**INNOVATIONS** point to a very large attendance at the New Berne Fair. A royal reception and splendid entertainment is assured to all.

**THE** Democrats of New York have nominated Gov. Hill for U. S. Senator and the Republicans have nominated Everts. Hill will be elected.

**AT** last accounts the Force bill still held the floor of the Senate. Senator Gorman, of Maryland, is highly praised as the leader of the Democrats in the Senate.

**ON** Tuesday the North Carolina Legislature re-elected Zebulon B. Vance United Senator. This was anticipated, but it is none the less the occasion of rejoicing all over North Carolina and throughout the Union.

**BERLIN** dispatches say that Prof. Koch has probably reached the climax of his career; dissatisfaction is expressed at his statement of the composition of lymph; doctors differ as to its curative powers.

**A** TERRIBLE domestic tragedy occurred in Chattanooga Sunday morning. Judge Warder, a prominent lawyer, shot his daughter and her husband, killing the latter; the Judge was also shot, receiving a wound that may prove fatal.

**A** VIOLENT blizzard has caused great suffering in Europe. In Great Britain, France, Germany and Austria the weather is the coldest ever known. Rivers and seas are blockaded with ice and many persons have been drowned.

**IN** the House of Representatives the Democrats are using obstructive tactics to prevent the consideration of other business until the Senate decides the fate of the Force bill. Democrats will be censured if appropriations are cut off, but let it be done if necessary to save the Republic.

**THE** Virginia and Georgia papers come to us with gratifying accounts of the observance of the 19th of January, the birthday of Robert E. Lee. In both of these States the day is a legal holiday, and the manner in which it was celebrated is most creditable to their patriotic people.

**IN** his message to the Legislature, the Governor of West Virginia strongly recommended that if the Force bill passed Congress, the time of holding State and county elections be changed, in order to remove them from the danger of Federal interference. All Democratic States will probably find it necessary to follow this suggestion of the Governor of West Virginia, for it really looks as if the Force bill will be pushed through.—Charlotte Chronicle.

A gentleman whose children are attending the Graded School informs us that the doors are not opened until about time for the school to begin, and he wishes to enquire why the doors are not opened and the scholars admitted as soon as they begin to assemble.

Oysters are the great attraction on the coast. Tongers sometimes make as much as eight dollars a day. Many young men have gone from the farms to engage in tonging. The equipment for the business costs very little: Say three dollars for a boat and seventy-five cents for tongs.

Cards are out for the marriage of Miss Mary L. Battle, of Littleville, to Prof. Collier Cobb, of Harvard College. Prof. Cobb is a native of North Carolina, and the author of the excellent school map of the State which was adopted by the State Board of Education. Miss Battle is a relative of our esteemed Mayor.

The delegates appointed to represent the city of New Berne at the Railroad meeting in Goldsboro today will leave on the train this morning. The object of the meeting is to devise means by which the Atlantic and North Carolina Railroad may be extended West as far as Charlotte or the western borders of the State.

The Fair edition of the WEEKLY JOURNAL is now being issued and in addition to the names we already have on hand a great many others will be needed. Any one knowing of persons living at a distance, and who might probably be induced to come to the Fair, we will take pleasure in mailing them a copy of the paper. The address must be written plain.

A great disaster befell Mr. Enoch H. Lane in the destruction of his residence, kitchen and nearly all of his furniture, by fire Sunday morning before day. His loss is about \$1,000 and there was not a cent of insurance on anything.

The cause of the fire is unknown. The kitchen was discovered to be on fire about 4 o'clock. It connected with the house and flames soon enveloped both. It was with difficulty that some of the adjacent out-buildings were saved.

The new regulations recently put into execution at the railroad passenger depot have wrought changes vastly for the better. The gates are now kept locked and no one is admitted except those who have business there. This makes it so that the travelling public now enjoy in quietness the conveniences which the railroad officials have so amply provided for them and the oysters who formerly congregated in the street, that they are looked out in the street and that a special policeman, Mr. Thos. Wilson, is keeping a vigilant eye on them whenever they make their appearance, are becoming orderly and their numbers also are growing beautifully less.

