**"LORD, not the least, but the most I can do for Thee."** Fitting words for the lips of every Christian.

If you do not wish for Christ's kingdom do not pray for it. But if you do, you must do more than pray for it; you must work for it. — Buskin.

**THE Southern whites** are beyond all doubt the best, the kindest, the most sympathetic friends that the negro race has, but they seem unwilling to believe it. — Wilmington Messenger.

**THE power of Christianity** centres in the person of its Lord, and the Christian motive that is strongest and most powerful always is "for my sake." — Dr. Wm. Taylor.

**NOTHING** is more expensive than penuriousness; nothing more anxious than carelessness, and every duty which is hidden to wait returns with seven fresh duties at its back. — Charles Kingsley.

**THERE** is a burden of care in getting riches—fear in keeping them, temptation in using them, guilt in abusing them, sorrow in losing them, and a burden of account at last to be given up concerning them. — Matthew Henry.

**In every useful life** there must be eternal rest. There must be something believed in so firmly and so continuously that it holds to itself the mind and the heart. Therefore it is that the apostle says:—"Be ye steadfast, unmovable." — Reuben Thomas.

**THE child's soul** is more tender than the finest or tenderest plant. It would have been far different with humanity, if every individual in it had been protected in that tenderest age as befitting the human soul which holds within itself the divine spark. — J. Froebel.

**THERE** is nothing novel in the means by which the Republicans propose to obtain control of the Legislature of Montana and thus secure two United States Senators. It is precisely the same old trick played so often of old in Louisiana and other Southern States. They have no returning board in Montana, but county canvassers who serve the same purpose. — New Orleans Times-Democrat.

**We cannot always be sure** when we are the most useful. It is not the sargeon you sow, it is the multiplication which God gives the seed which makes up the harvest. You have less to do with being successful than with being faithful. Your main comfort is that in your labor you are not alone; for God, the eternal One, who guides the sowing of the stars, is with you.

**With a Chinese wall** erected in time of war and manned by Republican agents of monopoly in

time of peace, the United States are necessarily excluded from the chief mails of the world. Not only this, but it has to sell mostly with one exception, to countries that have a Chinese Wall of their own of huge dimensions, and that are constructed so as to practically exclude, to a considerable extent, American products.

**SALVATION**—what music there is in that word; music that never tires, but is always new, that always rouses, yet always rests us. It holds in itself all that our hearts would say. It is sweet vigor to us in the morning, and in the evening it is contented peace. It is always singing itself deep down in the delighted soul. Angelic ears are ravished by it, up in heaven; and our Eternal Father, Himself, listens to it with adorable complacency. It is sweet even to Him out of whose mind is the music of a thousand worlds. To be saved! What is it to be saved in the fullest and utmost meaning! Who can tell? Eye hath not seen nor ear heard! It is a rescue from a shipwreck! It is a rest—and in such a home. It is to lie down forever in the bosom of God, in an endless rapture of insatiable contentment. — F. W. Faber.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.** CHARLES L. WARREN—Sale. PROF. SHEPARD—Tonsorial artist.

Jones county Superior Court convenes tomorrow.

The steamer Eaglet of the E. C. D. line took for Mr. G. L. Hardison 42 boxes of green peas yesterday.

Not wishing to conflict with the Hancock street M. E. church services, and that of the Presbyterian church, there will be no meeting at the Y. M. C. A. this evening.

We are pleased to know that Prof. Adams, principal of the New Berne High School, is going to adopt instruction in vocal music in his school. We have always regarded this an important branch and one that has been neglected entirely too much.

The young men in the Vanceboro section propose having a foot tournament the 24th of November at the Penn Willis place about five miles from the village. It will be open to all who wish to join. They extend an invitation for the public to be present.

The management of the gas works showed commendable enterprise. There was no inconvenience at all to consumers caused by the fire on Friday. The superintendent, Mr. John C. Green, had things in working order by three o'clock yesterday afternoon and the regular supply of gas was furnished last night.

We acknowledge receipt of an invitation to be present at the Centennial reception and ball complimentary to Miss Winnie Davis, at Fayetteville, November 29. The invitation card is elegantly engraved, and is of the most tasteful design. On the inside, on the left hand page, are the names of the invitation committee, reception committee, ball managers, etc., and on the right hand page are the words and music of "The Old North State."

