In the State there are eight pensioned soldiers of the war of 1812.

TALMAGE says "The overshadowing curse of America today is monopoly."

A PRECIOUS thing is the more precious to us if it has been won by work or economy. Ruskin.

The big fire in New York last Tuesday destroyed two million dollars in property in five hours.

The New Orleans executions are monopolizing public attention. The newspapers are full of it to the exclusion of other subjects of interest.

NEW ORLEANS is reported as "very quiet." Yet the telegraph says that Mayor Shakespeare on Tuesday received a letter purporting to come from a committee of 3,000 Italians notifying him that Parkerson, Wickliffe, and himself must die at the hands of the aforesaid committee.

A ROME dispatch says that much anxiety is felt there by the attempts made by some of the lower orders to prompt a general onslaught on Americans, of whom there are many in that vicinity. The better classes, while equally indignant at the American murders, are entirely opposed to violence.

The State Chronicle says Rev. J. A. Speight, who has been associate editor of the Biblical Recorder for some time, has purchased the Western North Carolina Baptist, and will revive its publication at Asheville about April 1st. He has newspaper talent, and has many friends who will wish him great success in his new field of labor.

It is suggested that if all the war clouds are to burst upon us the American navy will get plenty of exercise. Italy mad over the New Orleans tragedy, Spain inflamed because of a supposed intention to annex Cuba, and England roaring about Canada and Bhering sea present a grand and awful spectacle. Let us have peace.

We are indebted to a most excellent lady of New Berne for a copy of the North Carolina University Magazine containing Shepard Bryan's admirable article on "Desraeli's Character." This is not the first evidence of coming greatness furnished by Mr. Bryan, and, if we are not much mistaken, he will give new luster to an honorable name.

The New York Tribune recognizes, and seems to "point with pride" to the rapacity of the late Congress. Speaking of the next Congress it says: "But if it appropriates as large an amount as the recent Congress, it will be compelled to increase taxation in order to prevent national bankruptcy. The recent Congress began its work with a large surplus to be distributed, and that exists no longer."

REPUBLICANS hope to divide and conquer. "Cleveland and Hill" they say, "are irreconcilable, and their friends will not come together." They may not come together, but they are all coming, and the last mother's son of them will get to the polls on election day and vote the Democratic ticket. Democracy is "like unto leaven which a woman took and hid in three measures of meal, till the whole is leavened."

THE National Economist says: "Notice has been served on the Alliance Congressmen from Kansas that the patronage of the State will be controlled by Senator Plumb. This relieves these brethren of a responsibility, and demonstrates conclusively the hypocrisy of the administration in professing one thing and practicing another. Members of the Alliance will take notice that nothing but Republican postmasters and partisan garden seeds are in store for Kansas."

COTTON—New Berne Market—Sales of 36 bales at 7 1/2 to 8 3/8.

As will be seen elsewhere the site of the public building is decided. It will be placed on the corner that fronts the present post office.

The M. E. Conference of the New Berne district will be held in Kinston the last of April and first of May, embracing the first Sunday in May. Bishop Galloway of Mississippi is expected to preside.

The Goldsboro Argus recently told that Mr. R. E. Best, of Shine, had killed the prize pig of the State. It was 21 months old and tipped the beam at 651 pounds. The Tarboro Southerner tells of ten pigs only six months old killed by Mr. B. B. Lewis, of No. 9 township, which weighed 1,400 pounds. These are pretty good reports, but can't our farmers do as well or better.

News From the Railroad.

We had the pleasure yesterday of meeting Mr. Chas. M. Whitlock, of Wilmington, the treasurer of the Onslow Lumber Company, who is in the city on a short business trip.

Mr. Whitlock is also connected with the new railroad, and he assured us that the portion between Jacksonville and New Berne will soon be built, and that it is their intention to touch at Mayville by whatever route they come and that farther than that is not yet decided.

Mr. Whitlock also says that as the cars are now running as far as the road is constructed which will enable them to bring rails and other material right where they are needed, it is probably that a good supply will be got in readiness and this part of the road build with rapidity.

