RALEIGH is arresting the street loafers and putting them to work.

THERE is a promise of a very abundant rice crop in South Carolina.

MARGARET SOLOMON, the last of the Wyandotte tribe of Indians, died near Upper Sandusky, O.

EVERY man ought to be as good as his word. Nothing is expected of those who never have a good word for anything.

AT the present rate of consumption, estimates the Chicago Herald, the white pine of Wisconsin, Michigan and Minnesota will be exhausted in twenty years.

THE November election will not be conducted under the provisions of the Force bill, but it will be held with the Force bill suspended over the heads of voters. They will vote under a threat of revolutionary methods, and their response should be so energetic as to strike terror into the hearts of the Force bill conspirators.

THE imports of merchandise to the United States for the month of July amounted to \$77,500,913, the largest on record for many years. The cause of this doubtless was heavy purchases in anticipation of the passage of the tariff bill, the importers calculating on making a nice margin in consequence of the raise in price which will follow the passage of the bill.

BLAINE'S reciprocity arguments seem to be bearing fruit. Mr. Davis a Republican Senator from Minnesota, has made a speech advocating the removal of the tariff from an article necessary to his former constituents, and recommending the policy of a free exchange of the articles of this and other countries. He says "Americans cannot forever live and grow rich off one another." Before the war this was the foremost maritime nation of the world and but for the tariff the foreign trade would be greater than was then.

A FARMER should take care to keep easy and safe ways of ingress and egress to his cultivated fields. More wagons are broken down by going through deep furrows or over ridges than by twice the travel on smooth highways. Often in repairing a road the pathmaster will, if not prevented, spoil the way in or out of a field that the farmer has made. The farmer should not allow this to be done. The field, if good for anything, ought to load a wagon many times during the year, and will also require a good many heavy loads of manure. The easy entrance to the field may therefore be quite as important to a farmer as to have good roads in the middle of his highway.

NORTH CAROLINA has wild pasture enough to maintain handsomely 5,000,000 sheep, and if proper attention were given to it and dog laws passed by our Legis-

lature to protect sheep husbandry, there is no industry in the State that would yield a greater income to the amount invested than that of sheep raising, but until some law is enacted to protect sheep from dogs, men of capital will be loth to invest it in this State. We call our Alliance friends' attention to this important matter, and we trust they will vote for no man for the next Legislature until he has committed himself by signing a card or otherwise to vote for a law that will protect this long neglected industry, that will bring millions of dollars into the pockets of our people.—Raleigh Farmer.

LOCAL NEWS.

NEW ADVERTISEMENTS.
J. A. RICHARDSON—Notice.
CHURCHILL & PARKER—Mullet, etc.
P. M. PEARSELL—A. & M. A. College.
W. M. WATSON—Adjourned meet'g.

Chinquapins have put in their appearance.

Prof. Skinner's school opened yesterday with bright prospects.

There was one other conversion at the Church of Christ Sunday night.

Two bales of cotton were sold at the Exchange yesterday, bringing 10 20.

The schooners J. R. Predmore and Annie Moore are on Howard's ways undergoing repairs.

Mr. Walter H. Dray was taken suddenly and violently ill Sunday night. We regret that at a late hour last night he was no better.

Mr. Wm. Watson, jr., has accepted the agency for the "Highland Brand Evaporated Cream." It is put up in neat cans at Highland, Illinois, and is spoken of as quite a delicacy for coffee, tea, fruits, desserts, etc.

There will be an important meeting of the trustees of the New Berne Academy at the office of the President at four o'clock this afternoon. Let there be a full attendance.

Mr. E. G. Edwards, the Purgatory postmaster now in the New Berne jail awaiting his trial on the charge of robbing the mails, has been very ill for about two weeks. He receives good medical attention and his wife came to town and has been staying with him about a week.

The bath tubs and heater for the Y. M. C. A. hall have arrived and will be placed in position in a few days. They are handsome and of the latest pattern. The carpenters and painters will finish up their work this week in time for the Association to move in next week. The citizens of New Berne have been quite liberal in their donations towards fitting up the hall. Some no doubt will aid who have not been seen. A committee will wait upon them as soon as possible.

Three New Berneans in Luck.
Iron Hall, an organization about ten years old, that promises its members \$1,000 after they have been in seven years, is fulfilling its obligations. Their time having expired it paid off most of its New Berne members some months ago. The time of three others having run out they have likewise received their check for \$1,000 each. The fortunate gentlemen are Messrs. A. R. Dennison, W. H. Oliver and Thos. J. Mitchell, now of Henderson. During the seven years they have paid only about \$325 each. A profitable investment truly.

Tenders His Resignation.
Rev. H. W. Battle has tendered his resignation as pastor of the Baptist Church of New Berne to accept a call at Wilson about the 15th of September. Mr. Battle has had charge of the Baptist Church here about three years during which time he has been an earnest and zealous laborer for the cause of Christ and never flinching from what he conceived to be his duty. Though deficient in physical strength, he is still a close student and applies himself diligently to the duties that are devolved upon the ministry. Mr. Battle is also an elegant and graceful speaker, and his departure will be regretted not only by his own congregation but our entire community. Our loss is to the gain of Wilson.

