RACE TROUBLE.

RALEIGH, N. C., Feb. 21.—The negro incendiaries at Rocky Mount have sent a notice to prominent citizens there that if the Rocky Mount Light Infantry are ordered out the negroes will kill them all, if they had to shoot them from ambush. Other threats of a like character have been made.—Charlotte Chronicle.

The Charlotte Chronicle is one of the best papers in the State and it would not publish a merely sensational paragraph. There have been serious disturbances at Rocky Mount, but we do not believe that there is such a condition of affairs as would naturally be supposed to exist from the reading of the Raleigh telegram. Such a threat, emanating from leading negroes at Rocky Mount and endorsed by the negroes of that community, would be answered by the immediate presence of State troops. There would be no evasion, no delay.

We have always counseled moderation and forbearance on the part of our people, not from any fear of an outbreak, but because of our reverence for law and a firm resolve to use our influence for the preservation of order.

The reckless bravado of a desperado, or the insolence of an infatuated mob, must not be taken as indicating the purpose of a people. We believe that if the sentiments of the negroes in the vicinity of Rocky Mount could be ascertained, it would be found that a majority of them are in favor of peace. Negroes are naturally excitable, and under the inflammatory appeals of emigration agents and the harangues of Republican Congressmen, many of them are just now at fever heat; but a cooling period will come, and they will settle down to the ordinary duties of every day life.

A little patience on the part of our people would not be amiss. Patience is a virtue very far removed from cringing and cowardice. Indeed it is an element of the truest manhood. We have never doubted the result of a race conflict, so far as the question of ultimate triumph is concerned. The negro can be easily wiped out, but we would deprecate a necessity involving social disorder and individual suffering.

Let us have peace. Above all, let us be just to all men, and let the consequences of any disturbance, that may unfortunately occur, fall upon the offenders.

We repeat, we expect no further serious trouble at Rocky Mount or elsewhere. A proper regard for the rights of all is the best safeguard of any community.

CONGRESS.

We are constantly asked, what is Congress doing? It is difficult to say. Just now the World's Fair has the attention of the House. It is probable that the Fair will be held in 1892, but where it will be is not determined. Washington, New York, Chicago and St. Louis are pressing their claims with commendable zeal. Democrats are trying very hard to keep the Fair out of politics, and make

people will take part as American citizens.

The Senate has been occupied very largely of late listening to Mr. Blair's advocacy of his educational bill. At last accounts he had spoken five days and had not finished his speech.

The Democrats of Congress are upon the alert. They are in the minority and cannot carry out measures of reform, but they will keep the purposes of their party prominently before the people, and leave nothing undone to prevent hurtful legislation.

Reed continues to play the tyrant, and every day is subjected to castigations that no honorable man would patiently endure.

Hot Water and Dyspepsia

Another hyriatic method, which acts by removing the cause of disturbance, is the sipping of hot water an hour before meals, in dyspepsia, writes Dr. S. Baruch, in Times and Register. The hot water craze, which now has taken a firm hold upon the lay public, is but the legitimate outcome of a valuable therapeutic application of water, whose simplicity commends it at once to the judgment of the intelligent physician. Brought into prominence by Dr. Salisbury, who committed the error of most enthusiasts regarding it as a panacea for most diseases, it has now been adopted by the profession as a most valuable agent in many gastric troubles. By removing the process of fermentation, by cleansing the mucous membrane of mucous, it restores tone and vigor to the gastric lining, and enables the natural forces to come in play. It is important to observe strict compliance with the rule laid down by the originator, viz: that the water should be sipped as hot as possible, and that an hour should elapse before a meal is taken. Examples of failure due to neglect of this rule are numerous in the experience of all medical men.

No enjoyment, however inconsiderable, is confined to the present moment. A man is the happier for life from having made once an agreeable tour, or lived for any length of time with pleasant people, or enjoyed any considerable interest of innocent pleasure.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar curative powers. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Peculiar Medicine, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by H. L. Hood & Co., Lowell, Mass.
