February makes its greeting today. One month of 1890 has gone. A new boiler for Moody's saw mill has just been turned out from the shops of Crabtree & Co.

Families willing to board public school teachers for a few days will communicate today with John S. Long, Esq., at his office.

Capt. S. H. Gray's plate factory is now in full blast. About fifty operatives are employed. On Thursday Capt. Gray shipped 100,000 wooden plates and 35,000 dishes.

The steamer Annie, of the E. C. D. line, coming in yesterday, got aground off Fort Point. Capt. Dave Roberts went down with the steamer Trent and lighted her off.

Mr. S. K. Eaton, the jeweler, has removed his stock to the building on Middle street first door south of Federal alley. The store has recently been fitted up for him.

Mr. E. T. Lynch and Mr. R. G. Angell, representing the New Berne Electric Light and Power Company, arrived from New York last night. Work will be commenced immediately on putting in the plant. The machinery, wires, poles, etc., is on the way.

February. This is to be a "red letter" month for New Bern and the section electric light has been established in the city, the big Fair begins on the 24th and continues to the end of the month, and probably work on the new railroad will be begun. And there is no telling what other good things a month may bring forth.

Mr. McGinnis, supervisor of U. S. mail routes, who was in the city a day or two ago, has gone down to Swan Quarter, Hyde county for the purpose of ascertaining the desires of the people in regard to a mail route between Swan Quarter and this city.

Megant Dwellings to Be Built. Mrs. W. H. Pennell, of Philadelphia, has purchased a lot on George street and will erect a handsome dwelling house thereon.

The lot on the northwest corner of Hancock and Hancock streets has been purchased by Mr. C. C. Green, of Trenton, and we understand that he will also build a dwelling house.

Fishing News. Capt. C. H. Sanburn came up from Tourgoin bay with a load of fine trout. He sold them to fish dealers for seventeen dollars a hundred, and he had several hundred. It was the work of about two hours to catch them.

These are by no means evidences of a dead town. Hancock street Methodist Church, Rev. T. Page Ricard, pastor. Sunday, February 3, services at 11 a. m. and 7:15 p. m., conducted by the pastor. Prayer meeting at 8:15 a. m., M. M. Spook, leader. Sunday-school at 3 p. m., W. R. Barrington, sup't. Class meeting at 4 p. m., J. V. Williams, leader.

Notice. MAYSVILLE, Jones Co., Jan. 18, 1890. To all who are suffering with waris or cancer: April, 1889, there was a wart came in my mouth, which was giving me much trouble with pain; also talking and eating. Hearing that Mr. N. H. White, residing near Polkville, Jones Co., was curing warts and cancers, I immediately saw him. June the 14th he commenced work on it, and in October, 1889, I am thankful to say it was well without the use of medicine.

It is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrous tissues, and causes the pains and aches in the back, shoulders, knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

Board Trustees New Berne Academy. At the meeting of the Board of Trustees of the New Berne Academy, held yesterday afternoon, the following officers and committees were elected for the ensuing year: John S. Long, president; W. M. Watson, secretary and treasurer. Executive committee - President, ex-officio, T. A. Green, Wm. Hollister. Auditing committee - W. H. Oliver, A. Miller, George Slover. Building committee - E. H. Meadows, W. G. Brinson, F. Ulrich.

Shipping News. The steamer Annie of the E. C. D. line sailed yesterday evening with full cargo. The Eagle will arrive today. The steamer Manteo, of the O. D. line, sailed yesterday for Norfolk taking several passengers and a full cargo of freight. The steamer Kinston took out the largest freight of the season over that line for Kinston yesterday.

The steamer Enola, of the Clyde line, will arrive from Baltimore this morning. The schooner H. J. Gorman, Capt. Tomlinson, is at Stimson's mill wharf and will load lumber today for J. S. Kent & Co., Philadelphia.

Denmark vs The A. & N. O. E. Messrs C. C. Clark and W. W. Clark, counsel for the defendant in the case of Kieper Denmark vs the Atlantic and North Carolina Railroad Company, returned from Goldsboro last night, where the case has been in progress since the opening of court on Tuesday morning. Denmark sued the railroad company in April 1888 for \$20,000 damages for injuries done by being run over with a train in February 1875.

Personal. Messrs Albert and Edward Wade, north of the Fort Barnwell section, were in the city with cotton to sell yesterday. They say that the exodus fever has just struck their community, having almost depopulated the section above them of negroes. We think, from recent developments, that there will not be much more "exodus"ing. Mr. and Mrs. H. C. Tinker, of New York, are visiting Mrs. M. S. Smallwood. Capt. S. H. Gray has returned from a trip north. Mrs. M. J. Stanley, of Bethel, Lenoir county, is in the city visiting her brother, Mr. W. F. Rountree. Mr. Gerrit Vyne, accompanied by Mr. Deppes, of Pennsylvania, arrived in the city last night. We are glad to see Mr. Vyne here again.

