It is reported that the Prince
and Princess will visit this country
in the spring. The Prince of
Wales is expected at the New
Bern Fair.

WOODSTOCK, Va., 21.—Ex-
United States Senator Harrison
Riddleberger is not expected
to survive the night. He remains
unconscious, and his physicians
have given up all hope of his re-
covery.

It is stated that the Princess
Clotilde asked the Duke of Aosta,
her brother, just before his death,
to speak to the King on the sub-
ject of the relations of Italy to the
Vatican, and that the Duke did
speak earnestly in favor of a recon-
ciliation with the Pope.

The solemn Masonic mystery of
the search in the ruins of Solomon's
temple has been revealed at last in
a most tragic way. After having
been secretly kept by succeeding
generations of Masons for some
thousands of years the secret has
been brought to light by the ac-
cidental breaking of a rotten rope.
Philadelphia Record.

This Post says that recently Con-
sul E. B. Webb, at Manila, in the
Philippine Islands, has forwarded
specimens of coconuts—thirty
different varieties—which have
been planted by the Bureau of Po-
nology in Florida, with a view of
determining the varieties which can
be most successfully cultivated in
this country.—Charlotte Chronicle.

The reason Republicans tried so
hard to defeat Mr. Blair's election
to the United States Senate is be-
cause he is honest, able, and one of
the most aggressive men who has
entered the political arena in Ohio
for many years. With Blair as a
Democratic leader and disaffection
in their own ranks there will be
trouble in the Republican house-
hold in Ohio.—Cleveland Plain
Dealer.

It has come to be well known
that Republican politicians are op-
posed to a World's Fair in New
York in 1892 because they fear the
influence of a concourse of the ex-
hibits of the arts and industries of
civilized countries in this Demo-
cratic metropolis. We are not ac-
embarrassed. Every body is in
favor of the New Bern Fair, and
if New Yorkers can't have a Fair
of their own they can come down
and take part in ours.

Quincy's sensation was created
in the house of delegates of the
general assembly today by the in-
roduction of resolutions regarding
Virginia Representatives and in-
structing Senators to favor ap-
propriations to encourage negro em-
igration to Northern Republican
States, where they might enjoy
political rights they claimed to be
deprived of in the South. The re-
solution was appropriately referred.

In February our sister town New
Bern will hold its annual Fish and
Oyster Fair. Heretofore it has
been successful, and the present
outlook for another good exhibit is

most favorable. It is a unique
fair among the fairs of North Caro-
lina, and specially commends itself
to the people of this immediate
section. Let our fishermen and
others get ready their products, and
send forward in good time their
choicest samples. Many can con-
tribute to make the fair specially
attractive, and we hope it will be
possible for large numbers to at-
tend. The Messenger desires to
efficiently co-operate in the good
work, and it wishes the enterprise
God speed.—Wilmington Messen-
ger.

One case in Mayor's court yesterday:

The Raleigh Call says: "It is again
rumored that the Duke Sons & Co., of
Durham, have sold out. We hope this
will turn out like the former, not true."

The fire department was called out
last night, but the cause was only a
chimney burning out at the residence
of Mrs. Nelson, corner East Front and
Broad streets.

The Goldsboro Argus says: "Every-
thing now 'goes' till the Fish and
Oyster Fair at New Bern next month—
everybody here, we believe, is going
to take it in."

Our special Fair Edition is now being
issued. We have endeavored to make
an improvement each year. The lead-
ing feature is a life size ad which we
thought to be the most appropriate we
could adopt.

The Wilmington Star says: "An even-
ing paper to be called the Dispatch is to
be established at Goldsboro by a stock
company, with J. W. Nash as Presi-
dent. The first issue is announced to
appear next Monday."

A correspondent writes from Kin-
ston, January 23, as follows: "Yester-
day Peg Leg Williams took off from
here three hundred and twenty-five
negroes." He also writes: "The farm-
ers have had fine weather during De-
cember and January to prepare their
lands for a new crop."

Speaking of Rev. Mr. Pearson, the
Evangelist, who is now conducting a
series of meetings in Charleston, S. C.,
the Raleigh News and Observer says:
"He has made engagements for the
next twelve months in southern cities,
and after that he will visit Europe and
Asia Minor, accompanied by Mrs. Pear-
son. On February 1, Mr. Pearson will
begin a series of meetings in Balti-

More Names Wanted.

We still need more names to mail the
Fair Edition of the Weekly JOURNAL.
Please write them plain that our clerk
may not be unnecessarily delayed in
mailing them. Also we will be saved
considerable trouble if, where there is
more than one name to be sent to the
same postoffice, they be classified—all
names together to one office. You
have no expense whatever as we do all
the mailing and pay the postage. Names
are only wanted where it is thought
there is probability of the party or
some one connected attending the fair.

Kinging Notes.

In the case, sometimes a roaring, bus-
sling sound, are caused by catarrh, that
exceedingly disagreeable and very
common disease. Loss of smell or hear-
ing also results from catarrh. Hood's
Sarsaparilla, the great blood purifier,
is a peculiarly successful remedy for this
disease, which it cures by purifying the
blood. If you suffer from catarrh,
try Hood's Sarsaparilla, the peculiar
medicine.

