Chicago men are noted throughout the world for their keen intelligence, their business sagacity, their tireless energy.

They are not fools. They do not embezzle. They work hard and keep their weather eyes open for opportunities to do business in a business-like way, and they "get there."

That is why Chicago leads the world.—Chicago News.

The Republican party seems to be preparing itself for defeat in Philadelphia where it usually has from twenty to thirty thousand majority. They thought they would have a subservient tool when they put Fittler in the Mayor's chair, but he has astonished them by setting up in the Boss Business on his own account. The consequent quarrel is likely to give the city to the Democracy.

We are not unfavorable to a Female University if it is necessary to have one. If St. Mary's, Peace Institute, Salem, Greensboro, Charlotte, Manassas, Oxford and other seminaries of learning cannot give the girls the "higher education" they need and are in search of them let there be a State College for the dear girls by all means. He is a close-fisted, hard-hearted, sour, narrow-minded fellow who will object. Least wise that is the way the girls may regard him and "serve him right."—Wilmington Messenger.

SENATOR SHERMAN'S bill placing the Congressional elections under the control and management of Federal election officers will probably not be passed by Congress but if it shall be passed it will utterly fail to accomplish the objects which it has in view—the appropriation of the entire colored vote of the South by the Republican party for the purpose of indefinitely continuing that party in power. No bill that Congress can pass will change the negro's complexion or alter his political status. Any action that Congress may take looking to the question of an unnatural condition of affairs will but serve to increase the hardship of the negro's position and arouse the hostility of his white neighbors, upon whose favor he is dependent for all that contributes to his prosperity as a man and citizen.—Charleston News.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

ed as much alarm among the Northern people as the gravity of the attempted crime merits; but, nevertheless, the movement has set some of them to thinking very seriously on the subject. The measures now being pushed mean nothing less than the most flagrant violation of the rights and powers of the States as component and co-existent elements in the Constitution and maintenance of the National Union. True, the conspiracy is avowedly aimed at the Southern States, but it necessarily affects all the States equally, and the effect of it would be to fix, if the people of the North shall submit to it, the Republican party indefinitely in power.—New Orleans Picayune.

The Lecture Last Night.
A large number of the High School students and many of the friends of the school were at the theatre last night to hear the lecture on "Higher Education," by Dr. D. Reid Parker, of Trinity College. The lecture was a very practical one, calculated to entertain, instruct and benefit both young and old. One of the principal thoughts presented was that higher education consists in teaching the children honesty, principle, patriotism, charity, manliness, to think, vote and act for themselves; to uphold and stick to the right and die for it, if necessary; that this work must be done in the home. He said that higher education was not cramming a boy's head with book learning and theories to the exclusion of all practical knowledge. The Doctor's illustrations were keen and sometimes very humorous. The audience seemed to be delighted.

GRATIFYING TO ALL.

The Fire Yesterday Morning.
About 2:30 o'clock on Monday morning the alarm of fire came from the neighborhood of the A. & N. C. Railroad depot. Mr. William Colligan's store was on fire. When the fire engines reached the scene, the inside of the store was in a light blaze, but the windows and doors being kept closed, the outside of the building did not catch until just as the firemen arrived, when the whole store part of the building became enveloped in flames. The engines quickly began to pour several streams of water on the burning building and in a few minutes the fire was entirely under control, and only the store was seriously damaged. This is another instance of most excellent work by our fire department.

Mr. Colligan's residence and store were both under the same roof, the fire had gained great headway before the firemen arrived, yet the second floor of the store was not burned down and the walls are all standing, and the dwelling part of the house is very slightly damaged. Of course the goods in the store were lost. The loss is about \$10,000; insurance covers about one-half. The origin of the fire is not known. It is thought that it was caused by the explosion of a lamp or by loose matches which the rats got hold of.

MAKE NO MISTAKE.—If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion and preparation, curative power superior to any other article of the kind before the people. For all affections arising from impure blood or low state of the system it is unequalled. Be sure to get Hood's.

For a disordered liver try Becham's Pills.

SHALL NEW BERNE PROGRESS?

