ROBERTS & BRO. are receiving their fall stock Boots and Shoes, Dry Goods, Groceries and Provisions. They buy at headquarters and can give you Low Prices.

In some parts of Ireland the people are at the extreme limit of destitution.

The U. S. Senate was in session all Friday night on the Force bill. No conclusion reached.

ENGLAND has brought the Behring sea controversy before the Supreme Court of the United States.

The State Senate, on Friday, passed Senate bill, No. 66, to pay Solicitors an annual salary of \$1,800.

LAST Friday a negro boy 17 years old was hung at Opelika Ala. His crime was the shooting down and killing an officer who attempted to arrest him.

The Russian ministry has decided to begin this year the construction of a railway across Siberia to the Pacific ocean at an estimated cost of \$340,000,000.

The Independents of Nebraska are petitioning the Legislature for a re-count of the votes of the last election, their object being to oust Gov. Boyd and count in Powers.

The State Senate has passed the House resolution calling on North Carolina's members in Congress to use all possible means to secure the repeal of the tax on State bank issues.

It is said that Ingalls' chances of re-election have improved. The Kansas Alliance Legislators have adopted a rule that eighty-three votes shall be necessary to nominate a senatorial candidate, and this, in some way, is of advantage to the Senator.

The Legislature, among numerous other things, have been discussing the R. R. Commission, especially the salary of the commissioners. It is understood that the salary of the commissioners will be fixed at \$2,500 and that of clerk at \$1,200.

EX SHERIFF Clinton M. Rogers, of Granville county, is now in jail at Oxford charged with the murder of a white man named Parker, and Brock Bailey, a negro. Mrs. Parker is implicated in the affair. A bottle of whiskey containing strychnine was placed by Rogers on Parker's mantle, and Parker and Bailey drank of it and died soon after.

SENATOR HEARST, Democrat from California, is dying of cancer. He is a man of large wealth, his fortune being estimated at \$20,000,000, and is noted for generosity and liberality. His death would be greatly regretted because of the loss to the country of such a man, and also because his successor in the Senate would be a Republican.

It is not unfair to say that Senator Ingalls' speech was brilliant, but a great deal of it was mere coruscation, having about as close a business relation to affairs as the summer bombardments at Coney Island have to actual warfare. There is, however, more brilliancy about one of those Coney Island bombardments than can be found in the real thing.—Brooklyn Standard-Union.

It is a delicate and important part of police duty to look out for murderous cranks. Two or three times within a few months

have been discovered hanging about ex-President Cleveland's house to "fix" him or "get even" for some imaginary wrong. The ex-President is a citizen in whose personal welfare many have an interest, and it is shocking that he should be haunted by crazy assassins. While a watch was taken in hand yesterday because he was threatening Cleveland another who had succeeded in his madness, in committing murder, was complaining in court that it was a dangerous state of society when a citizen could be nabbed by an officer and imprisoned without trial. The truth is the marks with revolvers and manias are among the most dangerous members of society, and need rough and rapid handling.—Standard-Union.

Punch in the presence of the presence.

The annual meeting of the Female Benevolent Society will be held at the house of Mrs. Dunlop on Tuesday afternoon, Jan. 20th, at 11 o'clock. A full attendance of the ladies is requested.

Mr. Geo. Green has withdrawn his candidature for county commissioner, and will make no contest for the office of Register of Deeds. It is now presumed, of course, that Mr. J. W. Biddle, Democratic candidate for that position in the recent campaign, will be appointed.

Mr. B. H. Coward has purchased the property on Pollock street between the macadamized road and Elen street, and is preparing to erect a fine residence on it, which is to be built by Messrs. Saelling, Atkinson & Co. The old building that stood on the ground has been sold to Major A. R. Davidson and preparations are being made for its removal.

The recitals of Prof. Ford at the Y. M. C. A. hall last night was a big success. A large audience was present, and that they were highly delighted was fully manifested by the outbursts of applause during the humorous renditions, and a perfect silence in giving pathetic pieces. He is the best he has ever been our pleasure to listen to, and his appearance again tonight in a new program should be met with another good audience.

A correspondent in this issue condenses our views about the issuing of county and city bonds for the purpose of making public improvements. It is written by one of our most enterprising and successful business men, who has always stood ready and willing to give his undivided support to any public enterprise that gave the slightest hopes of advancing the prosperity of this section. What say others? Is the matter worth giving any attention?

