ORGANIZE! Organize! Organization is a chief element in party success.

SOUTH CAROLINA has three candidates for Governor: **Bratton, Earle and Tillman.**

ALL political indices in the West point to the overthrow of the Republican party.

HOPES for the future have been brightened by the defeat in the Senate of Quay's candidate for Sergeant at arms.

THE Convention to nominate a candidate for Congress in the Sixth district (Rowland's) will be held at Laurinburg, July 29th.

A BILL has been introduced in Congress increasing to \$350,000 the limit of cost of the public building, in Wilmington, N. C.

W. W. DICKERSON, of Grant county, Ky., has been nominated to succeed **Mr. Carlisle** in Congress. Two hundred and seven ballots were taken.

WHAT this country wants is six or seven feet taken off the protective tariff wall, free raw materials and free coinage. Then she will get up and hustle and make things hum.—**Wilmington Star.**

WOMAN is showing her ability to cope with man in mental power. At the June examination at Cambridge University, England, Miss Philippa Fawcette carried off the highest honors, having 400 marks more than **Mr. Bennett**, the highest male contestant.

A DISASTROUS conflagration accompanied with great loss of life, is reported from the mining districts of the Ural mountains; more than a thousand buildings were destroyed, and forty thousand persons were burned to death. Eighteen thousand persons are made homeless.

IN view of the declaration of head-chopper **Clarkson**, of the large preponderance of Democratic newspapers and magazines in this country, what becomes of the stereotyped Republican assertion that the intelligence of the North is in the Republican party?

GEORGIA presents the most interesting political field of any Southern State. The Democratic State Convention for the nomination of a full State ticket will soon assemble. There will be a sharp contest for the nomination for Governor. The Alliance men will support **Col. W. J. Northern**. He is well qualified and is in every way worthy the distinguished honor, and present indications point to his nomination.

If the Republicans in Congress will sow the wind they must reap the whirlwind. An indignant people will whisk them from their seats and install in their places those who have more respect for constitution rights. They are frantically a Federal election-law to deprive the South of its due influence in government, but will find that chains forged to bind us will quite as often be found clanking at their own heels in the North and West.—**Richmond Dispatch.**

Congressman Cheatham has been addressing the Radical caucus in favor of Federal control of our elections. **Mr. Cheatham** is a colored man who has been fairly dealt by the people of his district. He needs no protection by the Federal Government and the enactment of a Federal election law will add nothing to his strength in this district.

THE Colored Tariff Reform Club and Colored Bureau of Information, of Washington, D. C., has issued an address to the colored voters of the United States which is in part as follows: "We were once needed to assault forts and on the battlefields, now we are needed at the ballot box to protect the high tariff monopoly, and when we cease to give aid to this extraordinary high tariff and the thousands of white Republican office holders we will be abandoned again and relegated to a shade of political quietude."

APPREHENSION is expressed in some quarters as to the effect of the Farmer's Alliance upon the fortunes of the Democratic party. The following paragraph from the Atlanta Constitution expresses the sentiments of the JOURNAL: "The Alliance, while it may give direction to needful legislation, is thoroughly democratic and it is moving altogether on democratic lines. While differences of opinion are likely to exist between the members of this organization and outsiders, they will not materially affect the interests of the Democratic party, and if there should be temporary divisions on lines of political policy, and they will last but for a moment, and the ultimate end will be peace and perfect union."

LOCAL NEWS.

NEW ADVERTISEMENTS.

C. E. NELSON—Fine fat spring lamb. A lot of fertilizer will be sold at the railroad warehouse today at twelve o'clock.

The address of **President Crowell** brings a communication from one of our farmers endorsing good roads.

Mary Cox, colored, an insane woman who has been in the county jail for some time, was taken to the insane asylum at Goldsboro yesterday.

Politics must be getting warm in Onslow county. A gentleman from there informs us that he knows nine candidates for one office and seven others thought to be.

S. K. Eaton, Esq., our popular jeweler, went off with the fishing party yesterday. He said he wanted the names of all his friends left at his store so he could send each one a bunch of fish.

At a recent meeting of St. Johns Lodge No. 3, A. F. & A. M., the following officers were elected: **E. G. Hill**, Worshipful Master; **J. H. Blackburn**, Senior Warden; **F. Ulrich**, Junior Warden; **T. A. Green**, Treasurer; **W. B. Boyd**, Secretary.

The Atlantic and North Carolina railroad will run a special train today from the freight depot for the accommodation of Messrs. **Hackburn & Willett**, **Mr. Rhem**, and any others who wish to ship truck, to connect with the Atlantic Coast line dispatch truck train at Goldsboro. The train leaves here at 11 a.m. sharp. Truck shipped on this train will be due to arrive in New York at 8:35 o'clock Sunday night.

