THE Prospects of the New Berne Fair brighten every day.

PRESIDENT HARRISON declares that Massachusetts has given him less trouble about patronage than any other State.

HONESTY may be the best policy, but a good many people somehow fail to keep their premiums paid up.—St. Paul Pioneer Press.

ACCORDING to the best recent estimates there are nearly 1,450,000,000 people in the world, about 65,000,000 of whom live in the United States.

RECTIONS no longer elect, in Congressional districts, until Boss Quay has decided how large a Republican majority is desired in the lower house.

THERE is a report that a revolution broke out in Costa Rica, Central America, last Thursday night resulting in the overthrow of the Government and horrible scenes of bloodshed.

OUR brethren of the press have been very kind in their notices of the death of our late editor, Henry S. Nunn, and we sincerely thank them for their tributes of praise and words of sympathy.

THE waste basket yawns for that Blair bill. It is an insult to the Southerners, who are quite able to take care of their own affairs and want no Federal interference with their public school system.—N. Y. Herald.

NOT much has yet been said of Ex-Governor Jarvis in connection with the New Berne Fair. This distinguished North Carolinian, so dear to his people, will be assigned a place in the programme worthy of himself and the occasion.

YOUNG Abraham Lincoln, only son of Robert Lincoln U. S. Minister at the court of St. James, has been taken to England from the continent as the only hope of saving his life. Should he die there would be no male descendant to perpetuate the name of Lincoln.

THERE is a better way to deal with the Southern question than any Legislature may propose. It is to keep off the South and out of the South just such political incendiaries and disturbers of the peace as he is. His own early record in Kansas and his election to the Senate are shameful. He is a bad man with brilliant parts.—Wilmington Messenger.

THE Wilmington Star says: "The Republicans in Congress are in a quandary over the tariff question. They have struck some usage that are giving trouble and promise to give more trouble in the sweet by and by. The people throughout the country are demanding tariff reform, tariff reform which means lower tariff, not simply taking the tax off one thing and putting it on another, as was done in the Senate bill of the last Congress, but reform which will take some of the tax off the things the people have to buy and use in their every-day business and living."

LOCAL NEWS.

NEW ADVERTISEMENTS.

D. S. HARMON—Optician, etc.
J. KAFER—Fresh bread at 3 cents.
J. C. HARMON—Administrators sale.
WANNAMAKER & BROWN—Sales agent wanted.

Twelve cents was the highest paid for eggs by the wholesale yesterday.

The fishermen do not bring in many shad. Resold for \$1.48 per pair and bucks for 50 cents per pair yesterday.

The County Institute in Lenoir commences today, with Prof. E. A. Alderman in charge. He will conduct the Institute here next week.

When you begin to count them up you will find a good many cases of genuine "grip" in the city. Those who have it don't think it's funny, either.

A party of about twenty gentlemen and ladies went to Goldsboro yesterday afternoon on a special train to see Patti Ross at the opera house there last night.

Mr. R. J. Gooding has bought of E. H. Meadows & Co., the drug store on the corner of Pollock and Middle streets and is now proprietor. Mr. Gooding leaves this morning for New York for the purpose of enlarging his stock of drugs.

Mayor Williams received a dispatch yesterday from Mr. Edward Earle at New York, stating that work would be commenced at once looking to placing the electric lights. It is guaranteed that the city will be illuminated by the time of the Fair.

Truck planters are very busy now getting ready to put in potatoes. Cabbages are looking well with the exception of a slight stunt received during the cold snap a few days ago. Peas are doing well, turnips are coming up and radishes, tomatoes and beets ready for planting.

There are ten prisoners in the county jail. Two are in for murder. Jesse Brown, colored, who was convicted at the last term of the Superior Court, but took an appeal, is awaiting the decision of the Supreme Court, and Mordecai Hudson, who is charged with killing Capt. Westcott at Trenton not long since is for trial at next term of Jones county Superior Court.

A young ox which was tied to a post in Mr. J. W. Stewart's horse lot on Broad street yesterday afternoon broke loose and came very near tearing the fence down in his efforts to get out. Two or three gentlemen who were in the lot at the time went up a tree near by so that they could get a better view of the ferocious steer as he rushed about in the lot.

The shrill whistle of the oyster canning establishment was heard yesterday morning and a good many colored people ready for work answered the call. There were only two boat loads of oysters yesterday and they were shucked in a short time. It will be a busy time there when the oystermen begin to bring in the oysters "sure enough," and they are daily expected to arrive.

The steamer Eaglet, of the E. C. D. line, brought in a tremendous cargo of freight yesterday. Besides other freight she had twenty-one car loads of general merchandise consigned to the A. & N. C. Railroad. The capacity of these cars is about twenty tons each. This makes the Eaglet's cargo of more than four hundred tons—probably five hundred tons, altogether.

New Berne Collegiate Institute—Roll of Honor.

The following are the names of the students of the Collegiate Institute who are on the honor roll:

For the term ending January 17—Misses Lottie Hubbs, Sophia Jones and Jennie Steinhilpher.

For the month of January—Misses Lottie Hubbs, Jennie Steinhilpher, Agnes Foy and Master Harry Marks.

