Mr. Etheridge brings with him a letter of recommendation from Rev. Dr. T. F. Jones of the first Baptist church of Norfolk.  
The Kingston Free Press says: Messrs. Haddon & Rountree, of Bell's Ferry, made an assignment last week. The assignees think all liabilities will be paid in full by January 1st and business resumed. The assets are \$10,000, consisting of stock \$3,000, new accounts \$7,000. Liabilities about \$4,000. Both members of this firm are clever young gentlemen and have the sympathy of the people in their misfortune.  
On the second page we publish today a short article from the News and Observer, headed, "Gov. Fowle on his trip to Charlotte." The Governor speaks of the co-operative manufacturing in Charlotte, and suggests that such an enterprise could be made a success in Raleigh, etc. Our readers will see that backbone is just so essential as money in these enterprises.

C., Nov. 13.—Trains arriving in Henderson last evening were crowded with passengers and this morning the beautiful little city is alive with guests who have come as delegates to the 59th annual meeting of the Baptist State Convention which convened at 10 o'clock this morning in Burwell Hall.  
In the absence of the President and Vice-President Hon. John C. Scarborough was chosen President pro tem. Rev. A. G. McManaway opened the meeting with scripture reading and called upon Dr. O. C. Biting, of Philadelphia, who led in prayer.

CHATTANOOGA, Nov. 13.—There is great excitement here over the announcement that the steamer A. C. Conn, a Mississippi craft, has passed through the Muscle Shoals Canal and will arrive at the wharf in this city tomorrow morning. This is the first vessel which has passed through the great canal, now about completed. The construction of canals to overcome obstructions in the Tennessee river at Muscle Shoals was commenced by the government in 1873, and nearly \$4,000,000 has thus far been expended on the work. The opening of the canals, which will formally take place in a few weeks, will give water transportation nine months in the year from Chattanooga to the Mississippi river.  
PARIS, Nov. 13.—A dispatch to the Figaro, from Rome, says an Italian cruiser and two torpedo boats have been despatched to Tangier to demand satisfaction from the Moorish authorities for the burglary committed by the Moors at the office of the Italian Charge d'Affaires. If the demand is not granted, the Figaro says Tangier will be bombarded tomorrow.  
RICHMOND, Va., Nov. 15.—Notwithstanding the large Democratic majority of last week, the Democratic leaders intend to have the Legislature change the election laws. Senator John W. Daniel said to the Post correspondent that he favored the Australian system, with certain modifications, but he declined to say what the modifications were. Governor Lee says that a change in the present law is doubtless needed, but he is not prepared to say whether he will recommend the Australian system or not. He is rather inclined to think that the Australian plan, with a few changes, might answer.  
BERLIN, Nov. 13.—The Emin Pasha relief committee will instruct Captain Wissman to dispatch with all possible speed a caravan to the relief of Henry M. Stanley and his party.  
WOODBURG, N. J., Nov. 13.—At 10:30 o'clock this morning James M. Hillman was hanged in the corridor of the county jail here for the murder of a Jewish peddler, Zaidman. When the sheriff pulled the trigger holding a 450-pound weight on the other end of the rope, the bed-spring up into the air a distance of 15 feet. The rope failed to tighten and the man slipped around on the stretched man's neck. He groaned and shrieked and his cries could be distinctly distinguished as he struggled with his arms and finally succeeded in sufficiently freeing his hands to almost reach the rope. The hangman stood by, and reaching up to the noose finally succeeded in getting it around the weight of his body rested on his throat, and life was slowly strangled out of the man. The struggle lasted for two or three minutes and until the hangman got the noose under the skin.  
WASHINGTON, Nov. 13.—It is estimated that it will cost \$10,000 to repair the damage done by the recent storms to the new silver vault in the Treasury court, in which nearly \$100,000,000 standard silver dollars are stored.  
WASHINGTON, Nov. 13.—The new Catholic University of America was today formally dedicated and opened with impressive ceremonies in the presence of a large number of prelates of the Church and distinguished laymen from all parts of the country. A large part of the ceremonies, however, had to be omitted on account of the inclement weather.  
The interior decorations of the building were simple but effective. The national colors predominated in everything. The banquet hall was specially attractive. Masses of cut flowers, palms and other foliage plants occupied every available space, while flags, both large and small, were draped about windows and doors, and festooned from ceiling and chandeliers.  
Secretaries Tracy, Noble and Widom, and Attorney-General Miller, arrived in time to participate in the banquet, which took place after 1 o'clock. Covers were laid for about two hundred and fifty guests at dining table and banquet hall were handsomely decorated with flags and flowers. ### Dumplings with Royal Baking Powder

No dessert is more delicious, wholesome and appetizing than a well-made dumpling, filled with the fruit of the season. By the use of the Royal Baking Powder the crust is always rendered light, flaky, tender and digestible. Dumplings made with it, baked or boiled, will be dainty and wholesome, and may be eaten steaming hot with perfect impunity.  
RECIPE.—One quart of flour; thoroughly mix with three teaspoons of Royal Baking Powder and a small teaspoon of salt; rub in a piece of butter or lard the size of an egg, and then add one large potato, grated in the flour; after the butter is well mixed, stir in milk and knead to the consistency of soft biscuit dough; break off pieces of dough large enough to close over four quarters of an apple (or other fruit as desired) without rolling, and lay in an earthen dish (or steamer) and steam until the fruit is tender. Bake if preferred.  
In all receipts calling for cream of tartar and soda, substitute Royal Baking Powder. Less trouble, never fails, makes more appetizing and wholesome food, and is more economical. Royal Baking Powder is specially made for use in the preparation of the finest and most delicate cookery.

