**SODA WATER** on draught today at JOHN DUNN'S. tf.

**SNOW** at Denver, Colorado, last Monday night.

The Republicans are making a big bid for the farmers' vote. The Senate Agricultural College bill has been passed.

N. C. BLANCHARD, the popular representative of the fourth Congressional district of Louisiana, has been renominated.

The skies are bright, good crops and good health all over the state, and Democratic prospects brightening everywhere.

GEORGE D. WISE, who was counted out by Reed's gang, has been renominated for Congress and will be elected by the people.

The Wilmington Star says: "Reed's side show had to cut short its performance again Monday because it didn't have men enough to fill the bill."

A TERRIBLE cyclone struck Walkesbarre, Pa., on last Tuesday. There was a fearful loss of life and property, the details of which are not fully known.

It seems from the action taken in nominating conventions that the Alliance men are democrats "all the same." We knew it was so, but unfortunately some of the best Alliance men didn't know it themselves.

A SAN SALVADOR dispatch reports that "peace, honorable to Salvador has been arranged with Guatemala." Why not? If, as stated yesterday, Guatemala is to shoot all her people who are not ready to fight, what is to prevent Salvador from dictating her own terms?

THERE is now a furious combat among Republican senators in regard to the Force bill. The opposing factions are led respectively by Quay on the one side and Hoar on the other. If Mr. Quay is successful the Force bill will not be taken up, if Hoar is victorious the bill will be brought before the Senate and possibly become a law.

THE Democratic state convention at Raleigh on last Wednesday, was a dignified body. It was representative of the Democracy of North Carolina, and every true Democrat will sustain its action and vote for its nominees. Its unanimous endorsement of Senator Vance insures his re-election to the high position he has held so long and filled so well.

ON Tuesday Mr. Hoar gave notice of a resolution which he would offer to secure consideration of the Federal election bill, to the exclusion of all other business until it is disposed of. So it seems the viper is not dead. Whether the Force bill passes or not the duty of the people of North Carolina is the same: Stand by the Democratic party.

THE bill for Agricultural Colleges which has passed the Congress and become a law appropriates out of money arising from the sale of public lands to each State

and territory, for the more complete endowment and maintenance of colleges for the benefit of agriculture and the mechanic arts, the sum of \$15,000 for the year ending June 30, 1890, and an annual increase of such appropriation thereafter for ten years by an additional sum of \$1,000 over the preceding year, and the annual sum to be paid thereafter shall be \$25,000.

A CONVENTION of the Sunday School workers of the eastern portion of the State is called at Edenton, Thursday and Friday, September 18th and 19th next. The Convention will be attended by Mr. William Reynolds, the President of the Fifth International Sunday School Convention and probably by one or more specialists. A programme is being prepared, embracing some of the best Sunday School talent in the State and will be published as soon as completed. It is the desire and intention of the Executive Committee to make this one of the best Conventions ever held in the State.

THE JOURNAL congratulates Miss Mattie Rountree and The Orphan's Friend, and reproduces with approval the words of the Wilson Mirror: Our very highly esteemed friend Miss Mattie W. Rountree of Kinston is now editor of the Orphan's Friend, and we gladly, cordially and affectionately welcome our lovely and brilliant sister to the trials and tribulations of editorial life. Sister Rountree is a young lady of rare gifts and fine literary attainments, and she wields the pen with a charming grace and a felicitous elegance, and we know that her fine accomplishments will lead additional lustre to a paper already radiant with the gleamings of magnificent effort.

## LOCAL NEWS.

### NEW ADVERTISEMENTS.

CHURCHILL & PARKER—Opened today

Yes, it was right warm. Mr. Robert Hancock has lost his tin setter and offers a reward for his return.

A large crowd from along the line of the road went down to Morehead yesterday on the stockholders' train.

It is gratifying to learn that the A. & N. C. Railroad is carrying more freight now than ever before at this season of the year.

The steamer Beaufort will not make another trip from this city to Ocracoke this season, so we are informed by Mr. Jones Spencer, who was in the city yesterday.

Six bales of new cotton were brought in on the freight train yesterday. This is the first of the season. It came from Lenoir county. This is considerably earlier than the crop generally begins to come in.

Never throw a nail on the street. It is dangerous to horses. Yesterday on Middle street we saw a fine animal with a nail stuck in his foot. Sometimes very serious wounds are inflicted by a horse's stepping on a nail.

Mr. L. L. Cosby has invented a new siphon to be used in pumping the water out of deep wells. It was given a test by the firemen yesterday. The siphon is considered a success and an improvement over anything of the kind before made.

Two elegant bath tubs and an improved instantaneous heater have been ordered for the Y. M. C. A. bath rooms. The bath rooms will be a great addition to the usefulness of the Y. M. C. A. in its new quarters. It will be very convenient to the members whenever they want to take a hot or cold bath to just step up to the Y. M. C. A.

An exchange says: "A great many persons seemed to have been affected with colic this year, and have been wearing colic bands or sashes to protect the weak parts. Some have recovered since being at the seashore and can get along without them." This is the first time we have heard of a joker's admitting that fashionable dress was an antidote for disease.