**Military Ordered Out.**  
The Paquotank Rifles, about eighty strong, left Elizabeth City Tuesday night on the steamer Vesper, Capt. G. W. Wallace, for the scene of the oyster troubles in Pamlico sound. It will be remembered that the Vesper was chartered a little while back by the State for this purpose.

We are credibly informed that there were twenty-three boats, of a capacity of from 500 to 1,000 bushels, gathering oysters at the mouth of Bay River last Friday. Only one of the boats belonged to North Carolinians.

## THE OYSTER LAW

Passes Its Third Reading in the Senate and Will Become a Law.

The bill to protect the oyster interests of Eastern North Carolina yesterday passed the Senate and will become a law. The following is the bill as passed:

That His Excellency the Governor be and is hereby authorized and empowered to take all such action as may be necessary and requisite to uphold, maintain and enforce the laws of North Carolina in relation to her fish and oyster interests. And to this end he may employ so much of the military or other powers of the State as may be necessary to carry out the intention of the act. And for these purposes a sufficient sum of money is hereby appropriated to be paid by the State Treasurer upon the warrant of the State Auditor, who shall issue the same upon the approval of His Excellency the Governor, out of any moneys in the treasury not otherwise appropriated and not exceeding \$15,000.

Sec. 2. That from and after the ratification of this act it shall be unlawful for any person or persons to take or catch oysters from any of the public oyster grounds or natural oyster beds of North Carolina, with any dredge, drag, scoop, patent tongs or any instrument except such tongs as are worked by the hands and in ordinary use among oystermen. And if any person or persons shall use in the catching or taking of oysters from the public grounds or natural oyster beds of the State any such instrument as is forbidden by this act, he or they shall be guilty of misdemeanor, and upon conviction of the same shall be fined not less than five nor more than one thousand dollars, or imprisoned not less than one nor more than five years, or both in the discretion of the court.

Sec. 3. That when any person shall be found engaged in violation of the laws of this State in relation to fish and oysters, it shall be the duty of any and every officer charged with the execution of the laws of the State, or any person specially deputed or commanded for this purpose, to forthwith arrest such person and carry him before a magistrate, who shall inquire into the facts, examine the witnesses and dispose of the case in the manner required by law. And any citizen may likewise make such arrest and carry the offender before such magistrate, and the officers herein mentioned may make such arrest in any county in North Carolina as well as in his own.

Sec. 4. That this act shall be in force from and after its ratification for the space of three months.

**Terrible Tragedy in Cleveland County.**  
SHELLEY, N. C., Jan. 20.—Charles Williamson shot with a pistol and killed his younger brother Erasmus, son of H. D. Williamson, Monday night in a drunken frenzy and without the slightest provocation. Erasmus was shot in the back. He died the next morning. The fratricide rushed home, confessed his crime, then fled. He pulled Erasmus out of a buggy, beat him with a black bottle, and then shot his drunken and unresisting brother, after taking several drinks together in a store. The murderer is 28 years of age, weighs 150 pounds, is short and dark and freckled, has dark hair, dark eyes and mustache, has a projecting tooth in front. He has lived in Georgia, Alabama and Texas. There was no quarrel and both were drunk. The murderer was to have been married today.

ALLOW me to add my tribute to the efficacy of Ely's Cream Balm. I was suffering from a severe attack of indigestion and catarrh and was induced to try your remedy. The result was marvelous. I could hardly articulate, and in less than twenty-four hours the catarrhal symptoms and my nervousness disappeared and I was able to sing a heavy role in Grand Opera with voice unimpaired. I strongly recommend it to all sufferers.—Wm. H. Hamilton, Leading Base of the O. D. Home and Opera Co.