During the past year Mr. Battle has been the recipient of numerous calls to different places, among which have been some of high position, and importance, but he has chosen that in which he feels deepest interest and can be of the greatest service.

Join the Procession.

Two special cars will be attached to the regular mail train tomorrow to take up the delegates and others who may wish to attend the Congressional convention at Kingston. A strong representation will leave from here and they will go to the north and back to Simons. It is said that "A Prophet is not without honor save in his own country," but the expounder of this wise version should have lived in the Second Congressional District of North Carolina in the year of 1890. As for Mr. Simmons, he stands exactly as he has previously declared himself—that he would not enter the contest for the nomination because there was a strong feeling on the part of many of the farmers to have one of their own profession represent them, and the election of a Democrat was too uncertain for there to be the least party strife, hence his withdrawal. Mr. Simmons further declared that with perfect unity and harmony he believed the district might be carried, and that if the farmers insisted upon the nomination of a farmer, he would enter the canvass and do all within his power for the success of the candidate.

New Berne Collegiate Institute.
This well known and deservedly popular high school will open next Wednesday with a flattering outlook. Prof. Adams' tireless energy, skillful management, sterling character, natural ability and educational accomplishments have enabled him to place the school in the front of institutions of its kind. Still, not satisfied with the position already attained, he is increasing its capacity for usefulness. He retains the able corps of teachers he had last year, whose efficient work gave such universal satisfaction, and has also secured the services of Mr. F. E. Morton, a gentleman well known in this section as a skilled musician, who will be at the head of the musical department. Careful attention will be given to vocal music and the instrumental instruction embraces not only what is usually taught at schools, but also a full line of brass and stringed instruments.

Miss Aurora Mace, New Berne's talented young lady artist, will have charge of the art department.

The other places will be filled by such experienced and thoroughly competent teachers as Prof. G. W. Neal, who so long and satisfactorily held the responsible position of Principal of New Berne Academy, Prof. S. C. Bragaw, of Washington, Miss Mary L. Allen, a young lady of superior qualifications for such duties and Mrs. A. B. Ferobe, who has proven herself very successful in managing and instructing her pupils. The mere announcement that Prof. Adams will have for his assistants such a fine corps of teachers as this will be a sufficient guarantee to all who know them that the pupils will receive careful attention, accurate instruction and have first class advantages.

A Card.
It having been reported in this community by some designing persons that I was elected a policeman by the city council of New Berne when I was a member of the Republican party, I desire to contradict that report. I was a member of the Democratic party when I was elected to the place of policeman, having before that time voted the Democratic ticket and attended a primary meeting of the Democratic party and recognized by that meeting as a Democrat. I shall for the future give my vote for the regular nominees of the Democratic party. THOS. WILSON.

Adjourned Meeting.
An adjourned meeting of the Board of Trustees of the New Berne Academy will be held this afternoon at four o'clock, at the office of the President. Very important business will come before the meeting, and it is very desirable that there be a full attendance of the members of the board.

W. M. WATSON, Sec'y.

MISSISSIPPI'S CONVENTION.
THE PLAN OF SUFFRAGE AGREED UPON—THE WOMEN TO VOTE.

JACKSON, Miss., August 29.—The Committee on the Elective Franchise practically completed its labors today. The plan of suffrage agreed upon embraces the modification of the Australian-ballot system known as the Dorch law, a residence of two years in the State, and of one in the voting precinct, the payment of a poll-tax of \$2, and qualified woman suffrage based upon the possession by her, or her husband if married, of real property to the value of \$300.

The property qualification has been abandoned, and an educational qualification is provided for limited to the ability of the voter to understand the Constitution when read to him.

The convention met at 6:40 p.m. and under the call of counties a number of resolutions were read and referred.

The Committee on Convicts' Asylum submitted its report, which was made a special order for next Tuesday. It provides that on and after January 1, 1895, the practice of leasing or hiring convicts in the State shall cease forever. It also provides for the abandonment of the present State penitentiary and the establishment of a prison farm in its stead. A reformatory school, constant separation of the sexes and the keeping of juvenile offenders from association with hardened criminals are also provided for.

The convention adjourned until Monday.

PEACE IN CENTRAL AMERICA.
BOTH SALVADOR AND GUATEMALA SIGN THE TERMS OF THE TREATY.

WASHINGTON, D. C., Aug. 29.—Acting Secretary Wharton today received a telegram from Minister Miener at Guatemala, through Minister Ryan, at Mexico City, dated the 28th inst., as follows: "Went again to Acajula, in Salvador, Monday, with three of the diplomatic corps. Met the Provisional President, with several hundred leading men of the Republic. Basis of peace was explained, slightly modified, accepted and signed by Gen. Ezeta. Returned here (Guatemala) yesterday afternoon, when Guatemala also accepted and signed. Both parties have been notified to retire their armies in forty-eight hours, and to reduce them to a peace footing in eight days. This establishes peace in Central America."

Acting Secretary Wharton said he regarded this as a satisfactory settlement of the trouble.
