**THE TAYLOR ADJUSTABLE SHOE** for ladies. New and marvelous invention. See sample. — N. ARNAN, j15 d1f Opposite JOURNAL Office.

**OLD PAPER** for sale in any quantity at JOURNAL office.

In 'spite of the Wall street flurry, business is good.

It is feared that Parnell's star is setting in clouds. The O'Shea affair?

A FIERCE political fight has been inaugurated in Illinois for supremacy in the Legislature.

THE Kansas City Packing and Refrigerating Company of Boston has failed. Liabilities upward of \$15,000,000.

THE State Board of canvassers will meet to make an official count of the vote of the State, at Raleigh on the 27th inst. Very appropriate for Thanksgiving day.

THE Dublin Express says that Parnell has informed several of his most prominent men in the Irish parliamentary party, that he will not lead the party in Parliament during the coming season.

THE Adams Express Company have adopted resolutions making the regulations which have been issued by the post office Department to its subordinates, applicable to the employees of the express company. This refers to provisions of the Lottery bill.

THE great problem of the hour is to pursue such a policy of moderation and unity that Michigan, Massachusetts, Pennsylvania and other States recently gained by the Democracy may see good reason to adhere to the political faith they have embraced.

NEITHER in the business nor in the political sky is there any portent of danger. The speculators on the Stock Exchanges may have their ups and downs. But their troubles are skin deep; they don't touch the vital interests of the country except as sources of temporary irritation and annoyance. — Philadelphia Record.

THE Evening Mail, of Colorado Springs brings us a fine account of an eloquent and patriotic address delivered in Colorado by Mr. J. M. Brinson, who is a Wake Forest man, of the class of 1887. The speech was very highly applauded. — News and Observer. Mr. Brinson is a New Bernean, born and raised here. He graduated at Wake Forest as stated, read law in this city, was admitted to the bar, and moved to Colorado. James M. Brinson is every inch a man.

We are hopeful that nothing will occur in the political movements of our State this winter to dis-

point the people and disturb the harmony now existing among all Democrats. It is the desire of the people calling themselves Democrats that the distinguished Zebulon B. Vance should be his own successor in the U. S. Senate. There would be very great discontent and disappointment if by any combinations that may be formed this faithful, long tried, able and wise public servant should be defeated. We cannot allow ourselves to contemplate such a result as even possible. We believe that an overwhelming majority of the farmers of North Carolina desire the services of Senator Vance in that arena where he can best serve the State and serve them beyond any other man within our borders. — Wilmington Messenger.

## LOCAL NEWS.

**NEW ADVERTISEMENTS**  
M. F. ORUM—Turkeys.  
J. C. HARRISON—Adm's notice.  
K. R. JONES—Smoked pig tenderloins

**COTTON**—New Berne market—Sales of 96 bales at 8.25 to 8.80.

Mr. J. R. Moody is building a two-story store near his mill.

There will be a lecture tonight by the pastor at the Hancock Street Methodist church.

The Methodist Church Working Society will meet tonight at the parsonage.

The regular monthly business meeting of the Y. M. C. A. will be held tonight at 8 o'clock. All the members are requested to be present.

As the 27th of November is Thanksgiving Day, the railroad meeting called to assemble at Stella will be postponed to the following Thursday, when it is hoped everybody who is interested in the route by Stella will come and help present their reasons.

**Personal.**  
Mrs. T. P. Ricard returned yesterday from a visit to her sister at Beaufort.

Mr. J. A. Patterson left for a business trip to Wilmington.

Mrs. E. B. Roberts and her daughters, Misses Bessie and Ebie, came home on the steamer Newberne of the O. D. line yesterday, from a visit to friends in New York, and Miss Minnie Eaton also came back on the same steamer from a visit to Northern friends.

On the outward trip of the steamer Newberne, Mr. and Mrs. Jas. M. Childs, of Boston, who have been visiting Mr. S. W. Smallwood, left for a pleasure trip to Church's Island; Miss Adelaide Baker, who has been visiting her aunt, Mrs. F. Myer, returned to her home in Norfolk, and Mr. A. Dozier, of Norfolk, who has been spending several weeks in the city on business, returned home.

