STILL the cry is "we never saw such crops."

"D— the Census." The best horses always win.

THE fight is fairly on between Blaine and Reed. Let the far fix.

HOME productions and local self-government make a people independent and happy.

A SOLID Democratic Delegation in Congress is the demand of the people of North Carolina.

FORCE Bills—bayonets if you please—don't matter. We will be on top to the end. Blood will tell.

THE Force bill is loaded and its results, if it becomes a law, will be just what its supporters do not expect.

REMONSTRANCES against the fraud and force bill come in increasing numbers from all parts of the country.

CONGRESS is no longer a deliberative body. The majority pass bills at the dictation of Republican leaders.

NEW York demands a new count. It is only in Republican cities and districts that the 'census' gives satisfaction.

A FOREIGN contemporary has gallantly conferred upon Mrs. Henry M. Stanley the title of "Queen of Africa."

THE crack of Reed's whip is heard in the Senate. It may be the prelude to the clank of chains, but we don't believe it.

EVERY oppressive measure enacted against the South brings into clearer light her countless courage and peerless manhood.

THERE is just one bright thing about the Federal Elections bill, and that is the gleam of the bayonet behind it.—Dayton Times.

PUTTING the entire control of elections in the hands of one party is called by Republican leaders securing "a fair and honest election."

THE unanimity with which Senator Vance has been endorsed by the press of the state is gratifying to the friends of good government in all parts of the Union.

WITH Blaine in the Republican ring for 1892, bow dwarfed in appearance become all other contestants for the championship.—Petersburg Index Appeal.

THE New York Sun says: The surplus is in shoe, and its disappearance under Republican management in an amazingly short period of time leaves the real issue plain to the sight of the people.

RING MASTER QUAY—"This way Mr. Merryman. Put out these white-cuffed gentry and introduce 'the brother in black.' Merryman—"This is a white man's circus. The manager is in the other department."

VERY many Alliance men advocate the reelection of Senator Vance. They have a right to their opinions; and while they differ with him on some questions, they are with him on the great fundamental principles of the Democratic party.

NORTH CAROLINA NEWS.

Raleigh Chronicle: There were some very good breaks of new tobacco in the city yesterday. Everything offered brought high prices, the farmers were well pleased, and everybody was happy.

Scotland Neck Democrat: On Wednesday night of last week all the prisoners in Halifax jail, six in number, made their escape. Little or no trouble had been given by the prisoners for some time. Only a few days before, however, a piece of iron was found in the jail bent in a form which indicated that an attempt had been made to convert it into a key.

Charlotte News: Supervisor Webb notifies us that the census of Charlotte inside the line is 11,530. There were 800 guesses in the News as to the population, and the guesses ranged from 9,000 to 20,000.—The population of Asheville by wards, according to the new census, is as follows: East ward, 4,270; west ward, 5,790. The population of Buncombe county is 32,239. In 1889 it was 21,909.

E. City Economist: Good crops, good seasons, good prospects. Let's all give thanks and do better and be better.—We sniff the commerce that will pass by our wharves when the Norfolk and Carolina Canal (old D. S. C.) is finished. We hear that the work will be commenced with 12 dredges and a million of dollars in August. All of the commerce will not pass by us, if we understand our merchants and other business men. The Economist will aim to hook on to some of it.

GORDON AND THE BOYCOTT.

THE GOVERNOR'S IDEA OF RETALIATION, IF THE FORCE BILL IS PASSED.

NEW YORK, July 23.—The Herald this morning publishes a dispatch from Gov. Gordon, of Georgia, in which the governor states that he is in entire accord with the spirit, tone, and practical suggestions of the Atlanta Constitution as to the use of the boycott as a means of self-preservation and commercial independence, if the useless and infamous Force bill becomes a law. Moreover, the governor says that spirit will pose

and control approximately every white man, woman and child in the Southern States.

The governor says that ever since the bill passed the House, he has hoped that some of the Republican Senators would be found patriotic enough, broad and brave enough, to prefer the well being of the country to party ascendancy. But if this hope is not realized, and the Force bill becomes a law, he will use whatever influence he may possess to arouse the Southern people to the necessity of looking only to their exhaustless resources.

"We will," he says, "welcome to our section all of our countrymen of the North, who may wish to live among us, and we will still protect all their investments and rights of property by impartial laws and honest courts, but we shall counsel a return to the old system of the election of representatives by a general ticket, if needs be, or a resort to any lawful, peaceful means in order to protect the right of choosing representatives, and to resist the wrong of having them chosen for us by federal supervisors."

The Governor concludes his letter as follows: "We will still endeavor to keep peace and promote good will between the races, and sincerely hope that the Southern negroes will not destroy their own property by consorting with those whose mad policy threatens the well being of both races. We shall still hope that after those years of apparent reconciliation, of restored confidence, we shall not see the whole current of national sentiment turned backward and downward by sectional legislation which has no possible justification nor rational excuse."

THE IDEA OF A BOYCOTT.

VANCE AND GORMAN PRONOUNCE THE BOYCOTT IDEA "SENSELESS."

NEW YORK, July 23.—A number of dispatches are published in the New York papers this morning from points in the Southern States on the subject of the suggestion put forth by the Atlanta Constitution, and endorsed by Governor Gordon, of Georgia, that in case the federal election bill becomes a law, a boycott should be resorted to, against Northern commercial houses, and Northern products.

The Herald's Atlanta dispatch says the Chambers of Commerce of New Orleans, Birmingham, Lynchburg, Augusta, Montgomery, Savannah and other Southern cities, telegraph to the Constitution favoring a convention of the commercial South to consider the course to be adopted if the force bill passes. Richmond telegraphs that it does not deem anything like a boycott advisable, as do Charleston and Mobile. Baltimore and Chattanooga; their organization are non-political, but they are strongly against the force bill.

A special from Birmingham, Ala., states that a mass meeting will be held there today to protect the passage of election bill, also that a meeting of the Chamber of Commerce has been called for the same purpose.

Dispatches from Atlanta, report the following prominent men as favoring the boycott idea: Ex-Governor Bullock, Patrick Calhoun, of the Richmond Terminal System, Hugh T. Inman, cotton merchant and bank president; Lowry, Hill and Hurt; Col. Shorter, president of the Alabama railroad commission.

Reports from Little Rock indicate that while the passage of the bill would be very offensive to the business men of Arkansas, a boycott is not generally approved.

Lieutenant-Governor England, and President Allis, of the First National Bank are among those mentioned as taking this view.

Prominent citizens of Austin, Texas, look upon the boycott system with disfavor. They insist that no good would come of it, and that if enforced the South would suffer as much as the North. The belief there seems to be that the conservative and patriotic element of Congress will be able to defeat the bill.

The Herald's Washington correspondent says such of the Southern men there as he spoke with deprecated the boycott idea, while most of them declined to talk about it. Senator Vance and Gorman, however, freely expressed themselves as opposed to the boycott agitation, which they consider as "senseless."
