

# THE DAILY JOURNAL

VOL. VIII.—NO. 195.

NEW BERNE, N. C., SATURDAY, NOVEMBER 16, 1889.

PRICE 5 CENTS.

## BUSINESS LOCALS.

**MINCE MEAT.** Raisins, Currants, Chops, Smoked Beef Tongues, Buckwheat, Hammy, Split Peas, Macaroni, White Beans, Hams, Shoulders, Breakfast Sausage, Corned Beef, Coddish, Fresh Canned Goods, Chocolate, Tapioca, Cocoa. C. E. SLOVER.

**FINE STALL-FED TURKEYS** at DAL'S this morning. 15 3t

**LOST, R. B. STOCK.**—Notice is hereby given that certificate of stock No. 298, A. & N. C. R., having been lost, application will be made for duplicate. nov1-1m.] MRS. HANFF.

**NO WELL-regulated family** can afford to be without a "Zeb Vance" Cook Stove. Oct. 11 ft. WHITTY & GATES.

**LOADED SHELLS.** Club shells, wads, Breech-loading guns, Repeating rifles, etc. Oct. 11 ft. WHITTY & GATES.

**THE next census** will employ 80,000 men.

**THE Iowa "rid"** is a dasher. At the age of 90 he has just married a blushing beauty of 65.

**A MAN** deserves credit for being too proud to beg, but when he gets too proud to work the sooner he leaves the world the better.—Atlanta Constitution.

**SENATOR WADE HAMPTON** has written a powerful letter to P. M. G. Wanamaker in which he absolutely execrates the truly good man. Of course, the subject of the philippic is a postoffice.—N. Y. World.

**They stood on the banks of the sounding sea,** Mahone, Forker, and Harrison—be, When a tidal wave came and gobbled the three, With none left to mourn them but Baby McKee, And the bells in the White House are tolling.

**It is conceded** that American tailors make better clothes than their Old World rivals, let them show us that they can devise more sensible and more beautiful fashions. The task is not difficult one.—Pittsburg Dispatch.

**ALLEN G. THURMAN** is seventy-six years of age, but he would be worth more to Democracy at large and the people of Ohio than ten Paynes in the United States Senate. His soundness on great public questions, his sympathy with the people and his mental capacity are unimpaired.

**THE Supreme Court of the State** has made a decision that is of importance to the farmers. It has decided that a mortgagee in possession can give a valid lien for advances which will prevail against any claim of the mortgagee upon the crops arising by virtue of the mortgage. This will also interest the mercantile class.—Wilmington Messenger.

**A YOUNG** man named Turner made such a magnificent race for the State Senate on the Democratic ticket in a New York City Republican district that the Tammany leaders are thinking of nominating him for Congress. It's a mighty cold day when a young man gets badly left, but he ought to be sent to the Senate. He could handle Senator Sherman with dexterity gained by long experience.—St. Louis Appeal.

**It is interesting** at this time when we are about to celebrate North Carolina's adoption of the Federal Constitution, and when her delay in ratifying is brought prominently to the attention of the country, to observe that in her convention that declined to ratify the new form of government, much objection was made to the very clause of the Constitution under which the Hon. bill is now introduced. That clause is as follows: The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof, but Congress may at any time by law make or alter such regulations, except as to the places of choosing Senators.

**The worst feature** about catarrh is its dangerous tendency to consumption. Hood's Sarsaparilla cures catarrh by purifying the blood.

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
C. E. SLOVER—Mince meat, etc.  
DR. McCORMACK—Electricity is life.

**Business** was quite brisk at the cotton exchange yesterday.

**Messrs. Smallwood & Slover** are having a concrete pavement made in front of their store on Middle street.

**One case** in Mayor's court yesterday, D. D. Winfield, colored, was up for violating chapter 5, section 3, of city ordinance, by being disorderly. Fined \$5 and cost.

**A person** in this city received a postal card on Thursday night from La Grange. It had come at the rate of about a mile a day, having been mailed on October 5.

**How** would New Berne like a branch railroad from Bell's Ferry? It is reported that the W. & W. Company, who will build the road through Bell's Ferry to Kinston, will tap New Berne.

**The Y. M. C. A.** is fully alive to its interests. One young man on the membership committee has secured nine new names for membership to be presented at the next business meeting. The other committees are not idle.