## NORTH CAROLINA NEWS.

From the State Papers.  
Mr. Ed. A. Oldham, late of the Durham Globe, will locate in Washington, where he proposes to open a North Carolina News Bureau.  
Kingston Free Press: Mr. J. W. Creech, of Institute made an assignment Monday to Mr. J. W. Grainger. Liabilities about \$15,000; assets about \$8,000; and preferred credits about the same as assets.  
Wilmington Review: There is a peculiar incident connected with the death of Mrs. Elizabeth Lander, which occurred in this city last Saturday. She had a pet cat which was 20 years old and which died within one hour after Mrs. Lander breathed her last.  
It is said that at least a bushel of pure gold has been taken from the Saunders "find" in Montgomery county (reported in this column yesterday). All work is stopped and the place is guarded, pending the arrival of the Sanitary Brothers from Texas. They own the land.  
Elizabeth City Economist: The fourth anniversary of the Elizabeth City Fair closed on Friday, and the public will bear us out in the opinion that it was a success, notwithstanding the postponement of its first appointment on account of the weather, and other impediments to its successful progress.  
Wilmington Messenger: Messrs. Alexander Sprunt & Son cleared yesterday the British steamship Lochmore, Capt. Hawtitt, for Liverpool, with the enormous cargo of 3,000 bales of cotton weighing 3,963,777 pounds and valued at \$896,300. This is the largest and most valuable cargo ever cleared out of the port of Wilmington, averaging nearly 100 pounds of cotton more to the ton register than has ever been stored here before, the vessel having a burthen of 1,603 tons net register. The Lochmore with her cargo draws 17.6 feet of water, mean draft.  
Raleigh News and Observer: Josiah Stanfill, the late postmaster at Selma, gave his bond yesterday and was released from jail.—It was rumored here yesterday that a negro named John Bumbass had shot a mule belonging to Mr. John Bird, of Chatham county, and that upon being arrested he had been taken from the sheriff and lynched. In answer to a dispatch last night a special to the News and Observer stated that the negro was rescued from the sheriff on Sunday night 19 miles from Pittsboro by a party of negroes disguised.  
Asheville Citizen: We were asked, a few days ago, what we thought of the future of Asheville. Our answer was: "In fifteen years, Asheville will be a city of 100,000 people." The answer was surprised and doubtful; but we are still of that opinion. The almost certainty of two other great railroad lines; one from the North, (crossing at Asheville towards Atlanta, and the other coming up from the Atlantic Ocean through the great Broad River section, to this city, will make this place the greatest intermontane city in the United States. No other place in the mountains has so many natural advantages, or can become so great a railroad center. Those who live to see the year 1905, if we are not deceived, will find here a great city with many kinds of industries, and the greatest health and pleasure resort on the continent. J.

## THE DEMOCRATIC GAINS IN MASSACHUSETTS

The Democratic gains in Massachusetts were largely in manufacturing towns. Sorely the leaven of Tariff Reform will leaven the whole lump.  
It is said President Harrison has inaugurated a new custom for Presidents. He now takes moonlight walks. This was probably begun since Tuesday. Moonlight nights are a good time for meditation.—Savannah News.  
Those familiar with war scenes will recall that the negroes were the first to frighten at the approach of troops. Perhaps it was the attitude of the Flory Foraker and Fighting Mahone which drove so many of them in Ohio and Virginia to run away from the polls or vote the Democratic ticket.—New York Star.  
It is altogether probable that New England people have more capital engaged in iron manufacturing and immediately allied interests than ever before. The competition of Southern iron which is being felt here so keenly is largely created by the investment of New England capital in the South.—Boston Advertiser.  
SAYS a contemporary, in a spirit which even Mark Twain might have envied: "The Republicans have held their own." This reminds one of John Phenix's encounter with a Western tough, in which he held his antagonist on the floor by inserting his nose between his adversary's teeth.—Philadelphia Record.  
PRESIDENT HARRISON has found out that it doesn't pay him for the Government to interfere in Southern politics. The Southern people believe that they should be allowed to manage their own State affairs, and they are disposed to protest vigorously when the Government steps in and tries to take control.—Savannah News.  
Good class organizations whose objects were entirely worthy, have time and time again, lost their bearings and wrecked themselves, whenever they have entered on the sea of politics. All classes may rightly combine for mutual aid of the respective members, but the instant any single class undertakes to pressure the government for the special ends of its individuals, they are in the end of that organization.—Charlotte Chronicle.  
APPLE culture ought to be a great industry in North Carolina, and should give the farmers of our State annually many thousands of dollars, which it would do if the attention were given to it which it deserves. There is no portion of North Carolina from the sea shore to the mountains where the apple does not grow to perfection and yield abundantly, and in number of varieties surpassed nowhere, from the Blenheim and the Golden-moth, measuring four or six inches in diameter.—Wilmington Star.
