

PUBLISHERS' ANNOUNCEMENT.
 THE DAILY JOURNAL is a six column paper, published daily, except Monday at \$10 per year; \$3.00 for six months. Delivered to city subscribers at 50 cents per month.
 THE WEEKLY JOURNAL, a 36 column paper, is published every Thursday at \$1.00 per annum.
ADVERTISING RATES (DAILY)—One inch one day \$1.00; 50c for each subsequent day.
 Advertisements under head of "Business Items," 10 cents per line, and 5 cents for every subsequent insertion.
 No advertisements will be inserted between two matters at any price.
 Notices of Marriages or Deaths, not exceeding ten lines will be inserted free. All additional matter will be charged 5 cents per line.
 Payments for transient advertisement must be made in advance. Regular advertisements will be collected promptly at the end of each month.
 Communications containing news of a discussion of local matters are solicited. No communication must be expected to be published that contains objectionable personalities, or that will make more than one column of a paper.
 Any person feeling aggrieved at any anonymous communication can obtain the name of author by application at this office and showing wherein the grievance exists.

THE JOURNAL.
 M. S. WURN, Editor.
 H. HAMPER, Business Manager.
 NEW BERNE, N. C., SEPT. 19 1889.
 Entered at the Post office at New Berne, N. C. Second-class matter.

THE STATE FAIR.
 We have received the premium list of the twenty-ninth annual Fair of the North Carolina State Agricultural Society to be held in Raleigh October 14, 15, 16, 17, 18 and 19, 1889. There are 1,000 premiums worth over \$5,000. The exposition is divided into twelve departments: A—field and garden crops; B—1, live stock, horses; B—2, cattle; B—3, sheep and swine; C—poultry; D—orchard products and floriculture; E—pantry supplies; F—manufactures; G—mercantile displays; H—ladies work; I—fine arts, paintings, etc.; K—agricultural implements and machinery.

We condense the programme as follows:
 Monday, Children's Day—Pony racing, etc.; sale of poultry.
 Tuesday—Parade of cattle by Wake County Cattle Club—sale day for pets, dogs, small animals.
 Wednesday—Parade of horses and cattle—sale of hogs, sheep and goats.
 Thursday—Parade of horses, cattle, etc., sale day for horses and cattle.
 Friday—Teachers' Day. Sale of agricultural machinery, and farm and household supplies.
 Saturday—Comical amusements, Clearing sales day.
 Trials of speed every day.

It will be seen that the programme is an attractive one. The chief interest of the Fair will be the immense crowds that will be assembled from all parts of North Carolina and the regions beyond. It will be a fit occasion for the exhibition of the marvelous resources of North Carolina, and the culture, refinement and hospitality of her people.
 We trust that all parts of the State will be represented in population and production, and that an impetus will be given to the agriculture that will result in the further elevation of this most honorable pursuit and the lasting good of our people.

OFFICIAL RESPONSIBILITY.
 It looks as if an effort was making in official circles at Washington to send Commissioner Tanner into the wilderness outside of office as a scapegoat for the sins of his administration in the Pension Department.—Boston Herald.
 We are not disposed to follow Tanner into the wilderness. With charity for all men, we shall not grieve if he finds manna and quail in the wilderness. It is on the Government that the responsibility rests. If there had been anything in the life and character of Tanner to recommend him to high office, and his directions had been a matter of reasonable surprise, the President would have been entitled to the sympathy of a generous public. Unfortunately, the appointment of Tanner was in line with the practices of the administration, and the odium which attaches to him is the legitimate property of the President. Tanner is not a bit worse than Wana-maker and Clarkson. His folly is more glaring—but all belong to the same family, and are working to the same end.
 It is a sad spectacle, when the

chief magistrate of a great nation commits the destinies of his people to party guardianship—it is infinitely worse when the most corrupt element of party is given the mastery in public affairs. It was expected that President Harrison, being a Republican, would put Republicans in office; it was no less expected that, being President, he would guard the honor of the Republic. We are not wholly converted from the opinion that "to the victors belong the spoils," and we readily acquiesced in the necessity that has impelled the President in the appointment of Republicans, but we utterly deny his right to thrust upon the people incompetent officials who are wanting in gentility, reputation and honor.

Many of the appointees of Wana-maker and Clarkson are disreputable to the Government, and their appointment cannot be excused on the ground of party expediency, social environment, or the exigencies of the times.
 In order for an administration to be respected, patriotism must be above party, principle superior to expediency, and good character the essential prerequisite to preferment.

These general truths are applicable to Governors of States—and whoever wears the robes of office. It is the duty of every one to magnify his office, and he who disregards his obligations lowers his manhood, sullies his reputation and forfeits the respect of mankind.

Stonewall Items.
 The prospect for a fine turnip crop is now excellent.
 The cotton caterpillar is playing sad havoc with that plant.
 There are some severe cases of sickness in different portions of the county.

