If you have not tried my Fresh Roasted Coffee, do so at once. Every body delighted. JNO. DUNN.

The prohibition question is again being agitated at Atlanta.

"SCIENTISTS declare that veils are injurious to the eyesight, and Blifkins says it's a fact; that there is nothing harder on a man's eyes than a veil which looks as if there were a pretty face behind it."

The President persistently refuses to remove Marshal Mizel, of Florida. Why should he remove him? All Mizel did was to pack some jurors to convict Democrats. This was no crime from a Republican standpoint, but on the contrary is something which would entitle him to distinguished consideration, rather than being bounced.—Wilmington Star.

ARMY and Navy officers are receiving serious consideration here, attention being directed to them by the fact that there are now three courts-martial in progress, viz: The Steele-Wild case in Chicago, the McCalla case in Brooklyn, the Healy case in San Francisco. In each case the commanding officer is being tried on charges of unwaranted severity and cruelty to those under him.—Washington Post.

The "California Patron" says: Up in Dakota the money sharks who prey on the struggling agriculturists have reduced usury to a science. In nearly every case they require the farmer to give a note with a face value of \$125 for a loan of \$100, the face value of the note to draw 12 per cent. interest per annum. The same system of usury and extortion obtains today in North Carolina and should be prevented by law. How long will our suffering farmers submit to such robbery.—North Carolina Farmer.

It is an annual fact that cattle are selling in Cherokee county, Kansas, at one cent a pound. Just think of a 1,000 pound cow selling for \$10! How does this strike you, farmer? You could have sold these same cows in 1886 for \$50 to \$60. Feeders in Kansas say they can not pay over six cents a bushel for corn and feed to cattle at the present prices they are getting for them. Is it not about time you were doing a little thinking for yourself, if you have not heretofore done so?—The Alliance Sentinel.

The subject of increasing our public educational facilities and of introducing music and more advanced grades is now under discussion in the School Board. State education is, by the consent of the whole world, an essential item of true statesmanship and policy, and the enlightenment of nations is now measured in its degree by the character and extent of their provision for general education of youth. It is no longer a question anywhere whether or not there shall be public schools, but how efficient and popular the public schools can be made. The drift of public sentiment is in the direction of compulsory education and the free supply of necessary text books.—Norfolk Landmark.

ANDREW G. CURTIN, the war Governor of Pennsylvania, is among those who are looking for a political revolution this year in the Keystone State. "Pennsylvania is a good enough Republican State nine years out of ten," he says, "but this happens to be one of the off years." He advances, as the basis of his belief, the theory that Republican disaffection is so widespread that "it cannot be controlled by any combination of political interests which may attempt to direct public sentiment in that State."—Norfolk Virginian.

It is to be regretted that the authorities of Chatham county have ordered a public hanging. If we are not mistaken Chatham prefers such notorious and public displays, but why we are not informed. Public hangings are now held among most right-thinking people to be a public curse and nuisance, and good citizens everywhere should frown upon such unseemly exhibitions to gratify a morbid appetite of an unreasoning multitude. All executions ought to be private. Such is the conclusion of an overwhelming number of people of the most intelligence so far as we can learn.—Wilmington Messenger.

LOCAL NEWS.

NEW ADVERTISEMENTS
ROGERS—Entertainment.
W. P. BURRUS & Co.—Pears, etc., for sale.
SIMMONS & GIBBS—Boiler, engine, etc., for sale.

The rainfall on Tuesday night was gladly welcomed by the truckers.

The steamer Stout, of the Clyde line, arrived from Baltimore yesterday with cargo of general merchandise. Will sail today.

Rogers entertainment was well attended last night. Everybody seemed to enjoy it very much. Repeat tonight at 8:30 o'clock.

Wm. H. Coleman, colored, was taken to the Goldsboro insane asylum yesterday by Jallor Barham. Coleman had been in our jail about a month. He was from Adams' Creek.

Sheriff Lane is giving his last notice to delinquent taxpayers. Property will be advertised and put up for sale Thursday, April 3d, unless settlement is made. Leniency cannot be given.

"Hard Times" is the subject of an article printed in this issue. It is a composition written by a young lady attending the school taught by Mr. C. B. Frazzell at Pollard, Onslow county.

We are in receipt of the Wake Forest Student for March, which is, as usual, an interesting and well edited magazine. We notice that Mr. Samuel M. Brinson has recently been elected business manager, which, we believe, is the most responsible position on the Student, and is regarded as one of the highest honors to be attained during the college course.

At the meeting of the stockholders of the Fair the president and the secretary and treasurer were re-elected for another term, which is the strongest evidence of their fitness and the confidence they are held in by the Association. The Fair is to be contrabuted upon having such worthy officers to stand at the helm and weather any storm that is liable to arise. With such men at the head there need be no fear of anything less than even greater success.

