The Ohio Legislature has redistricted the State, giving a majority of Congressmen to the Democrats. Correct!

With all its millions the Senate has not money enough to bar its doors against public opinion.—Philadelphia Inquirer.

We congratulate the Winston Daily upon its triumphal entry upon its third year. May the future be even more glorious than the past.

Intimate friends of Minister Robert Lincoln express the opinion that he will resign, as minister to England, and return to his home in Chicago, because of the death of his son.

ONLY SIX cities in the State of New York can now be said to be under the control of the Republican party. Perhaps Mr. Thomas O. Platt will make a note of this rather startling fact.—New York World.

THE Chronicle is today a success. It enjoys a larger daily subscription than was ever known to a Charlotte daily; its advertising patronage is steadily growing; and its friends increase daily.—Charlotte Chronicle.

ROBERT COMBING once said of Jay Gould: "Had he not gone into business, but instead had taken up politics, he would have been the master politician of the country, and, I think, the greatest diplomat in either continent."

A HAVANA special says that "Owing to the persistent draught, all the sugar cane that was planted during the spring and fall has been either destroyed or injured to such an extent that next year's crop must be seriously affected."

We can find fifty farmers in North Carolina who make more dollars to the acre, to the mule or horse or to the workmen employed, than any other fifty farmers on the American continent. If you think this is "brag," bring out your fifty in any State and we will produce the fifty in this State that beat them year by year. In fact, we will not limit the selection to one State, but you may take all the States and North Carolina will beat you.—Wilmington Messenger.

CHRISTIANSBURG, Va., March 5.—This community was startled by a strange phenomenon this afternoon between 4 and 5 o'clock. The moon was rising and the sun was visible over a mountain. Suddenly three distinct suns appeared in the West, each completely encircled with a rainbow. Each rainbow showed distinctly the seven prismatic colors, but the outer and inner edge of each was red. In the south there was another sun surrounded by another circular rainbow. This is on the summit of the Allegheny Mountains, and this may account for the very unusual phenomenon, but many people are frightened. Scientists say that it may have been a mirage or a combination of sun and inner rainbows.—New York.

NEW ADVERTISEMENTS

W. M. WATSON—Lightning rods.

Good music at the Y. M. C. A. this afternoon at 5 o'clock.

In a secret session of the Senate, Mr. A. W. Shaffer has at last been confirmed as Post Master at Raleigh.

One case before the Mayor yesterday: Charles Bell, assault and battery, with a stick, on J. A. T. Lincoln; fined \$1 and cost.

The premium money taken by Mr. John Dunn, amounting to \$18, was returned by him to the Fair Association very clever.

Next Wednesday night the regular monthly business meeting of the Y. M. C. A. will be held. All the members are requested to be present. Besides the regular business, delegates are to be selected to attend the State Convention at Goldsboro, which convenes Thursday, to continue four days. New Bern should have a good representation.

We note that Messrs. Moore & Brady, in order to meet the demands of their business, which has largely increased, are compelled to keep their factory in operation at night and will have gas put in immediately. We take occasion to say that we are greatly pleased at the success of this enterprise in New Bern. Messrs. Moore & Brady have established an industry in our community which is of great importance to our city and Eastern North Carolina. Such industries should be encouraged by our people, for we must look to these, in no small degree, for future prosperity.

Boys' Meeting.

All boys under sixteen years of age (no others) are invited to meet at the Methodist church this afternoon at the adjournment of Sunday-school. The meeting will be conducted by Prof. G. T. Adams, under the auspices of the Y. M. C. A. These meetings will be held monthly at the different churches and will be strictly boys' meetings.

The Snow.

Many were surprised to see so much snow yesterday morning. It was a heavy fall for this section of country. There was probably three inches, but a great deal of it melted during the night. The boys and girls enjoyed snowballing hugely. Several squads of boys, and a few young men mixed in, took in the town and snowballed right and left, and some old fellows who had long ago laid aside childish things had to play their part as targets for the well aimed balls. A great many enjoyed being snowballed and those who did afforded the more fun for the boys.

Fish dealers had men out during the day gathering snow and placing it in boxes. It will be used in shipping fish. They probably made more out of the snow than any one else, except probably the wood dealers, who advanced the price of wood a little and had a good trade.

We were surprised to learn that the fall was much heavier here than at Kinston and Goldsboro.