A Town Clock.

New Berne ought to have a town clock. Something that everybody can rely on and go by. Now our citizens have to depend on corporations for the regulation of their time pieces and they do not agree together. We hope that one will be secured and placed on the court house, the public building, or at some other central location.

A large one is now being put up in Wilmington in the new government building. Theirs will have three faces, fronting to the north, south and west, with dials of glass illuminated so that the hours can be seen after night, and the clock will light itself and extinguish the lights automatically at any hour it is desired.

Such a clock in New Berne would be an immense convenience, and we believe there is a general unanimity of desire among the inhabitants of the city for one.

Personal.

Mrs. H. C. Tinker and family of New York, who have been visiting Mrs. Margaret Smallwood left for their home yesterday morning.

Rev. J. H. Speight, associate editor of the Biblical Recorder came in from Raleigh last night and is the guest of Rev. Rufus Ford.

FACTORIES.

In Patronizing Cive Preference of those in Your Own City and State—Encourage Home Enterprises Always.

One of the surest ways to encourage the establishment of additional manufacturing enterprises in a community is to let it be seen that the citizens of the section desiring them feel such an interest in them that they bestow all the patronage possible on those already existing in their midst. Both self-interest and patriotism should lead our citizens to patronize home industries when practicable. The nearer to one's home that money is expended, the more liability there is for a portion of it, at least, to find its way back through some channel to the spender.

It is now the planting season. Farmers, in purchasing their supplies of fertilizers would do well to bear in mind that there is a factory in New Berne, Messrs. E. H. & J. A. Meadows, proprietors, that manufactures high grade goods with certain brands especially adapted to particular crops. Shell lime is an excellent fertilizer. Messrs. Latham & Burrus have kilns that are constantly burning large quantities of it, and those in want of anything in this line would do well to investigate what these gentlemen offer before purchasing at greater distances.

Then we have the excellent carriage factory formerly owned and run by Mr. J. W. Stewart which has just been purchased by Mr. G. H. Waters. Mr. Waters proposes to continue it in a complete and first class style—embracing in it makes almost anything wanted in the way of carriages, buggies, wagons, etc.

A furniture factory is just being established in the city, and there is a fair prospect that before long we will have a knitting mill, and the thought suggested at the outset in regard to farmers purchasing their supplies as far as practicable from home factories will apply with equal force in regard to merchants placing their orders. If the commodities wanted can be purchased in the city on as favorable terms and as good articles secured here as elsewhere, seek no further. If this cannot be accomplished in the city but can be in some other portion of the State, give the State factory the preference over those outside, and in purchasing furniture think of our own factory first. Failing to find what is needed there remember there is one at our sister city, Goldsboro, that has been in operation several years and manufactures on a larger scale than ours does yet awhile. Likewise until we get a knitting mill see if you cannot supply yourselves in those lines from the mills at Kinston, Goldsboro and Scotland Neck.

By patronizing as far as practicable those factories already established in the State you will be doing what lies in your power to create for them a certain and sure market for their products, be advancing the general welfare of the State and to some extent at least promoting your own interests.

What the Golden Grail Has Done.

EDITOR JOURNAL.—As there seems to be some curiosity to know what the Golden Grail has done for the holders of certificates in this city. I wish to show as briefly as possible the actual results to date.

The first certificates held here bore date of July 15, the next August 1st, and still another August 15th. These have all matured and have been paid. They aggregated 119 certificates at \$100 each—\$11,900. The cost was about an average of \$58 each, making \$6,900, leaving a net profit to the holders of \$5,000, or nearly 75 per cent. on the outlay. Pretty good, isn't it? Q.

FROM THE CRESCENT CITY.

ITALIAN ATTACK—MAFIA THREATS—INVESTIGATING THE JURY—BRIBING AND ALSO THE LYNCHING.

Mayor Shakespeare Heartily Endorses Saturdays Proceedings.

