**FOURTEEN women** were graduated from the University of New York Law School Friday night.

**ITALIAN newspapers** commenting on Blaine's reply to Rudini say it is difficult to form an idea as to how the matter will end.

All indications point to Southern Alliance men ignoring the call of President McGrath, of Kansas Alliance, for a third party convention.

A **TREATY** has been concluded between Spain and the United States in which the principle of reciprocity is recognized in trade relations between this country and Cuba.

It is stated that the British Government has called Venezuela to account for the murder of a British subject named William Campbell by the Venezuelan police.

**MR. MILLS**, of Texas, announces that he will not go back to the House, but that if the people of his State desire to keep him in public life they must send him to the U. S. Senate.

A **BERLIN** dispatch says that the Kaiser's latest idea is to have a German edition of the Chicago Fair to be held in Berlin immediately after the close of the Chicago exposition.

**THE New York Herald** says: "The backwardness of Spring is no indication that the coming Summer will be deficient in high mean temperature. Hot weather may not burst suddenly upon us. But the chances are in favor of a warmer Summer throughout the United States than we have had since 1883."

**THE New York Legislature** has tackled a difficult question of taxation. It is now the New York rule that property, real or personal, situated outside of the State is not taxable by the State, but the question now is whether New York can if she wishes compel an inhabitant owning property situated in France or California to pay taxes to New York on that property, because New York protects the person of the owner and he is a New Yorker.

**NORTH CAROLINA** has 4,000 acres in bearing and 12,000 in young vines. This shows the increased interest in vineyards by our people. Last year we made 388,000 gallons of wine and our shippers sold 4,667 tons of grapes for table use. These figures are encouraging, and they show what can be done in North Carolina. We believe that in a very few years this State will be among the first of fruit growing States in the Union.

## LOCAL NEWS.

**COTTON**—New Berne Market—Sales 2 bales at 8 5/8.

The entertainment last night was very good.

The Steamer Neuse of the E. C. D. took out a good shipment of truck yesterday. The largest single lot of peas was shipped by Mr. Henry Taylor from Capt. S. H. Gray's place. It was 105 boxes.

We have received from Rev. Edward Bull, ex-State Senator, a copy of the "Captions of the Acts and Resolutions of the General Assembly of North Carolina," passed at the session of 1891; with a synopsis of the contents of each.

A splintid concrete pavement is being made in front of the Farmers and Merchants bank. Wouldn't it be nice if every business house on that square should put down a similar one, giving us one well-paved business block.

Among the passengers on the steamer Neuse Sunday were an old gentleman 90 years of age and his wife aged 77 who had been married 57 years and neither of whom had ever been on either a steamboat or train before in their lives.

The damaged portions of the Duffy building which was partially destroyed by fire recently have been removed, and the building under the skillful manipulations of Mr. E. M. Pavis and his force of carpenters, is assuming its former appearance and getting ready for a new career of usefulness.

The railroad will give the low rate of \$1.00 for the round trip between Morehead and New Berne on Memorial day. It is said the exercises will be more interesting this year than ever before. The orator of the day will be Mr. Jonathan Haynes. He has for his subject, "Justification of the Southern Cause, and Valor of North Carolina's troops."

An exchange defines a mose back as "a person who can be found in almost every community, who hates enterprise so much that he won't subscribe for his home paper, but sponges it from his neighbor in order to find out the local news." Yes, and it might have stated further that there are persons who have done very little for public good and will often do all they can to hinder others.

Yesterday the Y. M. C. A. received as a donation from the J. V. Williams Ink Company, of Salem Va., a large box of the fine ink they manufacture, for which thanks are extended. Mr. Williams was a former member of the Association and its present members are pleased to see that he still remembers them though far removed. The agent of the E. C. D. line over which the ink came paid the freight so that it was received by the Association without any outlay.

The costumes at the Washington reception next Friday evening will be in the style of Washington's day—the men with knee breeches, silver buckles, ruffled shirt bosoms, powdered hair etc. The ladies likewise will be attired in ancient manner, most of the dresses of course will be simply imitation of the old style, prepared for this occasion, but several of those that will be worn are the genuine old-time ones that belonged to ancestors of the present owners. One in particular with jewels accompanying it was worn by the great grandmother of the present owners at the reception given General Washington when he was in New Berne 100 years ago of which this occasion is the anniversary.

**Tobacco Culture in the East.**

In view of the fact that tobacco has not been raised to any considerable extent in this vicinity heretofore and that Messrs Hackburn & Willitt have secured the services of a skilled tobacco grower as superintendent of their tobacco crop and will devote a good sized area to its cultivation this year we think the following statement from the Weldon News of what a Pitt county farmer has done in this line will be read with interest.