### PROGRESS.

It is very important in this age of vast material progress that a remedy be planned to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

## A New Firm.

As announced in our advertising columns this morning Messrs. Thomas G. Churchill and Randolph Parker have formed a partnership and open a full line of groceries in the store corner Broad and Hancock streets today. Messrs. Parker & Churchill are young men of excellent character, have had long experience in the grocery business and we confidently wish for them success.

## A Peculiar Kind of Persimmons.

Mr. E. S. Gardner handed us a box of persimmons yesterday which were a curiosity. They were taken from a tree in the place of Mr. E. F. Saunderson in Jones county. Mr. Gardner saw the persimmons on the ground under the tree and stole some. To his surprise they were perfectly ripe (which is a month early) and many of them had no seeds in them. They grew on a large tree, which, from all appearances, was exactly like the ordinary persimmon, but the fruit is rather small, very few of the persimmons have seed, (and when a seed is found it very much resembles a plum seed) and are harder and firmer than the ordinary persimmon. They are sweet and good to eat. Mr. Saunderson has been living near the tree for many years and has never noticed its peculiarity before it was discovered by Mr. Gardner.

## Cure for Dog Bites.

Looking over our exchanges we find the following recipe which has been highly recommended as a cure for dog bites:

"A woman writes to the New York Tribune: I have been bitten by dogs repeatedly, once severely. A pet dog of a neighbor was very sick, and I was attempting to relieve it. It bit me in the left thumb, just below the nail. That member became black as far down as the wrist. It remained so until the nail came off. The owner talked of hydrophobia, and said that the dog had not tasted water for two weeks. Had I been afraid I should, no doubt, have taken nervous fits and died. The veterinarian would have been 'hydrophobic.'"

"But I simply applied a solution of 'cast and vinegar,' a little more vinegar than salt, washed the wound with it, then tied a linen rag around the thumb, keeping it saturated with the solution, and moved the rag so that a fresh part covered the wound, at intervals. This remedy was once applied to my wrist by a colored woman, in the South, for a snake bite. My arm was then black, hard and painful. The remedy acted like a charm. In two hours the discoloration had disappeared, and with it the pain, and only the needle mark where the fang had entered was visible."

"Again, I was bitten by a weasel in the Grand Central depot. A girl had it in a bag, and had placed it on a seat next to mine, remarking that it was a kitten. I placed my hand on it. Quicker than thought a couple of teeth punctured the joint of left forefinger to the bone. I compelled the girl to tell me what was in the bag. My finger was swollen and painful before I reached home, some hours after. I used the same remedy with the same speedy result."

## Personal.

Mrs. R. P. Williams and children returned yesterday from Morehead.

Mrs. A. B. Ferbee has returned from Kinston.

Mr. Jones Wahab, of Hyde county, is in the city.

Mr. E. M. Green has returned from Ocracoke, where he spent two weeks delightfully.

Messrs. Shepard, Bryan, Sam Brinson and Charles Higgins went to Morehead on the stockholders' train yesterday.

Mr. Felix Harvey, of Kinston, spent yesterday in the city.

Mr. F. M. Harper, of Kinston, came down on the stockholders' train yesterday and spent the day here.

Miss Eula Nunn has returned from a visit to friends in the country.

Messrs. Cyrus Foscoe and J. N. Foscoe, of Jones, were in the city yesterday.

C. R. Thomas, jr., Esq., returned last night from Raleigh.

Mr. M. Makeley has returned from Raleigh.

Mr. Hill Humphrey returned last night from Raleigh.

## NORTH CAROLINA NEWS.

There are 192 newspapers in North Carolina, only five of which are Republican.

Greensboro Patriot: Mr. Martin Glass, who lives about three miles out of the city, has sold \$210 worth of muskmelons off of a one acre lot.

The directors of the orphan Asylum will meet at Oxford next Tuesday to elect a successor to Dr. R. F. Dixon, whose resignation takes effect September 7.

Raleigh Chronicle: The premium lists of the next State Fair advertise that five thousand dollars will be given away in one thousand premiums—an average of five dollars to every person who sends a premium on the merits of the exhibit made.

Elizabeth City Economist: The Fair at both City Fair will be held at the Fair Grounds near this town, October 21, 22 and 23. This will be the fifth annual meeting and it may now be considered venerable in its age, and we think we can say it has not lived in vain. It has been conducted prudently and economically, and we can say with confidence that it has been of service to our community and our section in a social and business point of view.

Goldboro Argus: The first new crop cotton on this market was sold in this city yesterday at public auction and brought 11 cents. There were two bales, one weighing 515 pounds, the other 485. It was classed good middling. Messrs. H. Weil & Bros. were the purchasers of one bale and Messrs. Bizzell Bros. & Co. bought the other bale. Both bales were raised on the plantation of Mr. Noah Rouse, in Lenoir county; one by himself, and one by a colored tenant named Tom Bryant. Mr. Rouse is one of the best and most influential farmers in the whole State, and is a representative man in every particular.

