**GOLLY,** look's changed! We had fore seen now we have none.

**TAKE** it up tenderly, brush it with care, it has no business there, Grandpa's hat.

It is said that McKinney's candidacy for speaker is utterly barred by the Ohio election.

**GOVERNOR FOWLE** has issued his proclamation designating the 28th inst. as a day of thanksgiving.

**WILL Harrison** be made President a second time? The answer is to be found in reading the name Harrison backward.—*Courier Journal.*

**NEW YORK** papers say "Warner Miller declines to talk." "Platt has nothing to say." They can console themselves that they are with the majority in one respect; they are thinking.

It is hinted that the German Emperor contemplates coming over to this country. If he should do so, take up a quarter section of land and settle down, the young man might do well.—*Wilmington Star.*

**REED,** of Maine, is not the only Republican who has been made happy. If the "result" secures him the speakership. It gratifies disappointed office seekers, and they are chattering as merrily as coons at a cake walk.

**THOSE** thousands of starving farmers in North Dakota, must derive infinite consolation from the reflection that they enjoy the blessings of a "home market," and that by their votes they have helped to secure these blessings.—*Boston Post.*

**NEXT** to their rebuke of the Pharaonic and pledge-breaking Administration of President Harrison, the most significant meaning of the elections on Tuesday is the indorsement given to the Democratic demand for tariff reform.—*New York World.*

**NEXT** to the glad rejoicings over the victory in Virginia, every Democrat will unite in thanksgiving that Bloody Shirt Fire Alarm Third Term Foraker has been defeated by the gallant standard bearer of the Democratic forces, Congressman Campbell. This result sends Foraker to the rear in his political ambition. This is a bad year for little Napoleons. Mahone and Foraker, always light-weight physically, will hereafter be very light-weights politically. Hurrah for the Democracy of Ohio!—*Norfolk Virginian.*

This returns from the State, though meagre, are sufficient to show that the Democrats have gained a famous victory. The result shatters the last hope of the Republicans entertained of breaking the solid South—without the aid of a national election law. That, in all probability, will be the next move on the political chessboard. Either Senator Edmunds' bill of Representative Hook's bill, providing for national supervision of federal elections will become a law, and it will require no great stretch of construction to embrace in this supervision the election of a legislature that had the choosing of a United States Senator. **The Oyster Question.**  
With regard to the violation of the oyster laws, referred to in the JOURNAL, it is reported that a large schooner has been loading in Pamlico sound by means of boats and negro long-men imported from Virginia; and that a Virginia oyster dredger is at work in Long Shoal river. The Elizabeth City Economist notes the passage of another dredger.

What will become of the North Carolina oyster industry if this continues? The Virginians at first paid high prices in order to induce our oystermen to break the law. Now they break it themselves. We are glad to note that the Hyde county commissioners have taken active steps to remedy this evil. Let the other counties do the same.

**Theft and Forgery.**  
John Barnes was arrested yesterday for stealing a check from Simon S. Jones. Both parties are negroes. Barnes claims to hail from Goldsboro, and Jones is office-boy at the office of Gen. Robert Ransom. Barnes stole the check and other papers from Jones's coat pocket. After he got the check he went to work to devise some means by which he could get it cashed. The check was payable to Jones and had to be endorsed by him, so Barnes called himself Jones and went to Major W. L. Palmer and made "his mark" on the back of it, and Major Palmer signed it as witness, not knowing, of course, that there was anything crooked about it. Barnes thus added forgery to theft.

Barnes was suspected and notification was sent to police headquarters. Officer J. E. Gaskill went out to arrest him and it was not long before the guilty man was captured, somewhere in the West End district.

Barnes had a hearing before Justice Brinson and \$200 bond was required in such case for his appearance at next term of the Superior court. In default of bail, he was sent to jail.

### Fine Fruit.

Mr. J. J. Wolfenden gave us a sample of apples which were grown on his farm a few miles from the city. The fruit in appearance is very much like the Northern apples which are handled by our merchants. They are large, firm, and of a most delicious flavor. We have been no finer apples anywhere. Mr. Wolfenden has about five hundred trees of this kind, the "Bon Davis." The trees are seven years old and have just begun to yield well. He showed us also a "Russet" apple which was very fine. He has a variety of other fruit trees on his farm and also a vineyard, all of which are bearing good crops.

