**TAMMANY.**  
 Republicans and Mugwumps are predicting the overthrow of Tammany.

Recent events have been disappointing to Tammany and mortifying to its friends, but it should be observed that the overthrow of the "Grant Ring" is the work of Tammany itself.  
 It requires no little fortitude to submit to the painful operation of a skillful surgeon, and when a man takes a knife and cuts his own flesh to remove a festering ulcer he displays genuine heroism.

Again and again Tammany has cut off her right arm to prevent mortification of her whole body, and with the infection removed has grown stronger than before. So it will be again.  
 The New York Star well says that "The Tammany institution itself is too strong in its membership, too rich in traditions of sound Democracy and good government to be ruined by the temporary abuse of its authority. Sorely injured it has been by the obstinate adherence to power and place of men too conceited and too ignorant of grand politics to realize when the time had come for them to step down and out. But with vigorous and courageous action by the masses of Tammany Hall there will open a new future of usefulness through regeneration."

As with Tammany so it is with all organizations. Combinations for personal ends will be made wherever the leaves and fishes are to be distributed. Sometimes the better elements combine for patriotic purposes, and then again, the combination embraces the worst elements and has for its object robbery and plunder. In all organizations the healing elixir is within themselves, and if saved at all in the day of trial, they must be saved through their own virtues.  
 Every community has within itself discordant elements that must be held in check through its own energies. The law is the conservator of public affairs. That community that pays obeisance to law and lives in accordance with its behests will prosper under the baneful influences of conservatism, moderation and order.

The best system of government avails nothing without competent and just administration. The American Constitution, that greatest production of an inspired wisdom, cannot be productive of good unless the government is administered in accordance with its letter and spirit.

God's word is the surest thing that can be, and we are not ashamed to hold on to any claim which truthfully arises out of it. We dare believe that God will keep His word to us, and to all other believers.

The Universal Verdict of the People who have used Clarke's Extract of Flax (Papillon) Skin Cure award it the first and highest place as a remedial agent in all cases of Skin Diseases. Erysipelas, Sores, Pimples, unsightly blotches, humiliated eruptions, boils, carbuncles, tetter, etc., all yield to this wonderful preparation at once. Price \$1.00 for a large bottle at F. S. Duffy's drug store.  
 Clarke's Flax Soap is good for the skin. Try it. Price 25 cents.

**The Simplicity of the Gospel.**  
 A minister of Christ one day prepared a sermon on "the deep things of God." It was a review of Christian doctrines, beginning with the truth of the Scriptures and going on through the course of Divine revelation, till it reached the great facts of the coming of the Lord and the judgment of the great day. The preacher was thinking of the skepticism, and worldliness, and rationalism which were creeping in, and the progress of which he hoped by this testimony to arrest.

The sole occupant of the pastor's pew that morning was his little ten year old daughter—her mother being unable to attend. The minister had no thought that any child would be interested in this sermon, which he thought was adapted to older and wiser heads. But that evening as the mother tucked her little child in her cozy bed and was about to leave her for the night, the little voice spoke up brave and strong:

"Stop, mamma, I have something to tell you."  
 "What is it, dear?"  
 "I am a Christian."  
 "When did you become a Christian?"  
 "Today."  
 "Tell me how it came about."  
 "Well, papa's sermon this morning showed me the way, and coming home I thought it all over, and I said to myself I would be a Christian; I was totally changed."  
 Some five or six months of testing found her in the same faith and purpose, when she was baptized, and still remains steadfast in the faith.

There are many persons no doubt who desire to be Christians, but who need to be shown the way; and the "deep things of God" and the plain, simple, solid facts of Divine revelation, which are too wise for the worldly, and which are counted foolishness among both Jews and Greeks, are still the power of God and the wisdom of God to everyone that believeth.

**Hans' Fight with a Bear.**  
 "You see," said Hans Becker, describing his bear fight, "he was a pig black bear, so savage as never was. I was working in der field, and der bear he come for me ven I didn't look poety quick out, understand? Vell, I had no gun, no veppon, to defend meinself, ain't it? Dat's vot I dole you. Vell, I yoo-t run like der trial, and der bear he tunned after me like two tifuls."

"You was in a tight place."  
 "Vait till I dole you. Der bear he make my neck for a gab yooast as I was getting der fence over. He put his pig paws aroundt me."  
 "Was you scared?"  
 "Vas I scared? Vell, I wish I had ten dollar effery time I vas scared."  
 "What did you do in this dilemma?"  
 "I didn't do nodding in der dilemma. I yooast reached behindt me, and bulls out a pig butcher knife from my bistol bocket—"

"Hold on, Hans; I've got you now. You said you hadn't any weapon to defend yourself with. Your story lacks consistency."  
 "Did I say I hadt no veppon?" said Hans, scratching his head.  
 "You did."  
 "Vell, it makes nodding difference. It's all a lie, anyhow!"

