"HE that hath no bridle to his tongue hath no grace in his heart."

EX-SPEAKER REED still lingers in Italy. Italy, it must be confessed, has much to ruffle her equanimity.

"UNIFORM pitch" is the present desideratum of piano makers, and just what the baseball men are trying to dodge.

"JAY GOULD has left the Indian Territory." This is the only thing he was ever known to leave; but maybe he is coming back that way.

MRS. "STONEWALL" JACKSON has gone to New York to complete arrangements for the publication of her biography of the great general.

WE like to hold up examples of signal success of young men. Jefferson R. Brown kept a Florida light house to obtain money for an education in law, and, though only 33 years of age, is now president of the Florida Senate.

AN exchange says: Farmers' Alliances are becoming so numerous in every section of this broad land of freedom that a man can't drive a load of hay down a lane without exciting an outburst of patriotic enthusiasm.

On the first of next month there will be an inspection of the oyster grounds in the States of Maryland, Virginia and North Carolina. Gov. Jackson, of Maryland, Gov. McKimney, of Virginia, Gov. Holt, of North Carolina, and the Attorney Generals of these States, are expected to constitute the party of inspection.

Now comes the painful report that Mary Anderson's married life is a failure. The Philadelphia News says she is sick, tired and unhappy. "The great actress is alleged to have been very melancholy and unhappy and Mr. Navarro very morose. The formerly beautiful actress is a perfect wreck, thin and pale as a ghost."

THE grip, it is said in the "World," can be traced to filth, and its virulence is attributable to the excessive foulness of the streets. This seems to be an entirely reasonable deduction from circumstances very well known. The dust in Brooklyn and New York is awful, and there is no occasion for surprise if it is pestilential.

Peas are selling in New Berne at \$3.00 per box. North Carolina strawberries are quoted in Northern markets at 25c; and asparagus \$5.00 and \$3.00.

Soon the pea fields around New Berne will be filled with pickers. The season is opening nicely. About 200 boxes went off on the steamer Newberne yesterday.

The meeting of the New Berne District Conference of the Methodist church is just one week off. It will convene in Kingston Thursday, April 30th and embrace Sunday.

The ladies and gentlemen who have kindly consented to sing in the choruses at the "Washington Reception" are requested to meet at the court house this evening at eight o'clock.

We again suggest to our farmers the advisability of remembering the Fair when planting their crops as well as when gathering them. Bear in mind that good premiums are offered for best yields. Select your ground wisely, cultivate carefully and compete for them.

Ridgelyville sees the need of improvements. She has just voted \$50,000 for a street railway alone. New Berne is gradually building up and extending her territory and it is getting so that we really need a street railway and in the near future we believe we will have one.

Three industrious colored men, Allen Dawson, Allen Rouse and Simon Wooten lost their lives by accidental drowning on the night of the 15th inst. near LaGrange. As they and one other man were crossing the river preparatory to hauling a seine for shad the boat for some cause sank with the result mentioned. The other occupant of the boat succeeded in reaching the shore.

We have been furnished with part 1st of the American Dictionary of Printing and Book Making, published by Howard Lockwood & Co. 126 and 128 Duane St., N. Y. It is a very valuable work comprising references to all that is known of the art from the earliest to the present time, technical, historical, and biographical. It is a valuable work and can be obtained only by subscribing to the American Book-Maker, addressed as above.

We give this morning an interesting extract from General Washington's diary while he was visiting New Berne exactly one hundred years ago. The Washington reception Friday night will bring the scenes vividly before the mind, presenting as it will the costumes of that day, and giving diversions of those times. The report however that figures from the German will be given is incorrect. Such is not the case. Vocal and instrumental music will enliven the occasion. Refreshments will also be served. Tickets will be on sale at Gooding's drug store and at the door. All persons contributing oranges, lemons, sugar, milk and cream for the Reception will please send the same to Mrs. C. E. Slover on Thursday morning.

George Washington in New Berne.

The Raleigh Christian Advocate publishes some extracts from "Gen. Washington's Private Diaries" showing his impressions of North Carolina as he passed through it. The copy is followed literally—abbreviations, bad spelling &c. The diary was not intended for publication though it was afterwards given to the public. From the Advocate's extracts we call the following relative to New Berne.