**Female Baseballists Coming.** Mr. Chas. Reizenstein, manager of the New Berne baseball club, received a telegram yesterday from the Chicago female baseball club at Raleigh saying that they would accept the call of the New Berne nine and play them next Wednesday evening at the Fair grounds.

**Mayor's Court.** The following cases were disposed of yesterday: Sophia Fisher, colored, chap. 5 sec. 3, drunk and disorderly in the city limits, fined \$5 and cost. Henry Barnes, colored, chap. 2, sec. 5, for refusing to assist an officer in discharge of his duty; after making excuses, let off on payment of cost.

**Personal.** Mr. J. T. Wetherington, of Cove, was in the city yesterday. He called to see us and had his name put in our Weekly subscription list.

Rev. N. M. Jarney was in the city yesterday. He says the fishing along the coast is better than ever known. Messrs. A. M. Baker and Charles L. Chabell, who have been in the city for several days, left for New York yesterday.

At Hotel Albert: J. M. Broadus and wife, Vanceboro; W. W. Harris, Jr., Baltimore; Julius Klein, New York.

## The New Berne High School.

Elsewhere on this page appears a card from Prof. George W. Neal, announcing his acceptance of the Chair of Mathematics in the New Berne High School. This means that Prof. Neal has given up his school at Lowthrop Hall and his services have been secured by Prof. Adams, principal of the High School. Prof. Neal will be Professor of Mathematics. His influence will be directed to the High School. His school closed with an attendance of thirty-eight pupils from good patrons. These will no doubt follow him to the High School. He is a teacher of many years experience, is a scholar, and will fill the position of teacher of mathematics in a manner satisfactory to Prof. Adams and the patrons of the school.

The High School has started out with flattering prospects. It is now in a flourishing condition. Prof. Adams, we think, is the right man in the right place. He has the qualifications essential to the management of a large school. He is a man who draws—[man of pleasant address, of even temperament, and firm; a man of high character.

New Berne and the surrounding country will support a good school. There is no reason why it should not. In the High School we have the promise of an educational institution where the children, young men and young ladies of this section of North Carolina may be educated; where they may be given at least a first-class academic course.

It takes time to establish a school. The New Berne High School, when it is more widely known and a reputation is made, will be well patronized by the people of this entire section of North Carolina.

**Unprecedented Catch of Fish.** Over eight thousand grey trout were caught at Beaufort Friday with hook and line. The like has never before been known in the history of fishing. They are caught out beyond the sea buoy in about sixty feet of water. The report is astounding, but nevertheless it is true. Through the entire season the catch of fish at Beaufort and Morehead has been marvelous, so much so that fishermen are at a loss to account for it. Every day heavy shipments come up over the A. & N. C. Railroad for various places of destination.

Some of the experienced fishermen of this city attribute the cause to the northerly winds that have prevailed for the last few months. Also they predict that if these winds continue unabated will be driven into the creeks and rivers, and a large run may be expected.

## Shipping News.

The steamer Eaglet of the E. C. D. line sailed yesterday with a cargo of cotton, lumber, etc. The Annie of this line will arrive today and sail tomorrow afternoon at 4 o'clock.

The steamer Howard arrived yesterday from up Trent river with a cargo of cotton.

## NORTH CAROLINA NEWS.

### From the State Papers.

There are at present fifty-two students at the Agricultural and Mechanical College.

The Wilmington Review says an unusually interesting marriage took place at Masonboro Sound, October 23. It was the marriage of a deaf mute couple. "Some little difficulty was experienced by Mr. Heide (magistrate) in conveying to the couple the words of the marriage service, but this was overcome through the assistance of a relative who could communicate with them. It is not often that a marriage of this nature is recorded."

The News and Observer says two colored workmen were buried alive while at work on the sewerage line in Raleigh. They were at work in an excavation eight feet deep. A large slice of earth ten or twelve feet long caved in on them and entirely covered them up. A force of men immediately set to work to dig them out and they were uncovered before being killed. It was a narrow escape, however. One of the men had two ribs and a collar bone broken and the other was seriously mashed and bruised.

Raleigh News and Observer: There is a venerable old sassafras tree in Capitol Square just a little to the left of the Fayetteville street entrance, which is known to be 250 years old. A prominent botanist examined the tree a few days ago and stated that there were unmistakable evidences that it was over 350 years old. It is said that the Indians used to camp under this very tree. — It is generally estimated by cotton men that the crop in this section will be about one-fifth off. Both the summer rains and the very early frost have played a part in bringing about the shortage.