A. A. Forbes, of Pitt county is one of the most successful tobacco farmers in North Carolina. Upon eighteen acres last year he made a crop of the weed which he sold for \$3,500. Upon seven acres of this he netted \$2,100. He sold 1,800 pounds at an average of forty cents a pound. Two years ago he sold a small quantity at \$2.05 per pound. Mr. Forbes is one of the pioneers of tobacco culture in Pitt county, having planted the first there six years ago. At that time not a single pound had ever been grown there, while last year the crop sold brought to the county \$100,000.

## INTER-STATE EXPOSITION AND THE WORLD'S FAIR.

A Convention of Enterprising North Carolinians to meet in Raleigh on May the 13th.

Some days ago Capt. S. H. Gray received from Mr. J. T. Patrick, Commissioner of Immigration, a blank form of petition to which signatures were desired requesting that a convention be called to assemble in Raleigh on the 13th day of May, 1891, for the purpose of seeing "that the interests of North Carolina are fully served, that a combined effort on the part of those working for the upbuilding of the State be had, that a handsome and complete exhibit is made by the State at Chicago, Ill., in 1893, and that the State may receive all the benefits possible from the efforts being made by the Southern Inter-State Immigration Bureau which is now located in Raleigh.

The preliminary remarks to the petition set forth that to secure these ends "it is deemed wise for the officers of chambers of commerce and boards of trade, mayors of towns and cities, officers and representatives from land companies, real estate agents and all those interested in the upbuilding of communities to assemble in the city of Raleigh" at the date mentioned.

So many of these petitions have been signed by representative men all over the State that Gov. Holt has issued a call for the convention to assemble. The Raleigh Chronicle says it is for the main purpose of getting the State well represented in the Southern Inter State Exposition.

**THE CALL.**  
EXECUTIVE DEPARTMENT,  
STATE OF NORTH CAROLINA,  
RALEIGH.

In accordance with the expressed desire of the Southern Inter-States Immigration Convention held in the city of Asheville, N. C., in December last and in compliance with the will of a large number of leading citizens from each section of the State, I hereby call a Convention of all those interested in the upbuilding of North Carolina to assemble in the city of Raleigh on the 13th day of May, at 5 p. m., in the Commons Hall of the State. The object of the Convention is to secure a united effort on the part of the citizens of North Carolina to co-operate with the Southern Inter-States Immigration Bureau in developing the natural advantages and making known the great opportunities offered to capitalists, manufacturers and to honest, law abiding people, who desire to secure homes in a genial climate among a hospitable, moral and Christian people.

(Signed) THOS. M. HOLT,  
Governor.

This call seems to be a broad invitation for all who are interested in the objects of the meeting to be present and take part in its deliberations.

Mr. Patrick request all those who contemplate attending the convention to notify him so that adequate arrangements may be made to meet the wants of the convention.

It would be well for our citizens to read, reflect and act. New Berne ought to be well represented in this meeting, and securing representation ought not to be left to either chance or undirected effort. If our municipal and business organizations will act promptly and energetically in the matter we may be enabled to make a creditable exhibit of our various products to multitudes at the Inter-State Exposition this year and to a vast assemblage from all parts of the globe at the World's Fair in Chicago in 1893.

**Good Streets at Moderate Cost.**

Our sister city, Washington, is about to shell her streets. A very good move. The shells will make them firm and pleasant to travel over, as the past experience of New Berne will prove. But by are fortunate enough to possess a lavish supply of a material that will make even better roads and walks than the shells. The shell rock marl, the valuable properties of which were not discovered until recent years is grow more and more in favor. It does not work so well where it is sheltered from the rains but where it is exposed it becomes hard and durable. So far it has been used to a very limited extent on portions of our streets where it would be subjected to hard use. But the part of the side walk between Messrs. B. K. Eaton and M. H. Sultan's stores, which is daily crossed by loaded carts passing through the ally that fronts the Baptist church, and the portion by Mr. Pavis shop over which he haws loads of lumber that scarcely show a trace of havin passed both of which places it has been used are sufficient to test its resistance to wear.

It does not create quantities of dust as the shells do when being crushed by passing vehicles and its porous qualities cause it to rapidly absorb any water that falls possession of this material will enable New Berne to make excellent streets at less cost than most cities could. Vote for the improvements and have them.

**Personal.**  
Third Lieutenant R. O. Crisp, of the revenue cutter Winona, left yesterday morning for Washington to stand an examination for promotion to second lieutenant.

