A **SEVERE** snow storm raged in West Virginia Saturday and Sunday.

THE **Oyster** bill was the special order for yesterday, Monday, at 12 o'clock.

It is inexplicable how two gentlemen can exchange hats and both lose by it.

MONDAY, Jan. 19, was generally honored throughout Virginia, as the birthday of Gen. R. E. Lee.

ACCORDING to the Express Mr. Gladstone has written a letter to a friend in which he expresses the fear that his public and political life is at an end.

FRIDAY the U. S. Senate was in session for thirty hours and finally adjourned. The Force bill was up, but action on the matter was postponed till Monday.

GEORGE BANCROFT, the historian, died in Washington City late Saturday evening Jan. 17. His death was not due to any disease but to the gradual failing of age. He was born October 3rd, 1800, at Worcester, Mass.

We are under obligations to Senator Stanford, of California, for valuable public documents. If we were to judge from our mail we would conclude that North Carolina has no representative at Washington.

A **WELDON** correspondent says: Yesterday on Senator M. W. Ramsey's plantations, in Northampton county, his sons sold to a cotton broker 551 bales of cotton for which the buyer planked down over \$22,000. This is probably the largest sale made in the State by any one farmer. The Senator made 956 heavy bales the past season. He is a representative farmer as well as a great statesman.

W. B. RODMAN, JR. Captain W. L. I. received a telegram from the Governor on Monday, telling him to charter a boat at the expense of the State and have his company in readiness at a moment's notice. All this has been done. What it means no one knows, conjecture has it, that the Maryland and Virginia Oystermen have taken charge of our waters. The boys are ready and anxious for the fun.—Washington Gazette.

SENATOR ELECT GORDON, at the battle of Seven Pines, received three bullet wounds, and at Antietam he got two bullets in the leg, one in the arm, one in the shoulder and one in the right cheek. He also had a horse killed under him, the butt of his pistol smashed, his canteen pierced and his coat torn with bullets. The above paragraph is going the rounds of the papers. If Gordon was wounded at Seven Pines he was not disabled for a single day. Gen. Rodes was wounded in that engagement and Gordon, then Colonel of the 6th Alabama, succeeded to the command of Rodes' Brigade and greatly distinguished himself in the battles around Richmond, from Mechanicsville to Malvern Hill.

There will be a lecture tonight by the pastor at the Hancock Street Methodist Church.

The Methodist Church Working Society meets tonight at the parsonage at 8 o'clock.

We hope to see a good delegation go from here to Goldsboro tomorrow to the railroad meeting.

The temporary bill forbidding dredging and empowering the Governor to enforce the oyster laws has passed.

Today one year ago commemorates a sad event in the history of the JOURNAL—the death of its Editor, H. S. NUNN.

There was a District meeting yesterday at Goldsboro of the stewards of the New Berne District. Among other business transacted they apportioned the amounts to be raised during the present year by the churches of the district. Messrs. T. A. Green and W. R. Barrington attended from New Berne.

Last night was the second appearance of Prof. Ford at the Y. M. C. A. Hall. The audience present showed much appreciation of the Professor's recitals, but they were scarcely equal to those given on the previous evening. The program was interspersed with a few beautiful selections on the cornet by Mr. W. C. Thomas, a drummer stopping in the city.

The following ladies comprising the Committee on Floriculture are requested to meet this (Wednesday) afternoon at four (4) o'clock at the residence of Miss Carrie Maybaw: Misses Bessie Whitford, Carrie Rhem, Hannah Allen, Hannah Clark, H. O. Metts, Norma Cox, Mrs. G. N. Ives, F. C. Roberts, J. A. Simpson, W. J. Street, N. S. Richardson, J. J. Wolfenden, M. D. Nelson, O. H. Gaion.

Truck Shipping Comms need.
The truck shipping season has begun. Messrs. Hackburn & Willist are already sending off nice cabbages of the Early Jersey Wakefield and Flat Dutch varieties. A good shipment went off yesterday morning. Pass were being shipped from here last season up to the middle of November. Thus one season comes so near meeting the other that only two months intervene between the cessation and renewal of shipments.

Only two months in the year when crops are not being gathered! Who wants a climate that will do more than that?

Oyster Conference.
The meeting of the delegates appointed by the oyster counties to consider the oyster question was held today. Delegates from all the oyster growing counties were present with the exception of the delegate from Dare. Mr. Watson, chairman of the board of county commissioners of Hyde, was elected chairman, and Mr. Fowler, chairman of the commissioners of Pamlico, secretary. Mr. W. S. Chadwick, M. Makely, F. Winalow and others presented their views as to the course of legislation to be adopted. The opinion prevailed that the oyster property of the State should be protected, but that nothing should be done to discontinue the investment of capital in any of the branches of the business. Among the measures proposed the principal were laws referring to "culling," transportation and sale of oysters, inspection of the same, prohibition of non-resident oystering, licensing oyster boats and tongs, and establishment of a general board of commissioners, patrol force, and of county commissions to control the beds of their counties. After considerable discussion the views of the meeting were embodied in the shape of a bill, and the same sent to Raleigh for presentation to the Legislature. During the session of the convention a telegram was received from Lt.-Gov. Holt that the Mann oyster bill had passed the Senate and would be ratified as soon as enrolled.

The meeting, considering the various elements comprising it, was harmonious and the results of their deliberations was unanimously approved.