Wilmington Star: The Raleigh Visitor in mentioning the fact that Mr. T. W. Poole, of Williamson, who has been designated as State agent in the disposal of the swamp lands which may be offered for sale, will shortly be in Raleigh to secure maps, etc., of the tracts to be disposed of, insists that the lands must not be allowed to become the property of designing speculators, but that the State of North Carolina, and the schools for whose benefit they are held, should reap some benefit from them. Of course in the large body of these swamp lands there is some of little value, and some of considerable value, valuable for the timber if nothing else, and by judicious management they could be made to yield a very handsome return.

## LATEST NEWS.

**Effects of Heavy Weather** at Sea—Hon. A. G. Thurman III—The Howard-Turner Feud, Etc., Etc.

**BALTIMORE, Md., October 25.**—Carl Grane, fireman, and Ludwig Lorder, seaman, two survivors of the crew of the steamer Eardmore, told last night a story horrible in its details of the way they sustained life by cannibalism.

A special from Cape Henry to the Virginian last night says: "Telegraphic information from False Cape, Va., at sunset this evening is to the effect that three men are still lashed to the rigging of the sunken vessel south of that point. The life-saving crew cannot reach the men, whose lives are in imminent peril, as the sea is too heavy to admit of a boat being launched, and the sunken vessel is too far from shore to be reached by a shot line. The life-savers have little hope of reaching the men for some days, by which time it is thought all will have perished. The only hope is that some passing vessel will rescue them."

The crew of the three-masted American schooner Frank O. Dame, ashore near Little Island, are being cared for by Capt. Payne of that station.

**CINCINNATI, October 25.** Hon. Allen G. Thurman did not complete his speech at Music Hall last night, but was compelled, on account of failure of strength, to stop suddenly. Putting his hands to his sides he said: "I would like to have stated more to you, but I am unable. As soon as he was able to go he was taken to a hotel, where he could have rest. He regretted this infirmity very greatly, because, as he stated afterward, he had reserved for the closing part of his speech some good words for the Democratic candidate for Governor."

**LOUISVILLE, Oct. 25.**—A Times correspondent telegraphed from Pineville this afternoon as follows:

County Judge Lewis and his posse of sixty men left Harlan Court House at 9 o'clock in the morning to make another assault on Howard's camp. Howard, anticipating this movement of the Judge, had placed his followers in ambush near the town. The Lewis' posse passed directly through the ambush and were not fired on. After they had got beyond their foes and were proceeding in the direction of where Howard's camp was supposed to be, the Howard party moved into town and took possession of the court house. They have complete control of the town, with pickets stationed at all the approaches, and the county judge and his followers have gone into camp outside the town. It is believed that Judge Lewis will endeavor to recapture the court house today and a bloody fight is expected.

The game of baseball between the New York and Brooklyn clubs for the championship of the world, played on Friday, resulted—New York, 3; Brooklyn, 1. This is the best game played yet. Out of the six games played New York has won three and Brooklyn three.

**RICHMOND, Va., Oct. 25.**—A movement has been started here to do away with negro servants and substitute white domestic servants. There are few white domestic servants here, but it is proposed to import them.

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsaparilla will give strength to the system, and expel all poison from the blood.

## To the Public.

**EDITOR JOURNAL**—Please allow me, through the medium of your paper, to express my most sincere thanks to friends for their liberal patronage to my school in the past, my great pleasure in serving them, and also to announce my acceptance of the chair of Mathematics in the New Berne High School. Feeling an earnest desire to unify and develop the educational interests of all our people for the future, I have decided to unite my efforts with Prof. G. T. Adams, who is vigorously and successfully bending his untiring energies to build up a High School equal to the great and noble cause it represents.

I would say to my patrons, whom I highly esteem, that I trust they will freely extend their patronage to the High School, with full assurance that I shall always be glad in every situation to promote the success and happiness of their children. Very respectfully, GEO. W. NEAL.

**WASHINGTON, D. C., Oct. 24.**—Postmaster General Wanamaker has awarded the contract for furnishing adhesive postage stamps for the four years beginning on the 1st of January next, to the American bank note company of New York, the lowest bidder. Mr. Steel, of Philadelphia, having failed to comply with his proposal. The award was made for stamps of a reduced size, the new stamps being about one-eighth smaller than those in present use. The designs will be changed to conform to the reduction in the size of the stamps, and new engravings will be made throughout. The new contract also calls for some changes in the colors.
