EX GOV. HUBBARD of Texas, late United States minister to Japan, has announced himself a candidate for Congress in the Third Mr. Kilgore's district.

The able Philadelphia Republican Telegraph is of the opinion that the McKinley tariff rests on a mountainous fabric of lies and ignorance. "Thar now."—Wilmington Messenger.

OHIO, Iowa and now Rhode Island—all gone Democratic since the ideas of November. Do our Republican friends understand! Do they see the handwriting on the wall!—Little Rock Gazette.

The young farmers of Iowa are said to be marching into the Democratic party, not in "blocks of five," but in brigades. The result of the campaign of education on the tariff question.—Wilmington Star.

It is more than ever patent that the Republican party cannot reform the tariff and correct its inequalities and irregularities, and that this task must be intrusted to the Democracy.—New Orleans Democrat.

The widow of a Russian army officer, at Moscow, the other day, and her five daughters, on account of extreme poverty, locked themselves up in a room, turned on the gas, and died from voluntary suffocation.

To be frank, The Chronicle has never seen a greater outrage perpetrated upon even the humblest citizen than that which the New York Sun and the New York World, have perpetrated upon Grover Cleveland.—Charlotte Chronicle.

ANOTHER levee on the Mississippi has been broken by storm and rain, and crevasses are numerous along the front at Bayou Saura; Gov. Nichols has been telegraphed to send a boat at once to save the people, or there may be great loss of life.

SAN FRANCISCO, April 22—At the meeting last night of the members of the Calif Athletic Club, an informal decision was reached to match Sullivan and Jackson for a purse of \$20,000. No agreement as to when the fight will take place was reached.

REVERBERING the very destructive effects of a war tariff in a time of peace the Philadelphia Times says: "The Farmers of Bucks, Montgomery, Chester and Delaware counties have found out that something is wrong with a system of taxation that forecloses farm mortgages and makes the sheriff the busiest and most prosperous man in the community."

A **HEAVY** buying movement has been in progress in Southern iron, and in some of the largest transactions, under the sharp competition of leading Southern companies, prices were recently forced to the lowest limit reached since last Summer.—New York Star.

OFFICIAL transactions at the New York Stock Exchange last week were 1,037,014 shares, an increase of 215,218 shares over 1889. The transactions in stock and railroad bonds were \$9,527,800 in value, an increase of \$3,213,800 over the same period last year.

LONDON, April 21—Owing to the prevailing strikes and the certainty of trouble on May Day, the Austrian Government has ordered the concentration of strong forces of troops at the disturbed centers, and has arranged to re-inforce the already formidable garrison at Vienna and in the suburbs of the capital.

WHAT bothers the Republicans is to tell what caused their overthrow in Rhode Island. If they say it was the Australian ballot system, they confess to years of corruption at the polls. If they attribute it to the movement for a low tariff they foretell the oblivion to which the high tariff party is to be forever relegated.—Buffalo Times.

As the programme is openly declared it would be useless for the minority to frame a tariff reform measure in opposition to the McKinley bill, as it could never receive the consideration such a proposition demands. In the place of such a bill the Democracy can and will make a stand against the most obnoxious features of the bill, and in that way can clearly indicate the Democratic and tariff reform policy, protest against the destruction of our industries and demand relief for an overburdened people.—Manchester Union.

Davis' School to Go to Winston.
In another column is an article in regard to the change of location of the Davis School, the lively bids by different towns, etc. Since it was put into type the following special to the News and Observer has been received:

WINSTON, N. C., April 23.—The Davis School, one of the largest military schools in the South, will be moved to Winston-Salem. The school will be located a short distance from town. Large grounds have been donated and a building costing about \$50,000 will be erected. Work will be begun at once. The next session of the school will open here in September.

What It Costs
Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes, because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said "100 Doses, One Dollar," and a bottle taken according to directions will average to last a month.

Medals Awarded.

Mr. T. C. Manning closed the third term of his writing school yesterday. He offered two gold medals, one for best improvement, which was awarded to Mr. Jno. H. Whitford, and the other for best writing, which was awarded to Mr. Jno. W. Timberlake.

Mr. Manning says he likes our town and will open another session next Monday.

Persons.

Mr. and Mrs. Gindinas, who have been in the city visiting Capt. S. B. Waters and family, left yesterday for their homes in Brooklyn.

Mr. Gatlin, who lives near Little Swift creek, this county, was in the city yesterday. He says that the beans and watermelons on the east side of Neuse river were almost ruined by the recent frosts. Irish potatoes were considerably damaged too.

Mr. Frank Morton, of Raleigh, is in the city, stopping at Hotel Albert.

A Warning to the "Six-Footer."

Some one fired a pistol on Pollock street, near Metcalf, about 2 o'clock yesterday morning. Several persons in the neighborhood heard the report of the pistol, and Mrs. F. C. Roberts thought it sounded as if some missile had been thrown violently against the house, or something had fallen with a loud noise inside the house. She went into an adjoining room but could not discover any cause for the disturbance. But on entering the sitting room after daylight it was seen that a window pane was broken and a slat in the blind split. It was evident that a pistol ball had passed through the window, and after searching in the room Mr. Roberts found a 32 calibre ball on the floor. Judging from the position of the scar on the blind it was evident that the ball came from the opposite side of Pollock street. As it has been reported that the "six-footer" has visited that locality, it is probably that some one who was late getting home was prepared to meet the "terror," and in his haste to get the advantage fired at the shadow of a tree across the street.

