody to manufacture rectified pine tar and sell it as a roofing pitch to be used in place of coal tar pitch which is getting very scarce and is cornered and controlled by a pool of men noted for the dictatorial policy they employ to their customers, the roofers. It is far superior to coal tar in every way.

All that is to make a demand for it is its introduction to roofers, with an assurance that they can get as much as they want. I myself will go into the roofing business here if I can get that assurance, and I think that with little pains I can sell it besides to other roofers.

If any of it is made near you please to request maker to forward me by return mail samples and prices and oblige.

Yours, etc.,  
ANDREW McALLISTER,  
1025 St. Anns Av.

ADVICE TO MOTHERS.  
Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

## TROUBLE WITH THE NEGROES.

Four of the Ringleaders Killed While Resisting Arrest.

NEW ORLEANS, Sept. 4.—A special from Greenwood, Miss., says: From present appearances it looks as though the sun of peace would separate the cloud of war. The sheriff of this county returned from Winter City, the seat of war, last evening, and reports everything quiet up there. Four of the ringleaders, Adolph Horton, Scott Morris, M. J. Dial and Jack Dial were killed. The military arrived at Winter City at 7 o'clock yesterday morning.

Upon the arrival of the troops it was learned that a party of about 160 negroes well armed with Winchester rifles were encamped near Cane Lake, a distance of 7 or 8 miles from Winter City. A reconnoitering party of citizens numbering about fifty men were organized, and proceeded to interview the belligerent blacks.

Part of the men were detailed to go in different directions and make a thorough search of the entire surrounding country, in order to discover their whereabouts.

A party while passing through the plantation of Mr. C. A. Lowme came upon Adolph Horton and Jack Dial, and they were commanded to surrender. Without regarding the command of the officers they drew their pistols and started to run, when they were shot down. These two were very desperate and mischievous, and had been the principal leaders of Crowwell and Thomas in arousing the negroes of this county. The other leaders were killed this morning while resisting arrest.

Thomas, Allan and Crowwell, the moving spirits of the insurrection, have not been arrested, but the whites and the better class of negroes are determined to bring them to justice. Geo. Allen is the one who killed another negro last Saturday night on Townsend's place for refusing to join his band, and it is believed he is still in this county. Crowwell is an ex convict, and one of the principal instigators of the riot.

The best of feeling prevails between the whites and the better class of negroes, and when this troublesome element has been brought to justice the machinery of affairs will move on as though nothing had happened.

## Resolutions Passed by the Carteret Co. Farmers' Alliance.

WHEREAS, By the last census there were in North Carolina 369,937 persons engaged in agricultural pursuits, while there were but 119,250 engaged in all other vocations; and 22,363,558 acres in farms valued at \$135,793,692, and all other property valued at \$20,360,601—showing that more than three-fourths of our people are on the farms, and more than six-sevenths of the taxable property of the State is invested in agriculture; and whereas, much of the poverty and misfortunes of our people are the result of bad and unjust management of public affairs, therefore, in view of these facts, we, the Farmers' Alliance of Carteret county do

Resolved, 1. That we send greeting to our brothers throughout North Carolina and pledge ourselves anew to unity of action with them in demanding and securing the rights that belong to us as freemen.

Resolved, 2. That we demand of our public servants more consideration for our interests, and less of the pretended favors of demagogues and politicians, such as was manifested in the defeat of the Railroad Commission bill, notwithstanding our farmers throughout the State had petitioned for it and our present patriotic Governor recommended its passage.

Resolved, 3. That we condemn the present management of the A. & N. C. R. Co. as hostile to us in its enormous freight rates and its discriminating action against the farming and fishing interests of Carteret county.

Resolved, 4. That the A. & N. C. R. is not the property of a private corporation, but is owned largely by the State and counties; and we respectfully suggest that no man should be placed at its head who has made himself obnoxious to the people by a course of contempt and indifference to them and their interests.

