IN the celebrated McKinley bill where do the farmers come in! Mr. Blaine says they are frozen out.

THE latest returns show that 96,000 out of the 97,000 men in the English home army are under twenty-one years.

HON. D. L. RUSSELL, leading Republican of Wilmington, has written a letter to Senator Hoar in opposition to the Force bill.

THE Republican majority in Congress is undertaking to catch and hold the defenseless people while the monopolists rob them.

THERE is a little speck of war in our skies. The Pacific mail steamship company claims \$500,000 of Guatemala, and the claim has been referred to Mr. Blaine for settlement.

REPUBLICAN extravagance in Congress has brought us face to face with a deficit. Democratic economy, during the Cleveland Administration, left an immense surplus in the Treasury. Which is preferable to the American people?

THE Utica Observer says: "Has the Republican party ever protested against any law to secure a fair vote and an honest count?" asks the Buffalo Commercial. No. The Quays and Dudleys of the Republican party waste no time in protests. They believe in action. They buy and steal votes.

THE Judicial Convention of the tenth District met at Morganton on the 31st, and nominated Bynum for Judge and Newland for Solicitor unanimously, and enthusiastically endorsed Judges Merrimon and Clark and Senator Vance; and denounced the author of a recent circular assailing Judge Clark.

THE New York Star says: An international beauty show at Vienna offers as its first prize the sum of \$1,200. That award will scarcely be sufficient to attract many of America's lovely daughters to the competition, and the show must, in consequence, be a very second-rate affair. Europe must bid higher if it wants to see the handsomest women of the world.

THE Wilmington Messenger says: The Boston Advertiser, the leading Republican paper of New England, is not particularly favorable to the Bayonet bill. It sees that the feeling against it is growing in the South. So it is, and may it widen and deepen and strengthen until all men in the South shall despise it. The Advertiser doubts now if the bill will do the work intended by it—that is, secure a free ballot. But really, that is not the purpose. Did not Uarper Tom declare that it was absolutely necessary for the Radi-

cals to have control of the ballots; of the counting, of the returns, of the certifying?

NEW ADVERTISEMENTS.

JAMES REDMOND—Steamer for Sale.

LOCAL NEWS.

The County Commissioners hold their regular monthly meeting tomorrow.

A goodly package of money was found on the street yesterday. No owner has been heard from.

The road supervisors of the eighth township held their regular annual meeting in Esq. G. W. Drinson's office yesterday and appointed overseers for the roads.

Lieut. James Birt, of the Salvation Army delivers his farewell address to-night. Everybody is invited to come and hear him give some of his war experience.

The executive committee of the second congressional district is called to meet at Wilson August 7th, for fixing the time for holding the convention.

In our account of the Republican convention we omitted to mention the nomination of Robert G. Mosely, one of the most prominent colored men in the county for county treasurer.

The mill of D. Congdon caught fire on the roof yesterday evening from the smoke stack. It was discovered in time and put out before the arrival of the engines. Not much damage.

Mr. Noah Fulcher and Mr. Lewis Rowe, the men who had the difficulty mentioned in yesterday's JOURNAL were each tried on a charge of "assault and battery with a deadly weapon" and bound over to court in the sum of \$100 each.

The A & N. C. R. R. Co. is preparing to build six flat and six box cars. It is found that those built here give better satisfaction and last longer than those purchased elsewhere. The company also expect to purchase two new locomotives this fall.

The managers of the colored Industrial Stock and Fruit Fair have their premium list now ready. It is a creditable one and covers pretty fully all articles for which premiums are usually offered at such exhibitions. A copy can be procured by addressing W. W. Lawrence, Sec'y. The Fair will be open four days, beginning Tuesday, Aug. 26 and closing Friday Aug. 29.

As has been often stated, we are glad to give space in the JOURNAL to communications that we consider of sufficient importance to the majority of our readers. Long articles on any subject (with few exceptions) are not solicited and if expected to be published they must be paid for. All cards of a political nature or tending to advance any individual cause whatever must be paid for.

Dogs at Large.

Our attention has been called to the fact that many dogs are allowed to roam over the streets at night. Especially is this the case on Broad and Pollock streets, two of our main thoroughfares, in the vicinity of the macadamized road, where almost any night numbers of them, both large and small, can be seen—often on the sidewalks, to the evident annoyance and possible danger of belated pedestrians. We hope that the owners will voluntarily confine these animals, or that the city authorities will take measures to see that the nuisance is abated.

