AN advocate of the revival of the whipping post says: Delaware whips men at the post for certain offenses, and is therefore barbarous. At the same time, comparing populations, she has only one-third of the small crimes of any other State in the union. Her jails do not cost one dollar where other States pay ten, and it is the same with her courts.

It seems impossible for the fifty-first Congress to do a right thing unless it shall do it a wrong way. For example, the Aldrich plan of Reciprocity is coupled with a grant of unconstitutional and improper power to the President in order to put the Reciprocity in operation. Free Trade is an awkward thing for Protectionist handling.—Phil. Record.

The Boiler of a Steamer Explodes. LONDON, September 24.—The boiler of the steamer Pandora exploded this morning, killing thirteen people and injuring many.

Eighty thousand pounds of silver bullion, making four car loads, and valued at one and a quarter million dollars, passed through Chattanooga, en route to the New-Orleans mint, on Monday.

THE BREATH of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked and frequently entirely destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat, sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant results which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.

Wonderful Discovery!

The German Anti-Rheumatic Ring! A speedy and permanent cure for Rheumatism, Neuralgia, Sciatica, Lumbago, Gout, and all other diseases where a general warming, quickening, strengthening and equalization of the circulation is required. It will last for years, gives no shock, and but a mild, soothing sensation on wearing it. No waiting a long time for results. It acts quickly, generally the first week, more frequently the first day, and sometimes even in the first hour its curative powers are felt. It is inexpensive, harmless in operation, while simple in application, entailing neither discomfort nor inconvenience. Though marvelous in the results it has achieved, its seeming simplicity has the effect of causing many to doubt its virtues. For further information and price call on

"The price is very low, the form exceedingly handy for a work of reference, and the editing skillful and comprehensive."—Library World, Boston.

"The literary skill and judicious editorship which have characterized the undertaking from the outset have been in no degree relaxed."—Sun, New York.

"It is an unabridged dictionary and a storehouse of information on almost every conceivable topic. The more we see of the work the more we are pleased."—Educational Monthly, Akron, O., 9 '90.

"The convenient form, the excellence of binding, paper, and illustrations, and the skillful arrangement of articles make this a handy cyclopaedia, which will be used ten times where the bulky 'Britannica' would be consulted once. The illustrations are really helpful, and are very numerous. No matter what other cyclopaedia a writer may have, 'Alden's Manifold' should be upon his shelves."—The Printer, Boston.

"It is a remarkably well made book for the price. The peculiar shape makes the book extremely easy to read, which is a most valuable thing to the student. The clean cut, handsome type used for titles is a good feature. The materially lightens the task of the investigator. The excellent quality of every detail is a quality which is not to be commended, when it offers any facilities, is set forth prominently. In a word, this popular work is most carefully edited and neatly and accurately manufactured."—American Bookman, New York.