No. 21.
There have been many occasions in New Berne's history of a very important character, and the events that have signally marked the life, and directed the current of the affairs, hold no inconspicuous place in the page of our State chronicles. It must be confessed that many of these historic occasions were of the heroic or sentimental character, and those of the practical, utilitarian, are not so frequent as one might have expected; whether this latter is due to lack of opportunity, or failure to take advantage of it, let the historian determine.

At all events, in this practical age we cannot live on the memories of the past, the active, living present is with us, and there is now looming up in magnificent proportions an event which, in our opinion, so far as the material welfare and prosperity of New Berne is concerned, dwarfs, by comparison, all former opportunities presented for our advancement.

We refer to the proposition to be voted on Thursday next, for subscribing to the capital stock of the East Carolina Land and Railway Company thereby insuring the northern terminus here, and as a result placing New Berne on the high road to that prosperity and progress that a beneficent Providence intends it shall at sometime occupy.

Here we have knocking at our doors what we have so long almost begged for, wealthy men, Northern capitalists who in substance say, "we are going to build this road at a cost of a million or more dollars—we are willing that the terminus of the road shall be at New Berne until we are prepared to construct it further, but, in order that New Berne may testify its interest in the matter, and become to the policy of aiding in every way the maintenance of the line, when constructed, we ask it to become a partner in the scheme to the extent of fifty thousand dollars."

A failure to show this interest results in the loss of the road to New Berne, and what then? Why a more rapid retrogression; the disheartening of men among us, who had built high hopes on the success of this measure, for in it they see New Berne's commercial elevation; with this disheartening comes the thought of leaving, and the time will be not far distant when the exodus movement will not be confined to colored people. Let the measure, however, be approved, and not only will industry peace and prosperity prevail, those that are with us be contented with their lot, but inducements will be offered others of a durable character to settle among us. This is the pending question. Is it to be progress, and prosperity, or commercial depression and gloom? A vote for the railroad proposition means the former, a vote against subscription means the latter. Choose ye between, but be wise in your choice for much depends upon it.

To the Public.
At the last session of the North Carolina Christian Missionary Convention, one E. H. Olney presented himself for examination and ordination to the Ministry. The committee appointed by the convention for that purpose examined him, and not being satisfied with his qualifications, recommended that ordination be deferred until next convention, and that he remain with his congregation doing good in the way of preaching and in other ways as opportunity afforded, giving him no authority whatever more than any private member of the church. Therefore, he is known to all, that E. H. Olney is not endorsed by the Disciples in North Carolina as a preacher, and that they will not be held responsible for anything he may say or do.

"The Davis Memorial Volume."
Dr. J. William Jones closed on yesterday a contract with B. F. Johnson & Co., of this city, for the publication of an "early day of the 'Davis Memorial Volume'" which will be published with the full approval of Mrs. Davis (who will receive a royalty on every copy sold); and in which will be gathered choice selections from the editorials, resolutions, speeches, etc., which have made our Southland's tribute to our dead Chief. The book will also contain a brief outline of his life and character, together with reminiscences, anecdotes, letters, some of his best speeches, etc., etc. It will be beautifully illustrated and gotten up in fine style, making a souvenir which all lovers of the name and fame of the great Confederate will be glad to have.—Richmond Dispatch, Dec. 23, 1889.

The proprietors of Ely's Cream Balm do not claim it to be a cure-all, but a sure remedy for catarrhs, colds in the head and hay fever. It is not a liquid or a snuff, but is easily applied into the nostrils. It gives relief at once.

After diphtheria, scarlet fever, or pneumonia, Hood's Sarsaparilla will give strength to the system, and expel all poison from the blood.

Thanks.
I desire to return sincere thanks to the fire department and to citizens, who so nobly came to my rescue on Monday morning when my store was on fire. Their timely and valuable assistance saved me from a very much greater loss. Very respectfully,
WM. COLLIGAN.

A Distressing Case and Happy Cure.
"For over a year I have had a breaking out on my leg, which troubled me so bad I could not walk, leg badly swelled, of a purple color, with eruptions so bad that blood would ooze out if I bore my weight on it. I was recommended to try Clarke's Extract of Flax (Papillon) Skin Cure, which I have done. My leg is now well and I can walk two miles on it without any trouble. Signed, A. D. Hayward."