FAIR NOTES.

Our Exposition opens one month from
today. If you have not already made up
your mind to be an exhibitor, now is the
time to do it.

The Fair Directors offer premiums and
prizes for six hundred and eighty
different kinds of exhibits. A glance at
the Premium list will show it is not
difficult by a little effort to secure one of
the many prizes offered.

With the experience gained in past
years our Fair managers will be able to
give better satisfaction to visitors and
exhibitors than ever before.

Portrait of Edward Graham.

The following article, relative to a
former and distinguished citizen of
New Bern, is taken from the Raleigh
News and Observer:

"A portrait of Edward Graham, for-
merly of New Bern, has been added to
the gallery of the Supreme Court room,
consisting of portraits of men of promi-
nence who have practised before that
tribunal in times past.

Mr. Graham was graduated at Prince-
ton in 1785, and read law with John
Jay, first Chief Justice of the United
States. He was contemporary with
Judge Wm. Gaston, John Stanly and
other great lights of the New Bern
Bar, though an older man than those
named. He represented the town of
New Bern—then entitled to separate
representation from the county—in the
Legislature of 1797.

Hon. Louis D. Henry, formerly of
this city, was a nephew of Mr. Graham
and read law with his uncle. Hon.
John H. Bryan, late of Raleigh, and
Francis L. Hawks were also, we think,
law students with Mr. Graham. De-
scendants of Mr. Graham—grandchild-
ren and great-grandchildren—still live
in Raleigh—Mrs. Samuel Ruffin, Mrs.
Edward Trappier, Miss Jennie Graham
Baker and others.

The portrait is a well executed oil
painting—an old family piece—and
represents a man at once of intellect,
benevolence and commanding presence.
It bears the following inscription:

"Edward Graham, of New Bern, died
1838. Presented by his grandson,
Edward Graham Davis."

The portrait was prepared for its
present position, and will be placed by
Wm. G. Randall, Esq., artist, of this
city.

Mr. Graham's obituary was written
by Judge Gaston and appears in the
New Bern Spectator of March 29th,
1838, from which we extract the follow-
ing:

"Mr. Graham's ability was so con-
spicuous in detecting the frauds which
had been committed in our land office
that he was appointed by the legislature
one of a special commission raised to
pursue the investigation in the recess,
the labors of which appointment were
performed to the great advantage of the
State, and the high honor of the Com-
missioners."

The portrait will be formally present-
ed to the court at its meeting on Febru-
ary 1st.

*Not nephews, as the News and Ob-
server has it.

Oklahoma for the Negroes.
A St. Louis special says: Letters re-
ceived by W. L. Eagleston, business
manager of the Oklahoma Immigration
Society in Kansas, say that a large
number of negroes in North Carolina
are going in wagons this winter to the
new Territory. Mr. Eagleston says
there are now about 23,000 negroes in
Oklahoma, and that by spring there will
be at least 50,000. He thinks they ought
to have that country, and says that
President Lincoln and the Republican
party promised to give it to them. He
adds:

"We are determined to take it any-
how, and we will make it one of the
greatest States in the Union. I favor
Col. Morgan's scheme to purchase the
Cherokee strip and other lands in the
Indian Territory, exclusively for negro
settlement. Give us the Blair bill, the
Indian Territory and Senator Butler's
\$5,000,000, and we shall be content.
Oklahoma, in my judgment, is the land
of promise for the race and migration
the panacea for every ill now affecting
the negroes of the South."

Locomotive vs. Storms.

A correspondent of the Northwestern
Railroad advances some odd theories to
account for the frequency and severity of
storms in modern times. He gives the
figures to prove that there are now over
30,000 locomotives in actual use in the
United States, besides the hundreds of
thousands of stationary engines of all
kinds and sizes. From a round 30,000
locomotives he estimates as much as
58,000,000,000 cubic yards of vapor each
week, over 700,000 cubic yards a day all
to be returned as rain—"quite enough,"
he says, "to produce a good rain storm
every twenty-four hours." He estimates
other engines of all kinds at 180,000,
probably a very low estimate, and con-
cludes that these, with the locomotives,
send about 470,000,000,000 yards of
vapor into the air every seven days. "Is
it not enough," he asks, "to give us
floods of terror?" Hundreds of gas wells
sending their poison into the atmosphere
millions of cesspools and sewers. Would
it be any wonder if some blighting plague
would lay waste the land?

ADVICE TO MOTHERS.

Mrs. WISLAW'S SOOTHING SYRUP
should always be used for children
teething. It soothes the child, softens
the gums, allays all pain, cures wind
colic, and is the best remedy for Diar-
rhoea. Twenty-five cents a bottle. J. H.

The most remarkable cures of scrofula
on record have been accomplished
by Hood's Sarsaparilla. Try it. Sold
by all druggists.

NORTH CAROLINA NEWS.