**The general committee** for making preparations for the Fife meetings were in session last night at the rooms and completed final arrangements. The sub-committees were appointed and will be announced in tomorrow's paper.

**Mr. David E. Sanderlin**, a most excellent citizen and one of the best farmers of Onslow county, was in the city on Thursday. He had driven down also a four horse wagon which brought produce and will carry back various articles purchased from our merchants.

**Frederick Wards**, in "The Mountebank," at the Goldsboro opera house tonight. A special train will leave here at 4 o'clock, for the accommodation of those who desire to witness the performance. Fare for round trip, including admission to the opera house, \$1.50.

**Mr. James Redmond** has placed in his beer-bottling establishment the latest improved machinery for bottling beer. The new machine regulates itself in filling the bottles, putting in the right quantity, and never running them over. The old bottle and style of corking is also done away with and a new patent substituted, which keeps the beer pure, in admitting of no escape of gas. A large tank has also been instituted, in which the filled crates are placed for steaming.

### Shipping News.

**The steamer Stout**, of the Clyde line, will arrive from Baltimore this morning.

**The steamer Manteo**, of the Old Dominion line, sailed for Norfolk yesterday with a cargo of general freight.

**The steamer Eaglet**, of the Eastern Carolina Dispatch line, will sail this afternoon at 4 o'clock. The Annie of this line will arrive tomorrow.

**The steamer Tahoma** will sail this morning for Smith's and Adam's creeks.

### Intruders at Work.

**Recent advices** from Hyde county indicate no abatement in piratical and forcible trespass on the oyster industries of North Carolina. The authorities who enforce the oyster law are impeded by lawless persons from Virginia or elsewhere, who resist arrest or by superior force take from custody those who have violated the law. Vessels lawfully trading are driven from their anchorages and the court appears powerless to remedy the evil. In Maryland and Virginia the same condition of things has existed for a number of years, with the result of an absolutely destroyed industry. Will it be realized that stealing is stealing, no matter whether the goods belong to the State or to an individual? Are things grown on shore different from those in the water, in respect to stealing?

### Personal.

**Mr. Thomas G. Churchill**, one of New Berne's most business-like and straightforward young men, left yesterday morning for Henderson, where he will accept a position in the store of Mr. Tolson, a former New Berne merchant.

**Miss Marian Radloff** left yesterday for Morrisown, N. J.

**Mr. David Rountree**, of Lenoir county, was in the city yesterday on a short business trip.

**At Hotel Albert:** W. L. Pablo, Virginia; H. D. Lehman, New York; W. W. Hooper, Bayboro; W. B. Pfanner, city.

**H. L. Gibbs, Esq.** has returned from Hyde county Superior Court. He tells us that considerable excitement over the oyster question exists among the people in that section.

## A Rush Among the "Exodusters."

**At Kinston yesterday** the town was crowded with negroes anxious to shake the North Carolina dust off their shoes and try their fortunes in some other State. It is said that there were about 1,500 enthusiastic "exodusters" in the town. At the depot an interesting spectacle was presented in the huge mass of luggage piled on the platform. Old meat boxes, various other boxes, barrels, trunks of all shapes and sizes, were piled ten feet high on the platform. The train could not accommodate all who wanted to go, and even if there had been room there were many who would not have been allowed to go. The emigration agents are a little particular about whom they take. One requirement is that a man must be married. A strong man stands a better chance than a weakly fellow. Marriages have taken place at the depot in order that the requirements might be met and the "happy couple" be allowed to take the waiting train.

**It is estimated** that about five hundred left Kinston yesterday, they having come from Jones, Lenoir and Pitt counties, principally.

**The exodus movement** is getting to be a serious matter with the farmers. It is reported that some white people in Lenoir county are leaving also.

### Chief Justice Smith.

**The death** of William Nathan Harrell Smith, Chief Justice of the Supreme Court of North Carolina, was announced in yesterday's JOURNAL. The following is a brief sketch of his life, taken from a press dispatch:

"Chief Justice Smith was born in Murfreesboro, Herford county, 77 years ago. He graduated at Yale at 23 years of age and also took the law course. He was one of the counsel to defend ex-Governor Holden, during his impeachment for high crimes and misdemeanors. He was in politics a Whig. During the entire war he was a member of the Confederate Congress.

