Father Boyle Acquitted. Assistance for Mr. Collins. Father Boyle has been acquitted. The indictment, under which he was tried, sympathized with Mr. John Collins, charged him with having committed who had the misfortune to break his rape on the person of Geneva Whitaker, leg while performing the duties of in the county of Wake and State of watchman in this city. It is now pro-North Carolina. In the absence of evidence to the contrary, we must conclude that the trial was a fair one.

THE DAILY JOURNAL.

The circumstances of the 'case are known to the public. No one pretends at his store on Broad street, and R. J that Boyle's conduct is justifiable in law or motals. The only question before the court was, "Is the prisoner guilty as charged in the indictment?"

There was no middle ground for the jury to stand upon. They had either to find the prisoner guilty and inflict the death penalty, or find him not that the character of it is not to be guilty and discharge him. The deliborders at Hotel Albert or at the carpen- noticed. A manly, trutkful boy erate verdict of the jury, after a full investigation and patient hearing, was not guilty, and Boyle goes forth in the world a free man.

> We wish that the stigma that rests apon the country could be so easily Personai. effaced. It is evident from this case. and others like it, that society needs The fact that a man can go free from same screage as heretofore. a courthouse with such facts against him as were admitted by Boyle, is a blot on our civilization.

The Tomato.

Growing tomatoes in the South is upidly increasing every year, and will toon be recognized as one of our principal products In Eastern North Caroting they are very prolific and of fine quality. For canning purposes the tomato is regarded as profitable and more easily handled than probably any other vegetable. Will not New Berne look after some of these smaller industries? Is it not to our interest? A tomato cannery has been running in the western part of the State, and we are informed that their expectations have more than been met.

From the Philadelphia Farmer we take the following extract on raising the tomoto:

"One of the most common mistakes in the cultivation of tomatoes is in in row. Ground should be good. Will good-looking fruit, but crop will be small. Phosphates are very beneficial to tomatoes, and in some recent experimost excellent results, applied in small successive doses during cultivation. But phosphates should always be applied in advance of the nitrate. The cultivation should be like that of cotton. Some train to stakes and some on rude and family. frames, but it is about as well to let them run at will on the ground."

right at our doors, and it requires small

"Bungs-A bung is a very small ar-

ticle, but though small it has become an important item in trade. There is,

in many sections of the South, abun-

dance of timber from which bungs can

be made and would prove a profitable

occupation. The compressed bungs,

the kind commonly used are made of

poplar or white-wood, and required for

petroleum, molasses, oils, beer, etc. One thousand feet of lumber yield 25,000 to 80.000 bungs, the average

price of which is \$1.25 per thousand for

direct to consumers. A complete outfit

of machinery for making bungs costs about \$2,500. Mr. Pryibil, 518 West

More Breaks in Leveos-The Garden Spot of the Yazoo Delta Flooded. NEW ORLEANS, March 29.-The Times-Democrat's Greenville, Miss.. special gives details of the two latest breaks in the levees. The first to give way was the levee known as Easton's Levee, which is half a mile above Rowel's landing, in Bolivar county, and about sixteen miles north of Greenville. The break occurred at 2 o'clock Friday to visit farms owned by them in Jones morning. The second was a levee one and a half miles below Huntington, on the Timberlake plantation, about four miles above the Offcutt break. This was also considered safe and secure. The breaks are both very bad ones. The outflow of water from these two