The Goldsboro Argus of yesterday says: "The Memorial orator for Goldsboro on the coming Tenth of May will be Maj. Graham Daves, of New Berne, who was one of the bravest of the brave in the late struggle for the 'Lost Cause,' who knows so well how to enter into the tender significance of these recurring memorials and to inculcate the proper spirit of their observance into the rising generation. He will give our people an eloquent and historic address that will be both inspiring and instructive."

A Clock for New Berne.
By all means let an electric clock with illuminated dial be placed in the public building. Nothing would be more appreciated by our citizens than so small an outlay would accomplish.—Wilmington Messenger.

A good suggestion that applies with more force here than in Wilmington, for here we have no public clock at all. A clock of the kind mentioned would be most useful to the occupants of our public building as well as to the whole community. Let us have one, whether with or without the illuminated dial.

Stockholders' Meeting.
The annual meeting of the stockholders of the E. C. F. O. G. & I. Association was held at the rooms of the Y. M. C. A. Tuesday evening.

The hall was filled with many of our most prominent business men, gathered there to hear the reports of the officers for the closing year, to elect new officers, and transact any other business that might come before the Association. The interest in the meeting showed conclusively that the Fair was looked upon with bright prospects and that it should be carried forward with the same zeal and earnestness that had characterized its past existence. The splendid results realized from the previous exhibitions were too evident to relinquish one particle of interest.

All the particulars were clearly defined in the reports of the president and treasurer, which places the Fair on a firm basis. A slight change was made in the constitution by consolidating the office of secretary and treasurer.

The following officers were elected for the ensuing year:

President—Wm. Dunn.
Vice Presidents—E. H. Meadows, K. R. Jones, J. A. Richardson.
Board of Directors—S. H. Gray, J. C. Whitty, G. H. Roberts, T. A. Green, Geo. Henderson, G. N. Ives, C. E. Foy, W. P. Burrus, J. A. Meadows, O. H. Guion, Alex. Miller.
Secretary and Treasurer—Chas. Reizenstein, New Berne, N. C.
Board of Managers—M. Manly, J. K. Willis, J. A. Bryan, S. R. Street, R. P. Williams.
Finance Committee—Chas. S. Bryan, F. Ulrich, E. B. Hackburn.

You are Very Mild.
A letter from Onslow county says that the JOURNAL was unjust in not mentioning the New River oysters that were on exhibition at our fair. If the New River bivalves were overlooked it was unintentional on our part. As to size and flavor they are seldom surpassed and we would have been glad to have spoken of them, but "my, my," Mr. Onslow, you are not by yourself in being ignored and unfairly treated. You just "orter" been here for about the first two weeks after the fair. It was hot water on every side. In fact we felt out of our latitude when we were not in hot water. Thank you for being so mild.

Personal.
Judge Seymour returned last night from Raleigh.
Mrs. Capt. Southgate and child, of Norfolk, passed through the city yesterday en route to Columbia, S. C.

Foreign News.
PARIS, March 25.—Gen. Boulanger has again offered to return to France if the government will permit him to be tried by a court-martial or the court of appeal.
BERLIN, March 25.—It is announced that Emperor William has decided in future in case of workmen's strikes, the general commanding the district in which the strike occurs shall act independently of the civil authorities.
PARIS, March 24.—A deputation of the Paris Chamber of Commerce waited upon the minister of foreign affairs this morning to make a formal protest against the provisions of the McKinley bill. Were this measure to pass the Washington Senate, the deputation said, French manufacturers would find it very difficult, not to say impossible, to export into the United States. M. Ribot in reply said he would consult with the representatives of the European powers affected equally with France by the bill. He believed that their common action would have more chance of success than if France stood alone in the protest.

Prairie Fire Which Causes a Loss of From \$150,000 to \$200,000.
KANSAS CITY, March 25.—The Times' Wichita special says: Two sons of W. T. Webster, while playing yesterday morning on their father's farm, near this city, started a disastrous prairie fire. The wind was blowing a gale and the fire spread with great rapidity towards the northwest, and at the latest reports had burned over fifty quarter sections of land. The house, barns and out-houses of one farmer were destroyed, and a great quantity of grain and hay consumed. So far as can be learned the loss among live stock was not severe. The fire has now about burned itself out, but it is feared that the high wind which still prevails may fan some of the dying embers into a blaze. Loss \$150,000 to \$200,000.

SUGAR Refiners Kicking.
WASHINGTON, March 25.—Having once reopened the subject of duties on sugar, the Republican members of the Ways and Means Committee find it hard to adjust them satisfactorily. Today the refiners were here in force. There was a number from New York and Boston, and Knights and Frazer were here from Philadelphia. They made a strenuous protest against the action of the committee in cutting so heavily into the existing rates and maintained that a twenty-five per cent. cut was all that the refining industry could stand. On the other hand about a dozen members of Congress from the West insisted that the duties must be still further reduced.