WEDNESDAY 20th:—Left Allan's before breakfast, and under a misapprehension, went to a Col. Allan's, supposing it to be public house; where we were very kindly and well entertained without knowing it was at his expense, until it was too late to rectify the mistake. After breakfasting, and feeding our horses here, we proceeded on, and crossing the river, Neuse, 11 miles further arrived in Newberne to dinner. At this ferry which is 10 miles from Newberne, we were met by a small party of Horse; the district Judge, principal inhabitants of Newberne, who conducted us into town, to exceeding good lodging. It ought to have been mentioned, that another small party of horse under one Simson met us at Greenville, latter there were about 70 ladies.

This town by Water, is about 70 miles from the Sea, but in a direct line the entrance of the river, not over 35, and to the nearest Seaboard not more than 20, or 25. Upon the River Neuse, and 80 miles above Newberne, the Convention of the States that adopted the federal Constitution, made choice of a spot, or rather district, within which to fix their Seat of Government; but it being lower than the back members (of the Assembly) who hitherto have been most numerous inclined to have it, they have found means to obstruct the measure, but since the Cession of their Western territory, it is supposed that the matter will be revived to good effect.

This town is situated at the confluence of the rivers, Neuse and Trent, and though low, is pleasant. Vessels drawing more than 9 feet water, cannot get up loaded. It stands on a good deal of ground, but the buildings are sparse, and altogether of wood; some of which are large and look well. The number of Souls are about 2,000. Its exports consist of Corn, Tobacco, Pork, but principally of Naval Stores and lumber.

THURSDAY 21st:—Dined with the Citizens at a public dinner given by them; and went to a dancing assembly in the evening, both of which was at what they called the Palace, formerly the Government House, and a good brick building, but now, hastening to Ruins. The company at both was numerous as the tar makers are there. This article is contrary to all ideas, one would entertain on the subject, rolled as tobacco by an axle which goes through both heads—one horse draws two barrels in this manner.

FRIDAY 22nd:—Under an Escort of horse, and many of the principal gentlemen of Newberne I recommended my journey, dined at a place called Trenton, which is the head of the boat navigation of the River Trent, which is crossed at this place on a bridge, and lodged at one Shrine's 10 miles farther, both indifferent Houses.

SATURDAY 23rd:—Breakfast at one Everett's 12 miles, bated at a Mr. Foy's 13 miles farther and lodged at one Sage's, 30 miles beyond it.

The southern Exhibit in London.

Mr. A. C. Watts sailed from New York on Friday last for London where he goes to open up a Great British office of the Southern Inter State Immigration Bureau. Mr. Watts is a native of England and well acquainted with its people and will establish branch offices all over that country. Next winter after the Great Southern Exposition is over, the choicest portion of it will be shipped to London where it will be placed on exhibition by Mr. Watts to the greatest English capitalists.—Raleigh Chronicle.

Progress.

It is very important in this age of vast material progress that a remedy be placed to the taste and to the eye, easily taken, acceptable to the stomach, and healthy in its nature and effect. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gently diuretic known.

AT THE STATE UNIVERSITY.

Our Young Men Taking Honors at This Worthy Institution.

April 20th, 1891.

EDITOR JOURNAL:—Eastern Carolina may well be proud of her young men. During the past week they have made a proud record at the University. New Berne is at the front. She has always been noted for her strong men and the indications are that the sons will more than equal the fathers. On Friday night the annual contests for Debators and Declaimers medals came off. Mr. Shepard Bryan carried off the first and Mr. W. P. Wooten of Lenoir the second. Craven and Lenoir should be proud of her sons. Carolina will soon welcome the music of their voices in professional and public life. On Saturday morning the contest for orators to represent the Society at Commencement, was held and New Berne people will be glad to learn that Mr. Roscoe Nunn won first place. His subject was "The Foreign Element in America." His thought and composition were good; his delivery was capital. The Phi. Society after hearing him on Saturday morning expects him to win the Representative medal at Commencement.

The University base ball nine returned to-day from Winston, where they defeated Trinity, score 8 to 3. The entire student body, faculty and a large number of citizens turned out and met the nine at the depot and brought them back in triumph.

We play Wake Forest the first week in May.

THE TEACHERS' ASSEMBLY.

North Carolina Teachers to Enjoy a Most Profitable and Pleasant Summer at Morehead.

