GEOGRAPHY—Stanley, Discovery, Rolan Baking Powder.

"THE political battle is pitched." Correct. Some candidates are pitched within and some without.

THE grand reunion of the Blue and the Gray, at Knoxville Tenn., commences today and will continue for three days.

THE Western North Carolina Conference of the Methodist church will meet at Concord on the 26th of November.

URGE forward the State ticket, go in strong for Democratic Congressmen, but by no means neglect the County canvass.

"**GEN. THOS. E. DRAYTON,** President Davis' last surviving classmate at West Point is at the point of death in Charlotte."

THE census bureau announces the population of Charlotte, N. C., to be 11,555, an increase of 4,561, and of Winston 7,938, an increase of 5,134.

SUPPOSE the English throw up their hand in Ireland and make hearts trumps instead of clubs. Then they would win, and humanity would be blessed.

THE Behring sea muddle is again troubling the political waters. A few seal skins may yet cost this nation a bloody and disastrous war. Hurrah, for Republican Statesmanship!

THE yacht designers now think they and their models ought to have protection, but it is too late to make any more change in the tariff law. The New Berne club should have started a little earlier.

THE corner stone of the main building of Trinity College will be laid in Durham November 11th. It is rumored among the "boys" that Dr. Crowell will charter cars and carry the boys down to witness the laying of the corner stone.

"**ACCORDING** to the shell fish commissioner in New York a small pond in Connecticut, between Westport and Nangatuck, has the choicest flavored oysters in the world." O, you sinner! Come down to Eastern North Carolina and be converted.

CONGRESS has adjourned, and Reed has an opportunity for airing himself before the country at large. It is understood that his Presidential boom is already organized and that the fat friars are rallying around him. He would be badly beaten in a Presidential contest.

Does litigation pay? A lot of lawyers in New York are getting rich out of a suit over a patent wire motion, which was begun sixteen years ago. The damages claimed have amounted to \$28,000,000, and they can't even see the end of the wire yet, to say nothing about the suit.

THE Progress of the age is not confined to material developments, but is making giant strides in science. The Lick telescope is reputed to be the greatest in the world, but the new telescope now in progress of building by the Clarks of Cambridge for the University of California will have an object glass 40 inches in diameter, while the object glass of the Lick instrument is only 36 inches across. The addition of four inches in this case may look a small matter, but it is really like adding an inch to the end of a man's nose. It will immensely increase the power of surveying the planets and the stars.

LOCAL NEWS.

NEW ADVERTISEMENTS.
W. M. WATSON—Trustees' meeting.
CHURCHILL & PARKER—Fresh corned Portsmouth mullet.

COTTON—New Berne market—Sales of 22 bales at 9.25 to 9.75.

Remember the Democratic speaking tomorrow night at the court house.

The steamer Kinston will sail at 13 m. for Neuse river landings and Kinston.

Any person having a copy of the music of "Patience" will please leave it at this office.

Major A. R. Dennison's cotton gin and oil mills are now lighted throughout by electricity.

Saturday's sales of cotton 188 bales at 9.25 to 9.63. Sales for the week 863 bales against 106 same week of last year.

The report of the sales of cotton for Saturday and for last week was handed in Saturday night, but became misplaced. So today we give that report and also yesterday's.

News has been received that the new cutter Winona made her trial trip Saturday, and will put in to Baltimore in ten days, receive her outfit and then come on to New Berne.

Fifteen new pupils entered the New Berne Collegiate Institute yesterday—one from Fayetteville, one from Pamlico county, two from Carteret county and the remainder from the city and surrounding country.

A meeting of the New Berne Academy Trustees is called for this afternoon at 4 o'clock to consider the question of building an assembly room on the premises, which, it is considered, is made necessary by the rapid growth of the Collegiate Institute in numbers and equipments.

The regular Democratic campaign will open with speaking by the candidates and others next Friday at Falcher's at 11 a. m., then on Saturday at Vanceboro at the same hour, followed in rapid succession by meetings at the main points all through the county.