"I'm not satisfied with that pair of shoes I bought here, I want another pair," was the greeting that was given Mr. J. F. Taylor, one of the busiest merchants of commercial row, yesterday, by one of his Jones county customers as he entered. "What, what is the matter?" exclaimed Mr. Taylor in surprise. "Simply that I have been wearing them three years, and I'm not satisfied to wear them any longer. I want to quit. Give me another pair right away." It did not take long to exchange another pair of shoes for a small amount of hard cash, and the Jones county man departed to try to wear out his new purchase.

A gentleman was in town a few days ago who has had considerable experience in the Hotel business, and remarked that this was a delightful climate for a Winter Resort; the boating, fishing and hunting was good, but there was one very essential thing to a Winter Resort which we did not possess, viz, A good long carriage drive. It is true, he says, you have the macadamized road to the National Cemetery, and some of your streets are shelled and make beautiful drives. They are all right so far as they go, but people who spend the winter in the South for health and pleasure want a good long drive and a variety of places to go to. Let us have it. We can do it if we will only try.

DIED.
Friday, January 16, at the residence of her son-in-law, Mr. Jas. F. White, at Harlowe, N. C., Mrs. Phoebe H. Hancock, aged about 75 years.

East Carolina and Poultry.

Mr. J. M. Ackerman, of New York, a gentleman of fifteen years experience in the poultry business who has been in this vicinity about three weeks, is favorably impressed with what he has seen, and has decided to locate near New Berne and to begin the business here next fall with the intention of making a specialty of broilers for the Northern markets. The Plymouth Rocks are his favorite. By warm housing, vigilant attention and forcing process, they are made to attain a weight of two pounds at two months old, and though there are times when only about 50 cents per pound can be obtained, they are often in demand at 75 cents and \$1 per pound. Of course ordinary chickens do not sell at such extravagant figures, only those that have had careful attention to fit them for the palate of the dearest epicures and they are always in demand at prices that are at least remunerative.

Mr. Ackerman has been through many of the poultry raising sections of the United States, including Lower California, which is so well adapted to the business that it is known as the "chicken paradise," and considers this region as any of them. He says we have a glorious country for the business, and it is astonishing that this industry has not taken a prominent place here this time, and that he would rather have ten acres suitably located, properly arranged, and well stocked with poultry than any cotton farm around.

He has visited some of the poultry yards around New Berne and speaks of them in terms of highest praise. He says that the Buff Cochins, of River-view poultry yard, of which Wood Bros. are proprietors, are as fine as any seen in any of the yards North, and there need be no hesitation in letting it compete for premiums in any part of the country.

He also speaks well of Mr. W. H. Bray's poultry, both chickens and other fowl, and says it is seldom that all the poultry of a yard ranks as high as in those two yards—not simply a few fine picked specimens but all good—and that a prettier flock of bright, healthy ducks cannot be found in the United States than those of Mr. Bray, and that his geese are equal to his ducks, and that such progressiveness as is manifested by these gentlemen ought to be encouraged, as it shows what can be done here.

We are glad to see Mr. Ackerman come; there is plenty of room and a welcome ready for him and as many of his friends as he chooses to bring, who will take hold and help to develop the resources of the old North State.

Attention!
The delegates and alternate delegates appointed to attend the railroad meeting at Goldsboro, next Thursday, Jan. 22, are requested to meet at the Mayor's office tonight at 7:30, to confer as to the action to be taken at such meeting.

Personal.
Mrs. Lina Holton, of Wilmington, came up yesterday from a visit to her father at Beaufort, for a visit to her sister, Mrs. C. R. Thomas.

Mr. and Mrs. C. W. Wallace, of Morehead, came up yesterday and will remain here during the spring fishing season. They are stopping at Mr. N. S. Richardson's.

Miss Mary L. Gibbs, of Middleton, Hyde county, who has been visiting her sister, Mrs. U. S. Mace, returned home yesterday accompanied by Mrs. Mace, and Mrs. H. L. Gibbs, of Winston, for a visit.

