## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
J. F. TAYLOR—Shoes, tobacco, etc.  
MRS. J. M. HINES—Boarding house.

Only twelve bales of cotton were sold on the market yesterday but the prices ranged well—9 62 to 9 80.

The report that there is a case of diphtheria in town is a mistake. There is no contagious disease of any kind here.

The revival meetings at Hancock Street Methodist Church continue with unabated interest. There was a good attendance last night and a forcible sermon by the pastor, Rev. T. P. Ricard. There have been seven conversions. There was also one conversion Sunday night at the Disciples Church.

Mr. Barney Fulcher left at our office yesterday the largest scuppernong grape we have ever seen. It measures one and a quarter inches in diameter and four inches in circumference. To any doubting Thomas who reads this we say "bring along your tape line and measure for yourself." It is at our office now. Mr. Fulcher raised it on his farm on Holly Hill east side of Neuse river.

**Hyde County Democratic Nominees.**  
The Hyde county Democratic nominating convention met in Swan Quarter and made the following nominations:

House of Representatives, Julian S. Mann; Clerk Superior Court, Samuel S. Mann; Sheriff, F. S. Roper; Register of Deeds, W. J. Harris; Treasurer, Alonzo O'Neal; Surveyor, Geo. W. Swindell; Coroner, A. B. Credle.

The following gentlemen were nominated from that district for the Senate: Mr. W. H. Lucas, of Hyde county and Mr. Chesson, of Washington.

**Farwell Sermon.**

Rev. H. W. Battle preached his farwell sermon Sunday night to an audience composed not only of his own congregation but numbers of persons from the other churches also. It was from the text found in Matthew 11:7, "But what went ye out for to see?" and was an earnest, tender exhortation. Mr. Battle has a grandeur of ideas, a readiness of expression and a brilliancy of delivery that make it a delight to listen to him. The church at Wilson is fortunate in securing such a pastor. He leaves for his new field of labor next Thursday. Many are the regrets expressed here at his departure.

**Personal.**

Mr. O. H. Gaion, the regular Fair attorney, left yesterday to represent the Fair Association and the city of New Berne in the case of the injunction against them to prevent the closing of Berne street, which will be argued before Judge Spier Whitaker of the Superior Court, at 12 o'clock today in Warrenton.

Mrs. Harry Ross, of Baltimore, who has been visiting Mrs. Samuel Pearce, has returned home.

Mr. J. V. Williams has returned to Salem, Virginia, to which place he intends to remove his ink factory, superior inducements having been offered him to locate there and run it on a large scale. He represents that town as building up rapidly and being in a remarkably flourishing condition. We heard him cite the case of one young man whose clear profits are forty times the amount which he invested in business last December.

Mr. R. H. Berry has left for another extended trip on insurance business. The first thing he will attend to will be to pay a \$9,000 loss in Goldsboro, and then he will go on to more distant places.

Mrs. W. P. Burrus and her little daughter Lizzie who have been visiting Mrs. Burrus' father at Roxabell, Bertie county, returned home last night.

Mr. L. A. Coulter, the Y. M. C. A. State Secretary, came in on the train last night and delivered a lecture before the Association in their new hall.

**ADVICE TO MOTHERS.**

Mrs. WISLAW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. July

## Death of Mr. Frank C. King.

A telegram was received here about 10 o'clock Sunday announcing the death of Mr. Frank C. King in Dover, N. J., aged 19 years.

It will be remembered that Mr. King lost his wife and infant child in New Berne last week, by death. They were married November 13th, 1889. He left here about a month ago to visit relatives at his old home in Dover, was soon smitten with typhoid fever and as stated, died Sunday morning. Neither he nor his wife knew that the other was critically ill.

His wife died Friday and her funeral was to have taken place here Sunday afternoon, but on learning of his death it was decided to send the remains to Dover, and let them be buried there together. The child, which had been buried Thursday, was disinterred and sent on with the mother. The funeral service of all takes place on their arrival there today.

Thus in a few days death has removed this entire family, and left their relatives and many friends to mourn their loss, but they were spared the pain of parting from each other. Death did not separate, but united them.

## Phonograph Coming.

Mr. C. L. Gaskill has ordered one of Edison's phonographs for use in his music house. He gave us a description of its manner of working and marvelous capabilities. The internal machinery is the same in all. By some arrangement beyond our comprehension, the sound to be reproduced causes a little pointed instrument or the inside to make a corresponding impression on a rotating wax cylinder. That cylinder will hold as much conversation as can be carried on in a day, and new rollers can be put in when needed.

Its powers are not restricted to ordinary discourse, but it operates with equal facility in rendering ordinary conversation, declamation, singing, instrumental music or any other sound.

Many people suppose that after the phonograph has been charged, it will give forth the same sounds only one time, but Mr. Gaskill informs us that this is a mistake, and that like the cylinder in a music box the wax roller of the phonograph, when it has once received an impression will reproduce the same sounds over and over again indefinitely until it is worn out, and it delivers with truthfulness of tone and the same intensity of expression as the original.