The working drawings of the new E. C. D. line steamer "Neuse" are now on exhibition at the office of the company here. The plans indicate the construction of a very fine ship with every modern improvement in structures of that kind and the arrangements for freight and passengers seem to be of the best order.

The funeral of Miss Lizzie Barrington was largely attended. A good crowd went over from New Berne, and another was in waiting on the other side of the river. The occasion was a very sad one. The young lady was the only child of her parents, bright and studious, with an affectionate disposition, and was much beloved by her associates.

A letter from Mr. Yancey T. Ormand, the chairman of the Democratic executive committee of the second district, states that Capt. W. J. Rogers, the congressional nominee, will soon enter the canvass with seal Mr. Ormand has called a meeting of the executive committee to meet in Wilson on Wednesday, the 8th inst., at 2:30 p. m., at which Capt. Rogers is expected to be present.

The Y. M. C. A. bath rooms are now in readiness. They were in great demand Saturday night, and a number of young men availed themselves yesterday of the privileges they afford. There is nothing to be done but light a gas jet and in a few minutes turn on the water and receive an abundant supply as warm as you want it. There is also a nice porcelain wash-bowl just put in for the convenience of visitors. The water is furnished right in the rooms, without charge, by our liberal-minded citizens. Major A. R. Dennison, from his well, which is the deepest one in the city. The water has been analyzed by experienced chemists to determine its desirability for drinking, and has been pronounced a wholesome mineral water, pure and healthy.

Something For Everybody to Take an Interest In.

The ladies of Raleigh are engaged in one of the most deserving undertakings of the times. It is to make special efforts at the time of the State Fair to raise money for the Soldiers' Home. To provide a home for needy old soldiers is not a work of benevolence, so much as the payment of a just debt. The debt is of long standing, but it will never outlaw as long as a single old soldier needs a resting place and a home. Let all the people of the State respond to the generous and self-sacrificing efforts of these ladies. Contribute before the time of the Fair and pay up this debt in full. And go to the Fair and see the ladies in this good work.

Rev. H. W. Battle.

To show how well the former pastor of the New Berne Baptist Church is appreciated in our neighboring city, Goldsboro, we give the following deserved complimentary allusion to him, clipped from the columns of the Argus:

"The revival services that have been going on in the Baptist Church in this city for the past two weeks will conclude with the services today. Rev. Mr. H. W. Battle, who has been assisting the pastor, closed his work at the services Friday evening. As we have before stated, Mr. Battle is a most earnest, eloquent and forceful preacher, a sound reasoner upon the Scriptures, and forcing his conclusions upon his audience with a power that is irresistible. His work here gave great satisfaction and brought the joy of repentance and thanksgiving to many hearts. The revival has resulted in twelve additions to the Baptist church, besides a number of professions of religion from persons who will connect themselves with other churches.

Young Transgressors.

Two small boys were arraigned before Mayor Battle yesterday for fighting on the streets. The evidence of a bystander showed that the larger boy, who is only about ten years old, struck at the breast of the younger one, who was only about eight years old, with a knife, but the attacked party by raising his arm received the wound on his hand. The youth of the combatants makes it rather a trivial affair, but as a deadly weapon was used his Honor had no recourse under existing laws except to bind the one who used the knife over to Superior Court. Parents and guardians are the proper ones to settle such cases, but if they fail to do so and young violators of the law come into court there ought to be provision made by which some minor officer—mayor or justice of the peace—could have jurisdiction and dispose of the case without consuming the important time of the Superior Court with it.

Mr. Geo. Allen in Salem.