This is an evidence of the adaptability of this climate to apple-raising. With the same attention given to the business here that is given to it in the North, we could produce our own apples the year round.

**The Fire Yesterday—Incidents.**  
The alarm of fire yesterday came from the house belonging to Ray, Mr. Forbes, on Pollock street, above Berne. Sparks from the chimney set the roof on fire. It was quickly extinguished, however, and very little damage was done. The fire department responded promptly, but its services were not needed.

The alarm created unusual excitement. A certain man was in his office counting money, a considerable pile of a high fifty lucra was on his desk. At the tap of the bell he bounced and ran out wildly, leaving his office open and no one in it. Fortunately for him, perhaps, everybody else was looking for the fire, too.

A dentist had a death grip on a poor patient's jaw-bone, but when the alarm was sounded he dropped his hold and made a dash for the street. No doubt the tooth-ache individual regarded the alarm as a god send.  
It was a long time before the people found out where the alarm came from. If all reports had been true, about one-fourth of the city would have been ablaze.

### RAMBLES ABOUT TOWN.

"Alas! what lofty devotion, what blissful recollections, what high hopes, what unsullied love, what pure affection, what ardent patriotism, has been swallowed up by thee, thou unrelenting past."

There is something melancholy in the changes of time, notwithstanding they may cause solid improvement. Who has not felt the truth of this assertion? It is not merely in towns and cities these changes are occurring, but also in customs and institutions. Our fathers mourn to be driven from their accustomed habits; our mothers grieve to witness the fashion of their daughters. The wheels of time will roll on and bury in the dust the works of yesterday preparatory for their improvement of today.

Let us unroll the mouldering record of a century. What scenes are presented to the imagination while we stand at the corner of East Front and Change streets. Look down the roll first seventy years, and we have by us the form of Benner's Vail, President of Harlowe and Clubfoot Creek Canal Company. His residence is now owned and occupied by Mrs. Mary Bayard Moulton. Still further back, one hundred and fifty years, five generations from herself and brother, W. E. Clarke, Esq., who resides in the house on the adjoining lot, and we see before us a courtly man, their grandaunt, Thomas Pollock, then the proprietor of the land on which "Newbern" is built, and many thousand acres around it. The stock in the Canal Company was in demand, and to supply those in quest of it the books about this time, 1813, were reopened by act of the Assembly for subscribers. This year the steamboat "Norfolk" was bought by a Newbern citizen, William Gaston, president, and Stephen M. Chester, secretary. The boat was put on the line and run to Elizabeth City, connecting with stages at either end. This was designated as the through line from New York to Orleans. It was, we believe, the first steamboat owned in the State, and not one now, that runs to this place, could make better time. Its stated cost was \$85,000.

Our fathers would sometimes combine for the improvement of the town. Their sons never would. They are not unlike four horses in a wagon—each one is afraid he will have to carry the load and the other "will get there first." Thus none can accomplish the journey while they pull in different directions.

Chester, the secretary of the company, was a poet, and from what we learn the arrival of the steamer in our waters created as much turmoil and excitement on our streets as does in this day a vagabond circus. Hear him: "We could not speak, or think, or dream, Of anything but boats and steam. At length the glided bauble gave Its beauty to the expectant wave— Had Cleopatra's Barge appeared It had not been more gaily cheered; Hundreds flock'd down to see the wonder.

In spite of rain or even thunder; And such enrapture to possess it 'Twas not in language to express it.

Looking South, directly before us, just one century ago is the residence of Col. Joseph Leech, where is now the mansion of Basil Manly, Esq. Its surroundings now are very different from what it was in the time of Leech. Then, turning West, were creeks and marshes, where now stands the neat white houses called "Hills row," and occupied by Capt. Joseph Hill, Mr. Thomas Gaskill and Mrs. Carrie Hill.

South, on Mrs. M. E. Manly's lot, then over the creek, is Bryan's Tavern, ranking with a Hotel Albert in its palmy days.

Southeast, where is now the residence of Judge Seymour; and that of the Misses Justice, then were no buildings. The view was unobstructed down the Neuse.

East, was the Spaight store and wharf, now changed, except the historical cypress in the garden, now, of S. W. Swallow, Esq., still unbent and unbroken, changing only with the seasons—its green altered to brown, then discarding that, stands forth like a giant, ready to defy the loud winter winds that may grieve through its naked boughs for centuries to come as it has centuries past.

(To be Continued.)

