WHAT constitutes a title to office? First an election in which the candidate receives a majority of votes, and, secondly, the execution of a bond satisfactory to the Commissioners. Democrats who put Republicans in office by their votes are Democrats at all, and Democrats who go on Republican bonds are no better.

A chimney burning out in Tin cup alley caused an alarm of fire last night.

The Democratic executive committee of this county are alive to their duties, and to a great extent is with it as to our success.

MR. H. T. HURTT, who lives at Tuscorora, ten miles from New Berne, has just dug a little piece of ground, one-twelfth of an acre, which was manured last year but not this year, that contained ten short rows of potatoes, and it yielded thirty bushels, or at the rate of 300 bushels per acre. In addition to this Mr. Hurtt's family have been using from one of the rows about a month.

Rev. Duncan McLeod has been supplying both the Beaufort and Morehead Baptist churches, but the Morehead church has elected Rev. H. C. Moore, a young minister of Caldwell county, as pastor and he went down last night to begin the discharge of his duties. He was accompanied by Rev. Mr. McLeod. Both of them have been in attendance on the Atlantic Association of Missionary Baptists which has just closed its annual meeting in Kinston.

And Still They Come.

Another prominent Republican of the city has withdrawn from that party and will vote the full Democratic ticket at the coming election, and says he does not see how any Southern man with a spark of patriotism or love for his native land can do otherwise in view of the recent oppressive legislation by the Republican party aimed at the South and based on prejudice, sectional hatred and slanderous misrepresentation of this portion of the Union. A former leader of the Republicans in Pamlico county unites with the Democrats for the same reasons.

Sonator Ransom Speaks.

Last night at the court house Hon. M. W. Ransom addressed an immense audience on the great questions that are now deeply interesting the people of this country. We regret that he was feeling unwell, but, as he said, he felt that what he wished to say was of too great importance not to make some sacrifice. It was a powerful exposition of the needs of the hour and we only wish that we could give some of the more important extracts from so strong and polished address. In it there was nothing to give offense to the good sprinkling of Republicans present, both white and black, save their affiliation with that party which ought to bring the blush of shame upon them for the iniquitous, inhuman, and despotic laws that have been enacted and drawn up for the purpose of humiliating and grinding the people of the South.

It was a strong appeal to Democrats to do their duty, and we believe they will.

The Senator was introduced in a few words of grace and appropriateness by Mayor Battle.

Sailing Vessels.

It may interest many of our readers to hear of an old friend and resident of New Berne, Capt. Edward Hill, who moved away about fifteen years ago, for Baltimore, his present home, and is making money out of sailing vessels. He has recently purchased a fine three-masted vessel, of about three hundred tons capacity, for \$10,000. The Captain has also taken shares in a vessel now building at Baltimore, and contemplates making other investments in vessel property of large class. We extend Captain Hill our congratulations, and will use his prosperity for a little argument.

Before the war large fleets of vessels plied between New Berne and other ports, owned by New Bernians and manned by North-Carolina crews. They always proved remunerative to their owners and are still profitable investments as the following statement of what they save will show:

We are reliably informed that one sail vessel that comes here which cost \$4,000 eight years ago, has earned enough money during that time to pay all expenses—salary of captain, wages of crew, and all repairs, etc., and still net the owners just a little under \$12,000—three times what was paid for her, and she is now in better order and would sell for more money today than when purchased. It is said that they usually pay for themselves every four years.

Our citizens who have money seem to have lost sight of this species of investment, for our shipping is now carried on by vessels owned in other States, which causes the money they make to be carried away from here, while if owned and run by New Bernians the money would come here, and the city would get the benefit, and we would be glad to have investments made with money which is now locked up in United States bonds or something else, which does not pay near as well and benefits no one but the capitalist.

Personal.

Miss Mary Rhein, who has been visiting her aunt, Mrs. Mary Tucker, returned home yesterday, and Miss Clara Bryan, of Cove, came in last night and is visiting at Mr. Tucker's.

D. line, arrived with the following passengers: Miss Lizzie Neal returning from a visit to friends in Norfolk; Miss Mary Oliver coming home from a pleasure trip to New York; Mrs. R. S. J., who comes to visit her sister, Mrs. James F. Norman; Messrs. E. Conger and F. E. Jones, of New York, on a trip to New Berne and Mrs. C. Foreman and children moving here from Nebraska. Mr. Foreman came on a little ahead of his family. Mrs. Foreman is a sister of Messrs. Blade Bros., the proprietors of the large saw mill just over Trent river.

Buried Alive While Under the Influence of Morphine.

NEW PHILADELPHIA, O., Oct. 29.—F. H. Leider, who took an overdose of morphine October 25, and was supposed to have died, was buried October 27. His brother, who could not get to the funeral, came today and wanted to see his brother's body. When the coffin was opened it was found that the supposed dead man had been in a stupor and had come to life in the casket. His face was scratched and the glass in the coffin lid broken.

WHY ENGLAND REJOICES.

America Keeps Herself Out of All Other Markets—A Strong Point on Protection.

LONDON, Oct. 29.—Gladstone arrived at Dundee today, and was presented with the freedom of the city. In accepting the honor, Gladstone made an address in which he referred to the commerce of the city, which it was said was threatened by the adoption of the new tariff bill by the American Congress. He would not, however, he said, bring a railing accusation against the people of the United States.

Protection, although it might inflict incidental collateral blows on other countries, did far greater mischief to the people of the country which adopted such a policy.

Gladstone then proceeded to contrast the decrease in tariff in England with the increase in tariff in the United States, and said he found comfort for England in the fact that it was not true that any tariff adopted by any country on earth, could interfere seriously with the prosperity of Great Britain. The first effect of the McKinley bill would be to raise the standard of prices in the United States. This meant diminished power of exportation.

Meeting of Chiefs.

We notice that the railroads throughout the State have signified their willingness to give a free pass to one chief of fire department from every town in the State to attend a meeting of chiefs to be held in Greensboro on Nov. 12th. The object of such a meeting can easily be seen to be of immense benefit not only to the men themselves, but it will be felt throughout the State and by every town sending a representative to the conference; not only at a time of fire, where the benefits of an exchange of ideas will assert itself, but in the safety felt by the community in general wherever a community exists which possesses a fire chief with interest enough in his duties as chief to take advantage of every opportunity to better acquaint himself with his duties and prepare himself for the hour when he must shrink from no duty, but be ready for any emergency; be capable of not only meeting it but to successfully overcome it when met. We would respectfully suggest that every Journal of the State insert a notice with reference to the above, and from time to time refer to the matter and insist on the attendance of the proper person from its town. Brothers, you cannot be too particular about this matter—it means dollars and cents in addition to an easy and secure feeling when you lay down at night.—Greensboro Patriot.

Vance at Shelby.

SHELBY, N. C., Oct. 30.—Nearly two thousand people were in town today to hear Senator Vance, who spoke in the court house on the issues of the campaign.

For over two hours the audience listened attentively to the famous speaker. At the close many remarked that it was the finest speech they had ever heard. His appeal to the Alliance was superb. His exposition of the McKinley monetary was masterful. Before the speaking there was a mounted Democratic parade, nearly five hundred taking part. Senator Vance left today for Rutherfordton, where he speaks tomorrow.

Express Charges on Advance in Rates.

CHICAGO, Oct. 30.—The Committee of the Express Companies, appointed to revise the freight tariff, has finished its work, and a circular has been sent out notifying shippers of merchandise by express of the advance in rates. The new schedule takes effect November 1st, and is based on an advance of 50 cents per 100 pounds between Chicago and eastern cities.
