SODA WATER on draught today at JOHN DUNN'S. tf.

The Democrats of South Carolina are coming together.

Nothing like it Like what! The crops in Eastern North Carolina.

CEASE firing on your friends and turn your guns on the common enemy.

REED is evidently alarmed. He has left Washington and gone to Maine to look after his political fences.

EVERY day gives evidence of the union of Western and Southern interest, and points to the overthrow of the Republican party.

THE situation in Europe is critical. Confidence is wanting in the stability of peace and preparations for war go on without abatement.

It is gratifying to all Democrats to know that Hon. A. L. Wilson of West Virginia has been re-nominated for Congress by acclamation.

THE state Republican committee of New York held a meeting last Tuesday, at which Harrison, Reed, the Tariff and the Force bill were endorsed.

It is announced that Henry M. Stanley, the African explorer; Mrs. Stanley and her mother, Mrs. Tennant, will sail for New York on the Tatic, of the White Star line, next month.

DON'T say Rogers is an Alliance candidate. He is the Democratic candidate. He is a true Alliance man, but he was a Democrat before he joined the Alliance and will be until he dies.

TRADE prospects are good every where. Some say it is the result of the tariff. The wise man says it is because the face of the Lord is towards his people, and the land bringeth forth abundantly.

THE Times says: The suggestion that Mahone has become a farmer is evidently based upon his well known skill in watering stock, cultivating the negro vote, and reaping the whirlwind.

MR. ROGERS, the Democratic Candidate for Congress in this district, is a life long Democrat. He graduated at the University of North Carolina with distinction, served gallantly in the Confederate army, and since the war has been a farmer loved by his neighbors and honored by all who know him.

THE new cigarette law in New York has gone into effect. The provisions of the law are that no child under sixteen years of age shall smoke or in any way use a cigar, cigarette, or tobacco in any public place or resort. Infring-

ment of the law is a misdemeanor, punishable by a fine of from \$2 to \$10. The police have instructions to keep a sharp eye out for offenders.

THE Tarboro Southerner says Edgecomb county has lost in population since June 1889. The exodus did the work. An emigrant agent is there now making preparations to move more of the colored population this fall. One good result of the departure of the negroes from the East is that the farmers are learning to diversify their crops and to plant such things as require less labor than does cotton.

LOCAL NEWS.

Seventeen bales of cotton were sold yesterday at 98 to 99.

The Y. M. C. A. has moved into its new hall, but as the furniture has not been properly arranged yet, the hall will not be open for reception today.

Some parties have just been in the city looking to the establishing of a furniture factory and we expect soon to have a large one. Thus we go forward.

Rev. H. W. Battle left this morning by the consent of his church to conduct very important services in Pamlico Co., and will return Monday. He will not occupy his pulpit tomorrow, and the services of the following Sabbath will terminate his pastoral work in New Berne.

In our article today on the business outlook and activity in New Berne no attempt whatever has been made to estimate the volume of business or enumerate our enterprises, but only to give some idea of what is being done at present. The complete "Industrial Issue" that we have so long desired to get up will be reconsidered this fall.

Meeting of Democratic Club.

The following telegram has been received. It explains itself:

RALEIGH, N. C., Sept. 5.—President Julian S. Carr today called a State convention of Democratic clubs to meet in Raleigh, Sept. 24th. President Cleveland, Senators Ransom and Vance and other distinguished Democrats are expected. All clubs are urged to send delegates.

Personal.

Mr. Allie H. Powell left yesterday to re-enter Trinity College.

Mrs. E. H. Claypole and children, Miss Carrie and Master Jessie, went up to Raleigh yesterday. Miss Carrie will enter Peace Institute, and Mrs. Claypole will spend a few weeks in Raleigh and Durham.

Mr. R. H. Berry left for an extended insurance business trip in South Carolina and other Southern States.