Preparations are now nearly completed for the next session of the North Carolina Teachers Assembly which opens in Assembly Building, Morehead City, on June 16.

Maj. Eugene Harrell, the enthusiastic secretary, informs the Chronicle that time and money have been expended to make this the most successful session in the history of the same.

Among the prominent visitors who have given the notice that they will attend are Dr. T. DeWitt Talmage, of Brooklyn, the greatest preacher in America; Dr. W. T. Harris; U. S. Commissioner of Education, the greatest educator, and Dr. Jerome Allen, of the New York School Journal, the greatest educational journalist.

Dr. Talmage will preach to the teachers on June 19th, and the other prominent educators will deliver addresses later.

EDUCATIONAL EXPOSITION.

This Exposition will be one of the greatest features of the session. It will be held on the first floor of the Assembly Building and is to be open through out the entire session. It is to be an exhibit of all classes of educational supplies, the rarest publications, &c.

The Mason & Hamlin Piano Company has already shipped their finest grand piano and best pipe organ to be used during the session for the music.

Secretary Harrell says that the Executive Committee are confident that this will be, not only the best, but the largest attended session in the history of the Assembly. Three thousand teachers expected to be present.—Raleigh Chronicle.

Laboring Men of New Berne!

On the first Monday in May you will be called upon to cast your votes either for or against the most important features in the history of New Berne. You will be called upon to cast your votes for or against the system, all of which goes to the laboring men of New Berne, provided a majority of the registered voters are in favor of city improvements. Now laboring men of New Berne, you will know that the writer never fails to express himself when he sees the laboring man's interest at stake. He is not ashamed to let the whole people know on which side of the fence he stands, therefore he earnestly asks every voter to go to the polls on the first Monday in May and cast his ballot for city improvements. Remember, you cast three ballots; first, for \$5,000 for Street Improvements; second, \$1,000 for City Hall; third, \$25,000 for Sewerage System. Did not Big Ike raise his voice in favor of the people of James City when in distress? Did he not raise his voice in behalf of the laboring men in regard to voting for the Wilmington and Onslow Railroad? Is he the first man to say on which side of the fence he stands in the present contest? Then, laboring men, when in want of anything in his line, see Big Ike, the clothing man, who buys so many merchants out at 40, 50 and 67 1/2 cts. on the dollar, and get a pair of his 99c pants, 99c shoes, a 99c hat, 21c shirt, 21c drawers and 21c suspenders. Every wide awake man in the city of New Berne will say: "I will vote for improvements. Old New Berne has been sleeping enough. It is necessary to improve her streets in order to induce more of capital to come and invest their money here." Voters of New Berne, think of it! there is no city in the State that is not bonded from one hundred thousand to nine hundred thousand dollars for city improvements, railroads, &c. and the result is, they are thriving cities, largely increasing in population and manufacturing establishments, men, women and children employed and getting from five to fifteen dollars per week, because the voters of these cities have voted for city improvements. Now if you wish to prosper—if you wish that the men, women and children may get good wages for city improvements—and you will see large factories being built, men, women and children employed, and a city of 25,000 to 30,000 people in less than ten years.

DUFFY'S CROUP SYRUP.

Recipe of the late Dr. Walter Duffy.

DIRECTIONS:

Dose for a child two or three years old, one teaspoonful; for a child three months old, ten drops; for a child six months old, twenty drops; for one twelve months old, nearly half a teaspoonful—repeating these doses frequently if necessary until relief is procured.

This is to certify that I have used DUFFY'S CROUP SYRUP in my family for over six months and I believe it to be a most excellent remedy for croup with children, especially as a preventive. Our youngest child had a severe attack of croup about a year ago, inasmuch that we felt anxious about its recovery, but was successfully treated by our physician, but thinking it probable that other attacks might follow we frequently used DUFFY'S Croup Syrup and the child has had no marked symptoms of croup since, and I believe it is due to the use of the Croup Syrup, and we now keep a bottle of it at our house at all times, and I cheerfully recommend it to all.

Also very effective in relieving coughs and colds. PREPARED AND SOLD BY **R. N. DUFFY, New Bern, N. C.** Wholesale Agents—McKesson & Robbins, 91 Fulton Street; Wm. H. Schieffelin & Co., 170 William Street, New York City.
