WEATHER prophets are predicting a very cold winter.

HEAVY snow storms in progress throughout the northern portion of Wisconsin.

SENATOR VOORHEES predicts a Democratic majority of 15,000 in Indiana next Tuesday.

RELIGION requires consecration to duty. Duty to country is only second to duty to God.

TODAY we turn our eyes heavenward. If ever men needed the guidance of infinite wisdom it is now.

GET up early in the morning and work like beavers until the sun goes down on the 4th of November.

A DEMOCRAT'S name on a Republican's bond is as much out of place as a human head on the body of a serpent.

"**COME** unto me, all ye that are weary and heavy laden and I will give you rest." Sacred words: divine consolation!

THE New York postmaster holds that the advertisements of European government bonds come within the provisions of the anti-lottery law.

WHAT is the matter with Democracy? If one half we hear is true Pennsylvania, Massachusetts, Ohio and Indiana are knocking at the Democratic door.

THE Republican party started out as the party of moral ideas. It has become the party of corrupt practices, and pure Christianity demands its overthrow.

REPUBLICANS are disheartened in Massachusetts. In the Fourth district Congressman Joseph H. O'Neal is running alone. The Republicans have abandoned the field, and there is no opposing candidate, even as a figure head.

THE Globe, of Atchison, Kansas, recites a deplorable condition of affairs in that part of one of the greatest Northwestern States. Starvation is impending; everybody who can is getting away. Crops have failed, there is no money in the country, and the prospects ahead are not encouraging.

GOV. CAMPBELL is considered by the Republicans of Ohio a fit subject for impeachment, simply for the reason that he has shown himself to be strictly honest. That is an innovation on modern political methods which does not suit the g. o. p.

THERE will be five boxes at each polling place on election day, and it is the duty of every good citizen to put a straight Democratic ticket in every box. They are: One box for the judicial ticket--for Judges and Solicitor. One box for Congressmen. One box for members of the Legislature. One box for county officers. One box for constables.

It is reported that Mr. Clarkson, of the National Republican Committee, is gloomy. He says the manufacturers have shut down on contributions since their bill passed, and now he cannot get any money from them. In Reed's campaign they tumbled over each other to contribute--that being while the McKinley bill was pending--but they sing a different song today. Mr. Clarkson expects to see McKinley, Cannon and Henderson defeated, and he thinks the House will have ten to twenty Democratic majority. -- Norfolk Landmark.

LOCAL NEWS.

COTTON.--New Berne market--Sales of 70 bales at 8 1/4 to 8 3/4. Sales for the week 771 bales against 482 bales same week last year.

Mr. Wm. M. Credle, a prominent citizen of Hyde county, died at his home last Monday night.

Mr. Mott, who was to have addressed the Republicans last night at the court house, was taken sick at Goldsboro and failed to come. Consequently no meeting was held.

Mr. J. K. Willis, the proprietor of the Eastern North Carolina Marble Works, shipped five sets of tombstones to Pollockville yesterday, and several other sets to points down New river.

The Grand Lodge of the I. O. of G. S. and D. of S., which met at Charlotte, N. C., on the 28th ult., again re-elected F. Douglass, of New Berne, Grand Chief of the order for the State.

We had the pleasure yesterday of taking a drive around the new race track at the fair grounds behind one of Stewart's fine bays. It is an elegant drive-way with easy turns and good width.

For the past two or three days the railroad surveyors have been engaged in making a preliminary examination of the country lying between New Berne and the points to which they have surveyed ten miles from New Berne.

The Presiding Elder, Rev. W. S. Rone, will conduct the services this morning and tonight at the Centenary M. E. Church. The pastor, Rev. R. A. Willis, will be absent, conducting the services at Asbury Church at Core Creek, sixteen miles from New Berne.

Ladies of the Memorial Association are requested to meet at the residence of Mrs. Vass on Tuesday at 12 o'clock, m. This is the regular half yearly meeting, when important business is transacted. All members therefore are earnestly requested to be present at this meeting.

Mr. N. M. White, one of our Jones county subscribers, while in our office yesterday paying us in advance for another year's subscription, saw the fine potatoes mentioned in another article, and he told us that his brother, Mr. A. W. White, weighed one of his potatoes and it brought down the scales at 21 pounds. We hope that Mr. White will put away some of those potatoes especially for our coming Fair. Keep the Fair constantly in mind while gathering the crops and lay aside good specimens to place among the exhibits. This is the best crop season we have had since our Fair was started and let us make an exhibit worthy of it.

The King of Holland gone crazy. LONDON, Oct. 31.--A dispatch from Hague says: It has transpired that the statements made regarding the condition of the King of Holland by the doctors and ministers are untrue. The King's physical health is good, but he is suffering from a mental malady which renders him unfit to govern. In other words he is a lunatic. Statements that he was physically ill were made simply to delude the public and to explain the necessity for the appointment of a regency.

Fine Potatoes.

Mr. Freeman S. Ernul brings us in a sample of very fine large sweet potatoes which he raised on his farm on the opposite of Neuse river near Street's Ferry. They were planted in July after other crops, and afford another evidence of the remarkable productiveness of our soil and the superior advantages we possess in being able to obtain several excellent crops from the same plot of ground in one season. Some of those potatoes ought to be shown at our next Fair with a statement of the short time occupied in growing them, and the crop that preceded them. They are as nice as any we have ever seen placed on exhibition. The farmers from that section of the county have made in the past splendid exhibits at our Fairs of both field and garden products, and Mr. Ernul says if they get a bridge over the river they will show us farming that is hard to beat. A bridge over that river has been desired and been a topic for discussion for many years, and we trust that with the coming of our new railroad the fruition of these hopes may be realized, and this fertile section of our country, that lies at our very doors, be opened up and developed both by the railroad and a bridge for vehicles. The desirableness of such a bridge has always been admitted and we have now reached a point when the times demand it.