From the State Papers.

The State Sunday-school Convention
will be held in Wilmington on the 25th,
26th and 27th of February. An elabo-
rate program has been arranged for the
occasion.

Danbury Reporter: The latest in
minerals is the discovery of a heavy de-
posit of very rich ore just north of the
magnetic lead, some three miles from
Piedmont Springs, in this county.

Tarboro Southerner: Farmers in
town today report labor quieting down.
They aver that if no emigration train
leaves here within the next fortnight
the emigration fever will be completely
dead. Should one come they say that
the fever will be as virulent as it ever
was.

Sanford Express: The Egypt Coal
Company on last Saturday had a fine
young mule put down in the shaft and
it took the efforts of eight men to per-
form this task. This mule will likely
stay in this dark shaft as long as it lives
and that may be a long time. There
was one which stayed in the same shaft
during the war; it was taken out when
operations ceased and it died about
three years ago. It went blind soon
after it came out, and it is related that
it amused itself until it died by kicking.

Raleigh Call: The Baptist Orphanage
at Thomasville, N. C., is reported as
being one of the most prosperous insti-
tutions of its kind in the State, and it is
the youngest of them all.—The re-
ceipts of cotton on the Raleigh market
from September 1st to date are 16,716
bales, 8,473 bales less than last year at
the same time.—The new trial grant-
ed to ex-Father Boyle by the Supreme
Court will be held at March term of
Wake county criminal court, when
Judge McRae will preside.—The
Grand Lodge of Masons has provided
for the appointment of a Grand Orator
for each annual communication. Prof.
W. A. Blair, of Winston, is the first to
fill this office.

Charlotte News: A general head-
quarters of the Edison Electric Manu-
facturing Company has been established
in Charlotte. Offices occupying the en-
tire second floor of the Western Union
Telegraph building have been fitted up
in handsome style. Mr. Wm. M. Wer-
rell, of Wilmington, Del., is the general
manager of the company, and he is as-
sisted by Mr. Joseph H. Young, of Char-
lotte.—Yesterday's record of the
movement of negroes from this State
for the West was as follows: Nineteen
passenger coaches filled to the doors,
nine box cars filled with baggage, 1,400
negroes, and all pulled by a twelve
wheeled consolidated engine. All this
in one day. The negroes were collected
from about Durham, and there is still a
herd there awaiting.

Raleigh News and Observer: The
board has appointed Prof. J. H. Weath-
erly assistant professor of Practical
Mechanics at the A. & M. College.
Prof. Weatherly was educated at the
St. Louis Manual Training School, and
comes highly recommended, and the
board feels assured that he will suit.
—At the late communication of the
Grand Lodge of Masons Dr. Eugene
Griscom was appointed and installed
Grand Lecturer and Grand Custodian
of the work in North Carolina. All of
the Assistant Grand Lecturers are re-
quested to report to him for examina-
tion, so as to make the work uniform
throughout the jurisdiction.—The ne-
gro exodus now about amounts to a
stampede. They all seem to want to go,
but one-half of them don't know where.
A night or two ago a train load of over
five hundred from Edgemcomb passed
through, bound for Louisiana. Day be-
fore yesterday nine other car loads
went through. Others are expected to
start in a day or two.

Dr. Harmon.

The above eminent and justly re-
nowned oculist and optician has been in
New Bern for several weeks, and has been
giving the greatest satisfaction and the
supremest delight. He is fair, honest,
candid, truthful, straightforward in all
his dealings, and what he says can be
relied upon with perfect confidence, and
the most implicit faith. He is highly
skilled in his profession and thoroughly
versed in everything that pertains to the
eye. He can point out the least defect
and show you the remedy. He has cer-
tainly brought comfort and delight to
many in Wilson, and all speak of him
and his fine Brazilian Pebbles in terms of
warmest praise. We have not heard one
single person find the least fault with
him or his Pebbles. We have never
known a specialist to give more universal
satisfaction, and therefore we do give
him our heartiest endorsement, for there
is no humbuggery about him and he
never sells a glass unless a person needs
it.—W. Mirror.

Notice to White Public School Teachers

of Crayen County.
Professor Alderman, by authority of
the school laws of the State, will hold
an Institute for white teachers at the
Academy, in this city, beginning Mon-
day, February 24, 1890. This Institute
will continue one week. There will be
public addresses delivered on Friday of
that week. Public school teachers of
the white race are required to attend.
They will be compelled to suspend their
schools during the continuance of the
Institute. I hope they will all be
promptly on hand.
Respectfully,
J. H. 711aw&wdt.] JOHN S. LONG.

Perhaps no local disease has puzzled
and baffled the medical profession more
than nasal catarrh. While not imme-
diately fatal it is among the most dis-
tressing and disgusting of the flesh. It
is a disease of the nose, and shows very
few or no cases of radical cure of chronic
catarrh by any of the multitude of
modes of treatment until the introduc-
tion of Ely's Cream Balm a few years
ago. The success of this preparation
has been most gratifying and sur-
prising.