Mrs. Olivia Cowper and Miss Jennie Coffin, of Raleigh, and Misses Marie Hoyt and Belle Hoyt, of Asheville, who have been enjoying the sea breeze at Ocracoke, returned home yesterday.

Mrs. Bettie Wheeler, who has been visiting Mrs. E. E. Perry, has returned to her home in Beaufort.

Mr. P. H. Pelletier and family, of New Berne, and Miss Eliza Pelletier, of Jacksonville, have been spending a few days in Beaufort.

Rev. L. C. Vass has been granted a month's vacation by the session of his church, and is using about three weeks of the time in making a trip to interesting points in some of the Southern States. He left Thursday morning. We hope he will favor us with descriptions of the places he visits.

Miss Kate Bryan came home last night. During the summer she visited several of the Western North Carolina towns.

Mr. D. C. Adams, of Smithfield came in yesterday. He will attend the New Berne Collegiate Institute.

Presiding Elder W. S. Rone arrived last night to hold quarterly conference, and is stopping at Mr. J. A. Meadows.

Miss Jennie Grady, of Halifax, is in the city, the guest of Miss Bertha Cutler. She will leave today to take charge of the music department in the Bayboro Academy.

Mr. D. E. Sanderlin, of Richlands, is in the city on his return from Chapel Hill, where he has been to enter a son. We are always glad to have Mr. Sanderlin call at our office. Besides an agreeable and polished gentleman, he is one of the most practical and successful farmers in the country.

Messrs. J. N. Foscoe and W. W. Pollok, of Jones county, are on a business trip to the city.

ADVICE TO MOTHERS.

Mrs. Wislow's SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. July

NEW BERNE ASSUMING A BUSINESS AIR.

New Buildings Going Up—New Manufacturing Industries Being Erected and Others Enlarged—Skilled Labor in Demand.

No one can go far in any part of New Berne before marks of improvement will meet his eye, and the noise of busy industry greet his ear. Let us briefly notice some of the improvement now in progress.

On East Front street we find Mr. Egall Masly building additions to the north side and rear of his residence and making other improvements and after the carpenters and masons are done he will use the paint brush freely.

Mr. Wm. Gaskins is improving and extending his home.

The Hancock brothers are also adding to the attractiveness of their home. On the east side they are just finishing a good sized ell. They are changing the entrance from King to Grace street. Where the entrance formerly was they are placing a pretty veranda overhanging by a wooden canopy. A full length piazza fronts Grace street and also extends full length on the other side of the house.

Mr. J. E. Lane is building two tenement houses—one single and one double—on Queen street.

Mr. G. J. Scheelky, our Virginia architect, purchased a piece of property a few months ago on the northeast extremity of the town, extending from the railroad to the river and is fast changing the looks of things in that locality. He has a good two-story, four-room office and eight dwellings there now and expects to erect others. On the side towards the river he is now laying the foundation of two dry kilns, each 20x60 feet with 40 foot platform—making the total length of each 100 feet. He is also putting up a planing mill 40x100 feet.

Messrs. D. Congdon & Son are building a high water tower to be used in connection with an automatic fire extinguisher in their mammoth saw mill, dry kiln and planing mill establishments, and Messrs. Jos. B. Clark & Co. are putting up additional dry sheds for storing their kiln dried lumber, and are also building another and larger log pound.

To the left of the railroad shops we notice a neat dwelling that the steward of the Defiance is building; and on the upper part of the macadamized road we notice several in course of erection, also others in the immediate vicinity of the road on the streets crossing it.

A little to the west of the macadamized road lies the suburb known as Pavia town—this is quite a little village, which has sprung up within the last four or five years. Buildings are going up there also. Mr. Jos. H. Hackburn is putting up four in that neighborhood.

There are also a number being built in the western suburbs. Altogether there are about twenty buildings in course of erection.

We see that Mr. John S. Manix has been making improvements on his residence, and has used paint without stint—the dwelling, the out-houses and fences all being attractively painted.