Referring to the above named gentleman, the Kinston Free Press has the following: Dr. D. S. Harmon &c. "Dr. D. S. Harmon left yesterday, for Wilson, where he will remain for several weeks. He was kept here longer than he intended by so many unexpected patients coming in. During the seven weeks Dr. Harmon was in Kinston he made 155 pairs of lenses, and in no single instance was any complaint made; and this is saying a good deal as he offered to refund the money paid in any instance where the patient were not fully satisfied with glasses. On the contrary all expressed themselves as highly pleased with his work and many for whom he made glasses certainly had something to cause them pleasure, for from almost blindness some now have good sight, and others from badly defective sight now see perfectly. He has certainly done lots of good among our people. Dr. Harmon carried off with him the most flattering testimonials of his good work from our most prominent citizens. He has a number of instruments of his own invention for measuring the eye and the detection of defects of the various kinds. He has the science of his profession down fine and if he fails to perfectly fit an eye there is but little use for any one else to try. The community that Dr. Harmon visits is fortunate, therefore, the Free Press congratulates the people of Wilson upon his visit to their beautiful town, and heartily recommends him to such of her citizens as may be afflicted with bad eyesight - to such, who consult him, Dr. Harmon's visit will prove a blessing. This sounds well. Of his own free will and accord the editor writes this after the doctor has gone. He can be found at the Briggs hotel every day."

Hood's Sarsaparilla cures catarrh by expelling impurity from the blood, which is the cause of the complaint. Give it a trial.

NORTH CAROLINA.

From the State News.

Court convenes at Kinston on next Monday, Judge Graves presiding. The New Berne Fair is to be the grand occasion in North Carolina this month.

A stock company has been organized in Wilson to build a tobacco warehouse. Winston Daily: There is an immense amount of manufactured tobacco being shipped from Winston now a days.

Raleigh News and Observer: It was reported yesterday as coming from a druggist in this city that there had not been one or more cases of the "grippe."

Beaufort Seaside (Morehead City letter): Messrs. D. Bell & Co. anticipate having a canning establishment attached to their grist and saw mill, where will be canned oysters, crabs, shrimps, and in fact everything that grows in water or on land that will pay.

Kinston Free Press (Snow Hill correspondence): Crops in Greene county are not as short as was at first feared. We are informed that there has been as much - if not more - cotton here this season than was last year. The farmers in this county have planted lots of wheat this year. That's a step in the right direction. The exodus fever has about subsided around here.

Scotland Neck Democrat: Mr. G. W. Bryan gives the best cure for hard times we have seen in this section. He began stabling three cows about the 1st of last October, and says he has raised 50 loads of good manure from their stalls. He stabled them at night and kept a plenty of litter. Why not raise from all your cows accordingly? At this rate nine cows will raise 540 loads of manure in a year.

Wilson Advance: We see from the Tarboro Southern that the cotton factory there has made clear profit of \$3,500. The Advance believes that the best thing that could be done for Wilson would be to offer land free for the purpose of manufacturing of any character. They should be exempted from taxes for a reasonable length of time also. Let us catch the spirit of the times and go forward.

Wilmington Messenger (Raleigh correspondence): Mr. Wilson says that the Fair at New Berne next month will be an excellent one. The prospect of a railway from New Berne southward is having a very stimulating effect. In inquiry was made this afternoon in regard to Col. Polk's condition. It was learned that he was very slightly improved, and is yet quite sick. His trouble is of the kidneys. Few people have even an idea of the very great amount of business transacted by the "State Business Agency" of the Farmers' Alliance. Yesterday, for instance the orders for supplies, exclusive of fertilizers, aggregated \$2,000, and those for commercial fertilizers \$1,000. These orders are in all cases accompanied by the cash. Business Agent Worth has his hands full.

Tarboro Southern: The reporter was informed Tuesday, that the jail doors were open for the first time since it was built. After Capt. Watson had taken his force out on the road there was no one left, therefore its doors were hung open to the breeze today. This is remarkable. - Between 1,500 and 2,000 negroes, large and small have left this county; yet except in townships nine and ten where they are comparatively few they are not missed. The individuals may be but the numbers are not. At last it seems that the emigration fever has subsided and the farm laborers have gone to work. From what the reporter can learn there is no trouble among the farmers in getting laborers. It is remarkable that as much as the labor in this county has been agitated this and last year that so much work on the farms has been accomplished.

Dr. D. S. Harmon, Optician, Referring to the above named gentleman, the Kinston Free Press has the following: Dr. D. S. Harmon &c. "Dr. D. S. Harmon left yesterday, for Wilson, where he will remain for several weeks. He was kept here longer than he intended by so many unexpected patients coming in.

During the seven weeks Dr. Harmon was in Kinston he made 155 pairs of lenses, and in no single instance was any complaint made; and this is saying a good deal as he offered to refund the money paid in any instance where the patient were not fully satisfied with glasses. On the contrary all expressed themselves as highly pleased with his work and many for whom he made glasses certainly had something to cause them pleasure, for from almost blindness some now have good sight, and others from badly defective sight now see perfectly. He has certainly done lots of good among our people. Dr. Harmon carried off with him the most flattering testimonials of his good work from our most prominent citizens. He has a number of instruments of his own invention for measuring the eye and the detection of defects of the various kinds. EATON the JEWELER.

FLOUR-CORN.

I have a small lot of this REMARKABLE CORN for sale at W. R. BARRINGTON'S in New Berne, and also at W. H. SAWYER'S in Bayboro. It makes as good and as palatable flour as ordinary wheat, and will on rich land make a larger yield than common corn, as it succors abundantly and they bear well. One grain to the hill. It yields more fodder than the common corn. If it doesn't do what is said of it, the purchase money will be refunded, if put on good land. It will be on exhibition at the New Berne Fair.
