**ROBERTS & BRO.** are receiving a Large Stock of Boots and Shoes, Dry Goods, Groceries and Provisions. They buy at headquarters and can give you Low prices. au29.

**SENATOR-ELECT** Pfeffer may be a self made man, but he is a mortgage-made statesman.

**SOME** men in the Legislature have discovered that a straight line and a curved line are parallel!

**THE** politician who butts against the people is in worst plight than the billy-goat that "bucked" against the engine.

**IT** is said that on last Monday 200 Illinois farmers sold out and emigrated futher west. Come South, young men, come South!

**ONE** of Gen. Sherman's last requests was "Don't pass round the hat for me." It is said that he selected, bought and paid for his monument.

**GEN. DE FONSECAR**, who was chosen provisional president of Brazil at the time of the overthrow of the empire, has formally been elected president of the Republic.

**THE** negroes in Texas have gone crazy about political rights. They believe the Legislature is attempting to disfranchise them by making the poll tax receipt a qualification of voters.

**THE** remark of the Washington Post that "it is about time for the United States to decide whether it shall be a national Fair or a national fizzle" indicates that the affair is not getting on swimmingly.

**IF** The Chronicle knows the public sentiment—and it thinks it does—it is this: That the city is not going to advance backward like a crawfish, but like a graceful trout or mackerel head the stream.—Charlotte Chronicle. Me too, says the beautiful city of New Berne.

**THE** visit of Empress Frederick to Paris has caused an outburst of hatred of everything German. The Empress is entitled to respect everywhere, and if William does not resent an indignity to his mother he is not "the son of his father."

**A GENTLEMAN** from Western North Carolina said on yesterday, at the New Berne Fair, "I never was so surprised in my life. I expected to find plenty of fish and oysters, but this is the best exposition I ever saw. Of course it is small in comparison, but in quality it excells the Philadelphia Centennial."

ACCORDING to the New York Herald the majority of physicians of that city, with the light of 350 experiments before them, are of the opinion that Koch's lymph is valueless as a diagnostic; that it does not cure consumption, and that it is not the specific it is thought to be.

THE bill to extend the Atlantic and North Carolina railroad is being debated in the Legislature. The principle point against the bill is based upon the fact that Major Tucker, a large stockholder in the road, is opposed to extension. Woe be to North Carolina when the supposed or real interests of one man will stand in the way of the development and progress of North Carolina. If there are man worshippers in the Legislature let them perform their devotions, "But know ye that for all these things you shall be brought into judgement."

## LOCAL NEWS.

**NEW ADVERTISEMENTS.**  
LOST—Gold star.  
NOTICE—Executors.  
LOST—Bunch of keys.  
JOHN DUNN—Dressed poultry.  
C. E. SLOVER—Dried apricots, etc.  
BARGAIN STORE—Only two more days

There is a cotton gin exhibited in Machinery Hall which was made and used in 1798. It was made from the original invention by Whitner.

The officers of the Fair request us to state that all school children will be admitted in the grounds today free. Every one that can should be sure to go and see for themselves what skill, judgment, and the hand of toil has accomplished.

A portion of the breastworks on Mr. Wm. Dunn's truck farm was being levelled yesterday. The work unearthed a great many bullets that were imbedded there in the fighting during the war, and a number of them were picked up as relics of those trying times.

Capt. Gray's "plantation scene" in Machinery Hall is right amusing. Four little girls and two boys (colored), all about the same size and in uniform dress, dance to the music of the fiddler, while the grown folks are making shuck mats, split baskets, and carding and spinning cotton in old-fashioned style.

**Church Notice.**  
Hancock Street Methodist Church—Sunday, March 1, at 11 a. m., Memorial services commemorative of the Centennial Anniversary of the death of John Wesley, the founder of Methodism; at the conclusion of which the Sacrament of the Lord's Supper will be administered. Preaching by the pastor at 7.15 p. m. Prayer meeting at 9.15 a. m., Sunday school at 3 p. m., W. R. Barrington, superintendent. The public are invited to these services and will receive a cordial welcome.

**Very Encouraging.**  
Today closes our Fair and it has been a success in every sense of the word. But, true as this may be, there is another encouragement that must be hailed with delight by every New Bernian who has the old city at heart and feels an interest in her development and future prosperity.