Mrs. A. Oaksmith, who has been spending a short time in the city, returned to her home at Hollywood.

Major W. A. Blount, of Chocowinity, is in town stopping at the Hotel Albert.

## More Improvements.

There is hardly a time when there is not some work going on at the cemetery to increase the neatness and beauty of the place. The cemetery committee a short while back had the main avenue nicely graded and thickly covered with pulverized shell rock, and now other walks are receiving the same treatment. A new fence is about to be put up between the cemetery and the private property on the northeastern part. The lumber for it is on the ground and work on it will begin today. The rock wall is to be extended on the side between the cemetery and the macadamized road. A portion of the material has arrived—only two more cargoes are needed to complete the amount required to finish the wall, and as soon as they are received the wall will be built. The owners of the lots are taking commendable pride in keeping them in order and many of them have had Mr. J. K. Willis to surround them with pretty and durable fences and place monuments over the graves of their departed relatives. It is gratifying to see these evidences of remembrance and affection as manifested by the care bestowed upon this place so dear to us all.

## The Great Benefit.

Which people in run down state of health derive from Hood's Sarsaparilla conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla builds up in a perfectly natural way all the weakened parts, purifies the blood, and assists to healthy action those important organs, the kidneys and liver.

Children Cry for Pitcher's Castoria.

## Can a True Democrat Assist a Republican into his Political Power?

**EDITOR JOURNAL**—I see in the JOURNAL of the 15th inst. an article written by a Democrat on signing bonds, which contains facts that cannot be set aside.

The Democratic party in this county will never get in the ascendancy if these obliging Democrats don't quit signing Republican bonds.

I have heard it frequently talked that it is a matter of business in signing bonds. It may be, and it may be a matter of business to vote for them. I had rather vote for one than to sign his bond. In signing bonds you jeopardize your property to help out the common political enemy.

What is the use of the Democratic executive committee working so hard every election year to redeem this old historic county from the hands of the radical party? Just as soon as the smoke is cleared away you can be induced by sweet talk to sign bonds and therefore clog the wheels of Democracy and thwart the will of thirteen hundred tax-paying Democrats.

It is to be hoped that they will keep hands off and let them get their bonds from their own party, to whom they give their patronage. Let them go among the nine hundred insolvents (free voters) and try their luck, and if they cannot succeed on this side of the river, let them drop over into James City, better known as Squattersville, and finish up.

The people that pay the taxes should have some say about who the officers of their county shall be, or at least have as much say as a lot of insolvent tax payers, who dodge the payment of taxes from year to year.

If the Democrats will persist in signing the bonds whether or no, let the county commissioners see to it that they are taken strictly according to law—horse high, bull strong and pig tight, and bordered all around with good substantial property on the tax list of Craven county.

Some of our Republican friends may think this a little tough. But however conservative my views may have been on this subject in the past, it is time to call a halt. With the revolutionary and obstructive course of the Republicans and the high hand of Speaker Reed, and the infamous Force bill and the unsetting of our legally elected Congressmen without hardly giving them a hearing. With all these things before me how can I sympathize with a set of men who in their hearts endorse these revolutionary measures.

As for my part, I cannot see how any Republican under these circumstances can have the effrontery to ask a Democrat to sign his bond, and any one who will do so I think has the cheek of a government mule. — A.

## Smaller Farms Larger Yields.

**EDITOR JOURNAL**—I see in your Sunday paper that Mr. E. M. Street, of this county, had gathered twenty-five bales of cotton off of twenty-two acres and had still one more bale in the field. This it seems to me should attract the attention of the Farmers' Alliance. The man who makes a bale to the acre can stand low prices if any one can. No movement by the aid of even the sub-treasury bill could likely double the current prices of cotton; but there is some method by which the yield per acre can be doubled, and Mr. Street appears to have hit upon it. A Jones county planter told me he had been for several years decreasing his acreage and his yield was correspondingly increasing. Well fertilized, well tilled, he said his diminished acreage gave him a much better return than formerly. With the excellent organization of the Alliance a great deal may be done towards increasing the products of the soil or the success of Mr. Street is phenomenal. The treasure house of nature is accessible to all and the key to it within the reach of every farmer, and no aid of human government will prove half so beneficial as the government of the universe if properly applied. Larger yield per acre is the key note; and if the Alliance will thoroughly investigate the modes of procedure of farmers like Mr. Street good results will surely follow. — OBSERVER, Craven County, Nov. 17th, 1890.