## A Bachelor's Voice.

"That 'Music hath charms to soothe the savage breast,' is a statement no one will refute. It has clearly been proved since the time David caused the evil spirit to flee from Saul by the sweetness of his harping. But there are many things to all things, and five sweet notes going at one time tends to make discord."

I know whereof I speak. There are three pianos and two organs distributed among my neighbors, and they are all musically inclined. These summer nights when I am quietly smoking on my front stoop, as the organ across the way sends forth the strains of "Nobody's Darling," I fall into a retrospective mood; it carries me back to the old days, golden days they were, which I threw so recklessly away; when I was somebody a darling and not a lone old bachelor with only a pipe for consolation. But when "Auntie Laurie," "Nancy Lee," "Old Black Joe," and a waltz mingle with that song, all the sentiment dies a natural death, and leaves nothing but the savage. Once I read: "All men are savage at the core, with layers of civilization on the outside." Then I scouted the idea; now I am fully convinced.

I am too polite in the first place, and stand in too great awe of the ladies to go to them as individuals and ask them to arrange their practice hours so they would play separately. And in the second place I have not the faintest idea they would do as I ask, so I make this faint protest publicly.

It may have the desired effect. If not I shall make my lodge in some vast wilderness, rent my house to some one who plays so that it can keep up with the spirit of the times, which I am totally unable to do.

## THE CYCLONE AT WILKESBARRE.

IT DID FEARFUL DAMAGE, PROBABLY \$1,000,000 WORTH.

WILKESBARRE, Penn., Aug. 20.—As time grows on, the severity of the cyclone of yesterday is more and more demonstrated, and it is singular that so comparatively few lives were lost. Immense buildings containing many people were unroofed, and in many cases almost destroyed, in the twinkling of an eye, and at an hour when people were about the streets amid flying timber and debris of every character.

The city in its most frequented parts, around the depots, presents its worst appearance, and when it is remembered that passenger and freight cars were lifted from the tracks upon which they stood and laid on their sides, while other cars were rushed along the track by the force of the cyclone's swirl, a small conception of its terrific velocity may be attained.

The cyclone made its appearance suddenly, and with portentous clouds; tremendous thunderbolts, and streams of lightning that appalled the people. A careful estimate places the number of buildings demolished and partially destroyed at nearly 400. The loss will reach nearly, if not quite, \$1,000,000, although in the present chaos, no possible means of making a close estimate exists.

So far as can be ascertained this morning, twenty-one people are known to have been killed or fatally injured.

## Driven Crazy By Cigarettes.

BIRMINGHAM, Ala., Aug. 20.—Walker Numalee, First Lieutenant of the Woodstock Guards at Anniston, Ala., has become violently insane from smoking cigarettes. He was today removed to the State asylum at Tuscaloosa. Numalee was formerly one of the editors and proprietors of the Anniston Daily Watchman. He had purchased an outfit and was preparing to start a new paper, when symptoms of insanity compelled him to give up. He smoked twenty packages of cigarettes daily.

For bracing up the nerves, purifying the blood and curing sick headache and dyspepsia, there is nothing equal to Hood's Sarsaparilla.

## SHIPPING NEWS.

The busy tender Violet is in port. The schooner Varina, Regulator, Theresa and Ada are in port to go on to New York's ways.

## A Mysterious Disease.

ROCKS, August 20.—A special from St. Johns, N. F., reports that a plague, the exact nature of which is not known, is ravaging the fishing towns on the French shore. The disease is terribly fatal in its results, and none so far attacked have survived. The first news of the epidemic was brought by a regular coasting steamer. The inhabitants think it is virulent diphtheria. Physicians were sent to investigate the disease and they have returned, but no official report has been published. It has been said that things are shockingly bad and that starvation and fish are helping the deadly march of the disease.

## The War in Guatemala Looking Commerce.

NEW YORK, Aug. 19.—The Herald's city of Guatemala special, August 17, via City of Mexico, says: Consternation continues in this city. All necessities of life are sold at fabulous prices. Commerce is very much depressed. Merchants have sent orders to the United States and to Europe countermanding and delaying shipment on all goods ordered. By this course the effect of the war is felt by all classes, and if continued will be the means of wrecking the commerce of the country.

With Ely's Cream Balm a child can be treated without pain or dread and with perfect safety. Try the remedy. It cures catarrh, hay fever and colic in the head. It is easily applied into the nostrils and gives relief with the first application. Price 50c.

## NEW STORE AND NEW GOODS!

I have just received the Finest Stock of Furniture ever brought to this city.

Also a lot of Organs and Musical Instruments.

I am also agent for the Number 199 Wheeler and Wilson Sewing Machine, which won the Grand Prize at the Paris Exposition of last year. It is the greatest wonder of the age, silent, light, rapid, durable, and adapted to the finest and coarsest work, and is the only one of its kind, without any extra attachments, all of which can be seen at my New Store, opposite Roberts Bros. South Front street.

You will also find a Well Selected Stock of Furniture at my Old Store on Middle street.

Trusting, Sincerely,  
an16 d1w T. J. TURNER.