Mayor's Court.

The following cases were disposed of yesterday:
Henry Harper, larceny, sent to jail in default of bail.

Joe McDaniel, chap. 5, sec. 4, riotous and disorderly in the city limits. Fined \$5 and cost.

Alex. Richardson and Charles Richardson were arrested on complaint of Joe McDaniel, charged with violating chap. 5, sec. 4, of the city ordinances. Dismissed and plaintiff taxed with cost in both cases.

Joseph Weaver, chap. 5, sec. 5, cursing and swearing in the city limits. Taxed with cost.

John Skinner, chap. 5, sec. 4, riotous and disorderly in the city limits. Dismissed.

Poultry and Stock Farm.

It was our pleasure to visit the poultry and stock farm of Mr. W. H. Bray, Monday. He lives on Nouse road, about half a mile from the city. We were taken out behind "Nellie," a stylish and dashing bay, owned by Fred, son of Mr. Bray.

For a number of years Mr. Bray has been giving attention to the raising of chickens, but it is only recently that he has added turkeys, ducks and geese. After experimenting with different breeds he has confined himself to Buff Cochins and Plymouth Rocks. The former he values most. They are a very large, brown and heavily feathered fowl. Also they are hardy and noted as fine winter layers. They are docile, easily kept, and when grown the male often weighs as much as eleven pounds.

The Plymouth Rocks are an American breed and are better known. They have a black and white speckle and are not so large as the Cochins. It is a market fowl that they excel. Both varieties of poultry present a cleanly and healthful appearance which is easily accounted for when we had been shown through the grounds and houses that Mr. Bray has prepared for them. The yards are sub-divided where only portions of them are allowed to roam together. From covered pools to keep out the heat of the sun they have easy access to a plenty of pure water. The houses for them are constructed on the most improved plans and are kept in the best of order. Mr. Bray keeps the whitewash brush going and has everything looking neat and tidy. His turkeys are the bronze species, one of which took the premium at our last Fair and tips the beam at above forty pounds. The geese are the "Toulouse," large and shapely birds. The "Imperial Pekin Duck" has size and beauty combined. They with the geese have a separate field to roam in with a branch of water running through it. In an adjoining lot we are again shown some thoroughbred cattle and hogs. Their food is all cooked up for them and they easily show the good attention paid them.

From the bright appearance of things and their systematic arrangement, it is evident that Mr. Bray loves his business and is not an idle man, and though the times cannot be termed flourishing, Mr. Bray is making a good living and becoming more independent every year. He is doing well what he attempts to do.

Personal.

Mr. J. E. Wilcox, of DeBruhl, was in the city yesterday. He says there are some lonely places along the road between here and DeBruhl, caused by the emigration of the negroes. The poor deserted "dorgs" and cats go about in droves, seeking what they may devour.
Mr. Numa Nunn returned to Davis School yesterday.
Mr. A. F. Ackley and family, of New York, are sojourning in the city. Mr. Ackley is connected with the Old Dominion Steamship Company at New York.
Mr. J. M. Wood, from Greensboro, arrived in the city last night and will commence work on the electric lights at once.
Messrs. John Pearce and B. F. Henderson, of Jones county, are in the city. Mr. Henderson says that the farmers are taking advantage of the fine weather. In his section they are digging considerable maul.

NORTH CAROLINA NEWS.

From the State Papers.

The "grip" has suspended the free mail delivery in Wilmington for a few days. Three-fourths of the carriers have it.

Monroe Enquirer: One of the phenomenal things of this phenomenal year, is that cotton is continuing to open in the fields. A gentleman informed us yesterday that pickers are now in the fields picking cotton that has just opened. Who ever knew of such a thing before?

Oxford Orphan's Friend: New Berne has again remembered us. Two boxes from those generous people reached us last week. "He who has done it unto the least of these my little ones, has done it unto me." We render many and sincere thanks.

Wilmington Messenger: A mammoth cypress that turned out to be a treasure was cut down a few days ago in the Allen's Creek swamp on the line now being surveyed between Wilmington and Southport for the Cape Fear and Cincinnati Railroad. It measured 39 feet in circumference at the stump and 93-10 feet in diameter at the butt, and from it were gotten out sufficient staves for forty barrels. As is generally the case, it was hollow and it transpired that a swarm of bees had made their home in its top, so that in addition to the staves gotten from it, ten pounds of fine honey were also secured.

Hateful Blood Relations.

Hateful kindred are those sprung from the parent stem—malaria. They are chills and fever, bilious remittent fever, dumb ague and ague cake. These foes to bodily peace are all blood relations, as there is no doubt that these endemic complaints are produced by contamination of the blood by the miasmata existent in both air and water in malarious regions. Hostetter's Stomach Bitters expels from the blood the virus with which miasma infects, but it does more than this, it neutralizes the atmospheric and aqueous poison and its germs before they have permanently fructified in the system, thus effectually protects against the fierce inroads of this diabolic brotherhood of diseases. Thus it is not only a remedy, but also a preventive, prompt in relieving, lasting in effect; perfectly efficient. Nervousness, biliousness, dyspepsia and kidney trouble also succumb to it.
