There have been several shipments of work this week from the East Carolina Marble Works to Kinston, Newport and Swansboro, and Mr. J. K. The trial in the legal contest between the owners of the schooner J. R. P. Moore and the steam yacht Nydia to recover damages out of each other for injuries caused by the Moore's running into the Nydia, was begun before Judge A. S. Seymour yesterday morning at ten o'clock, and it consumed the remainder of day, and even then the witnesses on the side of the Nydia and two on the side of the Moore were the only ones examined. The case will, in all likelihood take the greater part of today also. The question of who was to blame seems to hinge mainly on the point as to whether the Nydia had her lights displayed as required by law, or not. L. J. Moore and M. DeW. Stevenson appeared for the J. R. P. Moore and Clark & Clark for the Nydia.

St. Cecilia Entertainment.
A very pleasant entertainment was given at the residence of Mrs. Radcliff on Tuesday night, under the auspices of the St. Cecilia Society. Miss Lillian Roberts presided at the piano, and Mr. Van Lear enraptured the audience with the sweetness of the music from his violin.

The music-room was well filled with an appreciative audience. The solo of Miss Radcliff, "The Angels' Serenade," was exquisite. The audience showed their appreciation of this beautiful music by long continued applause and an encore. The balance of the evening was interspersed with vocal and instrumental music. This society has given several entertainments during the present winter, which have been greatly enjoyed by all present.

In a short time the fourth one of these series will be given, and of an entirely different nature, and a pleasure is in store for all who may attend it.

A Slight Skirmish With Indians.
St. LOUIS, Jan. 6.—A special from Camp near Wounded Knee Creek, S. D., gives particulars of another engagement which took place at that point yesterday morning.

A detachment had been sent out from camp to meet a wagon train with supplies for the camp, and when ten miles out the wagons were found besieged by a band of one hundred Indians. Seeing troops approaching, the redskins scattered in all directions, but immediately returned to the attack on flanking the small number of men in the detachment.

A courier was sent back to camp for reinforcements, but in the meantime an incessant fire has been kept up on both sides, resulting in the wounding of one soldier, and the killing and wounding of several Indians, the exact number of which could not be ascertained as the redskins carried their dying and wounded away.

About three hours after the courier's departure troops were seen coming at full gallop to the rescue. As the troops rode up the Indians scattered and the troops pursued them, but abandoned the chase on account of darkness. The wagon train was escorted to camp in safety.

The Fire Yesterday.
About noon yesterday the dry kiln of the New Berne Lumber Company was discovered to be on fire. The kiln is of the kind known as the smoke kiln. The heat is raised by fires in eight arches, four of which are ranged on each side, opening outward. The fire in some way caught the weather boarding just above the mouth of one of the arches, and was soon discovered by those around the mill, who immediately gave the alarm and turned on a stream of water from a force pump in use by the mill, but the kiln being hot and the fire having worked its way between the weather-boarding and the ceiling was hard to manage, especially as the kiln was filled with fifty or sixty thousand feet of lumber, but both our fire companies were quickly on the spot and working manfully, and by two and a half hours of strenuous exertion proved themselves equal to the occasion and mastered the fire before the building was consumed. The loss is probably about seven or eight hundred dollars. There was partial insurance. Remarkable as it may appear the lumber stored in the kiln was not burned. It was damaged only by the thorough soaking from the water thrown. Another fine piece of work on the part of our fire department.