This Fair has been the occasion of the assembling of a larger number of people who formerly lived here than at any past period, and it is from their remarks that we get so much encouragement. Numbers of them express great surprise at the improvements that have transpired here within the last few years. They put special stress upon the new handsome residences, the general painting up of old buildings, the great improvements in the streets and side walks and the fine appearance and condition of the lands and truck farms near the city.

What has brought about this change? It is from no one cause, but not the least is our splendid annual exposition where the products of our soil and waters can be seen and appreciated. Also we are beginning to see that it does not pay to wait for others to come here and help us, but that we must help ourselves. This is being done. Every day gives evidence of the fact. The young men are taking hold and are realizing that there are bright prospects ahead and that results are only awaiting development.

**ENTITLED TO THE BEST.**  
All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to cleanse the system when constive or bilious. For sale in 50c and \$1.00 bottles by all leading druggists.

## THE FAIR.

Machinery Hall and the Fish, Oyster and Game Building—Large and Excellent Exhibits.

Machinery Hall has attracted as much attention as any of the other departments. To a great many it seems to be the most interesting place on the grounds. It is in charge of Capt. Gray, of the S. H. Gray Manufacturing Company, and its attractiveness is due to a great extent to the kindness and affability of this gentleman and his earnest desire for the success of the Fair. The Gray Manufacturing Company's exhibit is not only interesting but instructive. Hundreds and thousands of people who see and use wooden plates almost daily, but never know how they are made, may see the whole process here, where Capt. Gray has a number of men, with eight machines, rapidly converting strips of wood into neat and very useful plates and dishes. Capt. Gray furnishes the steam power for running all the machinery in this building.

There is no feature or exhibit at the exposition that has attracted more attention than the Jaquard Power Loom, being shown by Mr. Henry Mitchell, of Patterson, N. J. The exhibit gives a practical demonstration of how silk is taken from the cocoon, the different operations through which it passes until it comes from the loom in beautiful and artistic figured silks, scarfs and handkerchiefs. In the manufacturing of these handkerchiefs, etc., double warp and filling are used. One hundred of these silk threads to the inch are used, making 2,150 threads in each.

Mr. James Belford has charge of the loom, and takes great pleasure in giving any information in regard to its workings. Those who desire beautiful and useful souvenirs of the Fair may find them here.

The whole process of the art of printing—from the setting of the type to the press work—can be seen in this department, as all the work on the "Whale," the daily Fair paper issued by the JOURNAL, is performed here. Mr. W. T. Hill doing the press work.

Mr. Frank J. Dugan, of Norwalk, Conn., a manufacturer of barbatine ware, and clay novelties, shows the whole operation of making vases, toys, jugs, etc. An unsightly lump of clay is thrown on the wheel and by a few dexterous movements is transformed into shapes of artistic beauty.

Messrs. Smallwood & Slover make a grand display of general hardware and builders' material extending half the length of the hall.

On the other side of the hall occupying the same amount of space is another fine exhibit by Messrs. J. C. Whitty & Co. of mill and farm machinery, tools, etc. It is plainly and uniquely marked by the firm's name, the letters being formed of compasses, gimlets and other small articles, sold by them.

Just outside the machinery building the Walter A. Wood Mowing and Reaping Machine Company, make a good display of their implements. They keep a reaper and self-binder running constantly and show how it binds the bundles of grain. It will reap and bind 15 to 20 acres per day.

The fish, oyster and game building is filled with excellent specimens in these lines. There are over one hundred different varieties of fish—alive and dead, large and small, pretty and ugly, common and rare, curious, choice and otherwise. Some of the finer ones came from the savannah, but the greater part of them are from our own waters. There is a splendid exhibit of oysters from the different fine oyster-growing waters of this section. Each collection plainly marked. There are also good displays of the other nice shell-fish that abound in our waters.

The collection of game and other animals and birds, land and aquatic, are very interesting and attract much attention.

There is also a magnificent display of taxidermy work, of which the first that usually greets the eye of the visitor are two massive St. Bernard dogs that face the entrance.

There are numerous varieties of bitterns, herons, wild ducks and other water fowls and small animals. There is one gannet gull, the largest of the gull family whose wings when outspread would measure eight feet, a pure white squirrel killed at Slocum's creek, a number of flying fish suspended over the aquarium in natural positions, as though they were taking a flight in the air, and many other things equally interesting. The collection has some of our most familiar animals and birds, but the greater portion of it is composed of those not generally known.