"He had been Chief Justice of the Supreme Court of North Carolina for 11 years, being appointed by Gov. Vance, to the position on the death of Chief Justice Pearson."

### Turner's N. C. Almanac for 1890.

**Turner's N. C. Almanac** for 1890 is just issued. It is published by Jas. H. Ennis, Raleigh. Is printed on new type and is better than ever. Price 10c, sent post paid. Turner's N. C. Almanac has been regularly issued for over fifty years, and is recognized as the standard Almanac of the State. It has much for housekeeper, gardener, farmer and general reader. Its State Record of the most stirring and important events of the year 1889 is especially interesting and desirable for future reference. To the farmers of the State its facts and suggestions upon farm practice is of great value.

### NORTH CAROLINA NEWS.

#### From the State Papers.

**Oxford Day:** How many people in the State are aware of the fact that it is an indictable offence to point even an empty gun or a pistol at a person?

**Kinston Free Press:** Mr. W. C. Mayo and Miss Sallie V. Turnage were married at the residence of the bride's mother, Mrs. Virginia Turnage, last Thursday evening at 8 o'clock, Rev. W. S. Rone officiating.

**Washington Gazette:** An institution for training feeble minded, idiotic and imbecile children has been established in the town of Washington, N. C., by the individual efforts and energy of that self-sacrificing, talented, and above all, Christian lady, Mrs. M. B. Brown.

**Fayetteville Farmer and Chief:** The largest pine in this section is over three feet in diameter. It is reported to be fourteen feet in circumference and stands on the line of the W. V. & W. R. R., about four miles west of Red Springs. Messrs. J. C. Guernant & Co., near Pates in this county, during the past week sawed some pine logs which squared twenty inches and fifty-two feet in length.

**Snow Hill Baptist:** The colored man, Sam Lofton, that was shot a few days ago is improving and will likely recover. Stokes, the gentleman who did the shooting, has left for parts unknown.—We are sorry to learn of the extreme illness of two of our old citizens, Messrs. John Williams and Seth Shackelford, who have been feeble for some time. Age and disease combined makes it hard for them to steam the current of life.

**Wilmington Messenger (Raleigh Correspondent):** The people of the Western part of the State do not find this a disastrous year. They have large crops, grow no cotton and buy no fertilizers. They raise their own food and spend little or nothing for hired labor.—The third biennial session of the united Synod of the Evangelical Lutheran Church South, convened in this city yesterday, at 11 o'clock a. m. The sessions are being held in St. Paul's Evangelical Lutheran Church which handsome edifice had been becomingly decorated for the occasion.

**One Fact** is worth a column of rhetoric, said an American statesman. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does cure scrofula, salt rheum, and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite, and gives strength to every part of the system. Try it.

## LATEST NEWS.

**THE FAYETTEVILLE CENTENNIAL—PRESIDENT HARRISON GONE FISHING—IMPORTANT STEAMBOAT LINE—OTHER NEWS.**

**FAYETTEVILLE, N. C., Nov. 14.**—The town of Fayetteville gave three rousing cheers this afternoon when the telegram from Washington was received announcing that the United States Marine band would surely attend the Centennial next week. All preliminary arrangements have been made, and the band will leave Washington City Tuesday morning. The United States flags and national decorations from Washington City arrived tonight over the Coast line in a special car billed to the Centennial Association, and the town is alive with the wildest enthusiasm over the fine prospects for the grandest celebration the State has ever witnessed. Parties have already begun to arrive for the occasion from various places, and not only from this but other States. Three professional decorators are on the ground from New York and Louisville, respectively, and the flags and national colors are already floating amid the autumn breezes. Every arrangement has been made for comfortably quartering fifty thousand people, and Fayetteville will feed and shelter everybody who comes, be the number great or small, and a hearty welcome is extended to all.

**WASHINGTON, Nov. 14.**—The President left the city last night by way of the Baltimore & Potomac railroad, for a few days' sport in duck shooting. It is not known exactly where he has gone, but it is supposed that he went to one of the famous duck hunting grounds in Maryland, in the vicinity of Chesapeake Bay. Private Secretary Halford said today that he could not tell where the President was, because he did not know. The President wanted a few days' uninterrupted recreation and the only way he could have it was by keeping his movements secret. During the last campaign, said Mr. Halford, it was announced that Gen. Harrison was going off on a shooting trip, and the consequence was that about 10,000 other sportsmen selected the same time and place for their sport. Ex-Senator Sewell and Mr. Knight are with the President, and the party expect to return to Washington Saturday.