A correspondent in this issue comes out for a cotton compress in New Berne. The establishment of such is rather a gigantic scheme but should our business men see it as "H" does, they have plenty of capital to put it in operation. We oppose no enterprise whatever that has a practical turn about it, but it does not seem to us that a compress numbers among our greatest and most plausible needs.

G. S. Palmer, New York, sends us by last night's mail the following quotations for truck: "Receipts of N. C. and S. C. potatoes show a falling off, and prices show improvement in fine grades; fancy marks selling up to \$2.75, and other primes from \$2.25 to \$3.50, and outlook for good prices to rule for large salable stock. N. C. beans in heavy supply; wax \$0.475c for halves, small sizes from \$5.00c; green range from \$0.45c; cucumbers choice \$1.50; Charleston fancy \$1.50; other grades \$1. No sale for South Carolina beans; cherries fancy, 12 to 15, common 5 to 8 cents."

Cheatham Heard From.

Mr. Robert Hancock has received the following telegram from Congressman **Cheatham** relative to the New Berne public building. It was received Thursday, but in the absence of **Mr. Hancock** it was not handed us until yesterday. The appropriation was secured by **Mr. Simmons** while in Congress which amounted to \$75,000.

WASHINGTON, D. C., June 13, 1890. Hon. **ROBT. HANCOCK**.

Collector U. S. Customs, New Berne, N. C. Have succeeded in getting in sundry bill appropriation for public building at Newberne and will get it through. **H. P. CHEATHAM.**

The Fishing Frolic Yesterday.

It was announced that a "stag" party would board the steamer **Kinston** yesterday at 2:30, p. m., and go down Neuse river on a fishing excursion. Empty at the hour the **Kinston** blew her whistle and about forty eager fishermen stepped upon the deck of the gallant steamer. No doubt the fishes "trembled in their boots" when they saw the preparation for their capture. Howbeit it was a pleasure party rather than a marauding band. Sparkling wit and merry jest gave life and zest to the party, until the fishing "grounds" were reached. Every man expected to catch trout and bluefish in abundance and a few croakers, but when calendar was consulted it was not the day for trout or blue fish. About 80 croakers were taken. The Mayor of New Berne was along, and as he has some reputation as an angler, it did not seem the proper thing for him to come home without anything to attest his skill, so some of the gentlemen purchased for him a very fine string of trout and blue fish. He tenders assurances of appreciation. The managers and officers of the boat have the thanks of the entire party for courtesies extended.

Cotton Compress.

EDITOR JOURNAL—Nothing could contribute so much to the business prosperity and benefit of New Berne and all this section of country as a cotton compress here and the direct exportation of cotton to Europe out through the port at Morehead City.

It would bring the foreign cotton ships immediately to Morehead, where there is a greater depth of water than at Wilmington, all the advantages being in favor of Morehead. It would make New Berne next to Wilmington the largest cotton market in the State, and increase the local business of the city in proportion. New Berne would then become an exporting and importing city, in earnest, and cause the city to put on the best phases of new life.

The organization of a cotton compress and warehouse company should be an easy matter here. If local businessmen would take hold of the enterprise, plenty of northern capital stands ready to back it up and consummate the undertaking. The A. & N. C. R. R. is vitally interested, and would largely aid in promoting the scheme, aside from subscribing to the stock of the company, for it would be the making of the whole road, and especially that portion between New Berne and Morehead.

Goldsboro, **Kinston**, and every point along and tributary to the road are interested in the establishment of such a compress at one of the ports of the A. & N. C. R. R., and so is every outlying point at which cotton is brought and shipped through New Berne to Norfolk.

There is no doubt about the compress stock paying. The compress men say that thirty-five thousand bales is sufficient to assure fifteen per cent. on the investment that is necessary at a point like New Berne. And no one can doubt that, with a compress and ships direct to the ports of Europe, New Berne would draw from thirty to fifty thousand bales the first year, from points along the railroad from New Berne to Raleigh.

Public Roads and Public Sentiment.

EDITOR JOURNAL—I wish all the careless road overseers, and supervisors of Craven County had heard, and would heed what **President Crowell** said about roads in his address "The Programme of Progress" delivered at New Berne last week.

There needs to be a stronger public sentiment against the careless way our roads are kept. If public sentiment would refuse to tolerate such roads as the public generally have to travel on, the remedy is at hand, and the law would be enforced.

Very few road overseers work their roads one third of the time the law allows them to keep their roads in order. More time is lost on many of our roads by the travelling public, by the roads being in bad condition, than it would take to put them in good condition.