Wilmington, Onslow and Eastern Carolina.

The Wilmington papers have announced a double daily passenger and freight service over the Wilmington, Onslow and East Carolina Railroad, out from Wilmington to Sloop Point, twenty four miles, and track laying has reached a point some ten miles further. The Messenger of Friday says:

"A new engine and two passenger cars are expected here next week for the Wilmington, Onslow and East Carolina Railroad. As soon as they arrive a regular schedule will be announced. The track will be complete to Jacksonville by October 1st, and by that time time suitable warehouses will be erected at the various stations on the line. A handsome depot and warehouse will be erected at their wharf in this city."

The chief officer of the company, and those in charge of the construction say that there will be no halt at Jacksonville, but that the construction corps will come right on to New Berne with the work. The engineer has ridden over the ground between here and Jacksonville and thoroughly examined the topography of the country, and the engineer corps will now make the survey and permanently locate the line to New Berne. We may reasonably hope for the completion of the road to

New Berne within a year from the date of its completion to Jacksonville.

Personal.
Mr. J. E. Latham, the cotton buyer, has returned to the city.

Mr. Benj. C. Jones, now of Wadesboro, came in last night for a week's visit to his boyhood's home.

Misses Nannie and Mamie Roberts left yesterday morning to spend a month at Chapel Hill. Their father, Mr. F. C. Roberts accompanied them. Miss Nettie Hollister left for a visit at Fayetteville.

"Get There, Eli."

EDITOR JOURNAL—For almost 18 years uninterruptedly, the Slover wharf and the Harvey wharf, which are now known as the Old Dominion Steamship Company's wharves, have given life to the old town by the immense amounts of goods trucked over them, which were being imported and exported by the steamers of the O. D. line.

Since the advent of this line into our city it has seen the birth and death of several newspapers, it has seen the rise and fall of hundreds of commercial houses in this city, and they are still running—patronizing the newspapers and bringing goods to the merchants, also carrying the products of the producers.

They commenced with steamers that were loaded with 300 bales of cotton. They are now running steamers that are not loaded when they have on board 1,000 bales of cotton. The passenger accommodations of these steamers are first class in their appointments, and the fare is equal to that received from the tables of first class hotels. This corporation has been the warm friends of this community. It has studied the interests of its patrons and has been quick to see and appreciate the wants and wishes of its patrons, and as soon as seen steps have been taken to meet their wants.

The same agent who transacts the business of this company at this end was with them at their birth in this place. It can truly be said that he has grown gray haired in their service. When he assumed the agency he was young, handsome, and without a gray hair in his head. Now he is rugged with crow's feet, the inevitable sign of old age, gray as a badger and as ugly as sin.

The conservative spirit of this company has made its patrons their friends and like all other first class companies they keep abreast of the times. They have adopted as their motto in conducting their business "Excelsior! Onward and Upward." What brought forth these remarks was our noticing the commencement of most extensive repairs on the company's wharves. Under the superintendence of Mr. J. J. Howard, wharf builder, they have attacked the rotten timbers and planking and are replacing them with first class timber and lumber. They intend to have a thorough overhauling and will have a first class wharf. The agent says when his company starts to do anything it reminds him of the saying, "Get there Eli." He says they don't make much fuss, but they are a power. I know the community will bear me out in wishing them long life and happiness, or as Rip Van Winkle expressed it, "Here's to you and your family, may you live long and prosper."

THE FORCE BILL DEAD.

No Attempt Will be Made to Pass It This Session.

WASHINGTON, D. C., July 31.—Your correspondent is able to state on what seems to be the most reliable authority that no attempt will be made by the Senate Republicans to pass this session the force bill. The backbone of the measure has been broken, and it will be laid away.

AN AGREEMENT REACHED.

It seems that an agreement was reached today between the Senators on both sides that if the minority would consent to discuss the tariff bill only in a way to emphasize their protest against the measure an adjournment could be reached by the end of the first week in September, and no attempt would be made to pass the Federal election law this session.

NO LIMIT ON DEBATE.