## Heavy Forgeries Cause a Big Failure in New York.

**NEW YORK, November 17.**—The assignments of Mills, Robeson & Smith brought about by the forgeries of the junior partner, was formally filed in the county clerk's office today. The firm assigned to Wm. A. Watson, with a preference to Edward Sanderford for \$15,000, and to James H. Fay of \$1,000. Albert H. Smith, the guilty member of the firm, who was arraigned in police court this morning, was remanded until tomorrow.

The remarkable frauds perpetrated by broker Albert H. Smith was the talk of the street today. The creditors of the firm ruined by his speculations will hold a meeting tomorrow afternoon, and at that time a statement of the firm's liabilities and assets will be presented.

Smith's forgeries amount to about \$240,000, and his private loans to about \$140,000; his assets \$30,000. A partial schedule of Smith's forgeries shows that the actual value of the securities pledged is in most cases 10 or 12 per cent. of the amount loaned on them. For example, a loan of \$25,000 was obtained on securities worth \$2,800, and for loans aggregating \$147,400, the securities pledged are actually worth only \$16,600, the certificates having been raised to ten times that amount.

## Will Be Blaine Again.

**WASHINGTON, D. C., November 15.**—James G. Blaine is working like a Trojan on his reciprocity scheme, with a view to forcing the presidential nomination in 1892. The late slaughter of the high protection fanatics gave Blaine a prominence and his reciprocity plan a prestige which he has eagerly taken advantage of.

## Fatal Accident.

**READING, Nov. 17.**—A terrible accident took place at Mertstown, this county, at 7 o'clock this morning, which resulted in the death of three men and the serious injury of five. While employed in Edward Trudler's stove factory, preparing stove work and the engineer getting up steam in the boilers, one of the large boilers exploded. The building was completely wrecked. The exact cause of the explosion is not known. The force of the concussion was felt a distance of five miles. The bodies of the killed were horribly mangled. All seven of the injured men were standing in the boiler house warming themselves when the explosion occurred.

## A Train Goes Through a Bridge.

**KANSAS CITY, Nov. 17.**—This morning as a freight train on the K. C. Wyandotte and Northwestern road was crossing a bridge over the river, in this city, a span of the bridge gave way and precipitated the entire train into the river thirty-one feet below. The train consisted of five cars loaded with hogs, farming implements and grain. A negro who was stealing a ride, was killed. The fireman who is from Lawrence, Kansas, is missing and supposed to be under the wreck. The engineer, conductor and three brakemen are badly hurt and 58 hogs drowned. The river is 15 feet deep. The engine and almost the entire train are buried out of sight.

## Did McKinley Do It?

**DANBURY, Conn., Nov. 17.**—Two thousand girls employed in the trimming department of eighteen factories connected with the Fur Hat Manufacturers' Association were locked out this morning. Some of the factories have shut down entirely, while the remainder continue to do work in the other departments. The trimmers have taken no step to adjust matters as yet. The annual meeting of the manufacturers will be held tonight, when the situation will be thoroughly discussed and an action decided upon. Over 5,000 hatlers are idle here today.

## Parnell's Political Obituary.

**LONDON, Nov. 17.**—The Daily Telegraph publishes Parnell's political obituary. It says he must cease for the present at least to lead the National party. It is reported that the followers of Parnell do not desire him to retire unless by his own volition in which event the leadership of the Irish party will be vested in a commission of which Gaston McCarthy will be the president.