The Compté de Paris' Narrow Escape from Death.

NEW YORK, October 31.--The Compté de Paris had a narrow escape from a horrible death during his journey from Montreal to New York yesterday. At Plattsburg the Compté got off the train with others to get some luncheon at the railroad station. Not understanding the signal for departure he remained on the platform until the train was fairly in motion. Then he made a spring for the high platform on the Wagner car. He missed the guardrail with one hand, but holding hard with the other swung in between the car platforms. For an instant it seemed that he would fall to the ground and be crushed to death. Several trainmen, however, rushed to the rescue and succeeded in hauling him onto the platform.

Brazil's Export Duty on Coffee.

BALTIMORE, Md., Oct. 31.--Levering & Co., coffee importers here, have received the following dispatch from their Rio de Janeiro correspondent: "Rio de Janeiro, October 31.--The export duty, now 11 per cent, will be reduced to 4 per cent, to take effect on January 1, 1891."

Hon. F. M. Simmons.

In a day or two this amiable gentleman will sunder the ties which have so long bound him to Newbern, and will remove to a wider scene of enterprise and public development. He will probably pass as completely out of the life of this old city as if he had crossed the seas. The writer of this article has never had any business association with him, but he has been proud of his friendship, and will probably be pardoned for saying at the lost what is in the hearts of so many people besides himself. This old stronghold of intelligence and learning could afford to lose ships, houses and lands rather than F. M. Simmons. His work here has been eminently patriotic and conspicuously useful. A graduate of Trinity College, his literary attainments, and especially his literary addresses, have reflected credit upon his State and College. If he had chosen literature as a profession, the brightness of his intellect and his logical keenness as a thinker would have made him a power in the world of letters. He possesses one of those sharp, ready, adaptable brains, which easily masters any domain of mental action, and makes him a potential factor of success in any community. And as eminently gifted as many others are in this ancient city, we doubt very much whether he will leave any one behind him possessed of an intellect more sound and a character better balanced than his.

And how can any one estimate the benefits which such an one bestows upon his adopted city? In commercial gatherings, in memorial meetings, in conventions of the Bar, in social relationships, everywhere his influence is felt for good. Young men are touched by his mental forces, the business activities of the city feel the impulse of his personality, the plans of education respond to his sympathy, and every department of municipal life is helped through his agency.

Can Newbern ever forget what F. M. Simmons did for her in Congress? The broad, strong highway of pleasure linking us to the federal city of the dead, the splendid new revenue cutter soon to ride in our waters, and the magnificent public building soon to decorate one of our squares, these will speak for him through many a coming year. But who will think of his brief but brilliant record at Washington, of his eloquent defense of Southern rights, and of his able advocacy of Democratic doctrine? If we did not know it, these last have brought higher honors to us and our people than any mere monuments of federal wealth. These are the things that the highest civilization remembers, and which we will remember one of these days.

We congratulate Mr. Simmons that he goes to a country so gloriously full of energy and golden promise as Winston. The men of that section will know how to prize him, and to make him one of the magical agents of their prosperity. The JOURNAL and the people of Newbern send after him their best prayers and wishes for his health and happiness. X.

A Plan of the Republican Campaign.

WASHINGTON, D. C., Oct. 31.--In an address to the voters of the country issued today the Republican Congressional Committee condemns the Democratic party, lauds the McKinley bill and alleges that the Democrats are preparing to fraudulently elect 26 Democratic Congressmen in Republican districts in the South. The Committee urges every Republican to be at the polls on election day and says that the Republicans can have the next House if they will take it. "They have only to go to the polls and vote," adds the committee. It is claimed by the committee that the Democrats calculate to elect candidates in forty five districts, properly Republican, by means of gerrymanders and dishonest practices.

Sixty Lives Lost.

NEW YORK, Oct. 31.--The steamer Humbolt, which arrived today from Brazil, reports that the Spanish steamer Vizcaya that sailed from here yesterday evening, when off Barnegit she was run into by an unknown schooner and the captain and sixty-one passengers lost. Both vessels sunk. The fate of captain and crew of the schooner is unknown. The chief officer, one engineer and eight of the crew were picked up.

How the McKinley Bill Works in Wisconsin.

We are reliably informed that the firm of P. H. Hanes & Co., of this city, had to pay \$400 more for the tin with which they are going to cover their mammoth factory than they would have had to pay if they had bought it before the McKinley bill went into effect. The tariff on tin has so increased the price of that article that some of our contractors, we learn, have lost hundreds of dollars.

Russian Brutality.

BERLIN, Oct. 31.--The Vossische Zeitung confirms the report from Warsaw that while numbers of persons were leaving Russia, their intention being to emigrate to Brazil, they were fired upon by the Russian frontier guard at Slupca. The Warsaw report, however, stated that nine persons were killed, while the Zeitung says only four of the party lost their lives.

A \$200,000 Debauch.

GRAND RAPIDS, Mich., Oct. 31.--Louis Wolf, who hails from Louisville, Ky., where he fell heir about two years ago to \$200,000, was arrested here yesterday as a common drunkard. His downward course has been rapid and he is now a total wreck, working about the saloons of the city.

Four and a Half Inches of Snow.

WATERTOWN, N. Y., Oct. 31.--About four and a half inches of snow fell in this section last night, but is rapidly disappearing.