The exterior of the phonograph is fitted up in two ways. One has a funnel shaped opening through which all in the room can plainly hear everything just as it was received by the instrument. The other is called the "nickle attachment." When that is on no one hears anything unless he has the terminus of a tube, which connects with the phonograph placed to his ear. Though inaudible to the others, those who have the tubes to their ears can hear all the sounds as distinctly as when they were first produced.

## BRIGHT'S DISEASE

This insidious ailment, if too long neglected, will undermine the strongest constitution and bring the victim to a premature grave. Heed the timely warning, and regain health at once by a use of the proper restorative, the great strengthener of the urinary and digestive organs, B. B. B. (Botanic Blood Balm).

David Runkel, Cullman, Ga., writes: "I had a hundred dollars worth of medicine for Bright's disease, but it did me no good. I then took B. B. B., which relieved me. My appetite is restored and I urinate without pain."

J. A. Maddox, Atlanta, Ga., writes: "I had great trouble in passing urine which was filled with sediments. My back and loins gave me much pain and I lost my appetite, strength and flesh. I became nervous and unable to sleep soundly. Two bottles of B. B. B. gave me entire relief."

Thomas Williams, Soddy, Tenn., writes: "I was troubled with severe kidney complaint and confined to my bed. Six bottles of B. B. B. made a well man of me."

### DESTRUCTIVE FLOOD.

#### GREAT DAMAGE TO RAILROADS AND MUCH PROPERTY.

**WATERTOWN, N. Y., September 11.**—The rain which has fallen in torrents almost continually for five days past, has swollen every stream in this section to a spring freshet height, and today the effects are seriously felt hereabouts by the almost complete tying-up of the Rome, Watertown & Ogdensburg Railroad and its branches, and the destruction of mill and other damage to manufacturing and farm property.

A big washout occurred on the Rome, Watertown & Ogdensburg road, between Manville and Pierrepont, in this county, last night, the flood carrying away the track for about thirty feet, and making a deep channel across the line. The new iron bridge which had recently been completed at Centerville, a mile west of Richmond, on the Rome branch, was also carried away during the night. This morning one of the stone abutments washed away, and the other is going now.

At Copenhagen, Lewis county, Campbell's machine shop was tipped over by the flood during the night, and Camper & Keys' saw mill, cheese box factory, and Ward's saw mill were carried away.

At New Boston, Lewis county, the New Boston saw mill and cheese box factory were carried away.

Many acres of good farm land are under water in this county.

**WATERTOWN, N. Y., Sept. 13.**—A mill stream flows through the village of Copenhagen. The inhabitants of that village retired last night without misgivings about the flood, but were awakened shortly after midnight by a crash of water tearing away Wild's steam mill, dry house and machine shops, and by morning several other buildings were demolished and the sidewalks nearly all swept away.

Carthage and Oawegatchie are also flooded, and the Carthage and Adirondacks Railroad is washed out in a dozen places.

Bare enumeration of the bridges and factories destroyed would make a long article.

### Onslow County Items.

Very, very dull.

No very good news except good health, only one case of sickness.

We have no doctor now in our village. Dr. F. H. Blount has left us and gone to Bayboro, Pamlico county.

We are getting plenty of fine fish now of all kinds: The netters, strikers and hook and liners are all doing well in the business. It is nothing of a job for you to go out in the channel here and catch from 25 to 100 directly with hook and line—trout, hogfish and croakers the largest kind.

The big seines for mullet fishing have just commenced and are catching some very large and fat mullets.

Our farmers say they want make near what they expected. Cotton is damaged by rust and wet weather one-third if not more.

Capt. Robt. W. Joiner is teaching school here but has only a few scholars as yet. The captain is a good teacher and should be patronized by all who are able to send their children.

Revs. J. S. Burnett and W. Franklin have just closed a protracted meeting here with only two accessions.

Rev. T. J. Lovin commenced his protracted meeting at Queens Creek church last Sunday.

The last quarterly meeting of the M. E. church here for this year will convene on the third Saturday and Sunday in this month. Rev. E. J. Winkler, P. E. and Rev. W. Q. A. Graham will be in attendance and will dedicate the new church being built here.

Miss Eva Crump is still teaching school at W. N. Marine's on New river. Miss Eva is an accomplished young lady of great talent, and while she hails from Virginia we wouldn't care if she would be an Onslow county lady the rest of her days. Onslow boys where are you?

No marriages this week to report. One death only. Mr. Thomas Bell, an old and very respected gentleman, died at his home near Jacksonville, this county, last Tuesday, the 9th inst, aged about 75 years. He was a strict member of the church for many years and died we believe a true Christian. He leaves several children, all daughters, we believe, to mourn his death.

Mr. Henry Jarman, deputy sheriff of our county, is reported very low and not expected to live long. J. J.

The peculiar enervating effect of summer weather is driven off by Hood's Sarsaparilla, which "makes the weak strong."
