The New York Sun says that there are fewer theatres in New York than there were ten years ago, fewer drinking saloons in proportion to the population, and more churches.

A DALLAS Texas paper says that the outlook for trade the coming season is as promising as could be wished for. Acreage of cotton and corn is larger than ever before, and never looked better.

The American Merchant says the condition of the trade in pretty much every section of the country is so satisfactory that any one must be hard to please whose contentment with it is not complete.

The last hope that the Panama Canal will ever be completed has disappeared. The committee of experts has decided that it would take twenty years and \$347,000,000 to complete DeLessep's scheme. This means a total cost of \$600,000,000.

On last Friday Senator Vance introduced into the Senate a bill providing for the repeal of the tax of ten per cent. on the circulation of State banks, and providing that no higher rate of tax, shall be levied on such circulation than on that of national banks.

While the Senate has given precedence to the Tariff bill it would not follow necessarily that this prejudices the success of the Election bill but for the limited time that remains for the passage of bills necessary for keeping the machinery of Government in motion.

There seems to be force in the assertion that the census has been taken in the interest of the Radical party. Somehow Democratic districts appear small as a rule and Republican districts correspondingly large. "Depopulation" Porter deserves his title. There is no fact, however, that he has not been able to hide away out of sight, and that is the remarkable growth of certain southern towns and cities in recent years.

LOCAL NEWS.

The Wilmington Messenger says that "there is a difference between a boom and a boomerang. A boom is like that Senator Vance is enjoying. The Progressive Farmer can tell how a boomerang feels. A boomerang is a queer missile that hits the fellow on the nose who throws it."

The Election bill would apply practically to state as well as Congressional elections where they come on the same day. It would operate to carry State elections as well as Federal, and would make it necessary for every State to change where both elections are held on the same day.

Remarkable Experience of a Cow.

Mrs. Susan DeBruhl, who lives near DeBruhl, this county, has a young cow that has had a remarkable experience. The cow had been allowed to run at large in the woods, during the day, and she had been in the habit of coming home regularly at night until about two weeks ago, when she failed to return. Search was made for her, but she was not found until eleven days after she was first missed. She was fastened in a tree. A fire in the woods had burned in the tree a hole, through which she had put her head, by turning it in a certain position. She did not know how to get her head out and remained there without food or water for eleven days. When released the cow walked home and ate heartily.

DEMOCRATIC CLUBS.

Correspondence Between President Carr and Chairman Smith.

THE CHIEF WORK OF THE CAMPAIGN DEVELOVES UPON THE YOUNG MEN OF THE PARTY.

The following correspondence will be interesting to Democrats throughout the State and explains itself:

DURHAM, N. C., JULY 17, 1890.

To the N. C. State Association of Democratic Clubs.

GENTLEMEN: With great pleasure I lay before you a letter from Ed. Chambers Smith, Esq., Chairman of the State Democratic Executive Committee. It was received in response to my tender of the Association's services for the oncoming campaign and reads as follows:

ROOMS OF THE STATE DEM. EX. COM. } RALEIGH, N. C., June 21, 1890. } Mr. J. S. Carr, President N. C. State Ass'n of Democratic Clubs, Durham, N. C.

DEAR SIR:—Your letter of the 17th inst. tendering to the State Democratic Executive Committee the cordial assistance and co-operation of the N. C. State Association of Democratic Clubs in the approaching campaign has been received.

This committee realizes the great service that the association can render the party, composed as it is, of loyal, active Democrats of all ages and conditions throughout the State and constituting an organized army of opposition to Republican principles and negro domination. In them, youth, which constitutes the mighty lever that is moving and directing the world to-day, is guided by the conservatism, experience and wisdom of age.

Upon the young men of the party must necessarily devolve the larger part of the political work in a campaign and they always do uncomplainingly. Their action is usually unselfish, and they seem to feel well repaid if success follows their efforts and they receive the approbation of their political elders thus rendering themselves very valuable.

Clubs will hereafter be a factor in political battles. The facility with which they can be formed and the means which they furnish of collecting valuable information will render their organized action a necessity to political managers, and their admitted fealty to constituted authority make them exceedingly valuable adjuncts to the regular organization.

It is difficult to praise too highly their efforts in the past, and much more difficult to estimate their value in the future when they shall act as an organized compact body, instead of as individuals.

The committee accepts the tender of aid made by you, therefore, with pleasure, and will be glad to offer to the Executive Committee of said association, or as many of them as may be properly designated, headquarters with the State Committee, to the end that concert of action may be assured. The printed constitution of your association which I have by me, leaves nothing to be added in regard to the relations which exist between the association and this committee.

Thanking you for your aid, and believing that the action of the State Association of clubs will redound to the good of the party, I am,

Very truly yours,

ED. CHAMBERS SMITH, Chairman State Dem. Ex. Com.

In inviting your consideration of the chairman's flattering and appreciative letter, I would specially call your attention to the expectations he bases on your efforts. Permit me to add for myself that I am sure he can realize on those expectations—for the faith of the believer and zeal of the apostle are natural to those who cherish the gospel of freedom. Nowhere is Democracy purer, sounder, stronger than in those home organizations of the people where neighbor is banded with neighbor in jealous support of those liberties only to be earned and paid for in the sterling coin of eternal vigilance.