We lose by the slow rate of travel, or if we try to go fast, by broken springs etc. we also lose by being unable to carry full loads without damage to teams, and some lose part of their prospects of walking the streets of that "Better Country" on account of the mud and other impediments, often encountered on our public roads.

Mr. Editor I suppose you are too closely confined at your office, to see much of our county roads, especially during the lively month of December but I guess some of the Doctors could testify to the truthfulness of my statement when I say that there are bridges on public roads within ten miles of New Berne, that have chronic ailments at least eight months in the year. Some even made of twisting fence rails or pine poles, with cracks large enough for a horse's foot to go through.

There are also many chronic holes, some of them a foot deep in summer, and perhaps two in winter. If the road masters would make the middle of their road ways the highest instead of the lowest part, as many are now, they might avoid all these holes on the plain principle of gravitation; water does not flow up hill, neither will it stand on a properly constructed road bed, till the whole place is flooded.

Good roads are a great financial advantage, bad ones are a serious hindrance to success. Good roads are a great social advantage, we visit more and learn more when we can travel with ease and rapidity.

Good roads are great educational facilities. I have known children hindered several days from our very short school terms for want of a possible foot-way across a branch.

And last but not least, good roads are very helpful in obtaining moral and spiritual strength.

Many stay away from church, Sunday schools, and other means of moral advancement, on account of bad roads who would attend them and perhaps grow better if the road master had done his full duty in making the road good. Whoever wants better roads, let him assist in awaking a better public sentiment in that direction and we shall have them. **LECTURER.** June 11, 1890.

Shipping News.

The steamer **Manteo**, of the O. D. line, sailed yesterday for Norfolk with a full cargo of truck and lumber and a large number of passengers.

The Standard.

"I regard **Hood's Sarsaparilla** as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won the position by its undoubted merit and by the many remarkable cures it has effected. For an alternative and tonic it has never been equalled." **CLARK & CLARK,** Attorneys. Newberne, June 10, 1890. j11td

Church Dedication.

Grand dedication of **A. M. Zion** church at **Jumping Run**, the old camp ground, took place Sunday, June the 5th, 1890.

Several ministers were cordially invited, but for reasons best known to themselves, all failed to be present. **Rev. A. McIyer**, of Virginia conference, being present, preached the dedicatory sermon to a large and appreciative audience that had assembled to witness the ceremonies. The free-will offerings were presented by all present, which reach the aggregate amount of \$14 and over.

The choir of **Pleasant Hill**, **Mr. S. W. Hane** leader, rendered fine music on the occasion.

The visiting friends from the various churches have our thanks for their liberal donations. And all, both white and colored, that assisted us, have our thanks for the same. The pastor, **Rev. H. Bell**, together with the building committee, were highly applauded for the economical management of such a fine and commodious building, etc.

Census Takers' Troubles.

WASHINGTON, June 12.—Some days ago Superintendent **Porter** received copies of the printed circular, signed "Citizen," which has been distributed in Asheville, N. C., calling upon the people to resist the intrusion upon their private affairs contemplated by the census schedule. The people are further advised to refuse to answer census questions. **Porter** paid no attention to the anonymous circular, which he supposed was merely the production of some crank, until a letter was received from Supervisor **Hardwick**, dated June 9th, in which he states that his enumerators in Asheville are having some trouble by the people evading them. He states that they often send a servant to the door saying "There is no one here who can give in the census."

The supervisor asks for instructions. **Porter** today wrote letters to Senator **Vance** and Representative **Ewart**, calling their attention to the condition of affairs in Asheville, as reported by the supervisor. He asks that they use their influence with the people of Asheville to induce them to take a different view of this matter.

To Settle the Lottery Question.

BATES ROUSE, June 11.—**W. A. Crandall**, chairman of the Democratic State central committee, last night wrote a letter to State Senator **Foster**, leader of the anti lottery faction in the legislature, suggesting as a means of settling the lottery question and avoiding dissensions within the party that the State central committee order primary elections throughout the State, at which white people only will be allowed to vote and if the majority voting favor the submission of the lottery amendments to the people, the Governor is to call a special session of the legislature for that purpose. The lottery amendment was introduced in the House on Monday and yesterday was referred to a special committee without opposition.

Duffy's Cough Mixture.

A prompt and efficient remedy for Coughs, Colds, Croup, Bronchitis, Sore-throats, Diphtheria, Catarrh, Etc.

I have tried **DUFFY'S COUGH MIXTURE** and take pleasure in recommending it because I believe it will do all that is claimed for it by **Mr. Duffy**, the proprietor, who is a draught of long experience and a gentleman of highest integrity. I do not believe he would advertise anything that was not exceptionally good. This remedy has certainly answered the purpose in my case. It cured a cold, an obstinate cold I had, after I had tried a number of the principal cough remedies without benefit.
