OLD PAPERS for sale in any quantities at JOURNAL office.

GOVERNOR FOWLE has issued his thanksgiving proclamation.

COL. HARRY SKINNER is mentioned for Speaker in State Legislature.

THERE is yet a large quantity of cotton in the fields in Craven and surrounding counties.

THE President of Honduras has been driven from the capital, but will fight to recapture the Government.

"OUT in Kansas the Alliance has elected Mr. McKay to be a Judge—and Mr. McKay has never read law nor practiced it. Yet he may do well in certain cases."

WALTER HESTER, a well known drummer, shot himself in the head with a pistol, on Wednesday night, on the train between Greensboro and Keyville. His father committed suicide before him.

THE Rads are mighty mad. The leaders say the Force bill must be passed. We will see what we will see, but in any event the people will be true to themselves and to the liberty bequeathed by Revolutionary sires.

THE News and Observer says, "While Dr. Pritchard is at Shelby at the Baptist Convention, Rev. Dr. Cressy, with whom he had a controversy about Sam Jones, will fill his pulpit. Here is an object lesson for the people."

MR. T. H. BAIN, brother of Donald W. Bain, Esq., state Treasurer, and an experienced journalist and farmer, has secured a half interest in the Southern Farmer, published in Raleigh. Hereafter the paper will be conducted under the name of Bain & Ennis.

A DELAWARE cow did not seem to fowl well for a month or two, but lived on until killed by a bolt of lightning. Then she was post-mortemed and two pounds of nails and glass found in her stomach, and a ten penny nail had also imbedded itself in her heart.—Detroit Free Press.

THE oyster shuckers are now making Elizabeth City the centre of their trade. They fear that native labor on the reserved oyster grounds will not be able to supply the demand of the canneries and shucking factories. Those who have examined our natural beds declare that the supply is inexhaustible.—Elizabeth City Economist.

THE London Saturday Review of October 25th, in an article on the value of cavalry in modern warfare, devotes a good part of its space to an account of General J. E. B. Stuart's raid around McClellan's army in 1862. The writer says that brilliant as have been the feats of other cavalry leaders "nothing, perhaps, has surpassed the feats of this gallant prop of the South."

LET the Force bill statesmen rise up now and demand its adoption. It is a live issue. It has slain many an ambitious Republican Congressman already, and will slay many more. It can never elect anybody except men who oppose it in the United States. Even in Russia they are repealing the foolish laws of oppression and suppression, which have been passed by despotic friends of the Czar. Force bills will not work anywhere.

Albemarle Presbytery met in Goldsboro yesterday and at the request of Dr. L. C. Vass, dissolved the pastoral relationship between him and the New Berne Presbyterian church, dismissing him to the Savannah Presbytery. The change will occur on the 28 inst.

T. J. Turner, proprietor of the New York Furniture Store, has moved his stock of furniture in the store lately occupied by Sam. K. Eaton, opposite the Baptist church, on Middle street, where he will be pleased to see his friends and customers.

The Goldsboro Argus, ever ready to speak a word for New Berne, has the following mention of our citizens: "The Hi Henry boys speak in high terms of praise of the hospitality of the New Bernians. Of course they do. Who ever heard of New Bernians being anything but hospitable, and quick to recognize a good thing when they meet it."

The Wilson Advance, Nov. 13, says: "The sermon of Rev. H. W. Battle in the Missionary Baptist church here last Sunday morning was the grandest, most powerful and genuinely eloquent discourse this writer has ever heard. The church was full, and a more delighted congregation never left a Wilson church. At night the gallery was filled and many who came late were unable to secure seats and turned away disappointed. The ordinance of baptism was administered to a young man after the evening service."

Deep interest was manifested in the Y. M. C. A. meeting last night. Rev. Mr. Beut had for his subject, "Knowing What He Ought to Do, but Refusing." He talked about fifteen minutes in plain, simple, but logical language. There were other speakers who gave words of much encouragement and the good effect of the meeting was testified to by one young man asking prayer for the salvation of his soul. Tonight at 8 o'clock Rev. Edward Bull will talk on "Reflecting Too Late," Luke xvi: 19-21.

The report made to the Baptist State Convention at Shelby showed that there are now in North Carolina seventeen hundred Baptist Sunday schools, with one hundred and twenty-five thousand pupils. There are now at the nine stations in Mexico, China and Africa twenty-seven missionaries from North Carolina, and three more will leave next month for China. There are one hundred and four missionaries at work in this State, they being located in thirty-two of the thirty-nine associations. The contributions for home and foreign missions during the past twelve months were \$27,000, while \$18,000 were contributed to the maintenance of the orphanage at Thomasville.

From Chapel Hill.

EDITOR JOURNAL:—The celebration of the recent glorious elections by the students of the University and the citizens of Chapel Hill, a short account of which you have already published, was a display of enthusiasm and patriotism such as has never been seen here, except, perhaps in 1884, when Cleveland was elected President.

