SPEAKEE REED should learn a lesson from Tom Platt's fate. Ozarogracy is out of place in this country.

An extra effort should be made today and in the act of firing his musket. The cup was ordered for Mr. Bryan to finish up all work at the Fair grounde, in order to have everything in by Mr. Bell and is valued at about fifty readiness for the opening on Monday dollars. It is certainly worth compemorning. ting for.

A cow belonging to Mr. C. C. Perry, who lives about two miles from the city, gave birth to three calves a few days ago. They were all fully developed, but lived only a short while. The ladies of the art department of the Fair request us to say to those who

year. There were, of course, other executions during the year, of persons convicted in 1888, but who had ap-

nealed or been respited. Of larceny there were 1 227 caser, and of misdemeanor 6,854. The larceny square. In the centre of the base a cases furnish the bulk of the penitentiary population. That crime is more common in the east. In the wee assaults are most common. All over the State there were many cases of of gold, the muzzles resting against the fornication and adultery. The defend ants were in very many cases white men and negro women; but in all the State there were only nine cases in which they were negro men and white women. In one case a negro had married a white woman. Both were tried for fornication and adultery, and were sent to jail, while the marriage was annulled.

Of the Indians tried five were Cherokees and two Croatans. Of all the criminals tried only one was a Jew, and he was acquitted. In Warren county a negro woman, Ritta Alexander, was tried for burglary. So far as your correspondent knows this is the only case where a woman has been tried for this offence.

The more common crimes other than larceny, are assaults, assaults and batteries, assaults with intent to kill, fornication and adultery, retailing liquor without license, carrying concealed weapons, disturbing religious worship, forgery, maiming stock and cruelty to animals and malicious mischief.

Among crimes less frequent were riots, which occurred in three counties, Moore, Wayne and Mitchell; escapes, gambling, secret assaults, removal of landmarks or boundaries, burning pirates have benefited the oyster beds buildings, not occupied, slander, rescue of North Carolina after all, and if the and enticing away laborers. A curious report is made by the clerk of Orange court: at the spring term,

1889, a man was tried for burglary and acquitted. Later in the year the real

criminal committed suicide. The clerk

that country. In Brunswick there has been none in twelve years. The clerk

of Johnston suggests the restoration of

the whipping post as a punishment for minor offences, while the clerk of Moore says a better execution of the

laws is needed. There was a curious sentence in Stokes, where a white wo-man, for f. and a., was sent to the peni-

tentiary for two years and was then to be given ten days in which to leave the State. The clerk of Warren reports

that in that county there has been no execution since 1878, and that was the