ATTACKED AND NEARLY KILLED BY ITALIANS.

New Orleans, La., March 17.—Frank Hagardorn was attacked in the street with knives this morning by three Italians who heard him say every member of the Mafia should be hung. He was severely cut about the body, and would have been killed outright had not his cries brought several men to his assistance. The Italians escaped.

Mayor Shakespeare yesterday received a letter purporting to come from a committee of 3,000 Italians notifying him that Parkerson, Wickliffe, and himself must die at the hands of the aforesaid committee. In conclusion the letter states that the Chief assassins are not yet caught. Chief of Police Gaster thinks all such letters are a hoax.

ITALIAN FAMILIES FALLOUT.

The city remains very quiet. The Mafia warning received by Mr. W. S. Parkerson, who led the citizens' movement on Saturday, does not make him feel uneasy, although there may be some foundation for it. Mr. Parkerson treats the letter lightly. He knows that if a hair of his head were touched it would result in a terrible punishment of the Italians and Sicilians.

PROVENZANOS VERSUS MATRANGAS.

The result of the events of Saturday is that the Provenzanos and Matrangas are accusing each other of being members of the Mafia, and from this some important facts may become known. That the Matrangas are prominent in this society of assassins there seems to be no doubt.

INVESTIGATIONS.

The grand jury is investigating the charges of bribery of the jurors in the Hennessey case, and it is understood they have some important clues. Today Judge Marr, of Section A, Criminal District Court, instructed the grand jury to make a rigid investigation of the occurrences of Saturday.

O'MALLY BELIEVED TO BE STILL IN NEW ORLEANS.

Great interest attaches to the whereabouts of Private Detective O'Mally, at whose door is laid the charges of bribery. It is believed he is in hiding in this city. It is not likely that O'Mally will continue to live in New Orleans, as the feeling against him is very strong.

BEFORE THE GRAND JURY.

NEW ORLEANS, March 17.—The grand jury met this morning, with all its members presented special charge on the riot, and the jury is now investigating and the leaders will probably be indicted.

FOLLOWING IS THE CONCLUSION OF THE JUDGES CHARGE:

Pursuant to a call made by many and published in the daily papers of Saturday morning a large number of persons assembled in Canal street and proceeded to the parish prison, an entrance was effected by force, nine of the prisoners implicated in the killing of Hennessey were shot, and two of the three, with respect to whom there had been a mistrial, were hung, and the crowd surrounding the prison quietly dispersed.

TOO GRAVE TO BE IGNORED.

"Matters of such gravity cannot be ignored by courts or grand juries I am compelled by my duty as judge to bring them to your notice, and I feel assured that they will receive at your hand proper attention and the calm and careful investigation which they challenge. As I have heretofore charged you the district attorney is your legal adviser, and you will, of course, consult with him freely touching this and all such other matters as may engage your attention.

"It is not my purpose now to do more than to give this matter in charge to you, and I do so with every confidence that there will be no hasty and ill-considered action on your part, and that the results of your investigation and deliberation will be in accordance with your appreciation and estimate of the facts as they may come to your knowledge during the day an official report of the occurrences of Saturday. When that report is filed it will be accessible to you, and in reference to that, as well as all other matters requiring investigation by you, I shall give you such further instructions from time to time as I may deem necessary."

WITNESSES.

Shortly after the judge had concluded his charge Major Wright Schaubert, the mayor's private secretary, went before the grand jury. He was followed by W. H. Priest, Secretary of the committee of Fifty; George Denegre, and Chief Gaster.

THE MAYOR SPEAKS PLAINLY.

Mayor Shakespeare, whom the Italian consul, as well as the country at large, is disposed to hold responsible for the violation of municipal law, makes no bones about his own feeling in the matter. He declares bluntly that Parkerson and his associates did right.

"Did you take any measures to prevent the tragedy?"

"No."

"Don't you regret it?"

"I am, sir," cried the mayor belligerently. "I am an American citizen and am not afraid of the devil. These men deserved hanging. We expected a disagreement and had made arrangements for a new trial."

