FARMERS' are more hopeful. The weather has become more seasonable, and wheat has advanced on account of the failure of foreign crops.

GOVERNOR HOLT is not the man of affairs with executive cal common sense.

THE British troops in India have their hands full. Sharp fighting with the rebellious natives continues at many points and a general uprising seems probable.

THE Washington Post says: "One by one the hopes of the farmers fail. Jerry Simpson has yielded to the seduction dress suit, and Gov. Tillman, of South Carolina, wears kid gloves."

An alliance of Massachusetts and the Pacific coast may be anticipated. The Pacific coast has 175.000 more men than women: Massachusetts has 70.000 more place of J. J. Tolson, resigned. women than men. It is said that the Bay State is contracting with sister New England States for reenforcements before entering into the engagement.

SPECULATIONS are on foot as to the policy of Gov. Holt. Some there are who assert that he will at once commence "laying wires" for his nomination to the office of Governor by the next Convention. We think this is premature, but, C. Bragaw. we nevertheless call his attention section of the State worthy of his distinguished consideration.

THE JOURNAL endorses the following from the Wilmington Measenger: "The selection of Capt. Octaving Coke, of Raleigh, for Secretary of State, vacated by the cent death of the widely lamented S. PARTICULARS OF GOV. FOWLE'S DEMINE.

We gather from the Raleigh News & Observer the following account of the circumstances attending Gov. Fowle's death.

Gov. Fowle was in unusually good health up to Tuesday, when he complained of indigestion and did not come down to the executive office as usual. He remained in his apartment all daymost of the day in bed, but in the evening he felt so much improved that he arose and was up until 10:30 o'clock, when he retired for the night expecting to go down to his office the next morn-

Before the Governor retired, his family were around him in his chamber and he was engaged for some time in hearing the lessons of his two younger children Mary and Dan. At that time he manifested every indication of feelone yard, but this year he will run two ing well and natural and seemed to -thus doubling his former capacity. take an interest in the pastime of hear-

> There was then no reason to suspect that the Governor was at all unwell, he having manifested such signs of returning activity and wonted brightness and interest in all around him.

RANG THE ELECTRIC BELL.

Within about three quarters of an hour, about 11-15 o'clock, the Governor rang the electric button in his chamber, which communicated with that; in which were the young people.

His daughter Mary answered the bell and when she came he remarked that he had rung two or three times and said he was feeling badly and would have to ask her to sit up with him for a while.

His daughter Miss Helen came in in few minutes and soon after her entrance the Governor said "I feel faint." She turned and got a towel which she saturated with cold water and returned to his bed-side, but as she did so it was at once noticeable that a sudden change nant type if attacked, we would recomhead fell back and he expired in a few minutes.

There were in the house at the time Miss Helen, Miss Satterthwaite her cousin who is visiting her and Miss Mary

VISITORS AT THE MANSION. As the news spread many friends repaired to the mansion, a number who had retired for the night arose and repaired to the mansion. Among those who hastened there at ence were the State officers, Treasurer Bain, Secretary Coke, Auditor Sanderlin, Attorney General Davidson, Judges of the Supreme Court and others. The Council of the State held a conference after midnight.

Lieut. Gov. Holt was at his home in Haw river. He was telegraphed for and arrived Wednesday afternoon on the 1:30 east bound train and was sworn into office as Governor at 2:90

Delinquent Taxes.

The publication of the county delinquent tax list took many citizens by surprise and the rapidity with which numbers of them sought the sheriffs office to settle increased the funds of the county over \$3,000 in a very few days. So much for printers ink.

Among the delinquents were some of our best citizens, who always pay every bill whenever it is presented, and who had simply overlooked attending to this matter. Though these have paid, there are many still behind and they ought to respond promptly for the county needs the money, is bound to have it. the time for indulgence has expired, and besides the legal obligation it is the duty of every citizen to cheerfully bear his just proportion of the expense of supporting the government that protects meeting of the Association which him and his property, and no one should convenes on Saturday, the 25th of April, be willing to let the burden fall entirely on those who discharge their obligations readily even if it were possible to do that. So if you have not yet settled, seek the sheriff's office at once and do

> Mr. Lane is an excellent and popular sheriff and his genial disposition inolines him to leniency but he is a public officer bound to execute the laws, and his position sometimes requires the discharge of unpleasant duties and it surely cannot be a hardship to see that the county secures the money which in reality belongs to it when tax paying MILLINERY DISPLAY time comes and which is essential for the payment of its running expenses.

"La Grippe "in New York.

The worst treatment for a heavy cold is "letting it alone," and the next worst is dosing with drugs and crude mixtures. The great want then is, a particular specific to allay the fever; arrest congestions and inflammation and prevent extension of the disease to the lungs. Now, since reports from various ports of the country are to the effect that the above disease is on the increase and to prevent its assuming a malignant type if attacked, we would recommend the superior Court of Craven country, North Carolina, the purpose of which is to foreclose certain tax deeds or tax certificates held by the country of Craven and State of North Carolina, and to have the amount due said State and country of taxes, costs, inlungs. Now, since reports from various for the worse had quickly set in. His mend two of the most highly endorsed remedies in the country, Humphreys, Specifics Nos. One and Seven. Hundreds of people taken with cough and influenza and symptoms of what is now termed "La Grippe", have been speedily and permanently cured by them No. One allays the fever, pain and inflamation, while No. Seven gets in its good work upon the cough, hoarseness and sore throat. Hundreds of publishers, having found these Specifics of priceless value in their family, never heeitate to recommend them to their many readers.