We are sure that many friends of this energetic former merchant of New Berne will be pleased to learn that success is attending his efforts in his new home. Though misfortune sufficient to have caused one of less dauntless will-power to have become utterly dependent overtook him here, and he was forced, after years of active business life that ought to have secured him a competency, to begin life's battles over again from the very start, his invincible courage never failed and with that unconquerable determination and promptitude of action so characteristic of the man he immediately set himself resolutely to the task of working his way upward once more, and started as real estate agent in Salem, Virginia, and as many of our readers know, was elected President of the West Salem Land Company, which the last issue of the Salem Times-Register characterizes as one of the most prosperous companies there, and speaks further of real estate transactions and Mr. Allen's company as follows:

"The sales of real estate in Salem average over \$50,000 daily, and the truthful publicity of such an amount, side by side with the circumstances that bring it forth, may be considered wonderful. There cannot have been less than \$25,000 paid in commissions within the last month."

"The West Salem Land Company was organized January 6, 1890, with a capital of \$500,000, and has some of the most valuable property in and around Salem."

The lands of this great company within the city limits, consist of 600 acres, fronting the railroad, suitable for residence and manufacturing purposes. "The interests of this great company are in the hands of the leading real estate firm of the city, Allen, Tompkins & Hatcher. This is a strong firm, and from its office emanating important enterprises for the interests of Salem. Mr. Geo. Allen is president and manager of the company, and Charles O. Tompkins, treasurer. They also do a general real estate business, investing successfully for non-residents. They own over 200,000 acres of timber and mineral land adjacent to the city."

The proprietors of Ely's Cream Balm do not claim it to be a cure-all, but a sure remedy for catarrh, colds in the head and hay fever. It is not a liquid or a snuff, but is easily applied into the nostrils. It gives relief at once.

Personal.

Miss Emma Henderson left yesterday morning to enter the Wesleyan Female Institute at Staunton, Virginia.

Mr. Wm. Eubank, connected with the Tidewater Land and Lumber Company, left for a combined business and pleasure trip to Minor, Essex county, Va.

Mr. John W. Hudson left to visit his brother in Wilmington and to attend the Sam Jones meetings.

Mr. T. H. Mallison, of Croatan, went up to La Grange on a business trip.

Rev. T. M. N. George is attending the Episcopal Convention which convenes in Clinton today and holds three days.

Rev. W. S. Bone returned to his home in Goldsboro from holding quarterly meetings on the coast.

Mr. Fred C. Bryan returned to Portsmouth, Va., to resume his duties as assistant general agent of the Seaboard Air Line.

Messrs. M. DeW. Stevenson and Clem Manly are in attendance on the Supreme Court in Raleigh.

Mr. Fred L. Perry, of Morehead, returned home last night from a pleasure trip to Wilmington.

Trustees' Meeting.

The Trustees of the Newbern Academy are respectfully requested to meet at the office of the President this afternoon at 4 o'clock. It is earnestly desired to erect an Assembly Room on the premises with the other buildings, as the rapid growth of the Collegiate Institute, both in numbers and equipments require it. A full attendance of the Board is desired.

WM. M. WATSON, Sec. and Treas.

"Don't Give Up the Ship."

Don't surrender, although the fight be long and bitter, and results thus far but dismal failures. Old Bad Blood may yet be conquered and disease driven from the citadel of life. You have not used the proper remedy, or long ago you would have felt a change. You have tried this and that, a hundred bottles of this specific and fifty bottles of that sarsaparilla, and feel you might as well have used so much rain water for all the good effect they had. Why have you not tried B. E. B. (Botanic Blood Balm) made in Atlanta, Ga.? Because it isn't advertised so conspicuously as other remedies. Well, that's a poor reason. The greatest humbug can afford the largest advertisement. As for B. E. B. try it, and if six bottles don't do you more good than all the other blood medicine you have ever taken, call it a humbug, a name that has never yet been applied to it by any one.

Walter Bridges, Athens, Tenn., writes: "For six years I have been afflicted with running sores and an enlargement of the bone in my leg. I tried everything I heard of without any permanent benefit until Botanic Blood Balm was recommended to me. After using six bottles the sores healed, and I am now in better health than I have ever been. I send this testimonial unsolicited, because I want others to be benefited."