"Couldn't you have punished them by lawful means?"

"They were punished by lawful means."

The men who did it were all law abiding. The Italians had taken the law into their own hands, and we had to do the same. It was what they did in Italy."

"Did you anticipate any new uprising?"

"No, sir, but if I or my secretary were touched or anybody belonging to us our people would take it up and no telling where it would stop."

"Did you approve of the work?"

"Certainly, I think that fifteen months from now the Italian populace will be thanking us heartily for what we have done."

His honor concluded by referring to the Italian consul's complaint against him, saying, "the consul is himself in pretty bad company," meaning the Italian priest referred to by Provenzano.

The question of reparation is attracting considerable attention in Washington. It is generally held by international lawyers that the only redress open to the relatives of the murdered men is a suit in the courts of New Orleans. At the same time, the opinion is growing here that the United States will, in order to indicate its friendliness towards Italy as a nation, make some payment as an indemnity. Of course, this will require the action of a Congress adverse to the administration, but it is believed that any amount fixed by the Secretary of State would be agreed to without much opposition.

SIX HUNDRED ITALIANS LOST.

The Utopia Collides With Two British Ironclads.

GIBRALTAR, March 17.—The British steamship Utopia, from Italian ports, bound to New York with 800 Italian emigrants aboard, collided today with the British ironclad Rodney, anchored in Gibraltar bay, and sank soon afterward off Ragged Staff. A southwesterly gale was blowing. Many women and children were drowned. A large number clinging to the rigging have been rescued by boats from the channel squadron.

GIBRALTAR, March 18.—The official report of the number of persons on board the Utopia shows that when she left Naples the steamship had 880 souls on board including the passengers and crew.

The total number of lives lost is now placed at 578. Divers are at work recovering bodies from the wreck.

North Carolina's Increase.

The revised census figures, as telegraphed in a Washington special to the Richmond Dispatch, gives North Carolina population of 1,617,917 in 1890 as against 1,071,361 in 1870 and 1,399,750 in 1880. The whites number 1,040,191 and the colored people (including 1,571 Indians and 15 Chinese,) 568,725.

How the races have increased in the past ten years is shown by the following figures:

Whites (1890)	1,040,191
Whites (1880)	867,242
Increase	181,949
Colored (1890)	568,725
Colored (1880)	532,508
Increase	36,218
Total increase	218,091
White increase	21 per cent.
Colored increase	7 per cent.

More Moonshiners Captured.

The revenue officers, who are just now very active, in accordance with orders from Washington, have made another capture of moonshiners, this time in Rockingham county. They got three men and one still. When the collectors of six or seven States in which moonshining is carried on were summoned before the commissioner of internal revenue late last autumn, they were told that they must use all possible means to break up moonshining. They were also directed to keep a closer watch upon the licensed distilleries, many of which have systematically defrauded the Government in various ways. But the collectors were told that they must make an active campaign against the moonshiners, who for some years had a sort of rest.—Cor. Wil. Messenger.

DUFFY'S

CROUP SYRUP.

Recipe of the late Dr. Walter Duffy.

DIRECTIONS:

Dose for a child two or three years old, one

teaspoonful; for a child three months old,

ten drops; for a child six months old, twenty

drops; for one twelve months old, nearly

half a teaspoonful—repeating these doses

frequently if necessary until relief is pro-

duced.

This is to certify that I have used Duffy's

Croup Syrup in my family for over six

months and I believe it to be the most excel-

lent remedy for croup with children, espe-

cially as a preventive. Our youngest child

ago, inasmuch as he was successfully treated

by our physician, but thinking it probable that

other attacks might follow we frequently

used Duffy's Croup Syrup and the child has

had no marked symptoms of croup since

I believe it is due to the use of the

Croup Syrup, and we now keep a bottle of it

at our house at all times, and I cheerfully

recommend it to all.

Also very effective in relieving coughs

and colds. PREPARED AND SOLD BY