The steamer Neuse of the E. C. D. line brought in the following passengers: Mr. James Redmond returning from a business trip to Edenton; Mr. A. L. Gregory, of Edenton on a business trip to the city; Miss Laura Hughes returning from a visit to Miss Mamie Daves of Baltimore; Miss Mamie Daves for a visit to Miss Laura Hughes, and Mrs. Ironmonger of Norfolk on a visit to Mr. W. F. Crockett's family.

The steamer Neuse took out the following passengers: Mr. and Mrs. H. E. Duffy taking their little child to the John Hopkins Hospital, Baltimore, for treatment; Judge A. S. Seymour leaving for Elizabeth City to hold court, Mr. W. H. Oliver on an insurance business trip to Elizabeth City. Mr. W. B. Blade on a business trip to Elizabeth City and Mr. M. Hahn on a trip to Norfolk combining business and pleasure.

**Struggling up Life's Rugged Hill.**

With youth, vigor, ambition and an indomitable will to help us, is no such grievous matter, but tottering down again, afflicted by the ailments which beset old age—our backs bent with lumbago, our elastic muscles and joints stiff and painful, is a woeful piece of business. For the infirmities which the decline of life too often brings, Hostetter's Stomach Bitters is a beneficial source of relief, a mitigating placebo always to be depended upon. No regulating tonic evolved by botanic medical discovery is so well calculated, so thoroughly able, but without undue stimulative effect, to help the aged, the delicate and the convalescent—to resuscitate the vitality of a frame which time and physical decline have impaired as this. Kidney and bladder weakness and disorder, costiveness, malarial complaints, dyspepsia and rheumatism are among the bodily afflictions which this sterling recuperant and regulator overcomes.

**The First White Republican Meeting Held in South Carolina—Straightouts Threaten to Join Their Ranks.**

CHARLESTON S. C., April 17.—The first white Republican meeting ever held in the State took place at the State Capitol yesterday, and is said to be largely the outgrowth of the Alliance which swept over this State last year. Many citizens who have heretofore been associated with the straight-out Democratic party were present. This movement is regarded with some concern here.

The white Democrats who are in it say that the old Democratic party has been sbowed out of existence by the farmer's movement, and as they will not subscribe to the platform and principles of that movement they will go into the Republican party. There is some danger of the new movement developing into a stampedem from the Democratic party as it exists in this State at present.

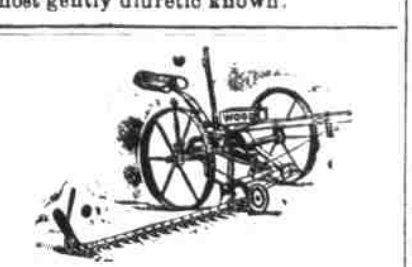

**A CONTRAST**

SARAH K. BOLTON.

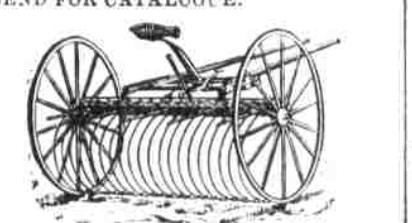

Two men toiled side by side, from sun to sun.  
And both were poor!  
Both sat with children, when the day was done,  
About their door.  
One saw the beautiful in crimson cloud  
And shining moon:  
The other, with his head in sadness bowed,  
Made night of noon.  
One loved each tree and flower and singing bird  
On mount or plain:  
No music in the soul of one was stirred  
By leaf or rain.  
One saw the good in every fellow man,  
And hoped the best;  
The other marvelled at his Master's plan,  
And doubt confessed.  
One, having heaven above and heaven below,  
Was satisfied;  
The other, discontented, lived in woe,  
And hopeless died.

**ADVICE TO MOTHERS.**  
Mrs. WISLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. July

**Progress.**  
It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effect. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gently diuretic known.

**DRUFFY'S CROUP SYRUP.**  
Receipt of the late Dr. Walter Duff, DIRECTIONS:  
Dose for a child two or three years old, one teaspoonful; for a child three months old, ten drops; for a child six months old, twenty drops; for one twelve months old, nearly half a teaspoonful—repeating these doses frequently if necessary until relief is produced.

This is to certify that I have used DRUFFY'S CROUP SYRUP in my family for over six months and I believe it to be a most excellent remedy for croup with children, especially as a preventive. Our youngest child had a severe attack of croup about a year ago, inasmuch that we felt anxious about its recovery, but was successfully treated by our physician, but thinking it probable that other attacks might follow we frequently used Druffy's Croup Syrup and the child has had no marked symptoms of croup since, and I believe it is due to the use of the Croup Syrup, and we now keep a bottle of it at our house at all times, and I cheerfully recommend it to all.