**Give Water to Infants.**  
 A distinguished children's doctor believes, from his practice, that infants generally, whether brought up at the breast or artificially, are not supplied with sufficient water, the fluid portion of their food being quickly taken up and leaving the solid too thick to be easily digested. In warm, dry weather, healthy babies will take water every hour with advantage, and their frequent fretfulness and rise of temperature are often directly due to their not having it. A free supply of water and restricting the frequency of nursing have been found at the nursery to be a most effectual check in cases of incipient fever, a diminished rate of mortality and marked reduction in the number of gastric and intestinal complaints being attributed to this cause. In teeth cutting, water soothes the gums, and frequently stops the fretting and restlessness universal in children at this period.

**The Clangor of an Alarm Bell.**  
 Close by, in the stillness of the night, could scarcely startle the ordinary individual more than do trifling noises the nervous invalid. But once the nerves are braced and the system invigorated with Hostetter's Stomach Bitters, this abnormal sensitiveness is succeeded by a tranquillity not to be disturbed by a trivial cause. Impaired digestion is a fertile cause of nerve weakness and unnatural mental gloom, and a vigorous renewal of the action of the stomach is one of the surest means of invigorating and quieting the nerves. Insomnia, or sleeplessness, a form of nervous disease, is unquestionably benefited by sedatives, when it is prolonged, or of frequent occurrence, but its permanent removal is more effectually achieved with the Bitters. This medicine is also signally efficacious for malarial, rheumatic, constipation, liver complaint, and torpidity of the kidneys and bladder.

The marvelous feats that steam and electricity are producing are wonderful. Only a short time ago a special train left New York city at 11.15, a. m., and reached Washington in four hours and 18 minutes, the distance being two hundred and twenty-six miles. The rate travelled was one mile in a trifle over a minute. On another short route from Philadelphia to Jersey City, a run of ninety miles was made in eighty five minutes. The wonders of the phonograph were ably illustrated by a transmission of a speech delivered by Governor Brackett of Massachusetts to a meeting in New York. Finding it impossible to be present in person, he spoke his speech into a phonograph in Boston, and it was successfully delivered by the chairman of the meeting at Cooper's Union in New York.

**A Valuable Remedy.**  
 A letter from S. P. Wardwell, Boston, says: "I used Clarke's Extract of Flax (Papillon) Catarrh Cure in June last for Hay Fever with great satisfaction, and find it is the only thing I have seen which would allay without irritation the inflammation of the nostrils and throat. Its soothing and healing properties were marked and immediate. Large bottle \$1.00. Clarke's Flax Soap is the latest and best. Try it. Ask for them at F. S. Duffy's drug store."

A man's nature, Bacon tells us, runs either to herbs or weeds; therefore he should seasonably water the one and destroy the other.

ALL medical authorities agree that catarrh is no more nor less than an inflammation of the lining membrane of the nasal passages. Nasal catarrh and all catarrhal affections of the head are not diseases of the blood, and it is a serious mistake to treat them as such. No conscientious physician ever attempts to do so. It is held by eminent medical men that sooner or later a specific will be found for every disease from which humanity suffers. The facts justify us in assuming that for catarrh at least a positive cure already exists in Ely's Cream Balm.

A good word is easy obligation; but not to speak ill, requires only our silence, which costs us nothing.

The world is not to be reformed or elevated into holiness; it has to be converted.

**Peculiar**  
 Many peculiar points make Hood's Sarsaparilla superior to all other medicines. Peculiar in combination, proportion, and preparation of ingredients, Hood's Sarsaparilla possesses the full curative value of the best known remedies of the vegetable kingdom. Peculiar in its strength and economy—Hood's Sarsaparilla is the only medicine of which can truly be said, "One Hundred Dollars." Medicines in larger and smaller bottles require larger doses, and do not produce as good results as Hood's. Peculiar in its medicinal merits, Hood's Sarsaparilla accomplishes cures hitherto unknown, and has won for itself the title of "The greatest blood purifier ever discovered."  
 Peculiar in its "goodname at home"—there is now more of Hood's Sarsaparilla sold in Lowell, where it is made, than of all other blood purifiers. Peculiar in its phenomenal record of sales abroad, no other preparation has ever attained such popularity in so short a time, and retained its popularity and confidence among all classes of people so steadfastly.  
 Do not be induced to buy other preparations, but be sure to get the Peculiar Medicine,
