The climax has been capped. A postal card has been received at this office dated March 10, 1885. The date is plain enough, but the contents are so nearly obliterated that but few words can be read.

At the Y. M. O. A. Sunday. The meeting at the Y. M. O. A. Sun-day was of unusual interest. The service was devoted to praise and gratitude for the work done through Evangelist Fife while recently in New Berne. The strongest evidence that Mr. Fife had sown some good seed was the number of young men present at the meeting, and they were never more free to express themselves. It was probably the largest assemblage for more than a Vear.

The rooms are neat and attractive and conveniently located, though they are not as well arranged as the Association would desire and hope soon to obtain. The officers are very desirous of putting in additional features of attraction to make the Association of sufficient interest to augment its membership.

> Organization of the Church of Christ, (Disciples) of New Berne.

There was quite a large audience at the church of Christ on Sunday morning to witness the organization of the Disciples of New Berne. After a serion by R. W. Stanoil, State Eyangeat, the object of the meeting having rolled as charter members, the following Covenant was read:

"We, the charter members of this congregation, having been "buried with Him by baptism" upon confession of our faith in Christ, do units to form a church of Christ in New Berne, N. C., and having already covenanted with God in Christ, do hereby covenant with each other that we will keep all the ordinances and commandments of our Lord and Saviour Jesus Chris', agreeing to be governed in our personal conduct and in our church relations and obligations by the Law of Christ as taught in the New Testament, and pledging each other to do all in eur power to promote the peace, unity and prosperity of the church, and to extend the knowledge of Christ in all the

Brown and his friend Perkins were talking about investments.

"Once I invested \$1000 in real estate, said Perkins, "and doubled it in less than six months. That was the best investment I ever made. Pretty good wasn't it?"

"I've done better than that." said Brown. "Two years ago I was told by all my friends that I was going into consumption, and I thought they were right about it. I had a dry, hacking cough, no appetite, my sleep came by fits and starts, and seemed to do me no good, and often there was a dull, heavy pain in my chest. I kept growing weaker and weaker, and at last nightsweats set in. I thought it was all up with me then. I had consulted two doctors and taken quarts of their medi cine, and received no benefit from it One day I happened to read something been stated, and sixty-five names en- about Dr. Pierce's Golden Medical Discovery, and I made up my mind to give it a trial, but I didn't expect it would help me. I invested a dollar in a bottle of it, and it helped me from the first dose. It helped and it cured me, and when I compare my present good health with the miserable health of two years ago I think I am safe in saying that my investment was a much better one than yours. You can't reckon health by any measure of dollars and cents; if you could I should say that I have realized at least a million from my \$1.00 investment." The "Golden Medical Discoy-

ery" is guaranteed to benefit or cure in all diseases for which it is recommended or money paid for it will be refunded.

A PUZZLE.

Why grown men and women with matured reflective powers should ne-glect their small ailments is really a passle. Host of otherwise sensible people thus bewilder conjecture. It is one of the things which, as the late lamented Lord Dundreary exclaimed, "no fellah can find out." Diseases grow faster than weeds, and, moreover beget one another. Indigient indiges-tion, a touch of billousness, slight ir-regularity in the habit of body-what regularity in the most or body-what complex and serious bodily disturb-ance, not local, but general, do these not begst, if disregarded?
