THE Virginia Democrats are wide awake now. They have about sixty speakers in the field and old fashioned barbecues are the order of the day.

JUDGE GIBSON C. WOODS, and ex-Delegate Frank Pettigrew have been nominated by the Republicans of South Dakota to represent that State in the United States Senate.

JOHN L. SULLIVAN has had a high old time since he wound Kilrain up. He has gotten through with all the money he won and is now dead-broke. A man who is dead-broke would make a lame run for Congress.—Wilmington Star.

Let Mr. Davis rest in the full assurance that in the calm retirement of his old age he is an object of veneration and respect to all true Southern men, and that they resent any unjust assault upon him as an attack upon the people whom he so faithfully served in the most trying period of their history.—Richmond Times.

SAM JONES is in jail at Hopkinsville, Ky. He attempted the life of a man with a pistol, but was disarmed and locked up. However, it is gratifying to note that the wicked man now in the hands of the law is not the great Sam Jones. The evangelist is preaching away to his admirers, unconscious probably of the shadow that is resting on that unique and classic name.—Washington Post.

THE town of Dothen, Henry county, Alabama, hitherto unknown to fame, has been suddenly brought into prominence by a serious riot, in which several persons lost their lives. It grew out of the refusal of the Farmers' Alliance to pay the license tax on draymen employed at their warehouse that is required of draymen generally. The only race question involved lay between the farmers and the town authorities, and both seem to have got there.

One of the most striking incidents of the shocking tragedy on the electric wires in Chambers street yesterday was the total inability of everybody present, including the electrical employes, to say whose wires they were that killed the man. A better illustration of the haphazard, topsy-turvy, devil-may-care, go-as-you-please way in which the city is governed could hardly be desired, and yet there are people who think that what we most need just now is \$15,000,000 worth of new parks.—New York Evening Post.

It is surmised by some writer that blonde complexion and hair will soon predominate in the United States, because of the large German and Scandinavian immigration. On the other hand, the Italian race, as well as many of the South German South Germany who came to us. The Irish mostly have dark hair, although they generally have fair skin, and blue eyes are common among them.

The English are not all light by any means, but, like the Americans, exhibit great variety in complexion, eyes and hair. Some observing persons say that in New York city the average man and woman are rapidly becoming darker. In these characteristics, like most others, the races which are thrown together in this country offset and supplement one another.—Syracuse Standard.

NEW ADVERTISEMENTS. C. E. SLOVER—Mince meat, etc.

No oysters in market yesterday.

We acknowledge receipt of an invitation to the Edston fair which will be held October 28 to November 1.

Miss Fannie Holland, music teacher at Skinner's school, had a rehearsal of her class last night. The music students are progressing finely.

A party of eight gentlemen from New England are stopping at Hotel Albert. They were here during the war and are now on a visit to the old battle grounds. These are the gentlemen that had previously planned coming and were prevented by the blizzard one time and quarantine regulations another time. We wish them a pleasant visit.

The meetings at Hancock street Methodist church are largely attended and considerable interest is manifested. Rev. J. D. Butts, of Dunn, N. C., preached last night, basing his sermon upon the text Luke xi: 1 to 13, the subject being prayer. The sermon was plain, practical and forcible. After the sermon penitents were invited to the altar and several went up.

A large bear was on exhibition at the market house yesterday afternoon. He was brought to the city by Mr. William Foreman, who caught him in a steel trap last Thursday night in Carteret near the boundary line between Carteret and Craven.

The bear had been growing fat on Mr. Foreman's corn, but at last "put his foot in it." He weighed, when dressed, 163 pounds. Those who are fond of bear may get a fine steak this morning at the market. Some people call it a choice meat, but we won't take any as long as there is any "long clear" around.

Probably Fatal Result from Asphyxia. Mr. N. North, from near Washington, stopping at Hotel Albert, retired to his room Thursday night and neglected to entirely turn off the gas. He was found unconscious yesterday morning and a physician was immediately summoned who did all that could be accomplished to restore life. At a late hour last night the patient was still in a precarious condition, with but little hopes of recovery.

Shipping News. The schooner Mattie E. Hiles, Capt. Ireland, sailed yesterday for the West Indies with cargo of shingles.

The steamer Cleopatra arrived from Swansboro with naval stores, peanuts and other freight.

The steamer Eglet of the E. C. D. line will sail this afternoon at 4 o'clock. The Annie of this line will arrive today.

The steamer Tahoma will sail this morning at 7 o'clock.

Personal. Col. John W. Gorton, of Richmond, special agent of Hamburg-Bremen Insurance Company, is in the city.

Mr. Wm. Osgood, who has been visiting friends and relatives here, returned to his home in the City of Mexico yesterday.

Mr. Harvey Keogh returned to Laurinburg yesterday. He has been here about two months visiting his parents.

Mr. J. V. Williams went to Goldsboro yesterday on a business trip.

"I cannot praise Hood's Sarsaparilla half enough," says a mother whose son, almost blind with scrofula, was cured by this medicine.

Where is the Fault?

Judging from reports in the press, mail troubles are worse throughout the South than ever before known. Almost daily we are told of complaints. A few mistakes after a change of administration should be excused, but it is time now that things should be getting right. Last night's mail contained a letter addressed to the JOURNAL that was one week coming from St. Louis, and it is the exception when some of our State papers arrive on time. We have special reference to those of Durham and Charlotte. Two will come one night and none the next. Where is the fault, and can't it be remedied?

A Sad Day for Game.

Messrs. Ralph Gray, Will Bryan and Will Hollister left yesterday afternoon on a hunting trip down Neuse river. The reporter's heart was filled with sorrow for the birds and wild turkeys and geese and alligators and deer and squirrels and other poor defenceless game, when he saw Gray with three guns, Hollister with three overcoats and Bryan bringing up the rear with his arms full of boxes of ox-tongues, sardines, crackers, etc., etc., step into a row boat at the foot of Craven street and give orders to the oarsman to "pull." We would like to say, too, that we know they didn't go off just to eat that "grub"—we know there is danger ahead for the above named variety of game. The only thing that will save a great slaughter of the beasts and birds of the forest will be the grand reception and cordial greeting with which they will be welcomed to the hospitable home of Mr. Reuben White, where they will spend the night. This may change their plans and cause them to forget their original cruel mission. They told us yesterday, however, that they would kill six turkeys, fourteen wild geese, and five buckets of squirrels, among other things, and we know they always do what they say they will do. We advise their friends to call on them this afternoon at the Clyde line wharf.

There are Advantages for a Paper Mill.

We have been handed the following letter, which was received a few days ago by the secretary of the Board of Trade:

BECKLEYSVILLE, Md., Oct. 14, '89. Mr. Secretary of New Berne Board of Trade,

Dear Sir:—Please send me any information by circular that you may have issued, showing any advantages for establishing a good size paper mill among you. Of course, advantages largely would be, cheap fuel, low freights, easy access to spruce or poplar wood or wood for fuel, medium wages etc. Hope to soon hear something.

Very truly, J. H. BECKLEY.

We know of no place more favorably situated for a paper mill than New Berne. There is already a pulp manufacturing here—the S. H. Gray Manufacturing Company make wooden plate, pulp, etc. Fuel is as cheap as it is anywhere, freight rates are low.

With Neuse and Trent rivers and the creeks tributary to them, which give boats access to the very heart of the swamps, we see no reason why poplar and gum and almost every kind of wood that grows in the State cannot be easily brought to the mill. As to labor, this community can furnish as good and as cheap labor as can be found anywhere.

We respectfully refer the gentleman to the S. H. Gray Manufacturing Company, New Berne, N. C., by corresponding with whom he may get more satisfactory information.