Resolved, 5. That we commend a change in the administration of said road in the interest of the material advancement of this section, and respectfully request the Governor of North Carolina to favor as President the election of some more suitable person who, if not a farmer, at least one who has antecedents and education have familiarized him with the wants and needs of the farmers, and who will respect and protect both the interests of ourselves and the whole people.

Resolved, 6. That as the agricultural class compose so large a body of the population of North Carolina, and contribute so much to the support of the railroads, we respectfully suggest and recommend to Governor Fowle that he appoint, as one of the directors of the A. & N. C. R. from this county, one of our class, to be recommended to him by this Alliance.

Resolved, 7. That these preambles and resolutions be published in The Progressive Farmer, or some other State paper, and a copy of them be sent to Governor Fowle.

## A Valuable Remedy.

A letter from S. P. Wardwell, Boston, says: "I used Clarke's Extract of Flax (Papillon) Catarrh Cure in June last for Hay Fever with great satisfaction, and find it is the only thing I have seen which would allay, without irritating the inflammation of the nostrils and throat. Its soothing and healing properties were marked and immediate. Large bottle \$1.00. Clarke's Flax Soap is the latest and best. Try it. 25 cents. Ask for them at F. S. Duffy's drug store.

Beecham's Pills act like magic on a weak stomach.

## Bill Fife is Coming.

Mr. W. P. Fife, the "drummer evangelist," will commence a meeting here next Sunday. He comes by invitation of the Y. M. C. A., and will no doubt do much good for the community. He has conducted meetings at several places in the State recently and his efforts have been signally successful everywhere he has been. His meetings are non-sectarian and we are requested to urge that the Christian people of the town, irrespective of denominational lines, give him a warm welcome and cordial support in his work. Rockingham needs a revival of religion, and now is a good time to begin the work.

Dr. J. M. Covington and F. L. Cole, Esq., were appointed a committee on devotional exercises; and Messrs. Robert Sanford, Eli Goldston, Frank Worley and J. D. Hastly were appointed a committee of arrangements for the series of meetings. The first service will be held in the Baptist church.—Rockingham Rocket.

## Convincing Proof.

In many instances it has been proven that B. H. B. (Botanic Blood Balm), made by Blood Balm Co., Atlanta, Ga., will cure blood poison in its worse phases, even when all other treatment fails.

A. P. Brunson, Atlanta, Ga., writes: "I had 24 running ulcers on one leg and 6 on the other, and felt greatly prostrated. I believe I actually swallowed a barrel of medicine, in vain efforts to cure the disease. With little hope I finally acted on the urgent advice of a friend and got a bottle of B. H. B. I experienced a change, and my despondency was somewhat dispelled. I kept using it until I had taken sixteen bottles, and all the ulcers, rheumatism and all other horrors of blood poison have disappeared, and at last I am sound and well again, after an experience of twenty years of torture."

Robt. Ward, Maxey, Ga., writes: "My disease was pronounced a tertiary form of blood poison. My face, head and shoulders were a mass of corruption, and finally the disease began eating my skull bones. My bones ached, my kidneys were deranged. I lost flesh and strength, and life became a burden. All said I must surely die, but nevertheless, when I had used ten bottles of B. H. B. I was pronounced well. Hundreds of scars can now be seen on me. I have now been well over twelve months."

## The Mansion House,

(Formerly Central Hotel).

CAPT. R. L. HEPLIN, Proprietor, RALEIGH, N. C.

Geo. E. Pittman, Asst. Manager.

This hotel, which has just been put in perfect order, thoroughly renovated, newly painted, etc., is situated in the central part of the city, and is easily accessible to all places of business, and within a very short distance of the capitol, post-office and court house.

The table is well supplied with the choicest viands that can be obtained in the city and surrounding country; the rooms are large and well ventilated and furnished with every comfort and convenience; none but polite and attentive waiters employed; terms for board by the day, week or month most reasonable.

The good people of New Berne are especially invited to stop with us when visiting Raleigh, and are assured they will meet with a home-like welcome; be "treated right" during their stay. Posters at every train. sept 6th