Mrs. Martha Midyette, of Smith's creek, has a severe attack of hemorrhagic fever and is reported as doing well.
 Bradford Gatlin, and lady, accompanied by the bride and groom, Jas. Gordon and wife, arrived home on Friday evening, all safe.
 It is entirely too wet in some sections of the county. In the immediate vicinity of Stonewall the seasons are excellent, especially for fodder, peas and turnips.

There has been a fine quantity of fodder, and a larger quantity of hay than was ever harvested in Pamlico in any former season. C. H. Fowler saved 190 bales that averages 200 pounds per bale, and many others have saved a fine quantity, and are still at it. Ours is truly a grassy country.
 The steamer Tahoma, after exerting around, arrived at our place on Saturday with a load of goods for our merchants in this place and Bayboro; and while at Bayboro on Saturday evening an altercation took place between two of the hands, colored. George Moore received a lick on the head with an axe from one Isaac —, colored, that would have killed anything else except a goat or a negro, but George filled his place as a hand on the steamer, although it was expected that his skull was crushed.

Jones County Items.
 The grape crop is short, but of a good quality.
 The crab grass hay crop is very inferior with us this season, too much rain the cause.

There will be a protracted meeting in the Methodist church at Trenton, during the present week.
 The Free Will Baptists are holding a protracted meeting at Friend ship church near the crossing of Kinston, Core creek and Trenton roads.
 The crops of corn and cotton will be short with us, we yet claim not over half a crop of cotton, but some claim a good crop of corn, gathering time will prove it.

The Trenton academy opened on Monday, the 16th inst., Miss Willis, as principal with a very full attendance. Trenton has long needed such a school. We hope the parents throughout the whole county will aid the trustees in making school a real success.
 We have had during the past week, a murder in this county, William Sutton, a very industrious colored man was called out of a house on the plantation of W. F. Foy, a few miles above Trenton, by some one supposed to be John Cox, col., and was shot and killed instantly.
 There is a report passing around here that the river steamers around New Berne, have entered into a kind of trust to prevent competition in freights. One line on a certain river pays a bonus of \$1,200 for the exclusive use of that river. We thought that the government

had improved these water ways for the general good and they convenience of the whole people instead of a few steamboat owners.
 Several horses have died in our county, some claim that it is distemper, some lung fever, and some glanders. We have a multiplicity of horse doctors in Jones county, but when several of them are called together for consultation, the generally all disagree as to the disease.

LA GRANGE ITEMS.
 Farmers report cotton opening very slowly.
 The weather is warm. The last three days has been showery.
 Mrs. Sallie Bizzell, an aged lady of our town, died last Saturday.
 Next Sunday is the regular appointment of Rev. Mr. Harrell, Baptist.
 There is but little said of the rice crop. The recent rains will improve it no doubt.
 There are not many cases of sickness in our town, and the surrounding country is fairly healthy.
 Our merchants are still complaining of dull times. When the crops begin to come in business will revive.

James S. Wooten, who was so seriously wounded sometime ago by the accidental discharge of his gun, is improving.
 There has been but little cotton sold in this market the present season. The crop is much later this year than for several past.

Cadets for Davis School continue to arrive. Hardly a train without one. All the professors are at their posts, and the attendance is said to be very good.
 The residence of Dr. Hadley, under the supervision of Mr. Daugherty, is progressing; and the store and the residence of A. J. Sutton, superintended by F. H. Fields, is nearly completed.

It is a hard matter to make a proper estimate of the crops in this section. Farmers from different sections give different reports, being no doubt influenced by their condition in their immediate locality. The past season has been remarkably wet, but the crops in some places do not seem to be seriously damaged, while in others they are almost cut off. From the last information it is safe to say that the corn crop generally, is above the average, and that the cotton crop, generally, is below an average.

Convincing Proof.
 In many instances it has been proven that B. B. B. (Botanic Blood Balm), made by Blood Balm Co., Atlanta, Ga., will cure blood poison in its worse phases, even when all other treatment fails.
 A. P. Brunson, Atlanta, Ga., writes: "I had 24 running ulcers on one leg and 6 on the other, and felt greatly prostrated. I believe I actually swallowed a barrel of medicine, in vain efforts to cure the disease. With little hope I finally acted on the urgent advice of a friend and got a bottle of B. B. B. I experienced a change, and my despondency was somewhat dispelled. I kept using it until I had taken sixteen bottles, and all the ulcers, rheumatism and all other horrors of blood poison have disappeared, and at last I am sound and well again, after an experience of twenty years of torture."
 Robt. Ward, Maxey, Ga., writes: "My disease was pronounced a tertiary form of blood poison. My face, head and shoulders were a mass of corruption, and finally the disease began eating my skull bones. My bones ached, my kidneys were deranged. I lost flesh and strength, and life became a burden. All said I must surely die, but nevertheless, when I had used ten bottles of B. B. B. I was pronounced well. Hundreds of scars can now be seen on me. I have now been well over twelve months."

A wise man embraces an opportunity; the fool hugs a delusion.
Be Sure
 If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, a curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:
To Get
 "In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."
Hood's
 When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I would at myself sometimes, and my friends frequently speak of it." Mrs. ELIZA A. GORR, 51 Terrace Street, Boston.
