When the Veteran Association was formed two years ago, the movement was renewed, and at the second meeting of that association, held in the Senate Chamber in February, 1890 it was resolved to proceed, and directors practically solid vote. were appointed for the purpose.

The resolution was adopted.

A RADICAL PROPOSITION.

Dr. Williams, of Baltimore, from the Committee on Time and Place, reported in favor of Baltimore as the place for the next convention. He also recommended a chagne from the present plan of free entertaiment where the convention meets, so that every delegate shall pay his way. A breezy discussion followed and Dr. Hawthrone invited the convention to come to Atlanta on the present openhanded, free-grub plan. He opposed starving preachers. 1V DUFFY'S A CROUP SYRUP. Recipe of the late Dr. Walter Duffy,

DIRECTIONS :

Directions : Dose for a child two or three years old, one teaspoonful; for a child three months old, twenty drops; for a child six months old, twenty drops; for one tweive months old, nearly half a teaspoonful-repeating these doses frequently if necessary until relief is pro-cured. ured.

This is to certary that I have used DUFFY's CROUP SYRUP in my family for over six months and I believe it to be a most excel-lent remedy for croup with children, espe-cially as a preventive. Gur youngest child had a severe attack of croup about a year ago, insomuch that we felt anxious about its recovery, but was successfully treated by our physician, but thinking it probable that other attacks might follow we frequently used buffy's Croup Syrup and the child has had no marked symptoms of croup since, and I believe it is due to the use of the Croup Syrup, and we now keep a bottle of it at our house at all times, and I cheerfully recommend it to all.