One of the most prominent of these Republicans said that his own side was divided and ten or a dozen of the Republicans would never consent to having a limitation put on debate, and under these circumstances it would be impossible to pass the force bill this session.

THE BEST NEWS.

Senator Blackburn and other Democrats admitted tonight that an agreement had been reached, and the news is about the best that has been obtained here in many weeks, if not months.

A CRUSHING BLOW.

It will be a crushing blow to old Boss Reed and the other radicals, but the Senate flirts that it will be useless to carry this fight any further without applying the gag-law. Besides, the conservative business elements of the country are opposed to the proposed legislation and are calling a halt.

OPINION OF DEMOCRATIC GOVERNORS ON

THE EFFECT OF ITS PASSAGE.

BALTIMORE, Aug. 1.—The Sun this morning publishes some replies to a recently addressed circular to the governors of the various States, requesting their opinions of the federal elections bill, now pending in the Senate.

The comments of the Democratic governors, as was to have been expected, are unanimous in condemning the measure.

The governor of Vermont says there is no need of such legislation as the Lodge bill contemplates in the State of Vermont, and that he has not given the measure sufficient attention to feel warranted in predicting its effect upon elections in other States.

Gov. Davis, of Rhode Island, says: "I think the proposed act is an expression of the worst and most unwarrantable partisanship heretofore ventured in federal relations within the history of the Union."

Gov. Bigge, of Delaware, says: "I condemn it as a measure uncalled for and not only unconstitutional but unwise."

Gov. Hill, of New York, replies by sending a copy of his recent speech at Indianapolis, which he says gives his sentiments.

Gov. Taylor, of Tennessee, says: "The bill is an envious stab at a prospering South. There is no need in any State for legislation that is designed to foment strife, murder and riot." Gov. Fleming, of Florida, says, "The passage of the bill would evidence hostility toward the South, at which it is aimed, by Northern Republicans."

Gov. Jackson, of Maryland, says: "It is an unwise and extremely partisan measure, fraught with much evil to the country generally. It will have a blighting effect, if passed, upon the business interests of the South, hinder and obstruct her development, and revive instead of allaying unfriendly relations between the North and South."

WITHDRAWING CANDIDATES.

ALL EASTERN CAROLINA POLITICS IN THE HANDS OF THE FARMER'S ALLIANCE.

SCOTLAND NECK, N. C., July 31, '90. The continued withdrawal of the candidates for nomination to Congress in the different districts keeps a change of front in political matters. Representative Skinner, from the First district, has now withdrawn, and this leaves all Eastern Carolina in the hands of the Farmers' Alliance so far as congressional honors are concerned.

SIMMONS STRONG.

It is thought that Simmons, however, will be stronger in the convention in the Second district than he would have been had he not published his card announcing his withdrawal. His friends are anxious to keep him before the people, and it is thought that his name will be put before the convention notwithstanding his withdrawal has been published in the papers.

THE CHOLERA IN MECCA.

IT CAUSES GREAT ALARM IN WESTERN EUROPE.

MECCA, July 31.—The cholera epidemic here shows no sign of abatement, the deaths from the disease averaging eighty daily.

LONDON, July 31.—The confirmation of the reported existence of cholera to an epidemic degree at Bagdad and Mecca causes great uneasiness in western Europe, and strict precautions are being taken at Marseilles and other entrepôts of Oriental traffic to prevent, if possible, the introduction of the infection through those ports. The cholera at Mecca is always caused, as everybody knows, by the presence of immense crowds of pilgrims to the holy city of Mohammed, who have not the slightest notion of sanitary laws, and who dwell in a condition of filth almost indescribable. The pilgrimage this year is on a more extensive scale than for many years past.

The declining powers of old age may be wonderfully recuperated and sustained by the daily use of Hood's Sarsaparilla.

WHAT IS A COLD IN THE HEAD? Medical authorities say it is due to uneven clothing of the body, rapid cooling when in a perspiration, &c. The important point is, that a cold in the head is an inflammation of the lining membrane of the nose, which, when unchecked, is certain to produce a catarrhal condition—for catarrh is essentially a "cold" which nature is no longer able to "resolve" or throw off. Ely's Cream Balm has proved its superiority, and sufferers should resort to it before that common ailment becomes seated and ends in obstinate catarrh.