The Baptist University.

Rev. H. W. Battle returned last night from Raleigh, where he attended a meeting of the Board of Trustees of the Baptist Female University. The principal business before the meeting was the selection of a site for the college building. Speaking of the action of the Board the Chronicle says:

"After a sitting, which occupied three hours on Tuesday night, and several hours yesterday, the Board selected the Adams and Pullen property, on East Edenton street, with portions of the McKee and Grissom property, on the same square, as the site for the new college. The dimensions of the lot as selected are 430 feet, or the length of the entire square on Edenton street; 380 feet on Blount street, and 380 on Person street. The lot includes forty feet of the McKee property on Blount street, and about the same number of feet of the Grissom property, on Person street. The purchase price agreed upon is \$34,500 for the property, including all the buildings on it. It was stated yesterday evening that the large Adams brick mansion alone originally cost more money than the purchase price of the entire property bought by the trustees.

"Generally speaking, the choice of the board appeared, yesterday evening, to give great satisfaction and to meet approval; though some dissenting voices were heard. A number of friends of the institution doubted their subscriptions immediately upon the announcement of the decision of the board. The trustees individually and collectively are enthusiastic over the college and see the brightest and most encouraging prospects."

The Davis School—Lively Bidders for a Change in Its Location.

WINSTON, N. C., April 21.—It is learned from very reliable sources, that the Davis military school, now located at La Grange, N. C., will sooner or later change its location. Several towns are now doing what they can to secure its location.

Greensboro has offered an eligible site containing thirty acres and will also subscribe liberally in money for its location at that point.

Salisbury has made an offer of a valuable site, known as the Harrison Place, of six acres with brick improvements already on it, which cost \$7,500 to construct. The buildings and site are valued at \$12,000. They propose further, to give all the land necessary in connection with the above offer.

Winston has the matter under consideration and has made the most liberal offer yet. They propose here to give \$20,000 including a site. About \$10,000 has already been subscribed.

We learn that there are other places at work and will make liberal offers.

Raleigh and Durham, so far, it seems, have not put in bids.

Col. Davis will be in Winston again this week and it is thought Winston will bid as lively, if not more so, than any other town in the State.—Correspondent Raleigh Chronicle.

NORTH CAROLINA NEWS.

From the State Papers.

Winston Daily: The Salem Academy expends directly in Winston-Salem annually \$50,000. This does not include the thousands of dollars spent here by the young lady students, but it gives some faint idea of the value of a large school to a town. This school has been operation now for nearly a century.

Raleigh Chronicle: There never has been a time in the history of Raleigh when the prospect of rapid introduction of the very best class of manufacturing enterprise has been brighter than at this time. Prominent manufacturers throughout the Union are looking toward Raleigh as a location for their plants. The advantages of the city as a distributing point are fast becoming known throughout the country.

Charlotte Chronicle: A gentleman at Mooreville wrote the Chronicle yesterday as follows: "A report is being circulated to some extent over the country, that an admittance fee will be charged at the Sam Jones Tabernacle, which will doubtless deter a great many from going, if it is not corrected. I have been asked by several whether it was so, that it would cost 50 cents to get in, to hear Sam Jones preach. You can make the crowd larger or smaller, by giving the truth about this matter. Of course, no admittance fee will be charged at the tabernacle, to hear Sam Jones. The tabernacle was built by religious citizens of Charlotte for the glory and honor of God. It is to be used to worship in, and all are invited to participate.

To the Citizens of the First Ward.

Having received a majority of the qualified democratic voters of the first ward of the city of Newbern (thereby being the regular nominee) for the position of Councilman, I take this method of thanking them for the honor bestowed on me, and assure them that if elected I shall carefully guard their interest and do all in my power to advance the best interests of the city at large.

Very respectfully,
JOHN C. WHITTY.

P. S.—I am pledged to no man and know no slate.

The registration books of the second ward will be open at the office of J. K. Willis, on Thursday, Friday and Saturday, May 1st, 2d and 3d, for the purpose of registering voters in the city election on May 5th.

HER LUTE.

The air that fills this jeweled lute
Hopes sweetly to awake:
Forever shall these strings be mute
For her dear sake.

The day she died, we laid it by,
Still vibrant from her touch
And fragrant from her dress; and I
Do love it much.

In meditation oft, at eve,
When heaven's stars are to men,
I fancy her pure soul doth weave
That song again.

And so, 'twere sacrilege to stir—
Oh, mortally these things,
Since all their memories are of her
And heavenly things.

A Necessity of Health.
It is a prime necessity of health that the action of the bowels should be kept regular. But the way to overcome a temporary fit of constipation, or to remedy chronic costiveness, is not to deluge the stomach and drench the bowels with purgatives of violent and painful action. The happy medium between an inoperative and violent cathartic is Hostetter's Stomach Bitters, which acts just sufficiently upon the bowels to relax them without pain, and which being a wholesome tonic as well as aperient, has the effect of strengthening both them and the stomach, and promoting the well being of the whole internal economy. The removal of bile from the blood, increased activity of the liver, usually dormant in cases of costiveness, and sound digestion follows the use of this beneficent medicine, as thorough and genial in its effects as it is safe and pure in composition. Rheumatism, fever and ague, kidney troubles and debility are also remedied by it.