"Just Hear That Child Scream!" said Mrs. Smith to her sister, Mrs. Davis, as the sound of a child's shrieks came across the garden from a neighbor's house. "What kind of a woman have you for a neighbor? Does she abuse her children?" "No, indeed," replied Mrs. Davis. "She is one of the most tender mothers in existence. But you see, she believes in the old-fashioned style of doctoring. When a child needs physic, she fills a spoon with some nauseous dose, lays the little victim flat on her lap, holds his nose till he is forced to open his mouth for breath, when down goes the dreadful mess. Then comes the yells." "No wonder," said Mrs. Smith. "Why doesn't she use Dr. Pierce's Pleasant Purgative Pellets? They are effective without being harsh, and are as easy to take as sugar plums. I always give them to my children." "And so do I," said Mrs. Davis.

Money to Loan. The New Berne Building and Loan Association has on hand money to loan on good security. Persons desiring will please apply early to L. E. Outler, President, or 15d wlv J. R. B. CARRAWAY, Sec'y.

IT WON'T BAKE BREAD.—In other words, Hood's Sarsaparilla will not do impossibilities. Its proprietors tell plainly what it has done, submit proofs from sources of unquestioned reliability, and ask you frankly if you are suffering from any disease or affection caused or promoted by impure blood or low state of the system, to try Hood's Sarsaparilla. The experience of others is sufficient assurance that you will not be disappointed in the result.

Wilmington Review: We heard it stated the other day that the reason why Robinson's circus did not visit Wilmington this year was because the aggregate taxes amounted to \$800 a day. This is what might be called "steep."—The venerable Mrs. Rebecca Brown, of this city, widow of the late John Brown, of Smithville, will, if her life is spared, be 101 years old on the Friday of next week, the 25th inst. She is the oldest resident of this city or section, and it may be that she is the oldest person in the State.

Pamlico Tribune: A correspondent from Oriental writes, that L. B. Midgett killed 60 birds at one shoot; that his three months old puppy set birds the first time he was in the field.—John W. Stille, Esq., of this place is soon to succeed W. H. Sawyer as postmaster. Mr. Stille has forwarded his bond and received his commission.—Vandemere items: Wild turkeys are very numerous around here now and that denotes hog cholera, and its right too.—The sweet potato crops are very fine around here; some have very fine crops of Irish potatoes in our neighborhood.

Wilmington Messenger: Mr. M. Rosenmann, No. 5 Market street between Front and Water, has remodeled and greatly improved his place of business, and has opened up a pants factory, employing from thirty to one hundred and fifty hands in the busy season. He has heretofore manufactured pants on a smaller scale and the experiment has been so successful as to induce him to go into the business on an extensive scale.—A dispatch from Beaufort, N. C., says: "There are two large three-masted schooners outside, lying off and on, and a large steamship under Cape Lookout, apparently in distress. The wind has been blowing a gale from north-northwest since the 14th. Pilots have made two attempts to go out, being prevented by a heavy ground swell."

Yesterday was the red letter day. Thursday is always the big day, but there was never seen such a tremendous crowd as thronged the grounds yesterday since the great exposition. The sight to be seen from the grand stand at about 1 o'clock was one long to be remembered. The space from the grand stand down to forest hall was literally alive with people. Some estimated the number present at ten thousand.

FAYETTEVILLE, Oct. 17.—The regular centennial committee met this afternoon. A letter from Senator Ransom was received, saying that the Secretaries of War and Navy have assured him that the United States Marine band, one hundred and eight pieces, of Washington, D. "WHITECHAPPEL, Oct. 9, 1889.

"Dear Boss:—I write you these few lines to let you know, as you are the boss of the vigilance committee, that the last job was not me. You might have known it was not me, for I would not have made such a botch of it.

"Never mind, young man; you can keep your lamps open for the 18th of October. I am on the job again. There's no blood knocking about, or I would let you see some. Never mind look out, old man; you're a brave sort. You thought you had me once. Yours in haste, Jack the Ripper."