EDITOR JOURNAL—I notice your article in the JOURNAL of the 18th inst. on the question of issuing Bonds for Internal Improvements. I hope you will awaken some interest in this matter, and that the people of this city and county will take some definite action on this very important subject. While it will not require a particular close observation to see around New Berne convincing evidences that the people are in better circumstances, and are gradually showing increased interest in progress and improvement, on the other hand it is an undeniable fact, that we have lost several very valuable citizens in the past year or so, who have taken up their homes in other cities that have issued Bonds for Internal Improvements, and considerable capital has gone out from New Berne for investment in those cities.

Let us make New Berne attractive and convenient to live in so that we can retain our people and their capital. Let us have water-works and a sewerage system, the sidewalks paved and the streets and roads leading into the city macadamized. It is economy to have these improvements.

In looking over the prosperous cities of North Carolina we find Raleigh, Wilmington, Charlotte and others carrying a city bonded debt for internal improvements. We also find them greatly increasing in population and valuation. If the community think favorable of this subject, there is no better time than the present to shape it up and start it.

Children Cry for Pitcher's Castor.

FOURTH EXHIBITION OF THE EAST CAROLINA FISH, OYSTER, GAME AND INDUSTRIAL ASSOCIATION.

REGULATIONS, AND RULES GOVERNING JUDGES, ENTRIES, AWARDS, ETC.

PRICES OF ADMISSION, PREMIUM LIST, OFFICES AND GENERAL REMARKS.

REGULATIONS.
The President and Directors will have the general supervision of the Fair. The President will wear a white rosette; each of the Vice-Presidents, red and white; each of the Directors, blue; the Secretary and Treasurer, green; Managers, green.

JUDGES.
To secure an intelligent and impartial award is the end to be attained by all the machinery of the Fair, and the Judges will be selected with that view by the Directors.
They will carefully examine all articles in the class to which they are assigned, and give the awards.
If there is no competition in the class, they will not award a premium unless it is decided merit; and if they find an article on exhibition not mentioned in the Premium List, deserving mention, they will report same to the Secretary and he to the Board of Directors.
No competitor can act as Judge in his class in which he exhibits.
Competitors for premiums cannot be present during the examination of the Judges, unless specially requested by them.

ENTRIES.
The Secretary will receive entries at his office and record them in the Fair book and give the exhibitor a receipt same.

The name of the exhibitor must be attached to any article or stock exhibited until the awards have been made by the Judges.
Parties from a distance may ship their goods to the Secretary, who will follow their instructions in regard to them and have them exhibited to the best advantage.

All articles entered for premiums must be upon the grounds of the Fair on the 23rd day of February.

Every article or animal entered in competition shall be under the supervision of the Board of Directors.

Exhibitors will not be allowed to move any article or stock out of the enclosure of the Fair without the permission of the Directors in charge of the premises.
The Treasurer will keep a list of all articles and successful exhibitors, and will pay the successful exhibitors the amount of their premiums. All premiums not called for within 30 days after awarded will be forfeited.

PRICES OF ADMISSION.
For each adult, 50c; for each child under 12 years, 25c; for each two horse vehicle, 50c; for each one horse vehicle, 25c.

PREMIUM LIST.

CLASS A—O. H. GIBBS, DIRECTOR.

Game.
Best pair woodcock and quail, \$5 each; best pair English snipe, grayback, single rail, double rail, wildcat, yellow shank, beach robin, plover, and oyster birds, \$3 each; best pair quail, dove and meadow larks, \$2 each.

CLASS C—J. A. MEADOWS, DIRECTOR.
Farm and Garden Crops.
Largest yield cotton grown in this

State, not less than 100 bushels, one acre with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of corn, not less than 50 bushels, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of wheat, not less than 50 bushels, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of potatoes, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of rye, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of barley, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of oats, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flax, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of lentils, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of chickpeas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of vetch, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of rye, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of barley, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of oats, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flax, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of lentils, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of chickpeas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of vetch, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of rye, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of barley, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of oats, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flax, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.

Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of lentils, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of chickpeas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of vetch, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of rye, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of barley, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of oats, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flax, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of lentils, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of chickpeas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of vetch, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of rye, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of barley, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of oats, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flax, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of hemp, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of flaxseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of cottonseed, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of soybeans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of peas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of beans, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of lentils, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of chickpeas, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of vetch, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of clover, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of timothy, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of alfalfa, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of sorghum, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of millet, one acre, with statement of cultivation, quality and quantity of fertilizer used and cost of same, \$10.
Largest yield of buckwheat, one acre, with statement