Mr. J. A. Simpson is building a new fence for the Presbyterian church. He has taken in the lot on the west side of the church which the Presbyterians purchased a short time ago. He will also re-shingle the lecture room. On Monday he begins work at the National bank, ceiling several of the rooms.

The Fair Association has taken in the additional property recently purchased by them, and are at work getting things in order for a race track and preparing for the erection of a grand stand. The grounds are now doubly as large as they were last year.

We have, in former issues, spoken of three fine dwellings now being erected. Mrs. Pennell's on the macadamized road under the management of Mr. Geo. Bishop, Mr. C. C. Green's, corner of Hancock and Broad streets and Dr. F. W. Hughes, corner Pollock and Craven streets. Mr. John B. Lane, an able and experienced architect, has charge of the work on the latter and when completed it will be the largest and costliest private residence in the city, and one of the handsomest in the State.

Diagonally across the street from this house a number of carpenters and kalsomines are busily engaged fitting up Stanly Hall properly for the new Y. M. C. A. Hall. Thanks to New Berne's liberal minded citizens, this organization will now have apartments thoroughly adapted to their requirements—a good devotional and business meeting room, a large assembly hall, a gymnasium, a game room, reading room, bath room, etc.

At the foot of the street Mr. J. J. Howard, with a good force of hands,

is making thorough and extensive repairs on the Old Dominion wharves.

Going to Union Point we find Mr. E. M. Pavia rushing the work of enlarging Moore & Brady's factory, putting up several additional buildings, and extending the wharf. A number of machinists are also at work getting everything in first-class order.

As we have already announced, as soon as Mr. Pavia completes Messrs. Moore & Brady's work he will commence the erection of Messrs. A. Greenbaum & Bro's factory just a little further on, which will employ three or four hundred hands.

Mr. Warren Ellis is constructing a good office nearly in front of his mill. Adjoining him Messrs. E. H. & J. A. Meadows are erecting a steam elevator in their fertilizer factory, and putting in additional machinery.

Messrs. Howard & Green are building an addition to the old Y. M. C. A. gymnasium and making other changes necessary to adapt it to the requirements of their steam laundry and knitting factory; and parties have just been in the city looking to the establishment of a furniture factory, and we are likely soon to have a large one.

Messrs. Clark & Co., who at present employ twelve sewing-machine operatives and manufacture nearly all the ready-made clothing that they handle, supply a number of stores in the vicinity of New Berne, and find it difficult to keep up with the demand, as what they manufacture equals the Northern made and they can sell clothing of their manufacture cheaper than the imported. They therefore expect to have their machines run by steam, manufacture on a more extensive scale and put drummers on the road. A sewing machine run by the operative makes about 300 stitches per minute, the average by steam is 3,000, though they can be run to make 3,000 stitches per minute, which is ten times what is accomplished when steam is not used.

These are some of the principal improvements now going on—not things of the past but what is actually taking place today, and there are many minor ones of which we have not spoken.

Our increase in population from 6,143 to 7,803, our present industrial activity—old enterprises being enlarged, new ones being started, others soon to be established, new firms commencing business, real estate improvements—those already made and those now in progress—our being supplied with modern conveniences, gas, electric lights, etc., having shelled streets and the finest macadamized road in the State leading to the National Cemetery, the \$75,000 National public building soon to be erected, the new \$56,000 revenue cutter Winosa, the new passenger steamer Neuse—one of the finest steamers that comes to the Southern States—that is to be put on the E. C. D. line next month, our splendid schools, our two successful fairs a year, our improving banking facilities, the increased amount of money on deposit, and many other things are infallible signs of a healthy condition of affairs in our community generally. Have we not as New Bernians abundant cause to rejoice at these unmistakable evidences of present and future thrift and prosperity?

Hugh J. Lovick, Treasurer, in Account with City of New Berne.
