MANY hearts have been wounded by the merciless murder of birds to procure their plumage for bonnets. The Princess of Wales has given orders that nothing need be submitted for her inspection or that of her daughters in which birds are used as trimming. This will save the life of many a bird.

THE Senatorial contest still goes on in the Illinois Legislature. Mr. Morrison, of Congressional fame, has intimated that it is about time for General Palmer to retire and let some other Democrat make the race, but the General replies that Morrison does not understand the situation.

ONE of the strongest papers of the day is Governor Patterson's veto of the Force bill resolution. The resolution was in these words: folk. "Resolved that our United States Senators be earnestly requested to use every honorable effort to secure the passage of the Federal election bill." The great Governor in his veto message says to the Pennsylvania Legislature, "I am not willing this point and New Berne. That is the to give my assent to any declaration in support of that measure; for it trenches on the principle of local sovereignty which is the essence of our free Government."

SENATOR ELECT Pleffer hits the nail on the head when he says: The race issue is for the Southern people to settle among themselves. If we had it in Kansas, we would resent interlerence from outside. It is not a Northern or Western issue, and the people who are face to face with its difficulties should be let alone in their methods of dealing with it. I have lived in a Southern community, and I know what the problem is. Let it alone, and the two races will come to an agreement far more satisfactory. intellectually, morally and in every other way, than any that can be forced by Federal legislation or Northern lecturing."

Aurora Views-Railroad Wanted-A Line Between New Berne and Nor-The following letter has been received by Mr. H. B. Duffy, one of the committee to obtain subscriptions and a with cargo shingles. charter for the Aurora road: MR. H. B. DUFFY, DEAR SIR:-Your friend, Mr. Brown, reached here today and says his understanding is that a railroad is to be constructed between and passengers. thing to be done it seems to me. We would have a direct coast line then from Norfolk via Edenton, McKey's passengers.

Ferry, Belle Haven, Aurora, New Berne and on to Wilmington, N. C. Charleston, S. C., and on to Florida. I wish New Berne may have the vim to build this road. It would be a big thing for her and Aurora too. Let New Berne be in earnest about it and get a charter for the road at once while the Legislature is in session and we will do what we can to aid you. I am very truly yours for new counties, new railroads or anything else that will help to develop the resources of the State.

THE NEW ROAD.

J. B. BONNER. Aurora, N. C., February 6, 1891. The sentiments expressed above have the right ring about them, but the impression that this survey is for a railroad is erroneous. The building of a

railroad was discussed in the meeting that authorized the survey, but the idea prevailed that the proper thing to do at once is to build a short, straight, well constructed dirt road as a connecting link between the two portions of the crooked road now used that will cut off a long out-of-the-way bend and greatly lessen the distance between this city and Aurora, and it is for the purpose of determining with certainty at what one of the best we have ever heard at point that short cut should be located, its length, cost, how much the distance will be shortened by it, etc., that the present survey is being made. Still a railroad may eventually come from this agitation. Very few people realize how short is the line that would have to be constructed to give conneciion that way between New Berne and Norfolk. There are two railroads already in existence that cover most of the distance. One is the Norfolk and Southern between Norfolk and Edenton. At McKey's ferry, on Albemarle sound,

o'clock. opposite Edenton, another railroad, belonging to the John L. Roper Lumber Company begins and runs to Belle Haven on Pungo river, a tributary of Pamlico river, opposite Aurora. This railroad was completed last year. It runs a steam ferry across to Aurora and secures considerable freight and passengers from that section. Now, if a railroad is built over the short distance between New Berne and Aurora, that route to Norolk will be open to us. It will be all rail with the exception of the two ferries we spoke of, and it is stated that was full of zeal and fervor, yet calm about twelve hours travel over it would cover the distance between New Berne and Norfolk. Mr. Brown will soon be through with the survey, and as soon as the report of spoken in too good a spirit for fair the committee based on it is made tt minded people to take offense at. will throw somewhat clearer light on the subject.

Superior Court.

The regular February term of the Superior Court of Craven County convened yesterday, Judge H. G. Conner of Wilson on the bench. The grand jury was drawn with W L. Lewis as foreman. The charge occupied about twenty minutes and it was the New Berne bar. Competent gentlemen pronounce it exceptionally wholesome and such that could emanate only from one of honor and integrity. No case at all came up on the crimi-

nal docket. On the civil docket, with Leave Goldsboro the exception of motions and continuances, only one case was tried, that of Pope vs. Pope, an action for the recovery of property as sole heir. Verdict for the plaintiff. Adjourned till this morning at 9:30