It becomes my welcome duty as your President, to call you once again to the field to invite you anew to those patriotic labors in which is found the very reason of your existence. Presently our great party will have named her standard bearers and her color guards in whose defense we march—presently another struggle for Democratic supremacy—another urgent need for the defeat of Republican ignorance and corruption and misrule will be upon us. There is work to be done, work in behalf of a cause dear to all of us. It is for us to see that our share is well and faithfully performed.

I therefore call upon all Democratic clubs and societies throughout the State to meet in their accustomed places, to invigorate their organizations and to put them on a war footing. I urge the formation of new clubs and societies in all towns and townships where none now exist and I ask all to report for enrollment as promptly as possible. Already a large number of clubs are carried on the rolls of the State Association. Nothing more is needed to make any organization a member than to report its officers and address to B. O. Beckwith, Esq., Secretary, Raleigh, N. C.

The time and place for a representative meeting of the clubs is now being considered in our executive committee. At some early day, the decision will be announced. It is our hope that by that time our roll will cover every community in the State. Wherever sound Democracy has a foothold, wherever patriotism is encouraged as a virtue, the people should be organized, so that in deed and truth ours shall ever remain a government of the people, by the people.

I have the honor to be, gentlemen, Respectfully yours, &c.,

J. S. CARR, Pres. State Assoc. Dem. Clubs.

Our Great Resources.

In resources of field and forest and wealth of her water contributions our portion of Eastern Carolina is not surpassed by any section of the South. No town or city is surrounded by such a back country as New Bern, and no other port that we know of possesses such advantageous facilities for handy shipping and cheap freighting. We are, by both water and rail, in direct communication with all parts of the United States. New Bern interests have only to avail themselves of the advantages in their possession, to place this among the foremost and most prosperous communities of the whole Atlantic coast region of the United States. Climate, soil, products of land and water considered, no place has superior resources to those of New Bern.

William Fonville, charged with violating chap. 5, sec. 4; disorderly conduct. Fine and cost \$3.90.

National Demands of the Farmers Alliance.

Under the above caption some resolution or demands were presented and passed at the regular county Democratic convention and were not published in the proceedings. We would have taken pleasure in publishing them had they been furnished us. The neglect was entirely unintentional. A duplicate has been handed us which we now give:

"That we demand the abolition of National banks, and the substitution of legal tender treasury notes in lieu of National Bank notes, issued in sufficient volume to do the business of the country on a cash system; regulating the amount needed on a per capita basis as the business of the country expands, and that all money issued by the government shall be legal tender in payment of all debts, both public and private.

"That we demand that Congress shall pass such laws as shall effectually prevent the dealing in futures of all agricultural and mechanical productions; preserving a stringent system of procedure in trials as shall secure the prompt conviction, and imposing such penalties as shall secure the most perfect compliance with the law.

"That we demand the free and unlimited coinage of silver.

"That we demand the passage of laws prohibiting the alien ownership of land, and that Congress take early steps to devise some to obtain all lands now owned by aliens and foreign syndicates, and that all lands now held by railroads, and other corporations, in excess of such as is actually used and needed by them, be reclaimed by the government and held for actual settlers only.

"Believing in the doctrine of 'equal rights to all and special privileges to none,' we demand that taxation, National or State, shall not be used to build up one interest or class at the expense of another. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all revenue, National, State or county, shall be limited to the necessary expenses of the government economically and honestly administered.

"That Congress issue a sufficient amount of fractional paper currency to facilitate exchange through the medium of the United States mail.

"We demand that the means of communication and transportation shall be owned by and operated in the interest of the people, as is the United States postal system."

Rain last Friday.

Reports from all over this section are that cotton and corn crops are very good. Plenty of watermelons, apples, etc., in market; also plenty of nice beef.

Fort Barnwell and Oloss will have to draw straws as to determine which place can turn out the largest number of pretty girls.

Wonderful Discovery!

The German Anti-Rheumatic Ring!

A speedy and permanent cure for Rheumatism, Neuralgia, Sciatica, Lumbago, Gout, and all other diseases where a general warming, quickening, strengthening and equalization of the circulation is required.

It will last for years, gives no shock, and but a mild, soothing sensation on wearing it. No waiting a long time for results. It acts quickly, generally the first week, more frequently the first day, and sometimes even in the first hour its curative powers are felt.

It is inexpensive, harmless in operation, while simple in application, entailing neither discomfort nor inconvenience. Though marvelous in the results it has achieved, its seeming simplicity has the effect of causing many to doubt its virtues. For further information and price call on

Trinity College.

The New York Nation of July 3 says: "The leading Colleges of the country have been almost transformed since the 'Nation' was started, and a class of advanced students have come into existence that were unknown and unexpected at the close of the war. The Schools of Political Science, which the principal Universities now contain, turn out yearly both writers and thinkers whose contributions to the literature of political philosophy, history, geography, political economy, and administrative law are extremely important, and have bleached the country in the very front rank in fields of inquiry in which it was, five and twenty years ago, almost wholly unrepresented."

TRINITY COLLEGE is the only institution in North Carolina which has a regularly organized School of Political and Social Sciences with courses extending through two years. Applicants may enter at the beginning of either term. Terms begin Sept. 1 and Jan. 1. See Catalogue, pages 61-62 inclusive. Address