It would have done the Democrats of the black district (which came very near changing its complexion this time) good, if they could have witnessed the jubilee here last night. In the University there are nearly two hundred young men whose every heart-beat is a shout for Democracy. Would that every one of them, with their strong intellects, their eloquence, their love of government, their patriotism, had been turned loose in the struggling second district for two weeks before the election, that the East might have been redeemed.

The second district has representatives at the University, though, who will, not many years in the future, wield such an influence for good, for justice and liberty, that, be assured, struggling yet never faltering Democrats of the East, with your aid, our district will be called back from darkness and set up in the eternal sunlight of Democracy.

Among the young speakers last night none called forth more applause nor fanned more fervently the flame of enthusiasm and patriotism in the hearts of the large assembly than Mr. Shepard Bryan, of New Berne. His speech was strong and out like a two-edged sword into the black heart of Republicanism, plutocracy and corruption, and when he predicted that Grover Cleveland would be elected President of the United States in 1892, the crowd cheered till their throats were sore.

Mr. Bryan's voice will be heard in the second district in the future and it will be a power for good.

The torchlight procession passed the residence of Prof. Winston, and he was called upon to speak. In a short, pointed speech he expressed himself as highly pleased with the display of patriotism by the young men. He rejoiced with them.

The Democratic heart of the grand old University was glad last night.

A Train Buried in the Mud.
SALEM, Ore., Nov. 13.—The Overland Pacific train, south-bound, last night, went through the north end of a long trestle over Lake Sabish, about five miles from Salem. The trestle must have given away as soon as the engine struck it, and the train and trestle all went down together. The engine was overturned and half buried in the mud, and following this were the tender, mail, baggage and express car, the smoking car and tourist sleeper. All were broken to pieces. Engineer McFadden, Fireman McNeal and an unknown man were killed. Nearly all of the 100 persons on the train were more or less injured, some quite seriously. It is probable that deaths will run up to ten, as many of the injured are badly hurt.

The bridge is about 600 feet long and from nineteen to twenty feet high.

The South Dakota Legislature Democratic.
CHICAGO, Ill., Nov. 13.—A special from Pierre, S. D., says: In many counties the election on members of the Legislature has been so close that the official canvass has been necessary to determine who was elected. Corrected returns have been received from about all the counties in doubt, and it is beyond question that the Legislature is lost in both branches to the Republicans. The House will probably give four majority for the Democratic Independent Fusionists, while the Senate will have not less than three, giving them seven majority on joint ballot to elect a United States Senator.

That Troublesome Law.
FINDLAY, O., Nov. 13.—The flint table glassware factory, Dalzell Bros., Gilmore & Leighton, of this city, employing 350 hands, will shut down, owing to the strict enforcement of the anti-lottery law against the baking powder companies of this country, all of whom they have heretofore supplied with the glassware which was given away as prizes with the baking powder.

Appleton, the Publisher, is Dead.
NEW YORK, Nov. 13.—Daniel B. Appleton, of the publishing firm of D. Appleton & Co., died this morning at his home in University Place. He was stricken with apoplexy last Sunday.

Fell Four Stories.
This afternoon about 3 o'clock a little darkey fell from the fourth story of F. A. Coleman & Bros. new factory and caught on his feet, sustaining no injury but a scratch on his chin and a broken arm. It was a narrow escape.—Twin City Daily.

Wilmington Star: The Legislature of Florida will be a one-sided institution. Not a single Republican has been elected to it, nor a married one either.

While Boss Quay is fishing for tarpon he might take time to study up on this a little, and inquire what has become of the Republican party down there.

What Does It Mean?
The question is asked daily by people living in town and country what does all this mean that I see in all the newspapers and on hand-bills of so many merchants closing out their stock at 40c, 50c, and 67½c on the dollar of New York cost. Now as I have had considerable experience in this line of business, I think I can explain it to those who do not understand in a way that they will be benefited. Now in a few words, and as short as possible:

There is a man in town whose name is Big Ike, who is always on the lookout for some merchant who can't pay his bills, and gives him from 40c to 50c, and 67½c on the dollar, that is, on a hundred dollars' worth of goods the highest Big Ike pays is 67½c on the dollar, and on a thousand \$675 00, and the stock he has just received from Kinston cost four thousand dollars in New York THIS AUGUST, 1890, and only cost Big Ike two thousand and seven hundred dollars. Now I think every well-regulated man, woman and child will understand this explanation and at once see the advantage that Big Ike has over every merchant in Eastern North Carolina.

Now, my friends, this is not the only advantage that Big Ike has over the other merchants in buying; he has a great advantage in saying he is the only man in North Carolina that can say NO, hence the credit system is killed, and not one dollar's worth goes out of his store until paid for. The above plainly shows why Big Ike can afford to give for the next 30 days a 25c present with every one dollar's worth of goods sold.
