CROUP SYRUP Recipe of the late Dr. Walter Duffy,

DIRECTIONS :

Dose for a child two or three years old, one teaspoonful; for a child three months old, ten drops; for a child six months old, twenty drops; for one twelve months old, nearly half a teaspoonful-repeating these doses frequently if necessary until relief is pro-cured.

This is to certify that I have used DUFFY'S CROUP SYRUP in my family for over six months and I believe it to be a most excel-lent remedy for croup with children, espe-cially as a preventive. Our youngest child had a severe attack of croup about a year ago, insomuch that we felt avxlous about its recovery, but was successfully treated by our physician, but thinking it probable that other attacks might follow we frequently used Duffy's Croup Syrup and the children, and I believe it is due to the use of the Croup Syrup, and we now keep a bottle of it at our house at all times, and I cheerfully recommend it to all. E. H. BARNUM. Also very effectual in relieving coughs and colds. PREPARED AND SOLD BT H. N. DUFFEY, New Bern, N. O. This is to certify that I have used DUFFY' R. N. DUFEY, New Bern, N. C.