There are many fine sea shells also on exhibition. Some of them came from distant points—the West Indies, Central Mexico, Brazil, the Calibbean, etc. Also splendid coral from the Indian and Pacific oceans.

All the exhibits in this room and very interesting, instructive and artistically arranged and great credit is due to Mr. Geo. N. Ives, the director who has this building in charge. He has worked indefatigably in gathering exhibits himself and in getting others to furnish them.

**THE RACES YESTERDAY.**  
TROTTING RACE—FREE TO ALL.  
The following horses were entered: Adonis, owned by Hackburn & Willet, driven by Charles Woolley. Won first heat in 2:30.

Jordan B., driven by Thomas Paine, won second heat in 2:32.

Barney W., owned by T. J. Hambrick, driven by owner, won next three heats in 2:32, 2:31, and 2:32.

Adonis met with an accident in the second heat, which kept him from making as good time on the remaining heats as he was capable of.

**RUNNING RACE.**  
B. F. Gornton's "Sorrell" won first money.

Joe McSorley's "Brown," won second money.

**PONY RACE.**  
Four ponies entered. The one belonging to Mr. Thomas Lake, of Wilmington, won first money. Mr. R. P. Williams' pony won second money.

This year denotes the first introduction of the racing feature and it has proven a grand addition. In the first place there has been a large number of fine blooded horses on the track and more beautiful and graceful movers were scarcely ever looked upon. Again the way they are handled by skillful drivers has been very noticeable, and we believe there has not been a single accident.

**Alliance Appointments.**  
At the Alliance meeting held at the court house the following appointments were made:

**DUFFY'S CROUP SYRUP.**

Recipe of the late Dr. Walter Duffy.

**DIRECTIONS:**  
Dose for a child two or three years old, one teaspoonful; for a child three months old, ten drops; for a child six months old, twenty drops; for one twelve months old, nearly half a teaspoonful—repeating these doses frequently if necessary until relief is procured.

This is to certify that I have used DUFFY'S CROUP SYRUP in my family for over six months and I believe it to be a most excellent remedy for croup with children, especially as a preventive. Our youngest child had a severe attack of croup about a year ago, inasmuch that we felt anxious about its recovery, but was successfully treated by our physician, but thinking it probable that other attacks might follow we frequently used DUFFY'S CROUP SYRUP and the child has had no marked symptoms of croup since, and I believe it is due to the use of the CROUP SYRUP, and we now keep a bottle of it at our house at all times, and I cheerfully recommend it to all. E. H. BARNUM.

Also very effective in relieving coughs and colds. PREPARED AND SOLD BY **R. N. DUFFY, New Bern, N. C.** jan1dw6m.

**THE MEHLIN!**

**KING OF PIANOS!**

Important Points No Other Piano Possesses:

The Patent Grand Plate and Scale, Patent Piano Muffler, Patent Cylinder Top and Tone Reflector, Patent Bessmer Steel Action Frame, Patent Touch Regulator, Patent Endwood String Bridge, Patent Grand Fall Board, Patent Finger Guard.

These improvements are all of a practical and highly beneficial character, tending to enhance the tone, touch and durability of the instrument, as well as its general appearance, and which has caused "THE MEHLIN" to be pronounced by impartial and learned judges as Pre eminently the *Finest* Pianos manufactured to day, and *unequaled* by any others for their Quality and Volume of Tone, Extraordinary Staging Quality, Delicacy of Touch, Excellence of Design, Remarkable Durability and Capacity for Standing in Tune.

Prices vary from \$350 to \$1,000. Walnut, Rosewood or San Domingo Mahogany. No extra charge. Your inspection is respectfully solicited at the **FAIR GROUNDS.**

**Messrs. C. L. GASKILL & CO.:**

GENTLEMEN—I am quite "taken" with the patent muffler on the "Mehlin" Piano Forte, and think it a grand desideratum in an instrument for practice; inasmuch as incessant practice, on a piano as powerful as the "Mehlin" becomes very tiresome to hearers.

Practice makes the use of the "muffler" become almost soothing, rather than irritating.

The finish generally, as well as the almost perfectly constructed "action," is very fine, and I should expect to find it a very durable instrument.

Very respectfully,  
**RICHARD BERRY,**  
New Berne, N. C., Feb. 25, '91.