## Practical Low Tariff Gospel.

The Morganton Methodists have found that it will cost them fifty-two dollars more to cover their church with tin than it would have cost them thirty days before the radical tariff law took effect. — Twin City Daily.

## English Ship Capsized.

**LONDON, Nov. 17.**—An English ship capsized off the Dalman coast this morning. Thirty-eight lives were lost.

## Thousands and Tens of Thousands.

Of cures of disease have been made, and are daily being made all over the country by Humphreys' Specifics. Cure of asthma, of heart disease, of headache, of catarrh, of neuralgia, of sore throat, of bronchitis, of croup, of whooping cough, of lung disease, of dyspepsia, of Bright's kidney and urinary diseases, of diarrhoea, of dysentery, of chronic piles, of constipation, of various forms of women's complaints, of infantile diseases, of nervous debility, of rheumatism and lumbago, of chronic skin eruptions, and of other formidable and oftentimes fatal diseases. The evidences of the wonderful curative effects of these mild, pleasant, harmless and yet benign Humphreys' Specifics, are to be found upon every side. The slightest inquiry among your acquaintances or friends will reveal cases of cures of which you have been ignorant. Thousands use them, even for years, without the fact being known except to one's family or most intimate friends. They are content to be cured but mostly prefer to keep the fact of their infirmity or the treatment and cure to themselves, except for some adequate or proper reason. We have received tens of thousands of unsolicited testimonials of cures in the course of over thirty-one years' business. We could easily fill volumes with them. Some few we occasionally publish, but we prefer in general that each should make the simple trial for one's self and be thus convinced rather than from the testimony of others, however overwhelming or potent such testimony might be. Send to Humphreys' Medicine Company, corner John and William streets, New York, for Manual which will be sent you free.

## CATARRH.

Catarrh is a most disgusting ailment and yet many unnecessarily suffer with the disease. They will try local applications, which do no good whatever, but fail to try such constitutional treatment as is afforded by a use of B. B. B. (Botanic Blood Balm) which removes the mucous poison in the blood and thus eradicates the cause of the disease. N. C. Edwards, Lampasas Springs, Tex., writes: "I was greatly annoyed with catarrh which impaired my general health. The discharge from my nose was very offensive, and I used various advertised remedies without benefit until finally the use of B. B. B. entirely cured me. I am proud to recommend a blood remedy with such powerful curative virtues." B. C. Kinard & Son, Towaliga, Ga., writes: "We induced a neighbor to try B. B. B. for catarrh, which he thought incurable, as it had resisted all treatment. It delighted him, and continuing its use he was cured sound and well."

Children Cry for Pitcher's Castoria.

General admission, 75c. Reserved seats, \$1.00. Gallery, 50c. — 115 d

## What Does It Mean?

The question is asked daily by people living in town and country what does all this mean that I see in all the newspapers and on hand-bills of so many merchants closing out their stock at 10c., 50c. and 67c. on the dollar of New York cost. Now as I have had considerable experience in this line of business, I think I can explain it to those who do not understand in a way that they will be benefited. Now in a few words, and as short as possible:— Big Ike, who is always on whose name is Big Ike, who is always on the lookout for some merchant who can't pay his bills, and gives him from 40c. to 60c. and 67c. on the dollar, that is, on a hundred dollars' worth of goods the highest Big Ike pays is 67c. on the dollar, and on a thousand \$675.00, and the stock he has just received from Kingston cost four thousand dollars in New York THIS AUGUST, 1890, and only cost Big Ike two thousand and seven hundred dollars. Now I think every well-regulated man, woman and child will understand this explanation and at once see the advantage that Big Ike has over every merchant in Eastern North Carolina.

Now, my friends, this is not the only advantage that Big Ike has over the other merchants in buying; he has a great advantage in saying he is the only man in North Carolina that can say NO, hence the credit system is killed, and not one dollar's worth goes out of his store until paid for. The above plainly shows why Big Ike can afford to give for the next 30 days a 25c. present with every one dollar's worth of goods sold. Newberne, N. C., Nov. 14, 1890.