Hood's Sarsaparilla is on the flood tide of popularity, which position it has reached by its own intrinsic, undoubted merits.

Composition by a School Girl in Mr. C. B. Frazzell's School at Pollard, Onslow County, N. C.

HARD TIMES.
The cry of hard times is heard among all classes of our people, and especially among the farmers and laboring class of our people. Why is this? Some will say poor crops, and last year was a very poor crop year, but this is not the only cause, nor is it the greatest. It is the careless management of affairs and extravagance that has brought the finances of the county to its present condition.

Have we not as many advantages here as any other people, with the exception of railroad transportation, and are we not doing as well as many who have it? As our young men reach manhood their first thought and highest ambition is to seek new fields and better times, and above all, easy employment. This has got to be such a general thing that many of them are having to return to their old homes, for all such places are full. The negroes are fast disappearing. This will I think give place to the rising young man, who will be able to command better wages, for they will give better and more trustworthy labor. This with the management of buying and selling through the Farmers' Alliance will be the first step towards improving hard times. It would be a good thing if the Alliance formed a resolution, that no man who is a member of this order shall buy or sell any other way except through and by the business exchange, unless he be compelled to do so, and then he shall not buy anything except the necessities of life. And no lady shall wear a dress costing over ten cents per yard, and not but ten yards to the dress, except once a year, she may be allowed one a little nicer, but it shall not exceed twenty-five cents per yard. She shall not buy hamburgs and laces, nor shoes costing over one and a half dollars, and hat not over one dollar; all other articles reduced accordingly. The gentlemen's clothing shall be reduced to the same quality in proportion to that worn by the ladies. Some of you may object to this, but it is the only plan by which hard times can be banished. For my part I am sure I should feel quite as well in a plain dress as any other, for when worn through style we all wear them. Besides, many of us would find that the hours we spend in making fancy articles would be spent in a more profitable way. We would find many leisure moments when otherwise we would be straining our tired bodies.

Now this Alliance has been meeting regularly for the past two years and we have accomplished but very little good as yet. Are you willing to make this little sacrifice? It is your duty to aid the Alliance in every possible way you can, and by doing this would be able to forward some of its plans. You who have gray headed parents; would you not like to relieve them from some of the cares and burdens you cause them? Let those who have money to spare spend it on the education of their children, and a little saved for old age and misfortune, would keep them from living on charities, and make the paupers of our county less. This mode of living would not diminish our pleasures, but add to it, for we would have more money and time in which to cultivate the mind and make home comfortable and happy until our brain and eyes ached just for the sake of an extra ruffie or plait, which we have seen worn by some more stylish person, and by the time this is completed here comes some other friend who is indeed even more charmingly dressed than the first, and again we strain every nerve to compete with the latter. The young men are quite as silly and extravagant. With this state of affairs we will never be any better off than we now are, for instead of forming our own styles others form them whose chief object is to induce us to buy new goods. Girls we need not be ashamed to adopt this new mode of dress. Don't think but that the young men will admire you just as much as before and even honor you for it, unless it is some top or dudu whose opinion you need not care for. If you were to marry him, and had to adorn yourself with what he labored for, I am sure you would get but very few adornings. Young men don't think that the girls will not honor you as much as ever in your cheap attire, except it is some vain, silly girl who does not know how to prepare a meal as it should be.

Three Interesting Items.
The House was wholly occupied in the consideration of the World's Fair bill on Tuesday, which was amended in several particulars, and finally passed by a vote of 203 to 49—the negative votes being those who are opposed to the holding of any World's Fair.

The Farmer's Alliance of the United States have decided to establish the Alliance Agricultural Works at Iron Gate, Alleghany county, Virginia. It will employ from three hundred to five hundred hands.

The extradition treaty between Great Britain and the United States, supplementary to the tenth article of the treaty of 1843, was proclaimed by this government yesterday. Under its provisions Canada will cease to be a haven of rest for the many thieves and other criminals from this country.

Extraordinary Bone Scratching.
Herbert Sperry, Tremont, Ill., had erysipelas in both legs. Confined to the house six weeks. He says: "When I was able to get on my legs, I had an itching sensation that nearly ran me crazy. I scratched them raw to the bones. Tried everything without relief. I was tormented in this way for two years. I then found Clarke's Extra-Extract of Plax (Papillon) Skin Cure at the drug store, used it, and it has cured me sound and well."
Clarke's Plax Soap has no equal for bath and toilet. Skin Cure \$1.00. Soap 25 cents. For sale at F. S. Duffy's drug store.

For Sale,