**MOBILE, Ala., Nov. 14.**—The steamer Junata, of the Plant Line, which will hereafter make regular weekly trips between Mobile and Tampa, reached this city this afternoon.

**The Presidents of the Chamber of Commerce, Cotton Exchange, county commissioners, Mobile and Ohio Railroad** and about fifty other prominent citizens met the vessel thirty miles down the bay and were taken aboard where welcoming addresses were made.

**The inauguration** of this line will furnish the shortest route between the West and Florida, and will also open up a most desirable route for the shipment of Florida fruits and vegetables to the West. The Junata will carry Alabama coal from this port to Tampa, to coal steamers of the Plant Line to Havana, and is the forerunner of a direct line of steamers between Central and South America. The arrival of the Junata marks a red letter day in the history of Mobile.

**A resolution** was reported in the Farmers' Congress, in Montgomery, Thursday, demanding that in case of a continuance of the protective policy, all farm products shall be as fully protected as any article of manufacture.

**The New Orleans Chamber of Commerce** favors Chicago as the site for the World's Fair in 1893.

**Six men** were killed and two had their eyes blown out, by a premature explosion in a railroad cut, near Butte, Montana, on Tuesday night.

### Does Christianity Sanction Revivals?

**The history** of revivals is in no little degree the history of religion on the earth. Revivals result in renewed attention to religion and the awakening of religious sentiments. However much human devices may help or hinder the progress of revivals in religion they seem to be essential to create religious activity in the church and give to her membership a rapid increase. Revivals are not to arouse the emotional nature, but by using the truth of God as a means to convince man of his sins, point him to "the Lamb of God that taketh away the sins of the world." The church itself was born in that wonderful revival at Pentecost.

**How** was the church restructured in wide-spread revival of the reformation? In what degree was the church revived in the eighteenth century by the powerful preaching of such men as Edwards, Whitefield, and Wesley? Study if you will how Scotland, England, and America were moved in the early part of the present century by the thrilling words, flowing zeal, and pungent utterances of men who lived in trembling fear of their Creator—an eternal God. We need not be told of the glorious work done in these countries in the last half century by revivals. The church is indebted to revivals for a goodly share of her rapid growth and power. Is there no record of revivals in the New Testament? Yes, in the Old Testament? Read in Matthew, xi, 12, these words: "The kingdom of heaven suffereth violence and the violent take it by force."

**think.** On the other hand, my reader, if the facts in the history of the church go to prove that revivals are productive of good and work grand results for "the kingdom of heaven" it is high time professing Christians should give the warmest possible welcome to all revivals. Some of us may not believe in all the forms adopted by evangelists, but let us not speak hastily and say, "revivals are only religious excitement resulting from an exaggerated style of preaching to the feelings and passions of men." Oh! dear reader, think of the value of one immortal soul. Look back through the centuries and see the convincing power of John's ministry.

**What of Christ's ministry?** Thousands gathered about Christ while He taught and healed. The Saviour had few real converts, but there were many inquiring souls.

**Yes, verily, revivals** are sanctioned by Christianity and are of incalculable benefits. JNO. STANLEY THOMAS. November 14th, 1889.

## Dr. McCormack

**Electricity is Life.**  
Electricity is Health. It is Nature's Cure for nearly all Diseases. It goes directly to the seat of the trouble, without any of the injurious effects of drugs. The only expert electrical physician and graduate of an Electrical Medical College in Patterson is

### Dr. Henry McCormack,

144 Broadway, PATERSON, N. J.

**There is scarcely any form of Chronic or Acute Disease** that electricity will not relieve and cure, and the afflicted should call at 144 Broadway and be convinced. Patients also treated at their homes. Special attention paid to lady patients by a graduated lady electrical physician. DR. McCORMACK treats many patients for the regular physicians of other schools where electrical treatment is indicated, and invariably with satisfactory results. DR. McCORMACK has permission to refer to the editor of the trial and other well known citizens as to the efficacy of his electrical treatment.

### CONSULTATION FREE.

**His daughter** is with him and will attend ladies when desired. nov17

## At New York Cost:
