> Re-Opening a Thoroughfare. In order to guard against results utterly subversive of health, it is absolutely essential that the grand thoroughfare or avenue of the system, the bowels, should be re-opened as speedily as possible when they become obstructed. If they are not, the bile is misdirected into the blood; the liver becomes torpid; viscid bilious matter gets into the stomach, and produces indigestion; headaches ensue, and other symptoms are produced, which a prolongation of the exciting cause only tends to aggravate. The aperient properties of Hostetter's Stomach Bitters constitute a most useful agent in overcoming constriction of the bowels, and promoting a regular habit of body. It is infinitely superior to the drastic cathartics frequently used for the purpose, since it does not, like them, act violently, but produces a natural, painless effect, which does not impair the tone of the evacuatory organs, which it invigorates instead of weakening. The stomach and liver, also, indeed the entire system, is strengthened and regulated by