**The Fruit of Violence.**  
In no case is the folly of violence in medication more conspicuously shown by its fruit than in the effect upon the intestines of excessive purgation. The stomach and bowels are first painfully gripped, then the latter is copiously, suddenly and repeatedly evacuated. This is far beyond the necessities of the case, most unnatural, excessively debilitating. The organs are incapacitated from resuming their function with normal moderation. An astringent is resorted to which reduces them to their former condition of inaction. To this monstrous and harmful absurdity, Hostetter's Stomach Bitters is the happy alternative. It relaxes gently, naturally, sufficiently, it diverts bile from the blood into its proper channel, it insures healthful digestion and complete assimilation. It is a complete defence against malaria, and conquers rheumatism, neuralgia, nervousness, kidney and bladder trouble.

**WASHINGTON, Nov. 8.**—The President today issued a proclamation admitting Montana as a State of the Union.

**ALTOONA, Penn., Nov. 8.**—A collision between a freight and gravel train occurred five miles west of here today. Nine men were killed and about fifteen injured, but none fatally.

**DES MOINES, Ia., Nov. 8.**—At 12 a. m. the revised figures at the register's office gives Boies for Governor 4,790 plurality, and indicate the probable election of all the Republican State ticket except the Governor.

**SANFORD, N. C., Nov. 8.**—Last night about 8 o'clock, Mr. J. M. Monger's large hotel building, caught fire from a store in the rear, in which a kerosene lamp had exploded and set fire. Owing to prompt response to the alarm by the citizens the building was saved with a loss of about \$1,000.

**ATLANTA, Ga., Nov. 8.**—There are grave fears here that E. W. Barrett, Washington correspondent of the Atlanta Constitution, has been murdered by the Rube Burrows gang. Two weeks ago he went into Alabama to obtain, if possible, an interview with Rube Burrows, and was in the posse which pursued him.

He went to the house of Rube's father and had an appointment to return this week. He went to Sulligent Monday night, and getting a horse and buggy, drove out to the neighborhood of Burrows' house. He has not been heard from since. He was to have kept up communication with the main office but no word has been heard from him there. The Constitution tonight telegraphed to the Marshal of Sulligent to investigate Barrett's whereabouts.

**LAREDO, Mexico, Nov. 8.**—News has reached the commander of the Mexican troops in Nuevo Laredo, opposite this city, of serious trouble which is now going on in Mier, Mexico, down the Rio Grande from this point about 150 miles. Last Sunday a merchant, named Outerries, was shot and killed by two customs guards, who claim he refused to stop and be searched on the road between Mier and Camargo. On their arrival in Mier, they reported the affair and the citizens were so incensed that they raised a mob and lynched them. About forty or fifty Mexican troops and a body of fifteen or twenty customs guards arrived there too late to save the lives of the guards, and a general battle occurred, resulting in the death and wounding of some ten or fifteen parties. Reinforcements were telegraphed for to Matamoros. The town, at last accounts, was in an uproar.

**WASHINGTON, Nov. 8.**—Owen Anderson, an 18 year old boy, was lynched in Leesburg, Va., early yesterday morning. Anderson, on Wednesday evening outraged a respectable 17 year old white girl, who was returning home from school. He was arrested, confessed his guilt and was locked up in Leesburg jail. A crowd of men obtained admittance to the jail by pretending they had a prisoner, and when inside, overpowered the jailor and secured his keys. They dragged Anderson to a derick in the neighborhood and strung him up, afterwards riddling his body with bullets.

**DENVER, Col., Nov. 8.**—An unparalleled snow storm is reported from New Mexico. Thousands of cattle and sheep have perished from exposure and want of food, and there is much suffering among the people, a number of whom have frozen to death.

A special from Dayton, New Mexico, says: "Unless the snow storm which has been raging for eight days, comes to an end soon, next summer will show the country covered with dead bodies of animals as was the old Santa Fe trail in the sixties."

The depth of the snow is now not less than twenty-six inches on a level and many places it has drifted seven feet high.

Five cow men are known to be frozen to death. Two Mexican sheep-herders have been found frozen to death. Two men coming in this morning report drifts in some places seven and eight feet high in which there are hundreds of dead stock, many with horns and head above the snow.  
It is estimated that 20,000 sheep have perished in this part of the territory. The hay supply is nearly exhausted and it is said \$100 per ton was offered by stock men.
